GREAT SOUTHERN REMEDY.

JACOBS CORDIAL.
FOR ALL
BOWEL DISEASES.
CHOLERA MORBUS
BILIOUS COLIC,
CHOLERA,
DIARRHOEA,
DYSENTERY,
DIARRHOEA.

ALSO ADMIRABLY ADAPTED TO MANY DISEASES OF FEMALES
MOST ESPECIALLY PAINFUL MENSTRUATION.

The Virtues of Jacobs Cordial are too well known to require Eecumins.

1. It cures the worst cases of Diarrhoea.
2. It cures the worst forms of Dysentery.
3. It cures Cholera or Mexican Diarrhoea.
4. It relieves the severest Colic.
5. It cures Cholera Morbus.
6. It cures Cholera Infantum.
7. It cures Painful Menstruation.
8. It relieves Pain in the Back & Loins.
9. It counteracts Nervousness & Despondency.
10. It restores Irregularities.
11. It dispels gloomy and hysterical Feelings.
12. It is an admirable Tonic.

A few short Extracts from Letters, Testimonials, &c.

"I have used Jacobs Cordial in my family, and have found it a most efficient, and in my judgment, a valuable remedy."

—Hon. Hiram Warner, Judge of Supreme Court Ga.

"It gives me pleasure in being able to recommend Jacobs Cordial—my own personal experience, and the experience of my neighbors and friends around me, is a sufficient guarantee for me to believe it to be all that it purports to be viz. A SOVEREIGN REMEDY."

—Wm. H. Underwood, Formerly Judge Supr. Court, Cherokee Circuit.

"I take great pleasure in recommending this invaluable medicine to all afflicted with bowel diseases, for which I believe it to be a sovereign remedy decidedly superior to anything else ever tried by me."

—A. A. Gaudin, Deputy G. M. of the Grand Lodge of Georgia.

"I have used Jacobs Cordial in my family, and this, with all I hear about it as a remedy by those who have tried it, induces me to believe that it stands at the head of every preparation of the kind, and I would recommend its use in the diseases for which it is compounded."

—Miss G. Dobbin, Cashier of the Bank of the State of Georgia, Griffin.

"If there is any credibility in human testimony, Jacobs Cordial must stand pre-eminent above all other preparations for the cure of Bowel Diseases. From the mass of testimony in its favor coming from all quarters, it must be very far in advance, as a curative agent, of most if not all other 'patent' preparations."

—A. Fleming, Cashier Marine and Fire Ins. Bk., Griffin.

"This efficient remedy is travelling into celebrity as fast as Bonaparte pushed the column into Russia, and gaining commendations wherever used."

—Georgia Jeffersonian, May 19, 1853.

Huntsville Female College.

THE Fall Session of this Institution will open on Monday, the 1st of September.

The Faculty is filled with able and experienced Teachers. The Domestic Department has been recently favored by the addition of a lady as Governess, of eminent qualifications and great experience. Young ladies will be as well cared for here, in sickness and in health, as under their parental roofs. This shall be a model Boarding School in all its departments.

The Ornamental branches are provided with the best means of pursuing them. The French Department is conducted by a native Parisian Lady whose conversation with her pupils, in and out of School, at the table and elsewhere, is the French language.

The MUSIC DEPARTMENT, is furnished with one of the most distinguished Teachers and performers as its Principal in all the South, who is assisted by others highly qualified. To encourage musical proficiency, D. B. Traxent, Esq. President of the Commercial Bank, Memphis, has given the Institution \$300 the annual income of which is to secure a Gold Medal with suitable inscriptions thereon, to be awarded as a Prize to the best performer on any musical instrument at the Anniversary Concert of the Institution. It is known as the "Turner Prize Medal."

The Institution is furnished with a large and costly CHEMICAL AND PHILOSOPHICAL APPARATUS.

The Expenses for Board and Tuition, without the extras of Music, French, Drawing or Painting, vary between 75 and 90 dollars per session of 20 weeks, according to the advancement of the pupil. The Extras—for Music, including use of instrument, \$30; for French, 10 to 15 dollars; for Drawing \$10; for Painting, \$20; for Vocal Lessons \$2. Payment in advance.

For further particulars apply for a Catalogue, by addressing the undersigned.

CHAMPIONS PILLS.

WE would call the attention of persons afflicted with Chills and Fevers to this celebrated Pill, which owes its popularity to no puffing, nor to its own virtues as a remedy which never fails to cure when taken according to directions accompanying each box, this pill unlike many others—contains no mineral—Nor any injurious ingredient. And may be administered with perfect safety at all times, to any—young or old.

As a preventative against Chills, or any other type of fever, it is recommended as unsurpassed. And in treatment of fevers generally it is a superior to Quinine, or any of the preparations of the Peruvian Barks. A trial of its merits is all that is needed to insure it a favorable position in the estimation of even the most inveterate opposer of Proprietary or Patent prescriptions.

Champions anti-Bilious Pills.

Enjoy the reputation of being, at least as good, if not better than any of the various cathartic Pills of the age, and are entirely free from all poisonous, Mineral or other injurious properties, and are highly recommended in Dyspepsia, Liver Complaint, Sick Headache, Sick Stomach, Habitual Constiveness, in digestion &c., and diseases of the Stomach, Liver, Bowels & blood generally, they being by their composition equally adapted to either of the above cases—as a general cathartic, good all times, when such medicines are required we recommend them to the attention of all persons.

A Sporting Fish—A Dead Shot. An interesting account is given in the eleventh number of the "Edinburgh Philosophical Journal" of the Jacculator fish of Java, by a gentleman who had an opportunity of examining some specimens of it in the possession of a chief.

The fish were placed in a small circular pond from the centre of which projected a pole upwards of two feet in height; at the top of this pole were inserted several pieces of wood, sharpened at the points, of each of which were transfixed some insect of the beetle tribe.

When all had become quiet, the beetle had been secured, the fish, which had retired during the operation, came out of their hiding places, and began to circle round the pond. One of them at length rose to the surface of the water, and after steadily fixing his eyes for some time upon an insect, discharged from its mouth a small quantity of water-like fluid, with such force and precision of aim, as to drive the beetle off the twig in the water, where it was instantly swallowed.

After this success, the fish, in a state of nature, frequents the banks of rivers in search of food. When it spied a fly settling on the plants that grow in shallow water, it swims on to the distance of five or six feet of them, and then, with surprising dexterity, ejects from its tubular mouth a single drop of fluid, which rarely fails to strike the fly into the water, where it is immediately swallowed.

The Trans of Life.—Between the years of fifteen and twenty, a man who has properly regulated himself may be considered as in the prime of life. Sad End of Dr. H. A. Ramsey. The Savannah Republican of the 3d inst. contains an account of the death by suicide, of Dr. H. A. Ramsey, formerly editor of the Atlanta Examiner. The account we say is genuine and authentic.

We learn from undoubted authority, that this unfortunate man, whose name has become quite notorious in Georgia, and who, our readers will recollect was arraigned recently before the U. S. Commissioner in this city, for forgery upon the Pension Office, and made his escape, committed suicide in the jail of Sparta, Conecuh county, Alabama, on Wednesday, the 27th ultimo. The facts, as obtained by us from Deputy U. S. Marshal, Laroche, are as follows: Ramsey was arrested some weeks ago in the neighborhood of Sparta, on a charge of forgery, and committed to jail. His friends in Georgia, preferring to have him stand his trial here on the charge upon which he was arrested some months ago, obtained a warrant from the U. S. District Court, and proceeded to Alabama, in company with the Deputy Marshal for the purpose of securing him from the authorities of the latter State. They refused to deliver him, and it is said Ramsey himself was very much disappointed, being anxious to return and stand his trial.

It is impossible to carry out his wishes, and doubtless tired of a life that had become a disgrace and dishonor to himself and his family, the unfortunate man resolved on destruction. He had procured some means several pots of the famous wood weed that grew in abundance around the jail, and about noon of the 27th asked for a glass of coffee, which, after the jailer had refused, he drank, having first poisoned it with the seed. He was discovered some two hours after taking the draught, lying on the floor in an insensible condition. Medical aid was brought, but he had passed beyond its reach. He lingered through the night and died at 7 o'clock on the morning of the 28th. Mr. Laroche, the father of the unfortunate man, was present at his death and witnessed his burial in the afternoon of the same day. An appropriate note to a reckless and abandoned life. Verily, "the way of the transgressor is hard." We sincerely sympathize with the parents and family of the deceased, who are, we trust, respectable persons residing in the upper portion of the State.

A Wife Murdered by her Husband. On the 27th August, a horrible murder was committed near Boston, Webster county, Va. by James Pines, on the body of his wife, Sarah Ann. An esteemed correspondent, B. O. Hattox, M. D. gives us the following account of the diabolical outrage:

About 3 o'clock on the 27th ult., an alarm was given in the neighborhood that Mrs. Sarah Ann Pines had fallen into the well, and was drowned. The neighbors immediately collected, and upon examination, discovered that she had been actually beaten about the head and face, and her skull and both jaws were broken. Suspicion immediately fell upon the husband, James Pines, who was arrested and lodged in jail. A jury of inquest was immediately summoned, whose verdict was that she was murdered by her husband.

After his arrest, Pines confessed that he had committed the murder; that he had intended to kill her with a "barrel stick," while she was leaning over the well endeavoring to dislodge the bucket which had accidentally fallen into the well. All the circumstances, however, go to show that he first killed her and then threw her into the well.

EXPENSES OF THE GOVERNMENT.—The expenses of our Federal Government cannot move, it appears, from the subjoined figures, without being pretty well indicated. Among the appropriations made are the following, and Congress itself comes first in the category. The main of this body will swallow up \$2,200,000. The State Department absorbs \$1,500,000; the Treasury, \$1,000,000; the War, \$1,000,000; the Navy, \$1,000,000; the Post Office, \$1,000,000. These department items are \$10,000,000. The Judiciary and Courts cost \$900,000. The Army costs \$15,000,000. The Navy costs \$15,000,000. Diplomatic demands \$1,000,000. Light-Houses, \$1,500,000. Collection of Revenue, \$2,450,000. Mail transportation for Congress and the Department alone, \$1,000,000. The latter \$1,000,000. General mail transportation costs \$1,000,000. Postmaster's pay amounts up to \$2,500,000. Post Office clerks have \$1,000,000. The ocean mails put us in for \$2,000,000. The deficiency in the Post Office appropriations required a further drain of \$1,200,000. The interest on the public debt is a charge of \$2,000,000. The Land system takes \$2,000,000. The mint cost \$500,000. The Territories, \$2,000,000.

IMPORTANT TO MECHANICS.—The Scientific American states that a broad field for genuine and industry will open on and after the 6th of December next, on which day the patent for Woodworth's Planing Machine expires. Congress having refused a further extension. It further remarks: "All inventors having improvements in planing machines, who have been driven to the corner by the Woodworth monopoly, may now come forth from their hiding places. All mechanics who desire to enter into the lumber planing business may now make the necessary arrangements. All mechanics may now prepare to take orders for the construction of Woodworth's Planing Machines. All improvements hitherto made by the inventor, and the best machinery for planing, have been secured by the patent for the planing machine, which expires on the 6th of December next. Those who are earliest prepared to take advantage of the great opening will be likely to reap the richest harvest. In addition to this, Congress has refused to extend the patents for McComick's Grain Reaper, which expired in '58; Haywood's Rubber Patent, '53; Harley's Patent, '53; and No. 3's Patent, '53.

Gold and Sulphur in Mexico. Mexican papers state that within a short time immense quantities of pure gold have been discovered in the southern portion of the State of Guerrero. Attention is called to the sulphur beds which exist at and around the volcano of Popocatepetl, and which are said to be inexhaustible. The United States pay \$180,000,000 annually for the sulphuric acid for mechanical uses, and it is said that if Mexican energy could be stirred by some American capital, these mines would have a much better article of sulphur at a less cost than what we now get from Italy.

Conquering the South. The New York News, on the subject of the Black Republican's forcing Fremont's administration on the South, says:

For this purpose a military force must be raised at the North and "low pay" is this to be done? The North itself is divided on this very question, while the South is a unit. One-half of the Northern people, the great Democratic party, while they are in no respect in favor of the slavery system, are in favor of upholding and maintaining all and every right of the South which law, justice, and the Constitution entitles them to. And it is to be supposed that they will join a Black "Republican" army to enforce the Abolition vagaries upon our Southern brethren? No. No. Instead of this army of fanatics marching South to "force" their principles upon the Southern States, it would have a great deal more than it could attend to at home, for the lovers of the Union and the Constitution would allow any such movement to be made, and these who would "force" the South" would find an array of patriots at the North who would of themselves hurl these "shriekers" into the sea before they reached the confines of a single Southern State.

But internal war is not necessary to effect a dissolution of the Union. Let this purely Northern sectional faction succeed as above stated, the dissolution of the States is as virtually effected as they would be if the two sections of the country were in hostile array against each other. It would be a separation of necessity, by common consent, for the South has not the same interest in supporting the Union that the North has. The South is an exporting country, an exporter of a class of agricultural products which all the world must have. Her cotton, and sugar, and tobacco, and rice, are the actual necessities of life. No people or nation can exist without them. The South then has the market of the world before them for their products, and not being a manufacturing country, her ports would be opened free for all manufacturing products of the world. And for all manufactured articles or luxuries necessary for the wants of the people of the South Europe would supply her.

Where, then, is the market for the millions of Northern manufactured goods which now are consumed at the South? What becomes of the immense commercial interest, of trade generally, which we now have with the Southern States, and out of which so many are growing prosperous and wealthy? It is needless to answer the question. These subjects, then, which our intelligent correspondent and mechanical friends hint at should cause deep reflection. Our mercantile and commercial interests, our manufacturers and all engaged in any kind of industry, as well as the true patriot, should pause and study well these matters. It is a grave subject, and requires deep and sober thought. The great heart of the people is right; but they may, through the acts of scheming and cunning politicians, be led astray for a moment, but "the sober second thought of people" will at last surely bring them to their right conclusions. Let them ask themselves, then, in all soberness and sincerity, to what by these acts of sectional politicians lead? where is the end and what are the consequences?

The Crops. The Concordia Intelligence of Friday last reports that the army worm has made its appearance in the lower part of Concordia parish. We learn from the same paper that the great August storm caused great damage to the cotton fields, especially in the lower part of the parish.

The Alexandria Democrat, of the 20th ult., says: "The cotton in the upper part of this parish is literally eaten up by the caterpillar—the stock are as free from foliage as they usually are at Christmas. The boll worm has also made its appearance, and its ravages are said to be terrible on some plantations. The weather is most intensely hot and dry."

The Natchitoches Chronicle, of the 23d ultimo, says: "The picking of cotton has commenced in earnest in our parish. As we stand some time since, the yield of cotton throughout the whole parish will not exceed the half of a usual crop. Upon several plantations in our vicinity the caterpillar has made its appearance, and is doing its work of destruction."

The Mansfield (De Soto parish) Columbian, of the 23d ult., says: "The weather still continues hot and dry—the health of the parish good. The caterpillars, which made their appearance in our neighborhood, are doing but little damage. Our planters are very busy in picking cotton. On some farms 150 to 200 pounds per hand is daily gathered, and from the best information we can get, a fair crop of cotton will be made in our parish."

The Shreveport Gazette, of the 23d ult., says: "The greater portion of this parish is still suffering for rain, though if it were to come now it could not possibly be of any benefit to the cotton, and the corn is made, what little there is. It is believed that the caterpillars will not produce enough corn altogether for their purposes. Some will not make bread."

Missouri Haze Clear.—The Lexington (Mo.) Citizen, of the 20th ult., says: "During the early part of the season, serious fears were entertained of a great failure in the hemp crop. These fears, however, have been realized, and many planters have been soothed, the crop being so short that much of it will not pay the expense of harvesting. Along the river, where the drought did not continue so long, the crop is at least an average one, in point of yield, and in quality, as to length, weight of lint and fineness of fiber, it is equal to any ever grown in the country. A great portion of the crop is now lying in swath, and if the rain continue, it will be much injured. At the distance of fifteen or eighteen miles from the river, owing to the long-continued drought, the crop is very short, but in the section bordering on the river, as far have heard, it is about an average one in point of quality, and in quantity rather better than the average."

GREAT SOUTHERN REMEDY.

JACOBS CORDIAL.
FOR ALL
BOWEL DISEASES.

CHOLERA, CHOLERA MORBUS, BILIOUS COLIC, DIARRHOEA, CHOLERA INFANTUM.

ALSO ADAPTED TO MANY DISEASES OF FEMALES.
MOST ESPECIALLY PAINFUL MENSTRUATION.

The Virtues of Jacobs Cordial are too well known to require Eulogiums. It cures the worst cases of Cholera, Cholera Morbus, Bilious Colic, Diarrhoea, Cholera Infantum, &c. It restores Irregularities, it cures Painful Menstruation, it relieves Pain in the Back & Loins, it cures Nervousness & Despondency, it dispels gloomy and morose feelings, it cures Chelera Morbus, it cures Cholera Infantum.

A few short Extracts from Letters, Testimonials, &c.
"I have used Jacobs Cordial in my family, and have found it a most efficient, and in my judgment, a valuable remedy."
"It gives me pleasure in being able to recommend Jacobs Cordial—my own personal experience, and the experience of my neighbors and friends around me, is a sufficient guarantee for me to believe it to be all that it purports to be viz a SOUTHERN REMEDY."

Formerly Judge Supr. Court, Cherokee Circuit.
"I take great pleas in recommending this invaluable medicine to all afflicted with bowel diseases, for which I believe it to be a sovereign remedy decidedly superior to anything else ever tried by me."
A. A. GALLING, Deputy G. M. of the Grand Lodge of Georgia.

"I have used Jacobs Cordial in my family, and this, with all I hear about it as a remedy by those who have tried it, induces me to believe that it stands at the head of every preparation of the kind, and I would recommend its use in the diseases for which it is compounded."
Cashier of the Bank of the State of Georgia, Griffin.

"If there is any credit in human testimony, Jacobs Cordial must stand pre-eminent above all other preparations for the cure of Bowel Diseases. From the mass of testimony in its favor coming in from all quarters, it must be very far in advance, as a curative agent, of most if not all other 'patent' preparations."
A. FLEMING, Cashier Marine and Fire Ins. Bk., Griffin.

"This efficient remedy is travelling into celebrity as fast as Bonaparte pushed the columns into Russia, and gaining commendations wherever used."
Georgia Jeffersonian, May 19, 1853.

Huntsville Female College.
The Fall Session of this Institution will open on Monday, the 1st of September.

The Faculty is filled with able and experienced Teachers. The Domestic Department has been recently favored by the addition of a lady as Governor, of eminent qualifications and great experience. Young ladies will be well cared for here, in sickness and in health, as under their parental roofs. This shall be a model Boarding School in all its departments.

The *Ornamental* branches are provided with the best means of pursuing them. The *French* Department is conducted by a native Parisian Lady whose conversation with her pupils, in and out of School, at the table and elsewhere, is the French language.

The *MUSIC* DEPARTMENT, is furnished with one of the most distinguished Teachers and performers as its Principal in all the South, who is assisted by others highly qualified. To encourage musical proficiency, D. B. TUCKER, Esq. President of the Commercial Bank, Memphis, has given the Institution \$2000 the annual income of which is to secure a Gold Medal with suitable inscriptions thereon, to be awarded as a *Prize* to the best performer on any musical instrument at the Anniversary Concert of the Institution. It is known as the "Turner Prize Medal."

The Institution is furnished with a large and costly CHEMICAL AND PHILOSOPHICAL APPARATUS.

The Expenses for Board and Tuition, without the extras of Music, French, Drawing or Painting, vary between 75 and 90 dollars per session of 20 weeks, according to the advancement of the pupil. The Extras—for Music, including use of instrument, \$30; for French, 10 to 15 dollars; for Drawing \$10; for Painting, \$20; for Vocal Lessons \$2. Payment in advance.

For further particulars apply for a Catalogue, by addressing the undersigned.

CHAMPIONS PILLS.

WE would call the attention of persons afflicted with Chills and Fevers to this celebrated Pill, which owes its popularity to no puffing, nor to long windy certificates—but solely to its own merits as a remedy which never fails to cure when taken according to directions accompanying each box, this pill unlike many others—contains no mineral—Nor any injurious ingredient. And may be administered with perfect safety at all times, to any—young or old.

As a preventative against Chills, or any other type of fever it is recommended as unsurpassed. And in treatment of fevers generally it is a superior to Quinine, or any of the preparations of the Peruvian Barks. A trial of its merits is all that is needed to insure it a favorable position in the estimation of even the most inveterate opposer of Proprietary or Patent prescriptions.

Champions anti-Bilious Pills.

Enjoy the reputation of being, at least as good, if not better than any of the various cathartic Pills of the age, and are entirely free from all poisonous, Mineral or other injurious properties, and are highly recommended in Dyspepsia, Liver Complaint, Sick Headache, Sick Stomach, Habitual Constiveness, Indigestion &c., and disease of the Stomach, Liver, Bowels & blood generally, they being by their composition equally adapted to either of the above cases—as a general cathartic, good all times, when such medicines are required we recommend them to the attention of all persons.

GOOD MEDICINES.

AYER'S CATHARTIC PILLS.

IT is estimated that AYER'S CHERRY PECTORAL AND CATHARTIC PILLS have more to promote the public health, than any other one cause. There can be no question that the Cherry Pectoral has by its thousand cures of Colds, Coughs, Asthma, Croup, Influenza, Bronchitis &c., very much reduced the proportion of deaths from consumptive diseases in this country. The Pills are as good as the Pectoral and will cure more complaints.

Everybody needs more or less purging. Purge the blood from its impurities. Purge the bowels, Liver and the whole visceral system from obstructions. Purge out the diseases which fasten on the body, to work its decay. But for diseases we should die only of old age. Take antidotes early and thrust them from the system, before it is yet too strong to yield.

Ayer's Pills do thrust out diseases, not only while it is weak but when it has taken a strong hold. Read the astounding statement of those who have been cured by them from dreadful Scrofula, Dropsy, Ulcers, Skin Diseases, Rheumatism, Neuralgia, Dyspepsia, Internal Pains, Bilious Complaints, Heartburn, Headache, Gout, and many less dangerous but still threatening ailments, such as pimples on the face, Worms, Nervous Irritability, Loss of appetite, Irregularities of the bowels, and indeed every variety of complaints for which a Purgative Remedy is required.

These are no random statements, but are authenticated by your own neighbors and your own Physicians.

Try them, once, and you will never be without them.

Price 25cts. per Box—5 Boxes for \$1.00.

Prepared by Dr. J. C. AYER, Chemist, Lowell, Ms., and sold by all respectable druggists and dealers of persons who have been restored to the enjoyment of perfect health, by them, it is believed that their reputation for curing Scrofula, Dyspepsia, and all diseases, soon yield to their curative power. No family should be without them, as their timely use, much suffering and expense may be saved.

In cases of Scrofula, Ulcers, Scoury Eruptions of the skin, the operations of a Life-Saver, AYER'S PILLS are truly acknowledged to be a life-saver.

Memphis Medical College.

The attention of Medical Students is called to the notice of the commencement of the regular course of Lectures on the 3rd of November next.

From the annual announcement, we gather the following facts relative to the advantages possessed by this College. "The peculiar advantages of this College consists chiefly in the mode in which its Faculty have availed themselves of the facilities for Clinical instruction, presented in its geographical position. Being situated at a central point upon the great Mississippi, Memphis is continually supplied with cases of disease illustrating the peculiar pathologies of the districts both North and South of it, while the Railroad rapidly extending from it as a center, bring it equally in communication with the East and Far West."

In addition to which students have the advantage of visits to an extensive Charity Hospital, in company with the Professors—abundant materials for practical Anatomy, and preparations for the illustration of Anatomy, Physiology, &c., together with a Chemical Apparatus, acknowledged to be equal, if not superior to any in the United States.

We respectfully invite attention to the notice of the commencement of the first session of the Montevallo Male and Female Institutes of the Cumberland Presbyterian Church. These Schools are situated in a healthy and accessible location, and one favorable to economy in expenditure for tuition and board. They present strong claims to the patronage of the community at large, and particularly of the denomination by which they are more exclusively established.

Rev. H. M. Jones, one of the Presidents, was for a number of years, a resident of this County, where he has many acquaintances, and many warm and devoted friends, whose confidence and esteem he will be at no loss to command, wherever he may reside.

The following flattering notice of our Town and its inhabitants, we copy from the "Tennessee Valley," published at Guntersville, Ala. by H. B. F. Porter, who recently filled, very acceptably, one of Mr. Yancy's appointments in this place, some notice of which appeared in our paper. Our Town has just commenced the work of tasteful improvement, and we incline to the opinion, that the flattering picture he has drawn would be more appropriate three years hence: he will therefore pardon us for attributing a part of his favorable impressions and notice to his own genial nature, and charitable habit of looking on the sunny side of every object. His notice of our public houses, and the hospitality of our inhabitants, is strictly just.

Jacksonville, Ala.
We have had the pleasure of a first, hurried visit to this town. The able Yancy, has said, that a very satisfactory proof of a people's civilization, may be found in the improved state of roads. We think a better can be found in the condition of their country towns; and it is to be seen, certainly Jacksonville, for its age, deserves to stand at the head of the list. It is one of the few places in Alabama, almost the only one, we have surveyed, and to say that we were surprised at the evidence of the people's public spirit and patriotism, would but properly express our emotions. In public buildings, in neat, clean, and nobly shaded streets, in beautiful private mansions, and tastefully arranged grounds, no town, considering its age, can excel, or indeed does equal it. The people of the State have cause to be proud of Benton, and of its county site. The people of that town and county have lessened their duties to themselves, and while older towns, with far better opportunities, have suffered their public spirit to die out, if they ever had any; and done nothing to improve and beautify their villages—No court Houses, that deserve the name, buildings dilapidated—not even white-washed, much less painted, overrun with weeds, sinking with ungathered manures and filth, eat up with rank stunted hogs; not even a "few shade trees for the cattle to lie under."

One of way of the lightning and thunder. They, the people of Benton have done whatever could tend to embellish their country town, and render it at once an ornament of the country, and honor to the State.

The Hotel kept by Mr. Weir, is as near perfection, as good living, clean beds, and the untrifling attention of a first rate Host and Hostess can render it.

As for the people, a generous hospitality, a prompt appreciation of whatever is calculated to adorn society, and render life desirable, distinguish them in a very eminent degree.

We would do injustice, did we not mention, as an evidence of the taste of the people in public buildings, the new churches about being erected, and some private mansions going up in the neighborhood.

The Episcopal chapel just finished is so beautiful and antique, that one is carried back to the days of gothic splendour in architecture.

The surrounding country for miles, bears evidence of the value placed upon the comfort and elegance of the Homes of the people, and of a genuine spirit of patriotism.

We are requested to state that the Hon. J. L. M. Curry, one of the Democratic Electors, will speak at Maddox's old Place, Best No. 4, on the 21st day of October next. Discussion is invited.

Consolatory.

For the especial satisfaction and gratification of those dear friends, who have been so much distressed recently, about our loss of subscribers, we would inform them, that we have not lost a single one from the causes they supposed. Of course in near a thousand names some changes will take place, from death, removal &c. but there have been less, except from these causes, in the last eight months, than in the same time for 20 years. The only marked difference has been in a steady increase.

That love's labor may not be lost in fruit, we would also inform these friends, that it is not so easy a matter to injure a well known and long established paper as they might suppose. Its patrons, scattered over a large extent of country, are generally independent men, who reserve to themselves the privilege of judging of the merits or demerits of their papers, and whose passions and prejudices cannot be played upon like a harp of a thousand strings.

We have been informed lately of several individuals quitting our paper, who were not subscribers; and in one instance of the loss of 30 subscribers at a Post Office where we had but about 20. This reminds us of the Arkansas man, who said he platted ten acres of corn and the bears and crows eat up fifteen.

Special efforts to injure a paper generally result like those of an old bachelor to get rid of the gray hairs in his head, of which it is said, for every one pulled out, ten come to the funeral.

In the course of 35 years experience in Newspaper offices, we have never known a single instance of particular efforts on the part of officious intermeddlers to injure one that did not result in its benefit.

We respectfully invite the attention of purchasers of Fall and Winter Goods, to the advertisement of the new, extensive and well-selected stock now receiving by E. L. Woodward. This is now, we believe the oldest Mercantile establishment in the place; and one which has uniformly been favored with an extent of trade, seldom equalled in a place of this size. The goods have been selected with taste and judgment, by and under the direction of an experienced head, and the public have every assurance, that no reasonable inducement will be wanting or effort omitted to merit their confidence and patronage.

Frost.

We had a severe frost on Thursday morning, 24th inst. and also considerable ice; there was also frost on the 25th and 26th. We do not remember to have seen so severe a frost as early as the 24th Sept. in this section in 22 years; and notwithstanding the extreme drought, we think it must have done considerable damage to cotton and other crops. The cotton looks almost black since, and also the pea and potato vines. The injury to the pea crop alone must be very considerable in this county.

See advertisement of J. & J. B. Forney, to be succeeded in January next, by J. B. & J. H. Forney. As well expressed by them, they keep in view, in all their dealings, the source from whence their prosperity and success must come, and they forget not, that to merit a continuance of the liberal patronage heretofore received, they must also continue to deserve it. The past history of this long established house, is a sufficient guarantee to the public, that in quality, style, prices, and time, nothing will be left undone for their accommodation.

Since our first notice of the reception of goods by Kahn & Bro. we have been favored with an opportunity of examining their stock, more particularly that of Ready Made Clothing; and are enabled to say, according to our best judgment, that they are not only of superior quality, but offered at remarkably low prices.

HEMBOLD'S HIGHLY CONCENTRATED EXTRACT BUCHU.

is prepared directly according to the rules of Pharmacy and Chemistry, and is the best and most active preparation which can be made for the cure of Diseases of the Bladder, Kidneys, Gravel, Dropsy, Weakness, &c. Read the advertisement in another column, headed "A Revolution is Certain. Victory is ours."

The Newspaper Business.

This department of industry presents some features in its general aspects, that are not to be found, at least to the same extent, in any other pursuit. Our experience and observation during a not very brief connection with a public journal, gave long since convinced us that less thoughtful, less careful, less regular, regard to the true rules of business, is carried into the journalism of the country than any other occupation by which men are accustomed to employ their energies and win their subsistence. To some men there seems to be an infatuation—we cannot tell what about a newspaper office, that not unoften leads them to venture blindfold upon the most hazardous experiments, and when once fairly in the business, to persist in its prosecution, even with a certain prospect of ruin to themselves, if not of serious damage to their friends. It is not so in any other vocation. When men, in other pursuits, find that their labor is fruitless, and that bankruptcy and want are staring themselves and their families in the face, they abandon them, and direct their capital and energies in some other channel that promises a better reward.

What we never known a printing office discontinued by the voluntary act of its owner; it is one of those things that are possessed of a fine tenacity upon life, and the strong arm of the law usually steps in to cut the thread, and to set free the prisoner before he shall have grown too grey and infirm to embark in another pursuit. This is a strange sort of economy, yet it is a true representation. We could appeal for the proof to hundreds who are to-day toiling struggling by day and by night, within newspaper office that makes them the slaves of others, and whose only product, year after year, are vexation, disappointment and poverty. Why is this so; and how long shall such a reckless disregard of the rules of business, and utter indifference to consequences, characterize our profession?

We have been invited to these reflections by the recent failure of a gentleman in Atlanta, who has been largely engaged for

some years past in the newspaper business. We do not approve of parading the private affairs of individuals before the public, but as the matter has found its way through others into the public prints, we may be excused for alluding to it, in order to illustrate an important truth. The recklessness of Mr. Kay, in doing a large business at a point wholly unable to sustain it, in issuing weekly twelve thousand copies of his paper, one of the largest in the State, for subscription of one dollar per copy, and forcing his circulation, as we are told by a neighboring journal, by sending the paper "to any and every body," was but carrying out on a large scale a suicidal spirit of competition that has obtained, to a more or less extent, in nearly every portion of the country. We are indebted for this state of things to the excess of newspaper publishing, and to the fact that there are too many for the real wants of the business community and of the public, and hence this disastrous struggle, not so much for success as for existence, at all.

A newspaper, especially a daily, is a costly luxury, and one which it is impossible to sustain, except by an immense outlay of money. He who commences it with a short list of subscribers, or subscribers who pay but the cost of the paper, without the printing, will sooner or later, have cause to regret his folly. Taking the outlay and income of our own office for a standard—and we have seldom had cause to complain—it has been to us a profound mystery how so many papers, requiring a great expenditure of money to print them, are kept up and sustained from year to year. If things really are as they seem to be, there is a secret skill employed in their management that has never found its way into the office of the Republican. We have no faith, however, in this apparent prosperity. All experience proves that a paper set up where it is not needed, must, sooner or later, go by the board, and involve all connected therewith in a common ruin.

We do not feel that we have devoted more space to this subject than its importance demands. We feel proud of our profession, and to the extent of our humble abilities, it shall never need an advocate to defend it against assaults from without, or to aid in the extirpation of the errors and evils that may grow up in our midst to mar its beauty and to neutralise its power. In this country, where public sentiment is so great, and enlightened, independent, and honest press is bulwark of good government, the guardian of public virtue, the handmaid of industry, and shield of popular liberty. It should be wise in its councils, high in its aims, and unspotted in its virtue. The people have a direct interest in fostering and preserving these characteristics so essential to its usefulness; while under the abuse that has grown up of late years from the system, imparting its influence and contracting its means, it is impossible to bring to its aid, either the talent or the honesty that might be secured by a liberal and discriminating popular support. We would have these things changed, and through radical reform impressed upon the mind of the country; the press would soon feel the reflection of its power, and throw off the shackles by which it has long been bound down and degraded.—*Savannah Republican.*

Great Fire at Macon.

A very extensive and disastrous fire commenced in Macon yesterday morning about five o'clock. It started near the Washington Hall, destroyed that building completely, and made its way down towards the alley, that divides the block of buildings in front of the Lumber House, all of the buildings between the Washington Hall and the Alley, having been consumed with probably one exception. Great confusion and excitement were created by the conflagration of so public a part of the city. The damage done must be very considerable, but we have not learned the extent of the loss.

Kansas Affairs.

Sept. 22.—Gov. Geary has disbanded the Ruffians, who are greatly incensed thereby, and swear vengeance. Gen. Lane, with a hundred and fifty men, has moved towards Nebraska.

Sept. 23.—Mr. Corwin, the U. S. Commissioner, reports that the government of New Granada, is unable to maintain law and order, and he recommends immediate and forcible occupation of the Lithium from ocean to ocean.

Yellow Fever in Charleston.

Office of Board of Health, 1
Saturday Night, 10 o'clock.
The Board of Health report five deaths from yellow fever for the past 24 hours.
J. L. Dawson, M. D., City Register.
There were two deaths (as shown by the report) on Sunday.

Fire at the Georgia Railroad Depot.

About 4 o'clock this morning we were startled from our slumbers by the cry of "Fire," and upon hastening to the scene, found the Engine House of the Georgia Railroad, enveloped in flames, and eight of the Company's engines, stationed there, falling a prey to the devouring element. The whole are in ruins. The loss to the company cannot be less than fifty thousand dollars. The fire is supposed to have originated from the furnace of one of the engines which had been recently put in.

Know Nothing Party in New York.

New York, Sept. 24.—The American party in New York have united, and nominated Erasmus B. Corwin, for Governor. Fillmore enthusiastically endorsed. [This is intended for a "small notice" for southern Fillmoreans to play with, and something to "please the children."—*Constitutionalist.*]

Discord in Concord.

The citizens of Concord have refused a public reception to President Pierce.

Yellow Fever in Charleston.

Office of Board of Health, 1
Tuesday Night, 10 o'clock.
The Board of Health report four deaths from yellow fever for the past 24 hours.
J. L. Dawson, M. D., City Register.

Columbia, Sept. 22.

We have telegraphic news from the 29th from St. Louis, from which we learn that a fight occurred on the 13th near Grasshopper Falls, between a band of fifty Southern Rebels, and a Northern force that was engaged in plunder and invasion. On the next day the Southern were attacked by a large force under Hervey, and after two hours' hard fighting and the loss of five Southern and twelve Northern, an armistice was asked by Hervey, and agreed to for thirty days.

We have advices from Kansas to the 15th on which day it is stated that 2500 Missourians were at Franklin, preparing immediately to reduce that town, and that several skirmishes had taken place between the advanced guards of the two parties.

The Freedmen captured under Hervey.

The cotton crop.—The Charleston Courier says: Accounts from all quarters of the incoming crop of cotton will be considerably below a good average.

Further from Kansas—More Bloody Work Reported.

Chicago, Sept. 22.—Dates from Lawrence, Kansas, to the 15th says:—Twenty eight hundred Missourians reached Franklin yesterday with a design of attacking Lawrence. Our advanced guard came in collision last night, and three pro-slavery men are reported to have been killed. Gov. Geary interfered ordering the Missourians off when the latter fell back on Franklin. Gov. Geary this morning disbanded the "ruffians" under General Reed, acting as territorial militia. They swear they will have blood however. Our citizens have enrolled themselves as territorial militia, and a collision is feared. Col. Harvey's Free State regiment fought at Hartford yesterday and were victorious. Three pro-slavery men were killed and five of Harvey's men were wounded. Subsequently the whole of Harvey's force were captured by the United States dragoons.

Andrew Macalister, the magician, who died at Keokuk, Iowa, a few days ago, travelled during his lifetime all through England, France, Spain, Germany, Hungary, China, the West Indies, the United States and British provinces.

THE MONTEVALLO

MALE & FEMALE

INSTITUTES.

OF THE

Cumberland Presbyterian Church.

The first Session of the above Institutes, located in the Town of Montevallo, Shelby Co. Ala. by the Union Synod of the C. P. Church, will commence on the 24th of Oct. 1856.

The building in which the Female School will be taught, is

beautiful, and large enough to accom-

modate more than 200 pupils. The

one in which the male will open, is no

so large, but the friends of the School

hope soon to have one that will ac-

commodate even more than the other.

Every branch appropriate to the most

accomplished education, will be taught, in the most thorough manner, by experienced and able instructors, upon the following terms:

First Class, \$16 00 per scholastic year.

The Alabama and Georgia Lotteries
as channels for investment, present in-
ducements over any known scheme. The
experience the public have had of the man-
agement of these Lotteries, the large amount
of Prizes sold, the promptness with which
they have been paid, are the chief guaran-
tees that they will always be conducted in
the most equitable manner.
Plan of the Lottery.
There are 30,000 Tickets numbered 1
to 30,000. There are 380 full Prizes and 620
Approximations—making in all 1,000 Pri-
zes.
The drawing takes place in public, un-
der the superintendence of two sworn com-
missioners.
The Numbers from 1 to 30,000, cor-
responding with those Numbers on the Tick-
ets printed on separate slips of paper, are
enclosed with small tin tubes, and placed
in one wheel.
The first 380 Prizes, similarly printed
and encircled, are placed in another
wheel.
The wheels are then revolved, and a num-
ber is drawn from the wheel of Numbers,
and at the same time a Prize is drawn from
the wheel. The number and Prize drawn
out are opened and exhibited to the audi-
ence, and registered by the Commissioner.
The Prize being placed against the number
drawn. This operation is repeated until
all the Prizes are drawn out.

Approximation Prizes.—The two
preceding and the two succeeding
Numbers to those drawing the first 380
Prizes, will be entitled to the 320 Ap-
proximation Prizes, according to the Scheme.
IN ORDERING TICKETS.
Enclose the money to our address for
the Tickets ordered, on receipt of which
they will be forwarded by first mail.
The List of Drawn Numbers and
Prizes will be sent to purchasers imme-
diately after the drawing.
Purchasers will please write their
signatures plain, and give their Post
Office, County and State.
Remember that every Prize is
drawn, and payable in full without deduc-
tion.
All Prizes of 1,000 and under, paid
immediately after the drawing—other Pri-
zes at the usual time of thirty days.
All communications strictly confidential.

It is therefore ordered by the court
that notice of the pendency of this suit
be given in the Jacksonville Republi-
can, a newspaper published in the
State of Alabama, for four consecutive
weeks, and that a copy thereof be for-
warded to the last known place of the
Defendant's residence—that he appear
at the next term of said Circuit Court,
to be held in the Town of Ashville, on
the fourth Monday in February, 1857,
and plead or demur to said suit or pro-
ceedings will be taken as the law di-
rects. A true copy of the minutes, Sep-
tember 9th, 1857.—At.—\$5.

John Moore & E. Goode, }
Attorneys for Plaintiff.
James M. Owens, }
Attorney for Defendant.
CAME the Plaintiffs by their Attorney,
and it appearing to the satisfaction of
the court, that the Defendant in attach-
ment, James M. Owens, is a non resident
of the State of Alabama, and the publi-
cation ordered to be made at the Spring
Term of this Court, (in 1856) has not
been made.—It is therefore ordered by
the court, that publication be made for
four consecutive weeks in the Jack-
sonville Republican, a newspaper published
in Benton County in the State of Ala-
bama, and a copy forwarded to the De-
fendant, at his known place of residence
advising him of the pendency of this
suit, and requiring him to appear at the
next term of said circuit court to be
held for the County of St. Clair, in the
Town of Ashville, on the fourth Monday
in February, 1857, and plead or demur
to said suit, or proceedings will be taken
as the law directs.

AT REELS by the Register of
the 35th Congressional District of Alabama,
N. D. Monday 8th day of Sept. 1856.
Elizabeth Garrett, by her next friend
Eliza J. Dollar,
vs.
Samuel Garrett & Garrison Garrett.
THIS day came the Complainant by her
Solicitors, and upon their motion, and
it appearing to the Register by affida-
vit on file, that one of the Defendants,
Samuel Garrett, is a non resident of the
State of Alabama, and resides in parts
unknown.—It is therefore ordered by
the Register, that publication be made
in the Jacksonville Republican, a news-
paper published in Jacksonville, Benton
County, Alabama, once a week for four
consecutive weeks, requiring the said
defendant, Samuel Garrett, to be and
appear before the Register of this court,
at his office in the Town of Ashville,
within sixty days from the date hereof,
and plead, answer or demur to the
Complainant's Bill of complaint as re-
quired by law and the Rules of this
court, or the same will be taken for con-
fession, and cause set for hearing ex-
pense as to him, and that a copy of this
order be posted up at the Court House
door of St. Clair County, Ala. within 20
days from the date hereof, and a copy
be transmitted by mail to the Defend-
ant within 20 days, when his place of
residence is made known.
ATTEST: THOMAS HAYDEN,

THE STATE OF ALABAMA,
Benton County.
Court of Probate for Benton
County, Alabama, Special Term.
Sept. 3, A. D. 1856.

THIS day came Asa Skelton, Executor
of the Estate of J. J. Skelton, dec'd.,
and filed his account and vouchers for a
final settlement of said Estate.
It is therefore ordered by the court,
that Thursday the 16th day of October
next be set for examining, stating and
reporting said account, allowing said
vouchers, and making said settlement,
and that notice thereof be given by pub-
lication in the Jacksonville Republican,
a newspaper printed and published in
the Town of Jacksonville, in said county
for three successive weeks, prior to said
day, as a notice to all persons concern-
ed, to be and appear at a special term
of said court, to be held at the court
house of said county, on said Thursday
the 16th day of October next, and con-
test the making of said settlement if
they think proper.
