FOR A WOMAN'S SAKE.

BY WATTS PHILLIPS.

"Stop, you young imp! If you dun-
not stop, I'll give you a small shot
in the eye!" "Blast it! I was a Queen of
England, I'd make no more of a shot
than you do of a rabbit!"

"You're a nice man, Mr. Grimes, to
quote her blessed Majesty's name while
threatening the lives of her subjects!
What harm have I done you, that you
should want to shoot a poor fellow like
me?"

"Am you young wiper? Was't it you
poaching in the woods, just now?"
"I poached? Well, you'll be writing
for the newspapers next, Mr. Grimes;
you're always inventing of something
extraordinary!"

"Was't yer in the plantation? An-
swer that like a man, or a boy, or a
key—which latter you most resemble!"
"Of course I was. I scorns lies; I
in them, with the other luxuries, to my
superiors!"

"What was yer there for?"
"To gather wilds for Miss Maud.
She always rides home this way, and I
like to give her a bunch as she passes."
"Do you take me for a fool, Joey
Thistle?"

"Well, one isn't expected to give a
free opinion always, Mr. Grimes. If
the words were not much, the look
that accompanied it spoke volumes; and
the indignation of a gentleman, with a
sudden movement of his large
hand, seized the boy by the collar."

"You varmint! Is it you, you dare
to cut your jokes on me? You dare
to say, 'Silas Grimes, isn't here now; and
if you don't go down upon your knelted
knees, I'll cut the life out of you, that I
will!'"

"Go down upon your knees to you,
Phil Grimes? You shall cut me into a
thousand pieces first!"
The gentleman, a burly ruffian, with
a face of beef and a hand of iron, swung
the light towards him, at the same time
brandishing a savage kick with his iron
shod foot.

"As my pardon, I tell 'ee, or it'll be
the wuss for ye! Squire Seratton's giv'
me my orders, and I'll limber-ye—that I
will!"

"Purple with rage, the boy struggled
in the strong man's grasp, and called
loudly on 'Tiddlywink' for help, but that
valorous servant, after having bravely
pinned Mister Grimes through his
gutters, was rendered thoroughly hors
de combat by a joint attack made by the
two accompanying him."

"Down on your knees, and ax my par-
don of."
Before Phil Grimes could, for the
second time, repeat his threat, he was
brutally held down the struggling boy,
the light of a riding whip was laid
upon his shoulder, and a musical voice
spoke close to his ear.

"Why, you great cowardly fellow,
what are you doing to that boy? Do you
want to murder him? Let go of him at
once, or I'll lay my whip about your
shoulders!"

The keeper, utterly astounded, relaxed
his hold, and permitted Joey Thistle to
wiggle from his grasp; at the same
time a young lady, leaping from a small,
active little pony, was greeted by both
Thistle and his master.

"The one gave a cry, and the other
jumped about her, indulging in a series
of eccentric gambols, which elicited
from the young lady a peal of laughter,
while Joey Thistle, doffing his rag of a
cap, seemed to have sunk into the lowest
depths of dejection, as if a malignant
glance at the keeper, he muttered be-
tween his teeth, 'Not a wit for you
today, Miss Maud Willoughby!'"

She looks from one to the other; and
then again gives way to another out-
burst of merriment.

"Man, boy, and dog recognized the
spell of her presence, the unspeakable
charm of her manner."

"Shall we describe her? Yes; but feel-
ing the difficulty of the task, we take
time for cooler thought, and postpone
our description till the next chapter."

CHAPTER XIX.

MISS MAUD WILLOUGHBY.
As Miss Maud Willoughby is to be
our heroine, we are naturally anxious
that the reader shall have something
more than a vague idea of her personal
appearance, and, therefore, make a
momentary pause in the action of our
story to paint a very brief sketch of her.

Maud was pale, a little pale, per-
haps, but it was a pallor full of health
and vigor, not in the least suggestive of
delicacy or want of vital force. Her
eyes were dark and clear, the fire that
burned in their bright depths being
softened by long lashes, which shaded
rather than veiled their brightness.

Her hair was black, but it was a black-
ness that received the light, and then
threw it off with a gleam—black, when
unloosed, that fell far below her waist,
and which fell in soft, thin plaits, twined
many times around her head—a diadem
of beauty to be envied by a queen.

She was tall, being rather above than
under the ordinary height of women;
but the outline of her figure was as
graceful and flowing as the outline of a
wave; and if her fine and rather sharply
cut features gave to her face, judging it
at a first glance, a somewhat haughty
expression, her smile—and Maud smiled
very often—was sweetness itself. But
why continue to catalogue her virtues?

Let us say at once that Maud Willough-
by was a most charming girl—so charm-
ing, in fact, that envy, in its worst mood
would have been compelled to admit
that, but for a few faults, which she will
leave open to comment, she would have
been absolute perfection.

Perhaps, after all, the best way should
have been to let our heroine's beauty
alone—that is to say, to leave it to be
duly enjoyed by her lover or lovers.

But, alas! Maud was not so fortunate
as the case may be, to the development of
her character in speech and action; for,
as in the mind's eye, we conjure up our
own remembrance of Maud's sweet face
and graceful figure, we feel how inade-
quate to her merits all prose descrip-
tion must be.

It was, however, with anything but
eyes of admiration that Grimes, the
keeper, glanced at the beautiful girl,
who, her riding whip still grasped with

ominous tight-
ness, stood be-
hind her, and
little Joey
Thistle, while
Tiddlywink the
dog, who seem-
ed to consider
that, with her
arrival, all dan-
ger was at an
end, continued
his gambols
about the girl,
but that the
joint protec-
tion, wagging
his inelegant
tail as if he
would wag it

ement, which
would have im-
proved his ap-
pearance."

"I didn't

how you take
such a young
pouching vari-
ant as that
under your pro-
tection, and
Squire Serat-
ton won't be
best pleased
when he hears
of it."

"It's quite
immaterial to
me what you
think, or your
master either.
The boy is not
your master's property
now, and you shall not treat him
as such."

"All treat!" growled the keeper, with
a savage look, the grinning boy. "If
I'd caught him afore he got of 'the
dog, I'd have lined him, now!"

"What coose?" asked Joey, with a
look of lamb like innocence. "It's very
hard, Tiddlywink, and we can't take a
walk on the sward, which is free to every-
body, but you should come jumping out
upon us, aspin' our dissections, and a takin'
away our karaters."

"Oh! yer a nice babe of 'grace, you
are; butter wouldn't I cut in your mouth."
The keeper, not tallying either, if it was
pursued by the boy, replied the boy.
"I'm one of the independent sort, I am,
as would rather make my dinner of a
handful of nuts than phum phud and
hand beef, if the hands was dirty as off-
ered to 'em. Them's my sentiments, and I
know 'em are Tiddlywink's."

"You have 'em, miss?"
Squire Seratton's a-speakin' agin, now."

"How do you know that, when the boy
hasn't mentioned any name? Is it by
the color of his hands you recognized
him?" asked Maud, with a contempt she
took no pains to conceal.

"That's one for you, old Grimes!" cried
Joey, cutting a caper, to which Tiddlywink
expressed of feeling, Tiddlywink con-
tributed a bark.

"What I do know," replied the man,
as he turned the Squire a justice of the
peace, and that also how I'll treat the

JACKSONVILLE REPUBLICAN
JACKSONVILLE, ALABAMA.
SATURDAY, AUGUST 12, 1871.

A CARD.
JACKSONVILLE ALA.,
August 11th 1871.

To the People of Calhoun County:
Inasmuch as I am resting under disabilities and am now satisfied that those disabilities will not be removed in time to allow me to participate as a candidate in the coming election, I withdraw my name from the list as a candidate for County Treasurer.

To those friends who have shown an anxiety to have me again fill the office of which I was deprived, and to those aspirants for the place, who, with a delicacy as rare as it is refined, have refrained from presenting their claims while there was any possibility of such a result, I return heartfelt thanks. Hoping that the day may soon arrive when every American freeman can have the privilege of submitting his claims to the suffrages of the people.

I am, Very Respectfully,
L. W. CANNON.

After an absence of some weeks, we are again in harness. The wheat crop in East Tennessee as we have already stated through letters, was a perfect failure, and when we left there the corn crop was also suffering much. Our people will have to depend mainly on the West, we fear, for provisions this year. While in Fork Creek we visited most of the principal places of enterprise in the valley, among them the magnificent merchant mill of J. P. McCosker, the finest perhaps in East Tennessee—the mill that at no distant day will sell most of the flour consumed in the markets of the country lying along the Schuylkill and Dalton R. R. above this point. The mill turns out, in vast quantities, the very finest flour we have ever seen. No expense was spared to make it perfect in all the appliances for turning out fine flour. It amply repaid an hour spent in looking through it. We also took a stroll through part of the extensive Nursery of Messrs. Ward & Co. Nurserymen, whose address is Sweetwater Tenn. These gentlemen understand their business well and invariably please customers. In addition to the fact that they are perfectly honest in their dealings—selling only such fruit trees as they represent to have the advantage of our Northern Nurseries, in that fruits suited to their climate are the kinds that grow best here. We have some of their catalogues that we will take pleasure in giving those who desire to look over them. They will have a local agent here to attend to the demands of the people of this county.

White Cliff Springs we liked so well that money lasting, we intend to spend every Summer there.

Gen. Harlan, the Radical candidate for Governor of Kentucky, so badly defeated in the recent canvass by the Democratic candidate is the man who caused the arrest of Rev. W. H. Mitchell, pastor of the Presbyterian Church and President of the Female Institute in Florence, because he prayed for the success of the Confederate cause, during the late war. His defeat is retributive justice too little severe in aspect.

Kentucky, notwithstanding the negro vote of over forty thousand, which went with the Radicals, has given us a Democratic victory by thirty thousand. The election was for Governor, other State officers and Legislature. It is said that every member of the Legislature is a Democrat.

The motto of Woodhill and Chaffin's Weekly (edited by women) is "Breaking the way for future generations." This is a prerogative of the men that the women's rights should not interfere with, if they do get on the breeches.

A CARD.
To My Friends:
Inasmuch as I am under disabilities I shall not announce my name as a candidate for Sheriff.

W. A. STEWART.

The agitation of the water subject has been fruitful of one good at least. Some of our citizens, tired of waiting for it, or hopeless of getting it, are having wells dug. We notice that Dr. P. Linder has one sixty feet under way, and there is also one sinking on the square, on the East side of the Court House where Dr. Carroll's switch turned down. In the meantime the Council are pushing their project to bring water from the mountain and we confidently expect to see the work complete in ninety days.

Charleston, S. C., which has been long groaning under the rule of ignorant Radical negroes, fanatics and fools, has at last been redeemed from the hand of the spoiler, and now rejoices in Democratic management. The election went Democratic by seven or eight hundred majority. This result was accomplished by the help of negro votes. Some fifteen hundred of whom voted with the Democrats. When South Carolina negroes abandon the Radical party, the atmosphere surrounding it is certainly very bad. The time is not far distant when the negro vote of the South will be cast solidly with the Democratic party. That time has already come in our country.

A convention to amend the rotten constitution of North Carolina was defeated in a recent election, through Radical chicanery. It may be well as it is, for the tyrant at Washington had declared his intention to prevent the holding of a Convention in the event the people voted one. Inasmuch as it has been defeated through fraud, King Ulysses forgives force. What a commentary on Republican institutions!

The crops in this country are almost entirely ruined. The rains that have fallen in the last few days may help some.

Peaches are as abundant now as blackberries in their season, and the distillation of brandy goes bravely on. It is to be regretted that more of it will not be canned and dried, that will clear up the produce its legitimate crop of disease, sorrow and death.

Attention is invited to the Livery Stable advertisement of Mr. Richard Weaver in another column. A Livery Stable is a necessity and great convenience to Jacksonville, and we hope to see it so liberally patronized as to make it a permanent.

Under the auspices of Rev. Mr. Patterson, of the M. E. Church of this place, quite a revival has been going on the past week or two. May the good work go on until great good is accomplished.

We have received a catalogue of the Tusculooa Female College for 1871. Among the faculty we notice the names of Miss Carrie Tarrentine, an accomplished young lady of Gadsden Ala. The exhibit made in the catalogue speaks well for the institution.

Our accomplished friend Jno. Howland presented the REPUBLICAN office yesterday a lot of the finest and most delicious peaches we have seen this season. We will him the hand-some young lady in town in return. He owes us some boot-

FINE TOBACCO.—Ed L. Woodward has laid upon our table a lot of real fine tobacco, an article long a stranger to this market. Lovers of the weed will be glad to know that they can get a good article by calling on him.

We have received four numbers of the "Advances," a weekly paper printed in the city of Montgomery and edited by Col. Joseph Hodgson. The connection of Col. Hodgson with the paper is a guarantee that it will be carefully conducted. We wish it a widespread circulation.

Attention is invited to the advertisement of J. P. Morton & Co. Louisville Ky. Next week we will publish the endorsement of some of their text books by the Alabama Educational Convention, as also flattering notices from the Montgomery Advertiser. Mr. Terval Putnam representing the house, has recently been among us and we hope has succeeded in introducing his publications; for being the works of Southern authors, published by Southern publishers, they richly deserve it. Mr. Putnam is sometimes mistaken, for his name, as far above that Putnam both in pure political principle and social and moral standing as is the heavens above the earth. We will notice more at length in our next.

We have two more announcements for Sheriff this week—D. W. Wadick and D. Z. Goodlett.

Bob Turner's dying request (which he did not however insist in his card) was that the incoming Tax Collector might pay the printer as promptly and as fully for work done as he had. He undoubtedly paid always every dime. He seemed to take a pride in it.

THE FIRE IN TALLADEGA.

Last Friday morning about 4 o'clock the building occupied by the State office was discovered to be on fire, and under such headway as to prevent its control.

The particulars, as we heard them, are as follows: The steps approaching the office, leading from the street, were set fire to near the entrance to the office, by some devil in human shape, which prevented an entrance to the office. The flames communicated to the adjoining buildings; all of which were framed, and they burned rapidly.

The buildings burned were owned by the following persons: Arthur Bingham, three houses, occupied as grocery store by Calhoun & Co. S. H. publishing company, Cabinet Shop, and by negroes as a residence. Heinson's family grocery and bakery Saverly & Plorens building occupied by bar and billiard saloon and E. S. Miller, family grocery, Charles George's two buildings, bar and billiard saloon. E. S. Miller's building occupied by Stamps & Joiner's family grocery. Building belonging to the Clarke heirs, occupied as a furniture house. The Watchtower building occupied by McAdams jewelry store; A. W. Plorens's family law office.

The Sun office, Calhoun & Co. and Heinson lost their entire stocks of goods. Heinson lost about \$3,000 in specie. The other establishments saved most of their goods. The entire loss will amount to \$50,000. Bingham, Heinson and George are the heaviest losers. George had about \$4,000 insurance. There was no other insurance.

There seems to be but one opinion as to the origin of the fire.—Spite, malice and hatred for some one has burned up one entire side of the square, sacrificing at least \$50,000 worth of property.

Talladega is a growing thriving city of three thousand inhabitants doing an immense business, with liberal and energetic business men in everything except in their negligence to provide any means to guard against fire. They have neither an engine or hook and ladder company—no organization to fight fire. In the past seven years Talladega has suffered by fires to the amount of at least \$200,000, and yet no positive action has been taken to provide the city with an organized fire department.

ment. We urge our Alabama friends to delay no longer, prepare at once for the next fire.

How to Make a City Prosperous.

We agree with the Richmond Enquirer, that the best way to build up a city is for every man to advertise his business, thereby presenting to the people through the papers an array of business houses, equal to the number of business houses on the streets. It draws trade, produce and money to the city. If a man wants to buy anything, he goes where he sees the most competition in the sale of the article he is in quest of. If he wants to sell he goes where the most people are buying. If a man wants to buy or sell he goes to the man that advertises, for he knows where to find him, and what he has to sell. This is undoubtedly the grand secret of the success of many flourishing cities. But there are a number of our business men who have not availed themselves of the advantage offered by advertising. To all such we would say follow the example of your more prosperous neighbors and advertise freely. Judicious advertising will always pay a large percentage upon money invested in such a purpose.

JUST AS HE EXPECTED.—One of the truly loil, who came to Montgomery last Saturday to save the country, bought a paper box of Lucifer matches before leaving which he safely deposited in his vest pocket. But on the road home his benzine so completely conquered him that he sought a dense shade and fell asleep. He slept until pitch darkness set in, when happening to roll over on his side he ignited his whole box of Lucifers which, burning through box and cloth, aroused him from his slumbers in a sense of the inky darkness by which he was surrounded. He felt the fire, inhaled the burning sulphur, drew a hasty conclusion and expressed it as follows: "Here now! Fore God, jes what I spected. In hell an' a roastin'! Dat come o' follerin' dem damn Radicals!"

Montgomery Advertiser.

Uncle Isaac Watts—his name never beat the following for tender sentiment and prophetic meaning says an exchange:

How dolt the little busy boys Improve upon their toys And find new pleasure every day In some meantly noise.

What pains they take to find a box And ring it with a string; That they may rack our quivering nerves, With the infernal thing.

Let dogs delight to bark and bite, Their discord we can bear; Let turkey-gobblers, pigs and hens Their sentiments declare— But children, you should ne'er be let To torture those tin cans; Our ear drums were not made to split, Nor any other man's.

LATEST NEWS.

FROM WASHINGTON.

Washington, August 8.—Last night Grant sent his private secretary to Pleasanton, requesting his resignation. Pleasanton declined to resign, where upon the President determined to suspend him and appoint Douglass. The matter will probably be consummated to-day. Papers appointing Douglass and suspending Pleasanton are being prepared.

Yersailles, August 8.—The court martial trial have commenced the examination of witnesses. Ferre, one of the accused, attempted to make a speech in defence of the Committee, but he was not permitted to proceed. He denied that he had ordered the burning of the place of the Ministry of Finance. Several witnesses swore that Ferre personally forbade the release of the prisoners in prefecture while it was burning. Ferre and Assi were both insolent in speech and manner, and were frequently reprimanded by the court. The court room was crowded with spectators.

FROM IRELAND.

Dublin, August 8.—The royal visitors left Dublin to-day, and a cheer was heard from the thronged streets through which they passed when leaving, and the silence was only broken by a few hisses from the bolder bystanders. The conduct of the police at Phoenix Park, which is represented as having been exceedingly brutal, has embittered and greatly enraged many of the people. The people are in favor of amnesty to Fenian prisoners, but violent opposition to the authorities is generally deprecated. The belief was that the royal visit would be made an opportunity by the Government for the release of imprisoned Fenians. The populace were very bitter against the Prince of Wales because he has not interceded for amnesty. The whole police force are still on the alert, and the military concentrated at the barracks ordered to be ready if called upon to aid the police. Thus far no deaths have been reported, but it is thought that five to ten persons will

die of their injuries. How, the superintendent of the police is in a critical condition, but hopes are entertained of his recovery. It is yet uncertain whether the government can legally prosecute Mr. Smyth and other leaders of the demonstration.

LOUISIANA.

New Orleans, August 9.—At an early hour this A. M. large crowds of whites and blacks assembled were found in the Custom Building where the Republican Convention convened. At about 9 o'clock two companies, the Nineteenth United States Infantry with two guns under the command of Capt. South arrived. The troops marched in and staked their arms in the hall at the head of the steps on Canal street entrance. Large numbers of Deputy United States Marshalls closely guarded every entrance to the Custom House. No one was permitted to enter without tickets from Marshal Pinaro, and at half past ten Governor Warmouth, accompanied by Gen. Cembell, Senator Pinchback and about eighty followers, some with and without tickets entered the building and endeavored to pass through the hall, but were stopped by the Deputy Marshal and informed that no one would be permitted to pass until the hour for opening of the Convention. Warmouth expressed his indignation and mounted the chair and said, having been refused admittance to the hall designated by the Central Committee for holding the Convention, "I propose to adjourn to Turner's Hall and hold a convention there." The speech was received with cheers and a few hisses. Warmouth descended from the chair and proceeded to and entered his carriage. The crowd took out the horses from the carriage and dragged it triumphantly through the streets to Turner's Hall.

At 12 o'clock the Convention was called to order. Mr. Masters, Carroll and Parish were elected temporary chairman. Warmouth Pinchback, Campbell and Judge Dillibell denounced the interference of United States officers. Dillibell characterizing the Custom House Convention as a body of administration favorites, guarded by bayonets and lawless tyranny. Pinchback said: "Is it possible we are to be put down by the government we have sustained. If that be the case, the sooner this government is torn down and a monarchy built upon its ruins the better." A permanent organization was made with Pinchback as President.

At half past seven this evening the Convention met at Turner's Hall. Packard called the Custom House Convention to order at 12 o'clock. J. Henri Burch, colored of Baton Rouge, was elected temporary chairman. The Paramount organization followed with Lt. Gov. Dunn chairman.

CONSUMPTION, Its Cure and Its Preventive, BY J. H. SCHENCK, M. D.

Many a human being has passed away, reason than the neglect of known and readily obtainable means of cure. Those who are afflicted with this disease are sleeping calmly adopted.

DR. JOSEPH H. SCHENCK'S SIM- PLE TREATMENT, and availed themselves of his wonderful Remedies, they would not have fallen.

Dr. Schenck has in his own case proved that wherever sufficient vitality remained for their cure, he is quickened into healthful vigor.

In this statement there is nothing but the truth. To the faith of the invalid is sent this substantial proof by his own works. The theory of the cure by Dr. Schenck's medicine is simple as it is successful. It is self-evident.

The Sea-Weed Tonic and Mandrake Pills are the first two weapons with which the invader of the human system is met. Two-thirds of the malady is usually killed. Two-thirds of the cure is usually effected. The third part is the result of the action of the liver, the setting in, with all its disorganizing results, of the

CONSUMPTION The Mandrake Pills are composed of one of Nature's most potent gifts—the Podophyllum Peltatum. They possess a blood-purifying, alterative properties of colic, but unlike calomel, they

"LEAVE NO STING BEHIND." The work of cure is now beginning. The vital force is now being restored to the bowels and in the alimentary canal, the liver, like a clock, is wound up. The bowels from their torpidity. The stomach acts positively, and the patient begins to feel that he is getting well.

A SUPPLY OF GOOD BLOOD. The Sea-Weed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chills, fevers, and all other symptoms of the disease, now progress with the blood. There is no more chills, no more fever. There is no more chills, no more fever. There is no more chills, no more fever.

Now comes the greatest Blood Purifier ever given by an ignorant doctor to suffer from Consumption. Dr. Schenck's Sea-Weed Tonic and Mandrake Pills come in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It rejects and rejects the impure and diseased portions of the blood. The action of gathering,

The Art of Kissing.

Mr. Editor: We read this morning, in the *Selma Times & Messenger*, rather an elaborate article on that finest of the fine arts—kissing. Being an ardent lover of all good things, we could not avoid the mouth, as well as a longing desire to taste the "forbidden fruit." It strikes us that we have read in times past canons of a somewhat similar character to those found in the *Times*. But we beg leave, most respectfully, to enter our protest against some of the author's views, in reference to the manner of performing this most elegant and truly ravishing duet.

The *Times* man is evidently a novice in the business. He is no true Sybarite, no true lover of God's best gifts to poor, sinful man. "Take it standing," says he. What, during this hot and sultry weather? No, sir, sitting, say I. By all means, let the parties sit down to it in a cozy corner, and sip and sip to their hearts' content. Don't be in a hurry—take your time for it. It is altogether too good a thing to be shared over in a hasty and slovenly manner. In the first place, be sure that you kiss the right one; and, then, don't steal it, or snatch it in a hurry, only to feel afterwards as if you had been doing something mean and unworthy. In order to enjoy it to the fullest extent, let the time be about twilight; the place, a nicely shaded corner in some well-furnished parlor; the subject being, of course, your "own one," your "beautiful," your "angel," &c., &c. "Chairs will do, but a soft and well-cushioned sofa is better. Suppose yourself to be *à la* with her, the object of your soul's idolatry. Approach your mouth towards her cheek-like ear. With your softly, lovingly, wooingly as the "sweet South," and let your theme be, about—the lady herself. Let it be supposed that Ma is absent, and busied about the household affairs in—well, no matter where, so she is not eavesdropping the parties interested. Send now a telegraphic dispatch by the eye to the loved one, and if it should be favorably responded to, then and there is your opportunity. Get now, if possible a little nearer. No sudden starts, mark you—no rapid and hurried movements, but come down to your work leisurely, in the gentlest and most insinuating manner. "Take her by the left hand," says the individual of the *Times*. Pshaw! Let her hands alone. She may need her hands, and her arms too, for that water, for other and far gentler purposes. Well, to begin again. It is strange how that fellow of the *Times* continually puts me out.

Make your approaches in a gentle and most respectful manner; fix her by the well-known magnetism of the eye, and then, throw both arms over her shoulders, and press her close, closer to your bosom, until you can feel her every heart beat. Now lean your head over a little, just a little. Then close your eyes and go it blind if you will. The fact is, it is too sweet, too ravishingly intoxicating for the light of common day. Lean a little over now, I say, and sip in the glorious Nectar drop by drop, slowly, appreciatively. "One long as one." "Twenty short as one." "Oh, ye gods and little fishes." Then does the earth reel from beneath your feet, heaven opens to the view, stars and rainbows, blue-ribbons and red shoes dance before your bewildered vision, and the lesson is learned. Whole oceans of bliss lave as it were your poor, thirsty soul in its life-giving waters, lift it into the seventh heaven of joy, and "lap it in Elysium." We are truly sorry for the fellow who does not feel good for a whole month after a brief experience of this character.

It reminds one, indeed, of that first marriage and first kiss that was given in Paradise. The earth was then young and sinless, the morning stars sang together, the blue sky was their only canopy, the flowers bloomed and blushed around them, and the birds strained their love-swollen throats to sing the grand epithalamium of the young lovers. They were without a pot or kettle, owned neither house nor lands, nothing but love and Eden. We have had, at times, some strange thoughts about that same first marriage, and more particularly have we been exercised about the aroma of that first pure virgin kiss. We can only wish, however, that we ourselves had been there, and that we had been the man "what did it."

JAIL DELIVERY.—On Wednesday some little excitement was caused by the escape of six out of seven of the prisoners confined in our jail. They had succeeded in saving the locks off the grated door of the dungeon, and when the jailer went down through the trap door into a middle room to feed them at breakfast, they overcame him and made their escape through the trap and out of the building. Almost simultaneously with their escape, parties were in chase and four out of the six were overhauled and taken back. Two of the most lusty negroes reached the woods and escaped. Our jail cost the county enough money to be secure, but it seems that prisoners walk out through the floor, the roof, the sides, or the door whenever they please. The knowledge that they can escape whenever apprehended, has not a very salutary influence upon our criminal class.

Some days ago I had the pleasure of greeting our genial friend W. W. Draper, of the house of Crane, Baylston & Co., Atlanta Ga. Mr. Draper, as is well known to our people, is one of the most affable and agreeable gentlemen one meets in a lifetime—one just suited to represent the interests of any firm, and file warranted in saying that his stay among us was not without its fruits. The House he represents is a very old and reliable one (formerly of Charleston S. C.) and we bespeak for them in Mr. Draper's behalf the patronage of our merchants.

Jacksonville again has a telegraph office, under the immediate management of Mr. W. E. Atkins, a gentleman in every way qualified to attend to the duties of the post, and accommodating to a degree rarely found among attaches of Railroad and Telegraph companies. The office is in the Depot building.

Reliability and Efficacy

Both result from the lack of ability to convert the food into nutriment. How necessary, then, for those suffering from these alarming symptoms to immediately resort to a remedy that will strengthen the stomach and digestive organs. For, as soon as this desirable object has been accomplished the health improves, and the patient resumes his usual personal appearance. Hostetter's Stomach Bitters has attained a world-wide popularity in such cases, and have been proven the best and safest means of removing consumption, and relieving every symptom of nervousness and depression of spirits. Its cheering and beneficial effects are highly spoken of by thousands who owe, to its restorative to health. No restorative in the annals of medicine has attained the same popularity in the short space of time it has been before the public, or has won the high commendations accorded to this excellent tonic. Many other preparations purporting to be correctives and restoratives, have been introduced, and have perished one by one, while the popularity of Hostetter's Stomach Bitters continues to increase, and is now recognized as a standard household medicine. The success which attends the use of the Bitters evinces at once its virtues in all cases of debility and diseases of the stomach—Certificates, almost without number, have been published, attesting its truly restorative power in removing those painful and fearful diseases. And at this time it seems idle to do more than call attention to the great remedy of the age, in order to awaken public attention to its excellence. It is not only preparation of the kind that is reliable in all cases, and it is therefore worthy of the consideration of the afflicted.

FOR A WOMAN'S SAKE.

BY WATTS PHILLIPS.

CHAPTER XXV.

WHAT IS TO BE DONE?

Had Silas been one of those who, fifteen years before, had come upon that scene of horror under the firs in the hollow of the Silver Wood, he would have been struck with the similarity of the two groups.

Here again, was the prostrate man, pale, bleeding, and to all appearance, dead, with the dejected woman bending over the head which she has raised from the ground, and placed upon her knees.

A glance informed Silas as to the cause of the accident.

"He has had a bad fall," he said; "a very bad fall; but, with heaven's blessing, there is no fear for his life."

Maud clasped her hands in fervent thanksgiving.

Silas glanced upon her face for the first time, and his look was full of pity, for he read there the word "love," as easily as he would have read it if printed in a book.

Both were startled by the bark of a dog—a series of larks, which came nearer and nearer.

"It is Joe's Thrasher!" he said. Then, leaping to his feet, he called "Joe!"

The call was answered by a joyous bark of the dog, and a shout of "Silas!" from a boy who came leaping up from the hill side.

"Oh, Silas! what has happened?"

"Mr. Ormsby has had a bad fall, but I hope and believe there is no more harm done than a doctor can remedy. If we could only find some carriage, we could carry him to Oakwoods."

"While you could ride into Oakwoods on Miss Willoughby's pony, and fetch Dr. Cameron."

"Mind, Dr. Cameron, for old Doldrum would be hours coming, at the meanwhile, I can set and do what I want to. Mr. Ormsby's arm—the left arm—for I fear it is broken."

"Gatford!" said Joe; "needn't go so far as that to find Dr. Cameron. He's at Oakwoods, and I'll go and fetch him, and I'll get him to the doctor's office."

"I'll best take him now to Brook's, while you run off to Oakwoods as fast as your legs can carry you, and ask the doctor to drive over to the road."

"Well, that would be less of time, and no mistake!" interrupted Joe, "and here he is!"

The best way, as I see, miss, "and here he is!"

Miss Willoughby, who was at the other side of the house, had been running to the doctor's office, and she was now standing before him.

"And you, Miss Willoughby?"

"I am here. You have done all that you can do, and I will do what I can."

"Mr. Ormsby! you return, Brook's Farm is as far as Oakwoods. We have already lost much time."

"That is the best way! That is the only way!" said Maud, in a tone of decision; adding, after a moment's hesitation, "But let this kind person you call Silas fetch the car, while I go to Joe, and take the pony over to Oakwoods, and that everything is ready for our arrival."

"And you, Miss Willoughby?"

"I am here. You have done all that you can do, and I will do what I can."

"Mr. Ormsby! you return, Brook's Farm is as far as Oakwoods. We have already lost much time."

"That is the best way! That is the only way!" said Maud, in a tone of decision; adding, after a moment's hesitation, "But let this kind person you call Silas fetch the car, while I go to Joe, and take the pony over to Oakwoods, and that everything is ready for our arrival."

[AUNT CORDY ASTONISHES HER VISITORS.]

"Fifteen years is a long time to wait, Jane—a very long time. I fear my old bones will be at rest long before I see you again."

"It is not so long, as you think, Jane. I have been waiting for you ever since you left me."

"I am sure of it, Jane. I have been waiting for you ever since you left me."

"I am sure of it, Jane. I have been waiting for you ever since you left me."

"I am sure of it, Jane. I have been waiting for you ever since you left me."

means could the dark stain be eradicated which the breath of slander had left upon the white robes of Lady Willoughby.

"For fifteen years, long, weary, anxious years, had this faithful woman waited for an answer to these questions. The world with its myriad occupations, its myriad cares, had soon dismissed the whole matter from its thought. And what event is there of that importance that it should be kept green in the world's memory for fifteen years? A city is overwhelmed and buried, and almost ere the ashes are cool another city springs up close by, and the old one is a thing forgotten."

But time the Destroyer is also time the Avenger, and Jane Steer had lived on, hoping almost against hope, that some means would arise by which the veil of the mystery would be rent, and the truth discovered.

That such discovery would utterly clear the memory of Lady Willoughby, and exonerate her from the charge of some crime, she never doubted.

It was, therefore, with the utmost anxiety she watched by the pillow of Cyril Ormsby.

Who so likely to find out the truth? The truth is ever to be discovered, as the son of the man she believed to have been so fully wronged?

With simple, unassuming, and yet so active and energetic, a man of the world, and yet so true, she would have selected for the work.

To clear his father's name was to clear his own, and if their motive were wanting, his love for Maud would make the same a treasure as her hand.

So the housekeeper sat by Cyril's bedside, and talked of her young lady by the hour.

As yet she had said nothing to Miss Fancourt of the secret which she had first, in plain, gleamed from the invalid's lips, and which a close observation of both Maud and Cyril afterwards had fully revealed. She knew that Aunt Cordy was quick of temper, and when roused, decided in action; therefore postponed the revelation till Cyril should, at least, be well enough to speak for himself.

Chance, however, stepped in, as usual, took the matter, as far as speaking to Miss Fancourt went, out of her hands.

A month had elapsed since Cyril's entrance to the roof of Oakwoods, and he was getting so rapidly better, that Dr. Cameron had informed Miss Fancourt of his inexpressible joy, that in a few days he should consent to his removal to Dr. Ormsby's house.

A joy that was by no means shared by Maud, nor by the sick man himself.

A day that had been unusually sultry, even for August, was fading into evening when Maud Willoughby, who had heard of Cyril's recovery, and who had returned from a long and solitary ride without speaking to any one, sought her own room.

When there, she closed the door, went to the table, and, undressing, she took up a book, and began to read.

The letter was from Cyril Ormsby.

"I had been written in the housekeeper's absence that morning."

The broken envelope was lying at her feet, the open letter in her hand, and her eyes had already scanned the first lines, when a tall figure, stepping along out from that part of the room where the evening shadows were deepest, held a hand, softly, very softly, on Maud's shoulder.

"Maud!"

"Is it possible that I am an unwelcome intruder in my niece's room?" asked the old lady, but without a tinge of anger, in her voice.

"Who is that letter from?"

minutes' silence, she again addressed Maud, still seated at her feet.

"The letter you have read is the letter of one to whom the world's truth and beauty are more than mere empty sounds, and I have nothing against such a letter."

"Oh, I knew you would like Cyril—Mr. Ormsby, I mean," cried Maud, child delighted, for she thought, poor child, that her aunt's approval once given, all would be at an end.

But the old lady's gaze was full of a quiet dignity, yet so utterly free from anger, checked her, and Miss Fancourt continued without otherwise noticing the interruption.

"The letter is simple enough. The Scramblers, as you know, in spite of all the snubs they have received from me, have appointed their intention of paying a state visit to me, tomorrow, accompanied by that underbred creature, their cub of a son."

"I should have been as usual, 'absent,' but that in this man's lot or the speaking of some business of importance concerning you, which, to quote the vulgarism of your own words, 'is for my private ear.'"

Such people in the Scramblers, you will say, are despicable. They are so, but they are also dangerous. So I shall receive this man with the other members of his menagerie. But shall receive them as I should receive any other set of people, without any of that little ceremony which they, the Scramblers, cling to as an outward evidence of their own importance. For that reason, I directed my maid to be cleared out of the way, and while the servants were chatting about it, I came to chat with you. I found these books upon the table. Mechanically, I turned them over, and read the titles on the backs, and saw the new novel, 'Tempest,' I untied the ribbon."

"Aunt—dear Aunt!"

"Hush! hush! I'm not angry. We cannot play heads on young shoulders. I mean not to do so. I shall be as usual. They grow very fast, even as I do. But when I saw the letter, I own I read a little, but that's all over now. CALHOUN COLLEGE.

It will be borne in mind that the above named Institution opens its portals for the reception of pupils on the 28th of the current month. We sincerely hope that all interested in its success will send in their children at once and promptly. Let them commence with the opening of the session. The College absolutely requires the prestige of a good beginning. Jacksonville is surely able to support two good schools. If not, then we will have to rely, in some measure, on patronage from abroad; and this can be secured only by harmony and unity of sentiment at home. There is not a man, woman or child in the community that is not deeply interested in the success of the College. To the rising generation, its good name and reputation is a matter of the first, of the highest importance. Let its friends, then, and the friends of those who are to come after us, bury all heart-burnings and prejudices arising from differences of opinion, and enlist themselves and their children in the crusade against ignorance and crime. We must support Institutions of learning, or we must build jails and Penitentiaries. Choose ye, and let your choice be dictated by love and affection toward your own children, as well as those of your neighbor.

GOOD TEMPLAR'S ORGANIZATION.
In accordance with a previous call, a number of our citizens convened last night, at the Baptist Church in order to form a Good Templar's Society. On motion Hon. M. J. Turnley was called to the chair, and A. W. Richardson appointed temporary Secretary.
Rev. S. Henderson presided especially invited to explain the object of the meeting, did so in a few pertinent and practical remarks, in which the duty of our citizens in the premises was set forth in a clear and cogent manner. On motion a Pledge was offered and accepted and the following citizens came forward, gave in their names.
Signed,
Rev. S. Henderson, G. I. Turnley, A. W. Richardson, L. W. Grant, W. H. Fleming, W. G. Caldwell, J. Rosenberg, W. F. Turnley, Joseph Nunneley, Jim C. Francis, R. W. Blackburn, Samuel Henderson, Jr., J. W. Mitchell, N. E. Webb, S. W. Crook, Joshua Draper, Jas. F. Crow, M. J. Turnley.
Quite a number of ladies, both married and single, kindly gave their names to the Association.
On motion a committee was instructed to communicate with Mr. Palmer, of Blountville, Ala., to obtain authority, and the forms necessary to the formation of a lodge of Good Templars.
The meeting then adjourned to convene on the call of the committee.

JACKSONVILLE, AUG. 18, 1871.
TO THE VOTERS OF CALHOUN COUNTY.
Fellow Citizens—As my worthy friend and old and tried servant of the people, Mr. Cannon, has withdrawn his name from the canvass, on account of legal disabilities, and as I have been solicited by many of you to run for the office of County Treasurer, I hereby announce myself as a candidate for that office.
Many of you know me. I have been raised in the county, and am disabled for any physical labor, from the effect of a wound received during the late war. And while I claim to have done nothing more than my duty in that contest, and nothing more than thousands of others; yet it is neither indelicate nor improper for me to take my chances before you, for an office which I think I can fill to the satisfaction of all; and thereby be enabled to change my present business, for one less laborious and better suited to one disabled. If elected, I will serve you as honestly and faithfully as I can.
Hoping to receive your support.
I am, Yours Truly,

Lieut. Killebrew of the United States Civil Engineer Corps, engaged in surveying a route for the Ship canal between the Tennessee and Coosa Rivers was drowned in the Coosa a few days ago.

We thank Hon. P. M. Dorr for Congressional Documents, Patent Office Reports &c.
It seems that the announcement of L. W. Cannon, Esq., in relation to the matter of his disabilities, has been misinterpreted by some, most interested. He in no way alluded to the present incumbent in the mention of his being deposed of office. He rather referred to Gov. Smith directly and the policy of the Radical party generally.
This Mr. Cannon has seen fit to instruct us to say that no injustice may be done the immediate incumbent.

We trust that our citizens will heed the call of the Professors of Calhoun College to the meeting on Thursday evening next. Let us, then, have a good turn out, and prove thereby that we all have deep and abiding interest in the success of the Institution. Such a demonstration will be encouraging alike to the Teachers, and to the friends of education at large. Bear in mind that the prosperity of our town is largely dependent upon the success of our Literary Institutions. Let there be, then a grand rally at the college on Thursday night next.

A NEW RACE OF MEN UNDER THE EARTH.—An American gentleman having descended into a deep mine in England, has discovered a new race of men and women, living in the centre of the earth, exhibiting numerous striking characteristics. For example, the women are larger physically than the men, exercise the right of suffrage, and do the necessary courting themselves. Such a thing as celibacy is unknown among them. No man is found so coy as to resist successfully the wooing of the gender sex. Women say they are more loving and affectionate in their nature, and hence are the proper persons to initiate the matrimonial arrangements, necessary to the happiness of the sterner sex. No wives, it is said, are more affectionate and loyal, and no cases of divorce are known among them. They argue that men are often dull of comprehension and do not seem to understand hints and inducements held out to them by their sweet hearts. Hence the necessity of placing the matter of courtship in the hands of the women. It is altogether a first rate arrangement. Fancy a big, lusty fellow, sitting in a cosy corner and listening to the protestations of one of the fairer portion of mankind. See him blushing to the roots of his hair and telling his fair partner to go and "ask Pa." "Wouldn't it be rich, rare and racy?"

THE A. & C. R. R.—The creditors in Chattanooga failed to make any arrangements with Gen. Clanton in regard to the State of Alabama running the A. & C. R. R., and he is now in consultation with Gov. Lindsay and other gentlemen with a view to determine upon some course of action which will restore order out of the present chaotic condition of the road. We hope that whatever is to be done may be done quickly, as we are all losing money every day the road lies idle.—*Chattanooga Times.*

EDUCATIONAL CONVENTION.

We desire to call the special attention of the Teachers of Alabama to the subject of the Report, which the "reconsidered" just before the adjournment of the late Educational Convention and laid on the table, reflected the deliberate choice of the very intelligent committee, and no doubt also that of the Convention.

We are gratified to see that in every case, save one, the choice was of text books by Southern Authors. This is right, and we hope soon to hail the happy day of intellectual deliverance for children of the South.

"Mr. President and Gentlemen of the Convention: Your committee beg to report that after having given to the subject of Text Books such consideration as the time and circumstances would allow, most respectfully recommend the adoption of the following named books as suitable texts for our public schools namely:

History—Holt's.
Spelling—Butler's.
English Grammar—Butler's.
Speakers—Butler's.
Composition, 1st and 2nd—Bonnell's.

And if we were allowed to go beyond the curriculum of the public schools, we would further recommend the *Algebras* and *Geometries* of the *Davies Series*, and also *Bingham's Classical Series*, all of which is most respectfully submitted.

FRANKFORT.

TWO NEGROES LYNCHED.

One a Rioter, the Other a Ravisher.

THEY ARE TAKEN FROM JAIL AND HANGED.

Rumors that Two More Will be Hanged.

Special Dispatch to the Enquirer.

FRANKFORT, KY., August 8, 1871.

The excitement consequent to the riot continued through all of last night and is but little abated to-day. It would require a very small outbreak now to inaugurate a far more terrible conflict. Every citizen armed and ready for the emergency. Though no positive disturbance is anticipated, rumors that the blacks intend to resist to the torch are rife in the community, and private guards are rendered necessary.

Between one and two o'clock this morning a body of white citizens, variously estimated at from 100 to 500, made their appearance at the jail and demanded the custody of Henry Washington, the wounded black rioter, and a negro who had ravished a white woman one day last week. Both were given up to them, and this morning at daylight the bodies of the two men were discovered suspended from the limb of a tree in a suburb of South Frankfort. Hundreds of negroes and whites visited the spot from daylight until eight o'clock, when the bodies were cut down and carried in wooden coffins to the Court house, where they remained until last night, and it is not probable they will be to-night, though a rumor is current that they, too, will be hanged.

The city officers are still in search of several prominent rioters, but so far they have eluded all pursuit. Henry Washington deserved his fate, if ever a murderer did deserve the halter. But several negroes were taken to the jail, and are getting recruits, but up to this time no recruits have appeared. All respectable Radicals unite with the Democrats in a determination to put down the lawless spirit of the negroes. The negroes were led to believe that the Federal troops stationed here would approve of their course, whether right or wrong, and they are bitterly disappointed to find their sympathies entirely with the white population. Once they thought that one or more of the missing rioters will be taken to-night.

The body of Gilmore was taken to Lexington by the nine o'clock train this morning. The public offices have been closed to-day in honor of his memory. A large delegation will go from here to Lexington to attend the funeral. He is to be buried with Masonic honors.

Bishop was buried this evening, and though a man in very humble life, his body was followed to the grave by many of the most affluent citizens of Frankfort. The State troops are on duty out for duty to-night, and the Federal troops are in readiness to answer the call of the civil authorities if their services are needed.

COURTS-MARTIAL are making quick work with leading Communists in France. There are no legal delays in legal questions. A few direct questions are put to each witness in each case, and the defense is limited to the road. When the evidence is ended the judgment is probable. Two prisoners have been sentenced to death, and a score of others have entered at one end of that dark lane. It would have been far better for the Republic to have turned these men over to the civil authorities for trial. More time and money have been consumed, but no bad or dangerous precedent has been established, to plague those in authority at some distant day.

A statement going the rounds of the press that a vote is to be taken this year in Texas, on a division of the State into four States, is an error. The bill for that purpose passed the Texas House of Representatives, but not the Senate.

Paris—Trouble.

To-day is the fete of Napoleon I.

The air is full of rumors that the Versailles Assembly, and declare McMahon regent; and demand the return of the Empire. The people are leaving Paris in a stampede. Thiers has no friends, he is hated by Republicans, Royalists and Imperialists alike. The crisis is approaching.

The wife of an editor in New York thinks it very nice to have an author for a husband. Whenever she feels restless he reads her something he has written, and in a few minutes she is in a profound and refreshing sleep.

A Puzzle Solved.

[From the New Orleans Picayune.]

In our Friday morning's edition we published the following for which the New York World is responsible.

"A resident of Hartford who died, leaving his lady in a condition which it is hoped her love for him rendered consonant with her wishes, also left a will that, if the anticipated infant turned out to be a boy, two-thirds of the estate should be his, and the remaining third should go to the widow, if, on the other hand, a girl should be born, the widow was to have two-thirds of the property and the child one-third. But, with a woman's peculiar aptitude for unnecessarily complicating questions, the lady saw fit to bring forth twins, of whom one is male, the other female. Now all the lawyers in the land are at loggerheads to decide whether the boy shall have two-thirds and the girl one-third of the estate, leaving nothing for the mother, or whether the mother can claim one-third for having borne the boy and the other two-thirds for having borne the girl. Dr. Butler is reported to have suggested that the simplest way out of the difficulty would be to divide the property into six-thirds—or say seven, and give him one."

Yesterday we called upon W. H. Sutton Esq., of the firm of Sutton, Powell & Huey of this city, who handed us the subjoined solution of the puzzle, which we publish for the edification of the disagreeing New York doctors of law;

Daughter, 3.
Mother twice as much as daughter, 6.
Son twice as much as mother, 12.
Suppose the Hartford man's estate to be \$10,000—
Daughter, 1
Mother twice that, 2
Son twice mother's share, 4

7-10,000
Daughter's share, \$1,328 4-7
Mother's share, 2857 1-7
Son's share, 5,714 2-7
Estate mathematically divided and will sustained.

THE A. & C. R. R.
The United States Court in Mississippi Affirms the Validity of Alabama's Mortgage.

Trains running from Meridian to Attala. Gov. Lindsay's informed us last night that the United States Court in Mississippi affirmed the validity of Alabama's lien on the A. & C. R. R., and issued a writ of possession directing the Marshal to run over to the agent of the State all the property attached.

We further informed us that the people along the line of the road in Alabama were delighted with the prospect of having communication once more with the world, since they are now entirely out of supplies of all kinds.

Trains will run this week from Meridian to Attala regularly. Under these circumstances we do not wonder that the business men in Chattanooga are becoming indignant at the conduct of certain creditors of the road who have made their boasts that the State shall under no circumstances run the road, and desire to express their indignation by a public meeting. One of the gentlemen who requested us to call the meeting is one of the heaviest creditors of the A. & C. R. R. company, but he has sense enough to see that his claim cannot be compromised by allowing the road to run, and his business is now suffering severely because he can not fill orders for his goods to be shipped down the A. & C. R. R.

The citizens of Chattanooga should hold those men to a strict responsibility who are fighting so strongly against the best interest of the community, either through ignorance of the situation, or by connivance with that detected swindler who still seeks to involve this whole country in deeper ruin, out of spite at being foiled in the consummation of his gigantic scheme of robbery.

The man who still puts confidence in the lying stories which Stanton is still having circulated has not brains enough to fill a flea's head. Even Gov. Bullock of Georgia, as we are informed, says that Stanton can not raise five cents on his own credit, or that of the road.

The only thing to be done is to bring the power of public opinion to bear upon the men who still oppose the running of the road by the State, in spite of the repeated promises of her agents that their legal rights should be protected, and to give them to understand that if they persisted in fighting the interest of Chattanooga, they must take the consequences.

Chattanooga Times.

The editor of a Western paper says: "We cannot exist any longer on firewood maple sugar and sheepskins. We bid our patrons good by and offer for sale two hundred bushels seed potatoes, slightly frost-bitten."

The wife of an editor in New York thinks it very nice to have an author for a husband. Whenever she feels restless he reads her something he has written, and in a few minutes she is in a profound and refreshing sleep.

Our school-books are electrotyped, printed and bound in Louisville. They are the work of SOUTHERN Authors, and are published by the House South of the Ohio engaged in the publication of school-books. These facts should induce teachers of the South and West to examine our books before coming to a conclusion. We have a careful comparison with others, feeling satisfied that our publications will more fully meet the wants of our people than those of any other house. They are now in use in the most important schools of Virginia, Kentucky, North Carolina, Tennessee, Missouri, Georgia, Alabama, Mississippi, Louisiana, Texas, and California.

*Principals of Schools and Colleges, and Members of Boards of Education, are requested to send us their Catalogues and School Reports, for our reference.

*Books sent for examination, on application, at special rates. Favorable terms for first introduction. Address:

Why not get well?
It is an established fact,
convincingly proved by
the highest testimony, and
by the practical test of 100 years
successful experience, that
Dr. Crook's Wine of Tar has
been administered with the
most extraordinary success
in all diseases of the throat
and lungs, performing
many very remarkable
cures of cases pronounced
incurable,
such a remedy merits a
trial from all who are
afflicted and vainly seek
for relief. Will you not
try it? Will you not
try it?

The Druggists write that "all who try to re
cover from having several bottles of
time, and stating they would not be without a
bottle in their houses." It cures all Coughs,
Colds and Chronic Coughs, and its many
standing with other remedies have been
caused it to be considered a specific for these com
plaints. It requires little time to take it, and
Consumptives, and all suffering with
Pneumonia, Asthma, and all other lung
diseases, should take it. It is a most valuable
remedy, and you want it, and not an untried
medicine with a similarity of name. Sold by
Druggists.

Do Crook's Wine of Tar is not
prepared only for Diseases
of the Throat & Lungs.
The rich medicinal qualities
of tar, if contained, would alone
have a healthy action on
the stomach & bowels, but
there are valuable ingredients
of undoubted tonic value
combined with it, which
cause it to build up the
weak and debilitated, rapidly
by restoring exhausted strength,
cleanse the stomach, relax
the liver, cause the food to
digest, and make pure
blood, removing dyspepsia,
indigestion, &c. &c.

Weakening medicines are becoming unpopu
lar, and nothing but such as restore the
lost strength, and give the system a new
impetus, are being sought for. If you
have any more doubt about what is best for
you, take Dr. Crook's Wine of Tar, you will
strengthen the system, restore the ap
petite, and prepare you for the most vigor
ous action. It is a most valuable
remedy, and you want it, and not an untried
medicine with a similarity of name. Sold by
Druggists.

NEAR CEDAR BLUFF Feb. 25th 71.
Messrs. J. & S. BONES, Dear Sir:
I have given the 16 inch Mill (Clemans) bought of you, a thorough test, and
I can express myself perfectly satisfied. The power was the running gear in my
mill which through in very bad order, was sufficient to grind one bushel (by the way
in 4000 minutes, I find no trouble to do my grinding before breakfast. Several
of my neighbors were present at the time, and all were satisfied with the result
were astonished at the quantity and fine quality of the meal produced in a short
time. I prefer the meal to any steam mill meal. The 16 inch mill I bought of
you for the Foster Farm, and used since the above was written proves equally sat
isfactory. It is a complete mill.

Yours Truly,
H. H. MILLER.
