

AUGUST

FOR PRESIDENT, JAMES BUCHANAN, OF PENNSYLVANIA. FOR VICE PRESIDENT, J. C. BRECKINRIDGE, OF KENTUCKY.

Democratic and Anti-Know Nothing Electoral Ticket. WILLIAM L. YANCY, of Montgomery, LEROY P. WALKER, of Madison.

PRESIDENTIAL PROSPECTS.—While southern Know Nothings are consoling themselves with the vain and delusive hope that Fillmore will get two or three southern States, and possibly as many more in the north, the election returns are pouring in from Missouri, Iowa, North Carolina, Arkansas, Kentucky and other States with overwhelming democratic majorities.

Alabama Lottery. If a Lottery can, under any circumstances, command the general respect, it is when it is designed to carry out some good and popular purpose, and the funds thus obtained are devoted to such an end.

Mass Meeting.—We were not present at the American Mass Meeting, near White Plains on Saturday last, but learn from those who were, that there were some 1500 or 2000 persons in attendance, a very large proportion of which were Democrats.

Rail Road Iron.—We learn by a letter from Hon. T. A. Walker, President of the road, addressed to Col. J. M. Crook of this place, that a contract has been closed, to bring up 500 tons of iron by the 10th of September next, a portion of which has already arrived.

We invite the special attention of persons who may wish to ship cotton or other produce to Wetumpka, or purchase Groceries there, to the advertisement of Messrs. Clark & Cain, in another column.

The obituary notice of Wm. F. Adams will appear in our next paper.

Florence Synodical College.

A friend has forwarded to us a copy of the annual Circular of this highly and deservedly popular Institution, having at present a Faculty composed of the following individuals:

Rev. James L. Rogers, A. M., President and Professor of Natural Science and Mathematics. Misses J. E. Miller and Julia M. Scovell, Assistants in the Literary Department.

Alabama Lottery.

If a Lottery can, under any circumstances, command the general respect, it is when it is designed to carry out some good and popular purpose, and the funds thus obtained are devoted to such an end.

This Lottery is on the Havana plan—all the Prizes being drawn, thus preventing the possibility of mathematical combinations or swindling.

A TRUE MAN GONE.

Died, at his residence, near this place, on Saturday night, at 10 o'clock, the 18th inst., DANIEL HORE Sr. in the 83d year of his age.

For several weeks, without any acute pain, his physical powers gave way, so suddenly, that the falling off could scarcely be discerned.

Daniel Hore, was born at York, in Pennsylvania, A. D. 1773. His father dying, when he was a boy, his mother, three elder brothers, a sister and himself, disposed of their farm, and removed to Lincoln county, N. C., when, in 1796 he married BARBARA RAMSDELL.

But it was not alone in the social, religious and private circles in which he displayed his virtues.

Having been identified with the Jeffersonian party of '28, he never changed his opinions, and whether dubbed with the epithets of a Cui Bona, Embargo, War Republican, Democrat or Loco-foco, his principles, like those of his party, remained the same, though changed in name.

In one respect he was unlike most of his contemporaries, he was a man of uncommon physical constitution, and knew no fear except "the fear of the Lord."

Since settling in Alabama he has lived a quiet, retired life; but believing conscientiously that his early political doctrine were the salvation of our social, political and religious liberties, he delighted to exercise the privilege of voting for those whom he believed would carry out his views.

Correspondence of the New York Herald.

From Washington.

Washington, August 7th, 1856. Major Emory's Mexican boundary report was presented to the Senate to-day. It is voluminous, but of no general interest.

Several private bills were disposed of by the Senate, when the Army Appropriation bill, as it came from the House of Representatives, was taken up, and the proposition to strike off all the Kansas provisos was discussed at length, and in a tone more serious than I have ever before heard in that body.

The English Government is undecided when it will appoint Consuls at New York, Philadelphia and Cincinnati. It is believed that a minister at Washington will be appointed soon and the difficulties adjusted.

Spain.—A formidable revolt had occurred at Arragan, but it was generally suppressed.

Several Italian provinces are revolting. Russia and Turkey.—A serious disagreement has taken place in running the line between Russia and Turkey.

Election Returns.

New York, August 10.—Iowa.—In twenty-five counties the Black Republican majority is 9,890.

Kentucky.—In 63 counties the Democratic gain is 9,890.

Missouri.—Thus far, Ewing, American, is ahead.

Washington, August 9.—In Missouri, 13 counties give Ewing for Governor, 10,238; Polk 17,621 and Benton 11,071.

Consular Changes. Washington, August 11.—Amos B. Cowie, of Ohio, was nominated to-day as Consul to Panama.

Bursting of a Boiler. New York, Aug. 10.—The boiler of Wilders Sofa Manufactory in Brooklyn exploded yesterday, killing five and wounding fifteen.

ARRIVAL OF STEAMSHIP A R A G O.

France approves the course of the Queen of Spain, but the London Times thinks that England will not.

The Queen has rejected the proffered services of Narvez, who has returned to Paris in disgust.

Bulwer has been commissioned for the Governorship of the Principality.

ARRIVAL OF THE STEAMSHIP CANADA.

Madras, Aug. 11.—The Royal Mail steamship Canada, Captain Long, has arrived here this evening, with three days later news from Liverpool, (up to Aug. 2d.)

The political news is generally unimportant, except such as has been anticipated by previous arrivals.

The Spanish insurrection remains in statu quo. Sangas is submitted quietly since its bombardment.

The Spanish Minister at Paris has resigned.

Russia has positively refused to surrender Kars, until the last of the allied soldiers have withdrawn from Turkey.

Congressional.

Washington, Aug. 11.—In the Senate to-day Mr. Dingle submitted an elaborate report from the Territorial committee against the House bill to reorganize the government of Kansas, and restore the Missouri prohibition. In the House, Mr. Campbell, from the committee of ways and means, reported a tariff bill, adding to the first part, raw wool below fifty cents per pound in value, and above fifty cents all classes of drug stuffs used in manufactures, and all raw materials entering into manufactures.

The bill was postponed for further consideration until the 21st Monday in December next. The President has vetoed the bill granting appropriations for the improvement of the Des Moines River, and the Mississippi river. The bill was passed notwithstanding the veto of the President. The Post Office and Light House appropriations have passed. All the important business of the session is in an unusual state of forwardness.

Congressional.

Washington, August 14.—The Senate failed to pass the appropriation bill for the Des Moines Rapids of the Mississippi, over the veto of the President.

The Senate also refused to concur with the House in disbanding military subordination over the civil works, the Pacific Rail road bill is probably abandoned for this session.

POLITICAL.

The Southern Americans here generally give up Fillmore for Buchanan.

The Northern Fillmoreites in Congress held a caucus to-day, and will hold another to-morrow, preparatory to withdrawing Fillmore in favor of Fremont.

Missouri Election

St. Louis, Aug. 9.—It is quite certain here that Polk and the entire Democratic State ticket is elected. Benton did not receive 25,000 votes. Caruthers, Anderson, Woodson, Craig, Blair, Green Phelps are elected to Congress.

Woodson and Anderson are known to the public as a member of the Philadelphia and Caruthers are democratic. Craig we do not know how to classify.—Constitutionalist.

Yellow Fever in Charleston.

The Board of Health report one death at the Marine Hospital and one in the city from yellow fever, for 24 hours ending Monday night 10 o'clock.

New York, Aug. 11.—A disastrous fire has occurred at Pomeroy, Ohio, and sixty buildings have been destroyed.

ALBION.

LATER FROM EUROPE.

ANGLO-SAXON.

New York, Aug. 10.—The steamer Anglo Saxon has arrived at Quebec, bringing dates from Liverpool four days later.

The news is generally unimportant. Parliament has been prorogued. The Queen's speech represents American and European affairs satisfactory.

Liverpool Market.

Liverpool, July 30.—Cotton.—The market exhibits no new feature. The quotations are steady and the demand fair.

Political.

The English Government is undecided when it will appoint Consuls at New York, Philadelphia and Cincinnati. It is believed that a minister at Washington will be appointed soon and the difficulties adjusted.

Spain.—A formidable revolt had occurred at Arragan, but it was generally suppressed.

Several Italian provinces are revolting. Russia and Turkey.—A serious disagreement has taken place in running the line between Russia and Turkey.

Election Returns.

New York, August 10.—Iowa.—In twenty-five counties the Black Republican majority is 9,890.

Kentucky.—In 63 counties the Democratic gain is 9,890.

Missouri.—Thus far, Ewing, American, is ahead.

Washington, August 9.—In Missouri, 13 counties give Ewing for Governor, 10,238; Polk 17,621 and Benton 11,071.

Consular Changes. Washington, August 11.—Amos B. Cowie, of Ohio, was nominated to-day as Consul to Panama.

Bursting of a Boiler. New York, Aug. 10.—The boiler of Wilders Sofa Manufactory in Brooklyn exploded yesterday, killing five and wounding fifteen.

ARRIVAL OF STEAMSHIP A R A G O.

France approves the course of the Queen of Spain, but the London Times thinks that England will not.

The Queen has rejected the proffered services of Narvez, who has returned to Paris in disgust.

Bulwer has been commissioned for the Governorship of the Principality.

ARRIVAL OF THE STEAMSHIP CANADA.

Madras, Aug. 11.—The Royal Mail steamship Canada, Captain Long, has arrived here this evening, with three days later news from Liverpool, (up to Aug. 2d.)

The political news is generally unimportant, except such as has been anticipated by previous arrivals.

The Spanish insurrection remains in statu quo. Sangas is submitted quietly since its bombardment.

The Spanish Minister at Paris has resigned.

Russia has positively refused to surrender Kars, until the last of the allied soldiers have withdrawn from Turkey.

Congressional.

Washington, Aug. 11.—In the Senate to-day Mr. Dingle submitted an elaborate report from the Territorial committee against the House bill to reorganize the government of Kansas, and restore the Missouri prohibition. In the House, Mr. Campbell, from the committee of ways and means, reported a tariff bill, adding to the first part, raw wool below fifty cents per pound in value, and above fifty cents all classes of drug stuffs used in manufactures, and all raw materials entering into manufactures.

The bill was postponed for further consideration until the 21st Monday in December next. The President has vetoed the bill granting appropriations for the improvement of the Des Moines River, and the Mississippi river. The bill was passed notwithstanding the veto of the President. The Post Office and Light House appropriations have passed. All the important business of the session is in an unusual state of forwardness.

Congressional.

Washington, August 14.—The Senate failed to pass the appropriation bill for the Des Moines Rapids of the Mississippi, over the veto of the President.

The Senate also refused to concur with the House in disbanding military subordination over the civil works, the Pacific Rail road bill is probably abandoned for this session.

POLITICAL.

The Southern Americans here generally give up Fillmore for Buchanan.

The Northern Fillmoreites in Congress held a caucus to-day, and will hold another to-morrow, preparatory to withdrawing Fillmore in favor of Fremont.

Missouri Election

St. Louis, Aug. 9.—It is quite certain here that Polk and the entire Democratic State ticket is elected. Benton did not receive 25,000 votes. Caruthers, Anderson, Woodson, Craig, Blair, Green Phelps are elected to Congress.

Woodson and Anderson are known to the public as a member of the Philadelphia and Caruthers are democratic. Craig we do not know how to classify.—Constitutionalist.

Yellow Fever in Charleston.

The Board of Health report one death at the Marine Hospital and one in the city from yellow fever, for 24 hours ending Monday night 10 o'clock.

New York, Aug. 11.—A disastrous fire has occurred at Pomeroy, Ohio, and sixty buildings have been destroyed.

Kansas Matters.

New York, Aug. 2.—It is currently reported that Geary, the newly appointed Governor of Kansas Territory, has refused to accept that office unless the present Judges and other officers are removed, which rumor says will be done so soon as Congress adjourns. It is understood that Leconte is already removed.

Telegraphic accounts received here state that a large force of Missourians and Carolinians have invaded Kansas, and blockaded the roads. A large opposing force is organizing to disperse them. [This is all gammon we presume.]

Missouri Election.

New York, Aug. 2.—Fifty seven counties have been heard from, which gives, in round numbers, this result for Governor: Polk, Democrat, 34,000; Ewing, Know Nothing, 27,000; and Benton 22,000 votes. Seven Whites are elected to the Missouri House of Representatives.

Washington City News.

Washington, Aug. 12.—The Senate to-day, passed the Naval Appropriation bill without amendments. The House has partially considered the Pacific railroad bill, and will doubtless pass through to-morrow. The House passed forty-six private bills to day.

Yellow Fever in Charleston.

The Board of Health report no death from yellow fever for 24 hours ending Tuesday night 10 o'clock; they also report two admissions into the Marine Hospital from the shipping, but no new cases in the city.

Additional by the Canada.

Chicago, Aug. 9.—From three to four hundred Kansas emigrants left Nebraska city on the 4th for Topeka, and two hundred Missourians had left Westport with the intention of intercepting the emigrants. One hundred men from Topeka had gone up the lower road to assist the emigrants.

Raleigh, N. C., August 11.—The returns of the election in this State, as far as ascertained indicate a Democratic majority of about 8,000. The same party has a gain of ten members of the Legislature.

Additional by the Canada.

Advices from Italy state that the Austrians were making preparations to cross the Po at four points.

An earthquake had occurred at the Molucca or Spice Islands, in the Asiatic Archipelago, and destroyed two thousand people.

Little Rock, Ark. Aug. 9.—Returns show that Elias N. Conway, the Democratic candidate for Governor, has been successful by about three thousand five hundred majority. The legislature will be largely Democratic. Messrs. Warner and Greenwood, Democrats, are elected to Congress.

Louisville, Aug. 10.—Returns from 63 counties show a Democratic gain of nearly 10,000 votes.

WASHINGTON, Aug. 8, 1856.

SENATE.—The Senate passed House bill granting lands to Mississippi rail roads. The Senate passed several private bills, and adopted the report of the committee on Indian affairs that no further legislation is necessary to enable R. B. Thompson to receive forty-two thousand dollars for services rendered to the same Indians. Mr. Welby moved a consideration of the Pacific railroad bill, but no quorum voting, the Senate adjourned.

HOUSE.—The House adopted a resolution allowing Gov. Reeder per diem and mileage to the time of claiming his seat, decided by 25 majority. The House considered the bill making appropriations for the expenses of light houses, &c., but without action, adjourned.

An Important Movement.

We publish a dispatch this morning dated Washington, Aug. 14, conveying the intelligence that the Southern Americans in Washington are generally giving up Fillmore for Buchanan, and that the Northern K. N's. are canvassing preparatory to a general stampede to Fremont.

The recent election in Kentucky, Missouri and North Carolina has destroyed the last hopes of Fillmore's supporters, and it is now manifest to everybody that he cannot get a first electoral vote. Under such circumstances Southern Fillmore men must necessarily fall in to the ranks of the only national party and support Buchanan and Breckinridge. Let the track be cleared and Buchanan and Fremont try their strength.

Atlanta Intelligence.

Losses by the Creek Indians.

Among the bills before the Senate on Friday, was a Senate bill to compensate citizens of Georgia and Alabama for losses sustained by the destruction of their property by the Creek Indians. A long discussion was had upon it, but with what result, we do not yet know.

A TRAGICAL AFFAIR.—On Friday week last, in Lexington, Mo., Frederick Myers deliberately shot a man by the name of Vanlandingham, in one of the most public streets of town. There were no witnesses to the occurrence, but Myers immediately went to an officer and gave himself up, confessing the offence. Myers charged the deceased with criminal intercourse with his wife, and had letters from Vanlandingham to prove it. After an investigation the prisoner was discharged as the decision. Vanlandingham was the keeper of a restaurant in Lexington.

St. Louis Rep.

SIZE OF THE WEST.—Illinois would make forty states as Rhode Island, and Minnesota sixty. Missouri is larger than all New England. Ohio exceeds either Ireland, Scotland or Portugal, and equals Belgium and Switzerland together. Missouri is more than half as large as Italy, and larger than Denmark, Holland, Belgium and Switzerland. Missouri and Illinois are larger than England, Scotland, Ireland and Wales.

The Steamboat Springs.

These curious springs are situated about ten miles north of Wash-ho Valley, Utah, upon a tributary of the Truckee, are ten in number, and appear to derive their name from the fact that they are like so many boilers generating steam. Col. Norton, of Placerville, Cal., recently returned from a visit to these wonderful creations of nature, and communicates a description of them to the Placerville American. He says:

"For a distance of three-fourths of a mile do these remarkable springs pour their waters, rushing, boiling and foaming, through innumerable fissures in the rocky formation in which they are found. The entire of one bank of the stream on which they are situated, a distance of from 30 to 80 rods in width and three-fourths of a mile in length, and rising backward from the river in places from sixty to eighty feet, the whole seems to be one vast deposit from the water that for ages has been ejected therefrom. It is not that boiling hot water is ejected from about this whole extent, but that the water is filled with innumerable cracks or fissures, from four to eighteen inches in width, communicating with subterranean cavities or chambers, through which the boiling water is forced with great velocity, and producing a noise closely resembling that produced by the wheels of a powerful steamer upon the water.

A singular feature is, that in large cracks but a few feet from each other, the boiling water is seen flowing in opposite directions, and in some places one direction to another at intervals of a few moments. In many places the waters overflow at various depths from the surface, generally in view, but sometimes so deep within as not to be distinguished, whilst the ceaseless roaring, splashing and hissing is heard in every direction. And jets of steam that will scald the hand instantly on application, are here and there forced through the openings and fissures, high above the surface of the formation, and with great violence, if possible, than others; it is where the rocky deposit is unbroken; yet loudly distill beneath is heard the roaring of a strong blast here, but the rock or deposit on which the spectator stands is actually burning hot; the bare hand can scarcely be held upon it for a moment. Morning and evening, when the air is cold and still, the whole is shrouded with steam and vapor.

In many places there are small deposits of sulphur that will ignite by the application of a match; in others the strongest alum was found; and yet others, an alkaline substance so concentrated as to destroy in a short time a linen handkerchief in which a specimen had been wrapped.

The country in the immediate vicinity, bears unmistakable evidence of the effects of powerful volcanic action. Masses of vitrified rocks, scoria, the ordinary coarse conglomerate, cinders of extinct volcanoes, and not a few basins were obtained of the lightest, purest pumice stone ever seen.

The Devil's Chair.

A letter from Manchester, N. H., in the Boston Post, says that at the Amoskeag Falls, the Devil's Chair is visible, in consequence of the low water in the Merrimack, which has not been the case for many years.

The chair is a specimen of river bottom architecture, wrought into the soft rock which forms the bed of this river. No mathematical measurement could calculate this furniture more accurately, and could any diabolist sit more smoothly than the water has.

The tradition connected with the chair is that the devil used to frequent these parts, and made that particular place his seat, from whence he used to amuse himself tormenting the Indians with such diabolical tricks as stopping the salmon, shad and herring as they came down the river, driving them back down the river, drinking up all the water of the river, or casting it all into pray at the falls, and casting it into the air, and thus occasioning the long rainy days.

They were tired of him at length on this wise: Passaconaway was a giant among the Penobscots. He was more to them than Hawatha to the Daenathas. He was a sort of Jupiter Motor among his tribe, and was prevailed upon by the prayers of all good Indians, and driven by repeated threats to remove his evil spirit from his throne. He did it at the eminent satisfaction of all time, and is entitled to the thanks of the Amoskeag Water Power Company; for if he were now drying up the water, it would cause infinite mischief to all this machinery now running here.

A REVENGEFUL ALLIGATOR.—On Wednesday of this week, Josiah Ferris and Rufus Fales, young gentlemen of this place, started to Long Island, situated about two miles distant, for the purpose of fishing. They were engaged in this sport when a large alligator arose alongside of the boat, and as quick as thought, dashed about the wheel, turned on his side, and dashed the head of the boat between his jaws. The boat men considered themselves in a tight place. Finding that little could be done in this way, the monster gave several vigorous shakes, tearing the bottom out of the boat and sinking it in four feet water. As the boat was disappearing, Fales, who was sitting at the stern, struck the antagonist over the head, and after scoring a fearful hold on the bottom, repeated his blows with such rapidity as to confuse the monster; finally, after maneuvering for some time with much extended, the Alligator made a bold charge upon the young men; he advanced, Fales succeeded in fanning the pole down his throat, and holding him thus until Ferris, with a small pocket knife, was enabled to wound him so severely as to decide the contest.

After the victory was won, a cursory view of their position, forced upon them, applied them of the extreme danger to which they were exposed. In close proximity were five of these hideous animals, waiting as it were, as though determined to make them their prey. The captured one measured 15 feet.

This incident is remarkable for its rarity and the desperation with which it was characterized. The Alligator is supposed to have been brought out by the recent freshet, from his home in some fresh water lake or pond, where he had never seen a man or boat, and considered it his duty to "pitch in" to everything he met.

Beautiful Epitaphs.—In a graveyard in England may be found the following on a tombstone over four infants: "Blessed Infidelity, turn pale and die; Beneath this stone four sleeping infants lie; Say, are they lost or saved? If death's by sin, they sinned, for they are here; If heaven's by work, in heaven they can't appear. Ah, reason, how depraved! Reverse the sacred page, the knot's untied— They die! for a Adam sinner; they live, for Jesus died!"

ABUNDANCE OF COPPER.—The vein of copper, on which the Minnesota Mine is situated is being worked in different portions along its whole extent. Its total length is over 16,000 feet. For a distance of 80 fathoms down, it works richly and without any sign of giving out as works go deeper. If along its whole length, the vein will work to the depth of 50 fathoms, then there are 220,000 fathoms, yielding 1,000 lbs. per fathom; calculating one-third of this ground dead, the balance will yield 73,000 tons of copper, worth at the present rate the enormous sum of \$29,350,000. Several European mines are worked at 2,000 feet and more vertical distance, below the surface. Such a vertical distance would make on the present inclination of the vein about 400 fathoms depth, and would give in its whole length 1,281,500 fathoms of ground, which at the rate a'ore named would yield 640,750 tons of copper, worth at the present rates \$256,300,000; and this is but one vein, while in the Minnesota there are two others, proved to be very rich, and no account has been taken of the rich counter lodes, branches and feeders, which everywhere form so important a part of the miner's wealth.—[Detroit Tribune.]

A PETRIFFIED HUMAN BODY.

Charles Spencer, a painter by trade, who died in Nacogdoches about two years since, was disinterred on the 24th ult. in order that Mrs. Jones, lately deceased, might as she desired, be buried near her deceased children. The gentleman who lifted the coffin of Mr. Spencer from the grave felt that it was unusually heavy, this fact being communicated to the editor of the Herald, caused him to open it. On doing so, he at once discovered the body to be in a state of petrification, and something larger than when living. No hair had decomposed, as far as could be seen, but the entire body was petrified, with a kind of dark scum or mildew upon it. There was an offensive smell about it, which was unusually heavy, this fact being communicated to the editor of the Herald, caused him to open it. On doing so, he at once discovered the body to be in a state of petrification, and something larger than when living. No hair had decomposed, as far as could be seen, but the entire body was petrified, with a kind of dark scum or mildew upon it. There was an offensive smell about it, which was unusually heavy, this fact being communicated to the editor of the Herald, caused him to open it. ### GREAT SOUTHERN REMEDY.

#### JACOBS' CORDIAL.

FOR ALL BOWEL DISEASES.

CHOLERA MORBUS, BILIOUS CHOLIC, CHOLERA, DYSENTERY, DIARRHOEA.

ALSO ADMIRABLY ADAPTED TO MANY DISEASES OF FEMALES.

#### MOST ESPECIALLY PAINFUL MENSTRUATION.

The Virtues of Jacobs' Cordial are too well known to require Ecouiums.

1. It cures the worst cases of Diarrhoea.
2. It cures the worst forms of Dysentery.
3. It cures Cholera or Mexico's Diarrhoea.
4. It relieves the severest Colic.
5. It cures Cholera Morbus.
6. It cures Cholera Infantum.
7. It cures Painful Menstruation.
8. It relieves Pain in the Back & Loins.
9. It counteracts Nervousness & Despondency.
10. It restores Irregularities.
11. It dispels gloomy and Hysterical Feelings.
12. It's an admirable Tonic.

A few short Extracts from Letters, Testimonials, &c.

"I have used Jacobs' Cordial in my family, and have found it a most efficient, and in my judgment, a valuable remedy."

"It gives me pleasure in being able to recommend Jacobs' Cordial—my own personal experience, and the experience of my neighbors and friends around me, is a sufficient guarantee for me to believe it to be all that it purports to be viz a SOVEREIGN REMEDY."

"I take great pleas ure in recommending this invaluable medicine to all afflicted with bowel diseases, for which I believe it to be a sovereign remedy decidedly superior to anything else ever tried by me."

"I have used Jacobs' Cordial in my family, and this, with all I hear about it as a remedy by those who have tried it, induces me to believe that it stands at the head of every preparation of the kind, and I would recommend its use in the diseases for which it is compounded."

Cashier of the Bank of the State of Georgia, Griffin.

"If there is any credence in human testimony, Jacobs' Cordial must stand pre-eminent above all other preparations for the cure of Bowel Diseases. From the mass of testimony in its favor coming in from all quarters, it must be very far in advance, as a curative agent, of most if not all other 'patent' preparations."

A. FLEMING, Cashier Marine and Fire Ins. B'k, Griffin.

"This efficient remedy is travelling into celebrity as fast as Bonaparte pushed the column into Russia, and gaining commendations wherever used."

Georgia Jeffersonian, May 19, 1853.

### COLLEGIATE

#### Chloroche Institute.

The second term of the above Institution will commence on the 1st Monday in September, 1854. A special new hall, capable of seating 200 pupils will be ready; and also ample rooms for classes, and for the musical and primary departments.

The undersigned, Principal, induced by the agreement of a number of citizens of this city, (Rome) to enter and keep in the Institute 20 pupils for the term of two years, each promising to enter and pay for the number of pupils annexed to his name, has undertaken to found here upon his own premises and at his own expense, an Institution worthy of the noble cause of Female Education. This must afford the most ample assurance of his determination to make the Institute eminently worthy of the public confidence and patronage. To this may be added an expectation of 20 years, eminently successful, by which he has achieved a reputation in this arduous and responsible field of labor is not to be overthrown by the breath of the flander.

Every branch appropriate to the most accomplished female education will be here taught, in the most thorough manner, by experienced and able instructors, upon terms more moderate than in the so-called female Colleges of the day.

S. FOCHE, Principal, and Instructor in the Greek & Latin Classics, Mathematics, Logic, Moral and Intellectual Philosophy, History and Rhetoric.

Mrs. C. E. CALDWELL, Instructress in E. Grammar, Arithmetic, Freshman and Sophomore Classes, Geography, N. Philosophy, &c.

Mr. F. DeLANOR, Instructor in the French Language, Drawing, and Botany &c.

Mr. B. F. BARCLAY, Instructor in Music—Vocal and Instrumental—on the Organ, Piano, Harp, Guitar, or other instrument.

### CHESTER HOUSE,

#### DALTON GA.

BY W. P. CHESTER.

Travellers and others will find every preparation made, and attention given for their convenience and comfort.

June 24, 1854.

COHEN & HERTZ, RECEIVING, FORWARDING AND GENERAL Commission Merchants, Savannah, Georgia.

Business in business are well satisfied they will give entire satisfaction to all interests entrusted to them. May 20, 1856.

### VALUABLE LAND FOR SALE.

THE undersigned now offers for sale his valuable and desirable tract of land lying in Chocoma Valley, one mile north of White Plains on the Rome Road, and 7 miles east of Jacksonville.

The tract contains 245 Acres, 126 acres of which is open land in a fine state of cultivation, and the remainder well timbered with most good soil and lying well for cultivation. The soil is equal to almost any in the valley, which is noted for good land. It is also well watered, Cotton and Creek running through it, and a never failing well of the purest water immediately in the yard. The location is also one of the healthiest in the country, the undersigned having occupied it 18 years, without a single case of illness and fever in his family. The improved land is under good fence, the improvements consist of a comfortable dwelling house, and out houses, also good orchard.

Persons in search of a desirable location would do well to examine the place, with the assurance that a bargain will be given, if the place suits them.

N. B. I have also for sale now about 360 bushels of corn. J. L. B.

July 15, 1856.

### A MARVELOUS REMEDY.

#### For a Marvellous Age!

HOLLOWAY'S OINTMENT.

THE GRAND EXTERNAL REMEDY.

By the aid of a microscope, we see millions of little openings on the surface of our bodies.—Through these this Ointment, when rubbed on the skin, is carried to any organ or inward part. It cures the various kinds of the Eruptions of the heart, Inflammation of the Lungs, Asthma, Congested Colds, and by its means effectually cured. Every housewife knows that salt passes freely through bone or most any thickness. This healing Ointment for more readily penetrates through any bone or fleshy part of the living body, curing the most dangerous inward complaints, that cannot be reached by other means.

SERYPELAS, SALT RHUM & SCORBUTIC HUMORS.

No remedy has ever done so much for the cure of Erysipelas, whatever form they may assume, as this Ointment. No case of Salt Rheum, Scary, Sore Head, Scrofula, or Urticaria, can long withstand its influence. The inventor has traveled over many parts of the globe, visiting the principal hospitals depending on this Ointment, giving notices to its application, and has thence the means of restoring countless numbers health.

SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment when having to cope with the worst cases of eczema, wounds, ulcers, glandular swellings, and humors. Professor Holloway has, by command of the Allied Governments, dispatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wound.—It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of twenty years' standing.

PILES AND FISTULAS.

These and other similar distressing complaints, can be effectually cured if the Ointment be well rubbed on the parts several times, and by otherwise following the printed directions around each part.

Both this Ointment and Pills should be used in the following cases:

Burns	Sore Legs
Chapped hands	Sore Breasts
Chloric Acid	Sore Throats
Fistulas	Sores of all kinds
Gout	Sprains
Lanugo	Swelled Glands
Mercurial Eruptions	Stiff Joints
Piles	Ulcers
Rheumatism	Wound Sores
Salt Rheum	Wounds of all kinds
Scrofulous	

Sold at the Manufactories of Professor Holloway, 30 Maiden Lane, New-York, and 241 Strand, London, and by all respectable Druggists and Dealers of Medicines throughout the United States, and the civilized world, in Pots, at 25 cents, 62 cents, and \$1 each.

There is a considerable saving by taking the large size.

N. B. Directions for the guidance of patients in every disease are affixed to each Pot. August 15, 1855.—ly.

### IRON!

The subscribers have a good assortment of Bar Iron now on hands which they will sell at five cents per pound cash. They are making all the time, and can fill orders at short notice.

GOODE, MORRIS & CO. Nov 19, 1855.

No case of Salt Rheum, Scary, Sore Head, Scrofula, or Urticaria, can long withstand its influence. The inventor has traveled over many parts of the globe, visiting the principal hospitals depending on this Ointment, giving notices to its application, and has thence the means of restoring countless numbers health.

SORE LEGS, SORE BREASTS, WOUNDS & ULCERS.

Some of the most scientific surgeons now rely solely on the use of this wonderful Ointment when having to cope with the worst cases of eczema, wounds, ulcers, glandular swellings, and humors. Professor Holloway has, by command of the Allied Governments, dispatched to the hospitals of the East, large shipments of this Ointment, to be used under the direction of the Medical Staff, in the worst cases of wound.—It will cure any ulcer, glandular swelling, stiffness or contraction of the joints, even of twenty years' standing.

PILES AND FISTULAS.

These and other similar distressing complaints, can be effectually cured if the Ointment be well rubbed on the parts several times, and by otherwise following the printed directions around each part.

Both this Ointment and Pills should be used in the following cases:
