

JULY

inspector's plate layers in any mine in capacity, the best  
bearing the highest character for strength, and industry. The attention of the Superintendent is specially directed to a feature of the Agency's influence  
A gentleman writes that the Agency has a monopoly in the private property of the State, including the land, and the terms on which it is leased; the nature; State county, and town; and the Agency is respectfully invited to forward a list of the names of individuals or firms who are in need of labor, or of settlers in the most desirable localities.  
Persons having control of the market, newspaper proprietors, and others, are invited to become Correspondents of THE AMERICAN EMIGRATION AGENCY, which desires to have an agent or representative in every thriving and progressive town in the United States, with a view to directing first-rate Emigration control, and to such places as most need it, such as, to degree, as will fill, and not require the requirements of each particular country. The Emigration Agency has the largest circulation in Europe, publishes THE AMERICAN EMIGRATION AGENCY, and has received the approval of all governments.  
The Agency has the honor to call the attention of all emigrants to any point in the United States, by first-class Steamship service, and so that no detention can arise. Communications must be addressed to THE AMERICAN EMIGRATION AGENCY, 214 N. BROAD ST., LONDON, ENGLAND, and ALEX. WISE, at the same address, New York, U.S.A.  
June 1870-47.

# JACKSONVILLE.

JULY 2, 1870.

**CUMULATIVE EVIDENCE.**—Speaking of the intelligence of the lower order of animals, we are reminded of a hen story, told by Mr. E. Goodie of this place, which conclusively proves that they do not only reason, but are actually fitted for and have already a smattering of the learned professions. The fox old Boop tells about, you remember, proved himself a first-rate lawyer, when he came along and everlastingly gobbled up the booty the lion and the bear were fighting over. Mr. Good's hen is a Doctor. Some days ago a little chicken, like some of the little men of this day, essayed to accomplish too much for its capacity. It had picked up a huge worm, which quietly remarking "not any in mine if you please," mildly, yet firmly, refused to be made a Jonah of. The prospect was flitting for one less chicken in the world. It was in great distress when our professional hen happened along. She took in the situation at a glance, and without waiting for her instrument case, quietly "inserted her bill" into the little chicken's mouth and drew forth the worm, which she herself very kindly swallowed as her fee.

Now people may scoff at this and affect not to believe it; but we give our author. In fact this is the best substantiated one yet. We always intend to give the author after this.

The Probate Judge's License Report is in too late for this issue. It will appear next week.

The Cherokee, Centre, snake story will appear next week. Neither Hovee nor Savage told it to us.

We have been shown some ladies Gaiters made to order by Mr. McAlister and they are positively prettier than any we have seen bought from the stores. Of course they will last a great deal longer and then they cost but very little, if any more, than northern made shoes. He also repairs ladies shoes, making old ones look as good as new. He is a first rate workman. His shop is neat and clean, and the ladies are invited to call on him and have work done. He can be found in the office in rear of Mr. Rowan's store.

**RURAL CAROLINIAN FOR JULY.**—The great trouble in noticing the Rural Carolinian always, is to notice every thing worthy of mention, and yet occupy only a reasonable space. This month we give up the task in despair, and shall only select some of the principal points. The number opens with a short and interesting sketch of Mr. Peabody, illustrated with a handsome portrait of that great philanthropist. This is followed by an article on the value of Sugar Cane as a season crop. This in turn is followed by a very elaborate and interesting essay on guano and its uses. Two articles on grasses, one in favor and the other opposed to their cultivation, give light on that question. Pages 4 and 5 figures for rice planters is worthy of special mention, and Col. Allen gives two first rate articles on the mule and the Mississippi valley. The usual large amount of valuable correspondence, numerous contributions on different subjects, and the editor's invaluable notes and suggestions help to make up an amount of reading matter which will correspond favorably with the contents of any similar work. A fine engraving of an Ayrshire cow, a full size wood cut of the Julian apple, and a picture of the new ornamental edible plant, called the "Polymnia Edulis," are among the many elegant illustrations.

Price only \$2 per annum. Address Walker, Evans & Cogswell, Charleston, S. C.

Gen. Hutchinson has the finest field of corn we have seen. The stalks average 11 feet in height, and have from 3 to 4 ears of corn to each stalk.

The Cotton crop is not going to be so good. All right. It will only make the article more valuable in market. When will our people learn that one million bales of cotton will bring as much money as five millions will. They will never learn it.

The Garrison left here on Monday for Chattanooga. We have no complaint to make. They behaved themselves remarkably well while here, and but for the fact that their presence was an implied insult to our town, we would not have cared how long they might have stayed. The officers were gentlemen, and interfered with nothing outside their duty. They were removed on the ground that they were not wanted. Let us be careful to give them no occasion to return. Indeed the radicals would be only too well pleased to have the Democrats get up a few outrages for them. Such would go far toward affecting, favorably for them, the election and serve as a pretext for them to thwart the will of the people, should Democrats be elected to office.

Gen. Hutchinson has shown us the largest onion we have seen this year. Heals left on our table the most remarkable potato we have seen. The potato measured one foot and 4 inches around. It had 10 good potatoes growing out from around it.

**Prof. H. F. Smith** lectures at the Academy, Friday night, July 1st, on the principles of Marriage. We have seen many notices of the Press, and letters of eminent men, of the most complimentary character, dated back during a period of over 20 years—speaking of him as a Christian gentleman of high character—an accurate Philologist and master of Human Magnetism. We advise all to turn out and hear him, and induce him to stay another night.

# A WONDERFUL MICROSCOPE.

Rev. Daniel Wise, D.D., editor of the New York Sunday School Advocate, thus speaks of the celebrated Craig Microscope. Its simplicity, cheapness, and great magnifying power struck me with surprise. When I was examining a fly's eye by its aid, and was struck with wonder at skill and power of the Creator which is displayed in its structure. When I saw a statement in an advertisement that the Craig Microscope magnified one hundred diameters and could be bought for \$2.50, I thought it was one of the hour, for I had paid \$30 for a microscope not long before. But now I find it to be a real and useful instrument which I should like to see introduced into the families of our readers in place of the magnifying glass which is so often used for an hour and then destroyed. This microscope would both amuse and instruct them and I advise every boy and girl who wishes to know the wonders which lie in little things to save his money until he has \$2.75 which will pay for the microscope and the postage when sent by mail.

As a holiday gift this microscope is unsurpassed, being ornamental, instructive, amusing and elegant, and never loses its interest. Agents and dealers supplied on liberal terms. A sample will be mailed post paid, to any address for \$2.75, by E. L. Woodward, 313 Locust St. St. Louis, Mo. June 23, 1870.

**The Trinchina Spirals or Pork Worm.** Perhaps it is not generally known that the most talked of trinchina spirals, or pork worm, was first discovered in America by Dr. E. C. Kendall, Philadelphia, Pa., with that American instrument known as the Craig Microscope, costing only \$4.75, after repeated failures to discover the worm with an imported microscope, costing \$25, of feeble power and less reliable. This fact Dr. Kendall stands ready to prove at any time. "Craig" Microscope in next box with full directions is mailed, for \$2.75, by E. L. Woodward, 313 Locust St., St. Louis, Mo. Read the advertisement in this paper, June 23, 1870.

Since the use of Hungarian Balsam of life has been used in the Orphan's Home of the state of Mississippi, at Lauderdale Springs, the superintendent, Mr. S. S. Gentry, has frequently expressed his satisfaction at its great usefulness in curing coughs, colds and diseases of the throat and lungs amongst the little ones in his charge. This remedy is the consummation of his hope and frequently cures when all else fails. July 2-4.

**A SCIENTIFIC WONDER.**—The Craig Microscope adapted to popular and scientific use. Read advertisement. Price, \$2.75. June 18-3m.

**PRESERVING FRUIT JARS.** A large lot just received of six varieties, all for sale at manufacturer's prices. Books with full directions for putting up all kinds of fruit and vegetables—sent free by mail to any address. J. E. Veal, Rome, Ga. June 18-4.

How many housewives are there who have experienced the difficulty of obtaining good vinegar. Read the advertisement of W. H. Distort in this paper. June 18-3m.

Good wholesome Vinegar. Any one can make it. See advertisement of W. H. Distort in this paper. June 18-3m.

Fresh Eggs and Yellow Butter can all ways be had. Read the advertisement "Greatest Work of the age" in this paper. June 18-3m.

**TO THE LADIES.** I have just received a new supply of Table Ware at very low prices, among which are:

Best French China Tea Sets, Gold bands, 44 to 60 pieces 10.00 to \$40.00  
Best French China Tea Sets, White 4 pieces, " " 56 " 8.00  
" " 68 " 12.00  
" " 80 " 16.00  
" " 96 " 20.00  
Tea Cups & Saucers 1.00  
Tea Plates, " 1.00  
Breakfast Plates, " 1.25  
Dinner Plates, " 1.50  
Vases, Toilet Sets, Jewel Boxes, &c.

Also, I have on hand a very large lot of Cruetery and Glass Ware at very reduced prices. Many articles at HALF the usual retail prices.

Also, a large lot of Fruit Jars, just received. JOSEPH E. VEAL, Rome, Ga. June 18-4.

**State of Alabama, Calhoun Co.** Court of Probate for said County, Special Term June 28th 1870.

**THIS** day came J. U. and J. W. Whiteside administrators of the estate of J. L. Whiteside dec'd., and filed their account and vouchers for a final settlement of said estate.

It is ordered by the court that the 26th day of July next be set for examining said vouchers and making said settlement, and that notice thereof be given by publication in the Jacksonville Republican, a newspaper printed and published in the Town of Jacksonville in said county for three successive weeks prior to said day as a notice to the heirs and distributees of said estate to be and appear at a special term of said court to be held at the court house of said county, on said 26th day of July next and contest the making of said settlement if they think proper.

A. WOODS, Judge of Probate. July 2-3.

**State of Alabama, Calhoun Co.** Court of Probate for said County, Special Term June 28th 1870.

**THIS** day came J. W. Whiteside and M. A. E. Burton, administrator and administratrix of the estate of John H. Burton dec'd., and filed their account and vouchers for a final settlement of said estate.

It is ordered by the court that the 26th day of July next be set for examining said vouchers and making said settlement, and that notice thereof be given by publication in the Jacksonville Republican, a newspaper printed and published in the Town of Jacksonville in said county for three successive weeks prior to said day as a notice to the heirs and distributees of said estate to be and appear at a Special Term of said Court, to be held at the Court House of said County on said 26th day of July next, and contest the making of said settlement if they think proper.

A. WOODS, Judge of Probate. July 2-3.

**Sheriff's Sale.** Under and by virtue of one writ issued from the Circuit Court of Calhoun County, and to me directed, I will sell for cash, on Monday the 1st day of August, 1870, before the Court House door in Jacksonville, Alabama, the following described lands, to wit:

Two Hundred and sixteen acres, in south half of section 32, township 15, range 9—Levied upon the property of Wm. Johnson, to satisfy one fifth in favor of Samuel Borders, this 1st day of July, 1870.

J. W. WILLIAMS, Sheriff. July 2, 1870.

**TO CONSUMPTIVES.**

THE Advertiser, having been restored to health in a few weeks, by a very simple remedy, after having suffered several years with a severe lung affection, and that dread disease, Consumption, is anxious to thank heaven for his recovery, and to inform his fellow sufferers of the means of cure.

## Jacksonville Republican.

It is not enough in itself to have worked himself into a state of indifference as to the cost or inconvenience of doing it. He seems to care comparatively little, how heavy the tax is, or how they fall, provided he is able to knock twelve, or fourteen millions every month off the total amount of his liabilities. But we think we are safe in saying that the discontent of the country under its burden, has grown in the direct ratio of his success, and that nothing has done so much to quicken, and even excite the demand for a reduction of the taxation as his last monthly statement, showing that he was contributing to the Sinking Fund at the rate of about one hundred and seventy millions a year. People will stand a good deal, and have stood a good deal, but they are not quite ready to fight a great war with a loss of a half a million of men, and pay off the cost of it, all within the same generation. The country consequently wants time on the debt, and will have it.—*Mont Ad.*

The Jacksonville meeting July 4th, will be the largest county meeting preparatory to the September convention. Mark the prediction.

Father Grant don't vouch for a famous rat story which recently appeared in the Jacksonville Republican. That belongs to the "young un."—*Selma Argus.*

When the counting of the Mobile vote on the Nicholson pavement question was begun, it was discovered that the ballot-boxes had all been tampered with.—*Selma Argus.*

No. 1 SOME.—Washington, 20th of May. Grand procession, music and oration.

Ladies and Gentlemen decorate the graves of the Union Dead. Some Southern mourners follow quietly and lay their tributes upon the graves of the Confederate dead, who sleep there. A party of Union Soldiers follow, toss their wreaths out of the enclosure, with their bayonets, and turn the mourners out of the gates.

SCENE, No. 2.—Greenville, Ala. May 10th, 1867-68-69:70. A prayer is heard, hymns are sung, a few fitting remarks spoken wreaths are laid upon the graves of the known and unknown dead. Then Southern Women who deemed it fitting, have walked from the graves of their husbands and Brothers, to scatter flowers upon the graves of the Northern Dead who have been left here. It is done in silence, in the presence of that "lance community," who stand with uncovered heads until it is over. A prayer and all return home in peace. *South Abolitionist.*

When an infidel was on his death-bed his confidence in his infidelity became shaken, and some of his friends advised him to hold on to the last. His reply was: "I have no objections to holding on, but will you tell me what I am to hold on to?"

## The Radicals on their Last Legs.

The New York Sun (Rep) thinks it is pretty much "all up" with the Republican party, and cites in evidence the loss of Oregon, the substitution of a Democratic for a Republican U. S. Senator from that State, and the defeat of the regular Republican candidate for mayor of Washington, under the very eye of the White House, in the presence of a Republican Congress, and in a city swarming with the beneficiaries of the President.

All this following on the heels of Democratic victories in New York and Connecticut, the Sun thinks, President Grant ought to accept as an indication that "either his days or those of his party are drawing to a close."

The New York Standard (Radical) says: "The Republican party in the State of New York, to-day, is a demoralized, routed rabble, without organization, and without leaders—Republicanism in New York to-day is a mockery and a by-word; in almost as deplorable a condition and pitiable a plight, as the defeated Fensians coming home from the border lines."

A honey plant has been discovered in Marion county, South Carolina, which blooms from May 10th till June 20th. It yields a large supply of the very purest honey, delicious to the palate and clear as spring water. The bush is suitable for yards, as it is quite ornamental.

Ran Cato, and a party of other Big Indians, have been in Washington, a week or so. They demand of the government the removal of a fort in their country, which, being refused, it is said will cause a general war with the north-western tribes.

The Khedive of Egypt finds it hard to manage his foreign generals. One of them from Kentucky, punched the head of his Minister of War, the other day.

A fine opportunity is now offered, Mrs. Harriet Beecher Stowe, of which we suppose she will be quick to avail herself.—*The Free Story of Charles Dick-*

Lawyers in the States of New York, Indi-

ana, Illinois, Connecticut and other States

where laws are liberal on the subject, and

permitted residing in any State or County

wishing divorces would therefore do better

to apply through me than elsewhere. I ob-

tain divorces for desertion, adultery, drunken-

ness, non-support, etc., without publicity

and without charge unless I succeed. Ad-

vicefree. I call attention to the fact that the

Supreme Court of the United States has

lately decided that divorces obtained in one

State are perfectly legal in every State.

In all cases where an advance is paid on

a case for my security, I will return the mo-

ney if I should fail in obtaining the divorce.

Every divorce obtained by me is warranted

perfectly legal everywhere. Call on ad-

dress, M. HOUSE, Counsellor at Law,

78 Nassau Street, New-York City.

March 1870.

**EROS OF YOUTH.**

A GENTLEMAN who has suffered for

years from Nervous Debility, Premature

Decay, and all the effects of youthful indis-

cretion, will, for the sake of suffering humani-

ty, send free to all who need it, the receipt

and directions for making the simple remedy

by which he was cured. Sufferers wishing

to profit by his experience can procure can

do so by addressing in perfect confidence.

# JACKSONVILLE.

JULY 9, 1870.

Two pic nics have occurred within the past week. On last Saturday the young people had a fine time at Shocks Springs. On last Wednesday the old people, (we have mighty good old people in Jacksonville) not to be outdone, got them up one. The dinner is described as simply splendid, and we are told the old men sung "I wish I were a boy again" and the old ladies (Lord love them) joined a chorus of "When the boys went sparring." Any flirtations did you say? Why bless you man, there was no end to them.

Soft eyes looked love to eyes that spoke again and all went merry a marriage bell.

They would have been there yet; but for the fact that the children needed attending to.

Mr. Editor, I see in a call posted around for a Republican Convention, the name of J. L. Hoke as one of the signers. As I am the only white man in the county bearing the name, it may not be out of place for me to state that the person referred to is not myself. He is most probably a negro, heretofore known as Jim Hoke.

Yours, Truly  
J. L. HOKE.

We cannot forbear a compliment to Mr. J. B. Turnley, one of the most enterprising young merchants in Alabama, for his liberality displayed in the Great Democratic Mass Convention of this County, on the 4th inst. A proposition was made to print 800 or 1000 copies of the proceedings by Judge Walker, who made the tender to pay one half the cost. No sooner said than the young man above referred to, replied "I will pay the remainder." This was both generous and patriotic, and should be remembered by the Democracy of Calhoun.

We are requested by the Republican Committee to state that there will be a meeting of the Republican party at this place, on the 6th of August next, for the purpose of electing delegates to attend the State Republican Convention, at Selma on the 20th of that month.

We will publish about the Peach vine, and the Snake, next week.

We are in receipt of the July number of the Eclectic Magazine. Will give it such an extended notice next week, as it deserves.

We omitted to mention last week the addition of another Mechanical establishment to our town. Messrs. Morris & Alexander have received a magnificent stock of Family Groceries and Preserves, and from the popularity of each gentleman, who can doubt but that they will build up an immense business.

Among the Summer visitors to Jacksonville, we observe the family of the Rev. Mr. McVoy of Selma, and Cal. Perine of Cahaba, with his wife and accomplished daughter. Other families from South Alabama have come in recently. There is room for more.

The Republican will be furnished for the Campaign ending with the State Elections in November for the low price of 50 cents.

The Territory of Idaho has gone Democratic. The Democratic Member to Congress was elected by nearly 1000 majority. And still they come.

Our friends will please indulge us this week, for the appearance of the *Republican*. Domestic affliction called off the attention of both the Senior and Junior Editors. We promise it "red hot" from now until the end of the Campaign.

We invite attention to the advertisement of Lookout Mountain Educational Institute. The name of Lookout, near Chattanooga, as a Summer Resort, is well known. When all the advantages of a healthy Summer resort and fine educational facilities are united, the choice is apparent. This is one of the finest Institutes in the South—an excellent Faculty, and deserving all the patronage our people can confer upon it.

Subscribers complain that men take their papers out at Alexandria and other Post offices and do not give them to them. A man that would steal a newspaper would steal \$3. Now if you are not a subscriber to this paper, just lay it down, or hand it over to the man it belongs to.

We have several times recently eaten at the table of Mr. J. D. Hammond, the gentlemanly proprietor of the Jacksonville Hotel, and are constrained to say, that a better bill of fare could not be presented in the South. The hotel has a very cozy parlor and a magnificent piano, where guests can amuse themselves.

We have travelled some (without boasting) but in all our wanderings, we have never come across a finer and more cozy Ice Cream Saloon than that kept by J. H. Sargeant. His Ice Cream is deliciously flavored and almost too solid to cut with a knife. The Saloon being at his private residence, the ladies need not hesitate to go, and partake. Indeed, as fast as they find out where it is, they come. We have noticed crowds every day in the week going to the Saloon. A good place to go, sparkling boys.

# LOOKOUT MOUNTAIN

EDUCATIONAL INSTITUTIONS.

Rev. C. F. Bancroft, Principal.  
FALL Session of 20 weeks begins August 3, 1870. College Class added to the other departments of the Institutions. For particulars, send for catalogue to C. C. CARPENTER, Sup't. July 9, 1870.—3m.

The Hungarian Balm has cured and will cure, the most desperate of cases. It is no quack nostrum, but a standard medicine, of known and established efficacy. Consumptives try it. For sale by all druggists. July 9-11.

**PRESERVING FRUIT JARS.**  
A large lot just received, six varieties, all for sale at manufacturer's prices. Books with full directions for putting up all kinds of fruit and vegetables—sent free by mail to any address.  
Send for a Book.  
J. E. YEAL, Rome, Ga.  
June 18-14.

**TO THE LADIES.**

Hot Summers.—From the report of the late Nuremberg, in Bavaria, we get the following interesting facts:

In 1132 the earth cracked by reason of the heat, the wells and streams in Alsace all dried up, and the bed of the River Rhine was dry. In 1152 the heat was so great that sand exposed to the sun's rays was hot enough to cook eggs. In 1160 great numbers of soldiers in the campaign against Beia died from the heat. In 1276 and 1277 crops of hay and oats failed completely. In 1303 and 1304 a man could have crossed, dry shod, over the rivers Sene, Lior, Rhine and Danube. In 1393 and 1394 a multitude of animals perished by the heat, which was so great that the harvest dried up. In 1440 the heat was extraordinary. In 1538, 1539, 1540 and 1541 all the rivers were nearly dried up. In 1556 there was a great drought, which extended over nearly the whole of Europe. In 1615 and 1616 there was in Italy, France and the Netherlands, an overpowering heat. In 1648 there were 58 consecutive days of extreme heat 1678 was very hot, and as were the first three years of the 18th century. In 1718 it did not rain a single time from April until October. The growing grain was burnt, the rivers dried up, the theatres (but wherefore is not stated) were closed by command of the police. The thermometer showed 86 degrees Reaumur, equivalent to 113 degrees Fahrenheit. In irrigated gardens the fruit trees bloomed twice. In 1723 and 1724 there was great heat. The Summer of 1746 was hot and dry, the growing grain being calcined. It did not rain for months! 1748, 1754, 1760, 1767, 1778 and 1788 were years in which the Summers were extremely hot. In the famous comet year—1811—the Summer was warm, and the wine produced that season was very precious. In 1818, the theatres had to be closed on account of the heat, the highest temperature being 35 Reaumur or 112 Fahrenheit. During the three days of the revolution of July, in 1830, the thermometer stood at 30 degrees Centigrade, about 87 Fahrenheit. In 1832, during the uprising of the 5th and 6th of July, the temperature was about the same.

#### ANOTHER MISSOURI TRAGEDY

Horrible Murder of a Young Lady by Her Lover.  
Correspondence of the Courier Journal, ASHLLEY, PIKE Co., Mo., June 15.]

Below I will give you a short account of one of the most shocking murders ever committed in this or any other civilized country.

A young man, who gave his name as Ambrose B. Coe, came to this place a few days ago under the pretence of getting employment; but, as the sequel will show, he came with the avowed purpose of killing one whom he says he has loved desperately for three years.

Miss Miss Summers, whose parents live in Quincy, Ill., has been employed in this place as a music-teacher in Watson Seminary during the last session. She attended Sabbath-school last Sabbath morning, and church at eleven o'clock. The young man Coe was seen to take a position at the church door and await the closing of the services after which Miss Summers, in company with some other young ladies, returned to her boarding-house. Coe immediately followed her and called at the same house. He was met at the door by professor Watkins and invited in. He approached Miss Summers and offered his hand, which she refused, and started from the room, when the young man said to her, "Stay Abbie, I wish to see you alone." Miss Summers said to Prof. Watkins, who was also in the room, "Please retire for a moment," which he did. The door being closed after him, he had only been out a few moments when he heard the screams of Miss Summers. He rushed to the door, and finding it locked, he, with the assistance of the gentleman of the house Mr. Griggs, forced it open, and discovered upon the floor the lifeless body of Miss Summers with a large butcher-knife sticking in her body, and young Coe standing over her. The murderer was immediately arrested and committed to jail.

The only cause given by him for committing the deed was that he loved his victim to desperation, and that she did not return his love.

Young Coe is about twenty-two or twenty-three years of age, and is, apparently, a young man of intelligence. He says his parents live in or near Galesburg, Ill. Miss Summers was stabbed in five different places.

G. W. M.

A Gadsden Steamboat.—We hear it rumored that R. B. Kyle & Co., proposes to build a steamboat at an early date to run from Gadsden in the interests of that place, and the Alabama and Chattanooga Railroad. The Railroad from Gadsden to Attilla, the point of intersection with the above named Road, is only 6 miles long, and the track is now being laid. As soon as practical they propose to try to carry, by the use of the proposed steamboat, the Coosa river freights that way. Rome had better be looking to her interests in this matter.

Rome Courier.

#### DR. LAWRENCE'S KOSKOO!

THE GREAT HEALTH RESTORER.

DR. J. J. LAWRENCE, ORGANIC CHEMIST, NORFOLK, VIRGINIA.

KOSKOO! STRIKES AT THE ROOT OF DISEASE BY PURIFYING THE BLOOD, RESTORING THE LIVER AND KIDNEYS TO A HEALTHY ACTION, AND INVIGORATING THE NERVOUS SYSTEM.

This is the secret of its WONDERFUL SUCCESS IN CURING

Scrofula, Syphilis, Dyspepsia, LIVER COMPLAINT, CHRONIC RHEUMATISM, NEURALGIA, NERVOUS AFFECTIONS, Eruptions of the SKIN, HUMORS, LOSS OF VIGOR, DISEASES OF KIDNEYS, AND BLADDER, AND ALL DISEASES CAUSED BY A

BAD STATE OF THE BLOOD, OR A DISEASED CONDITION OF THE LIVER, KIDNEYS, NERVOUS SYSTEM, &c.

It thoroughly ERADICATES every kind of Humor and Bad Taint, and restores the entire system to a healthy condition.

Thousands have been changed by the use of this medicine from weak, sickly, suffering creatures to strong, healthy and happy men and women.

No medicine has attained such a GREAT REPUTATION as this JUSTLY CELEBRATED Compound.

Approved by the Highest Medical Authority.

KOSKOO! Endorsed and recommended by the President of the Faculty of the City of New York.

Prof. R. S. NEWTON, M. D., Professor and President of the Faculty, late "Professor Thier" and Practitioner of New York, Cincinnati, &c.

One of the most celebrated medical men of this age, well known as the author of the following standard medical works: "New York's 'Practitioner of Medicine,' 'Dyspepsia,' 'Chronic Rheumatism,' 'Syphilis,' 'Scrofula,' 'Nervous System,' &c., in a December number of American Medical Review—page 278, says:

"Among the most recent efforts to introduce popularly, some of the most remedies we noticed a new preparation compounded by J. J. LAWRENCE, M. D., of Norfolk, Va., which is furnished to the profession and the public in my desired quantity. We recently examined his Laboratory, and became fully satisfied that all his work is done in the most perfect manner, by the most approved process, and from the best materials, giving as a result a medicine meriting the confidence of the physicians and the public."

Koskoo Cures Scrofula in its Worst Form.

From A. W. Mills, a prominent and well known merchant of Norfolk, Va. No. 11 Main St., Norfolk, Va. Sept. 1869.

Dr. Lawrence—Dear Sir: Your Koskoo has worked wonders in my family. My daughter has been a sufferer from Scrofula since childhood. She lost nearly one piece of bone from her ankle, several from her arm, besides having ulcers in several parts of the body. Whilst in this condition she could not take your Koskoo—I acted on a charm on her mother's use the others gradually healed, and her general health greatly improved. It certainly saved her from suffering, and perhaps her life. I regard Koskoo a specific for all scrofulous affections. Your Koskoo also cured my wife of dyspepsia, from which she suffered greatly. She is now in better health than she has been in five years.

With the highest regards, I am, respectfully, Yours, &c., A. W. MILLS.

Koskoo is endorsed by the best physicians everywhere. Read the following from Dr. Tillery, a successful practitioner of many years standing in the Old North State.

Rocky Mount, Edgewood Co., N. C., September 10, 1869.

Dr. J. J. LAWRENCE—Dear Sir: I have used your Concentrated Fluid Extract of Koskoo in my practice with the happiest results. I find it to be a powerful Liver Regulator, Blood Purifier, and Nervous Tonic. In all diseases of the Liver, Scrofula, Syphilis, and Nervous Affections, it is a remedy of immense value. In fact, in almost every variety of Chronic Disease its use is indicated. Hoping you may meet with the success which you deserve as a manufacturer of reliable medicines, I am, Sir, with much respect,

Your obedient servant, R. C. TILLEY, M. D.

Koskoo Cures Chronic Rheumatism. From Dr. J. J. Lawrence—Dear Sir: My son has received much benefit from your wonderful Koskoo. I cannot refrain from expressing my gratitude. I had tried almost everything without benefit. I believe, in all sincerity, that your Koskoo has been the remedy for the trouble from which he has suffered, and, so far as I can learn, has never failed. If you only knew the immense amount of suffering that he has undergone, you would realize the value of such a remedy as Koskoo—truly a great cure. The great amount of good it is now doing among his is inestimable.

With much gratitude, I am, respectfully, Yours, &c., Mrs. M. E. NELSON.

Read the following from Mr. Womble, a prominent Hardware Merchant of this city: No. 13 Market Square, Norfolk, Va. October 13, 1869.

Dr. Lawrence—Dear Sir: To the large number of testimonials which you offer of the great efficacy of your Koskoo, I have been adding my own. I suffered greatly with Nervous Debility, Headache, Loss of Appetite, &c. Two bottles of Koskoo restored me to health.

Yours truly, J. G. WOMBLE.

From Rev. W. H. Christian, Pastor of the Middle Street Methodist Church, Portsmouth, Va. Oct. 25, 1869.

This is to certify that I know Dr. Lawrence well. He is a gentleman of cultivation, and worthy of the fullest confidence. I have used his Koskoo with advantage to myself, and have adopted its use in my family in cases of nervous debility and depression.

W. H. CHRISTIAN.

From Dr. Lloyd, a Physician of Large Practice. Great Bridge, Va., Oct. 8, 1869.

J. J. LAWRENCE, M. D.—Dear Sir: I cheerfully endorse your Koskoo as being a valuable preparation. Upon examination of the formula, I find each ingredient highly exalted by our best and most progressive clinical investigators. I have tested its effects in my own practice, and have no hesitation in recommending it. In my opinion, it is the best compound of its class ever put before the public—exceeding by far the various compounds of sarsaparilla, &c., ever invented. It is a decided Nerve Tonic, and invigorator of the animal forces, aiding digestion and assimilation, and thereby producing healthy blood, which should be the basis of treatment in all chronic diseases. Hoping you will reap the reward you deserve from the public as a benefactor.

I am, Sir, yours truly, CHARLES LLOYD.

After reading the above high recommendation, I cannot reasonably hesitate to give the Koskoo a trial.

For Additional Testimonials from Physicians, Eninent Divines, Editors, Druggists, Merchants, &c., see KOSKOO ALMANAC for this year.

PRICE \$1 PER BOTTLE. For sale by the principal Druggists in the United States, and British America.

Boys! Boys! Boys!!!

Little boys of Rome

Do you know what you're about?

You stand upon the platform,

And jump upon the cars

You leap upon the crosses

And play upon the bars

You ride upon the iron frame

In front for catching cows

You yell, and shout, and run and curse

And kick up ugly rows

Do your mothers know you're out?

Or what are they about?

Do they know how bad you are?

Or do they really care?

If they don't, then they're fools

For they're not your mothers

And they're not your fathers

And they're not your brothers

And they're not your sisters

And they're not your friends

And they're not your foes

And they're not your enemies

And they're not your lovers

And they're not your friends

And they're not your foes

And they're not your enemies

And they're not your lovers

And they're not your friends

And they're not your foes

And they're not your enemies

And they're not your lovers

And they're not your friends

And they're not your foes

And they're not your enemies

And they're not your lovers

And they're not your friends

And they're not your foes

And they're not your enemies

And they're not your lovers

And they're not your friends

A Prospect of War.

Intelligence from Europe is of a

character that leads to the

belief that a war is

inevitable. Spain wants a ruler,

and in the mean time

she is willing to accept

of any ruler who will

secure the requisite

number of votes in

the Cortes, and make

the Prussian prince

a Spanish king. If

this programme is

adopted, the invasion

of the Spanish

territories will be

the first step in the

conquest of Spain

by France. The

French government

is not without

reasons for

believing that

Spain will be

conquered by

(Special Correspondence of the Register)  
SAN FRANCISCO, June 22, 1870.  
DISCOVERY OF A NEW MINERAL.

That there are more things in heaven and earth than our philosophy dreams of, is proved every day to an extent that must make the wisest amongst us painfully conscious of ignorance. Prospecting for gold in California is conducted on recognized scientific principles. The searcher after precious metals, carefully studies the lay of the ground, the position of water courses, the indications of hidden channels, and having noticed these, sinks his shaft or drives his tunnel with the expectation of striking the auriferous deposit. But a Mr. Mallory has within the past week shown us that it is possible to discard the usual method of prospecting by trusting entirely to the directions of a hazel Wand. Some seven years ago Mallory took up his residence in a mining district near Yreka, and having put up a cabin began, to wander through the neighboring mountains with a forked piece of stick in his hands. A good many people thought he was crazy, but others of more experience, knowing that Mexicans in the southern counties always find water by its method, told what was his object, and so his movements were watched with great interest. At length the red indicated to him that a saddle shaped bed of silver ore, a half mile in extent by a single wrapped up in an adjoining mountain, and he at once commenced opening a tunnel to it. For seven long years he labored patiently, constantly encouraged by the workings of his simple diviner, and on the tenth of this month his perseverance was rewarded by striking the golden pommel of the saddle, the first substantive sign of the immense wealth of the hill. The rock crushed in a mortar has yielded an average of \$17 to the pound.

#### THE CURIOSITIES OF MINING.

would form a very readable paper especially that portion of it describing the manner in which some of our principal mineral levels have been discovered. The new Almaden quicksilver mine was first found by an Englishman, who noticed that the Indians resorted to a certain place a peculiar red stone with which they painted their faces, was led to examine the deposit, thus discovering the richest richest mass of cinnabar in the known world. The Redington quicksilver mine, which was described in the Register a few weeks ago, was accidentally discovered by laborers making a road near the locality whose curiosity being excited by the weight of some stones they were lifting broken off a pile and sent it to a geologist, with a request that he would tell them what it was. The famous Boorhardt silver mine, in White Pine was shown to the men by Indians, who brought pieces of native silver to a camp of loggers, and offered to tell where they got it for a certain quantity of flour and tobacco. The celebrated Blue-Gravel lead, one mile of which yielded, from 1854 to 1860, the sum of \$5,095,000 was found by a man who was digging a well, and the Butte mine, in Sierra county, from which \$1,345,000 was taken in four years, was struck by a hunter, who sitting down to rest, noticed pieces of disintegrated quartz lying around, which were richly streaked with gold. Nor have all the great prizes yet been drawn. Some three weeks ago two Chinese came to Hubbard and Andrews, bank in Auburn, Placer county, with a quantity of solid gold slugs, for which they obtained a few dollars. A few days afterwards they returned with more, and later still with a chunk worth five hundred dollars. All these lumps had small pieces of quartz sticking to them, had never been in the fire or touched by quicksilver, and it was plain that they had been found from a bar of gold in its native State. Last week they sold a lump worth a hundred dollars to a storekeeper in the vicinity, and they have evidently discovered a slab of the precious metal imbedded in some quartz boulder or ledge.

**FALLS IN SAN DIEGO.**—A gentleman connected with the surveying party of the Memphis, El Paso and Pacific railroad, reports that he recently visited a remarkable waterfall, known as the "Transit Falls," on the headwaters of the San Diego river. It describes these falls as being two hundred and twenty feet in perpendicular height, the stream, as it dashes over the precipice, being ten feet in width. The water falls the whole distance at a single leap, and presents a magnificent scene. Above the falls the stream runs for some distance through a beautiful valley. The scenery of that region is described as being in grandeur and beauty anything ever seen, except only that of peerless Yosemite.

**BIG YIELD.**—We learn through Mr. Ed. Rorben, of Clayton, that Jasper Kneibright of Ogden county, made thirty bushels of wheat off one acre of land this year. It was mowed with 200 bushels of cotton seed.

It was common red wheat, and two other acres mowed with 50 bushels of cotton seed per acre, yield was 25 bushels per acre.—*Griffin Star.*

**THE ST. CLAIR COUNTY, ALABAMA, VENIETTES.**—We learn from a gentleman just from Alabama that the war between Sheriff Brown and posse, and Jack Springfield culminated in an engagement at Astville, the county town, last Sunday. About one hundred men on each side were engaged. Jack Springfield and his brother were desperately wounded, together with eight or ten others. The Springfield party were arrested. Both the leaders are radicals.—*Rome Daily*

One of the most eminent medical men of

this age—well known as the author of the

following FRAMING medical works: "New

York's 'Practice of Medicine,' 'Diseases

of Children,' 'New York's State Sanitary

Report,' &c., &c. In December number of *American Medical Review*, 1868, says:

"Among the more recent efforts to intro-

duce popularly some of the new remedies,

we notice a new preparation compounded

by J. J. LAWRENCE, M.D., of Norfolk, Va.,

which is furnished to the profession

and the public in many desired quantities.

We recently examined his Laboratory, and

found it to be in the best manner, by the most approved

process, and from the best materials, giving

as a result a medicine entirely new, the

composition of the ingredients and the name

**Koskoo Cures Syphilis in its Worst**

**Form.**

From A. W. MILLS, a prominent and well

known merchant of Norfolk, Va. Sept 1869.

Dr. Lawrence—Dear Sir: Your Koskoo

has been a great blessing to my family. My

daughter has been a sufferer from Syphilis

since childhood. She lost thirty-one pieces

of bone from her ankle, several from her

arm, besides having severe swellings of

the body. Whilst in this condition she

commenced taking your Koskoo—it acted

like a charm on her; under its use the swellings

gradually subsided, and her general health

greatly improved. It certainly saved her

much suffering, and perhaps her life. I re-

gard Koskoo as a specific for all syphilitic

affections. Your Koskoo also cured my wife's

syphilis, from which she suffered greatly.

She is now in better health than she has

been in years.

With the highest regards,

I am, respectfully, yours, &c.,

A. W. MILLS.

Koskoo is endorsed by the latest physicians

everywhere. Read the following from Dr.

Filley, a successful practitioner of many

years standing in the Old North State:—

Rocky Mount, Edgecombe Co., Va.

September 10, 1869.

Dr. J. J. Lawrence—Dear Sir: I have

used your Concentrated Fluid Extract of

Koskoo in my practice with the happiest

results. I find it to be a powerful Liver

Purifier, Blood Purifier, and Nervine Tonic.

In all diseases of the Liver, Scrophulous

Syphilis, and Nervous Affections, it is a

remedy of immense value; in fact, without

any exception, of the Koskoo I do not use in

any case. Having you ever met with the

cases which you give as a manual, or

of reliable medicines, I am, with much

respect,

Your obedient servant,

R. C. TILLEY, M.D.

Koskoo Cures—Chronic Rheumatism

Norfolk, Va. Sept 7, 1869.

Dr. J. J. Lawrence—Dear Sir: My son

has received a severe laceration of his arm

from a fall. I cannot refrain from ex-

pressing my gratitude. I had tried almost

everything without benefit. I believe, how-

ever, that your Koskoo is a restorative

remedy for the disease from which he has

suffered, and so far as I can learn, has never

failed. If you only knew the immense

amount of suffering that he has undergone,

you could conceive the value of such a

remedy as Koskoo—most surely yours. The

great amount of good it is now doing among

us is incalculable.

With much gratitude,

I am, respectfully, yours, &c.,

Mrs. M. E. A. NELSON.

Read the following from Mr. Wondra,

a prominent Furniture Merchant in Norfolk,

Nov 12 Market Square, Norfolk, Va.

October 13, 1869.

Dr. Lawrence—Dear Sir: To the large

number of testimonials which you collect

and send me, I have been adding, I find

pleasure in adding my own. I suffered

greatly with Nervous Debility, Headache,

Loss of Appetite, &c. Two bottles of Kos-

koo restored me to health.

Yours truly,

J. G. WONDRA.

From Rev. W. H. Christian, Pastor of the

Wide Street Methodist Church in

Portsmouth, Va. Oct 25, 1869.

This is to certify that I know Dr. Law-

rence well. He is a gentleman of cultivation,

and worthy of the fullest confidence.

I have used his Koskoo with advantage to

myself, and have adopted its use in my family

in cases of nervous debility and depression.

I have tested it in my private practice, and

have no hesitation in recommending it. In my opinion,

it is the best compound of its class ever

put before the public, and is a restorative

remedy in all cases of nervous debility, &c.

I am, sir, yours truly,

CHARLES LLOYD.

After reading the above high recom-

mendation, I have no hesitancy in testifying

to the KOSKOO a trial.

JACKSONVILLE, ALA,  
Saturday, July 23, 1870.

The dispatches below tell how this scoundrel Kirk is carrying out his wishes and beliefs of his party in State.

RALEIGH July 18.—Kirk and several citizens of Alamance county Friday.

A writ of *habeas corpus* granted by Chief Justice Peabson on Saturday served on Kirk yesterday and he refused to obey, saying "that sort of thing played out." The charges against him are not made known.

It may be replied that persons who  
accuse against me occupy position  
of honor and distinction. Let that be  
true. Unfortunately, prominent place  
sometimes reached by persons who do  
not deserve them.
