O PRAY MY CHILD!

FROM THE GERMAN OF HUFFMAN.

"Give me the morning kiss, and pray,
My child,—the long, sad night is past
I prayed in sleepless hours away,
And morn has brought me peace at last.
I saw thy face, and almost smiled,
It was so bright!—O pray, my child!

"How sweet it was my little man,
When early out of bed you sprung
And in the snug warm chamber ran,
And in your night-gown danced and sung:
Then to your father you would fly,
And clasp his neck, 'So big am I.'

"He has for many days been ill—
The father dear!—and still is low;
While I—my aching heart be still!
Give me your little hands now—so,
Quick, for my tears are flowing wild,
Of old your hands, and pray, my child!

"When he into the woods did go,
You coaxed him, 'Please, please, father mine!'
He kissed us both,—he loved us so,
And always brought you something fine.
That made you run with eager feet
To meet him. O 'twas sweet, 'twas sweet!

"Pray that your father dear may live,
He is our all,—he must not die.
And what you ask for God must give.
When he beholds you from on high;
For eyes like yours, so pure, so mild.
The good God loves! So pray, my child!

She weeps with sorrow and delight,
To hear her baby Heaven implore:
"Come down, dear God, down from thy height,
And make my father well once more
For if he dies, and mother cries—
I cannot love you—if he dies!"

The mother's heart is reconciled,
She listens and her fears depart;
"God grant you what you ask, my child
So strong the love within your heart,
I know the blessed God will hear,
And answer you, my baby dear!"

How Rich Men Began Life.

George Law, at forty-five, was a common day laborer on the docks, and at present counts his fortune at something like $10,000,000.

Robert L. and Alexander Staught [illegible] boyhood sold molasses candy which their widowed mother made, at a cent a stick, and to-day they are probably worth $6,000,000 each.

Marshall O. Roberts is the possessor of $4,000,000 or $5,000,000, and yet until he was twenty-five he did not have $100 he could call his own.

Alexander T. Stewart first bought a few laces at auction, and opened his way to success in a little dingy shop on Broadway, the site of the wholesale establishment.

Daniel Drew, in early life, was a cattle driver at the [illegible] rate of 75 cents a day, and has driven himself into an estate valued at $30,000,000.

H. B. Claflin, the eminent dry goods merchant, worth, it is estimated, from $12,000,000 to $15,000,000, commenced the world with nothing but energy, determination and hope, and see how he has invested them.

Their Sure Reward.

A Louisiana paper says that the taxes paid by the people of Natchitoches parish, in 1873 amounted to the enormous sum of 79 mills on the dollar.

An article on the subject concludes with the following prophecy which we commend to the earnest consideration of all scalawags and carpet-baggers, and especially the former, because nothing better was to be expected from the latter:

Montgomery Advertiser.

Those, who for the sake of office and public plunder, have affiliated with ignorant, superstitious and credulous negroes, and through them trampled upon the laws of morality and honesty, and plundered and robbed a defenseless people may rest assured that nothing can protect their memory and their children, and their children's children even to the third and fourth generation, from the eternal infamy which will ever hang around their names.

Mr Wm. M. McMath has become editorially connected with the Shelby *Guide*, one of the best papers in Alabama. The *Guide* will continue as it has been, a bold, fearless and independent defender of the people's rights.

☞Some men never lose their presence of mind. In Milwaukee last week a man threw his mother-in-law out of a window in the fifth story of a burning building, and carried a feather bed down stairs in his arms.

Cincinnati, June 25.

Geo. Blackburn an old penitentiary bird, arrested at Dresden, induced the town marshal to enter his cell, killed him and escaped.

In His True Colors

That ALEXANDER WHITE is an enemy of the people of Alabama ought to be generally known by this time. But for fear that some misguided person may be of the opinion that this Civil Rights advocate (*vide* his votes) is better than the rest of the party, we present the following facts, which go to show that he will stoop to any means to retain Radical ascendancy and to secure his own re-election. We copy from the Western Associated Press dispatches:

Montgomery Advertiser.

As the close of the session approaches every day develops some fresh devilry on the part of the Radical leaders in Congress. During the last ten days of the session it is in the power of an unscrupulous majority, which by the dishonest expulsion of Democrats exceeds two-thirds, to suspend the rules and pass any bill without allowing one word of debate or any opportunity for amendment or even a preliminary examination by a committee. The latest trick of this kind was the attempt to pass in this rapid mode a bill concocted by Messrs. Whitely, of Georgia, and White, of Alabama, both Radicals, which purports to preserve the ballots and papers connected with the elections held for Representatives in Congress. The title is a naked fraud, and was probably so intended by the parties engineering the bill. Practically it was intended to sweep away the last vestige of State authority or fairness in the conduct of elections, and to furnish ready pretexts for setting aside the Congressional elections of next autumn. This bill, like the Conkling and Carpenter conspiracy against the freedom of the press, has been kept back till the time had passed when measures could be debated and scrutinized by Congress. To day it was sprung upon the House by Mr. Tremaine, of New York.

The bill punishes with fine and imprisonment in the penitentiary the giving or furnishing to any voter or voters on the day of an election of a member of Congress, any liquors, vinous, fermented or alcoholic no matter how small the quantity, or how innocent the intention and proceeding.

The possession of any weapon, no matter for what purpose, on the occasion of any such election, is held to be presumptive evidence of the intent to intimidation and is punished with fine and the penitentiary. The same section punishes with both penalties the threat to use a weapon on the day of an election and no exception is made even in the case of self-defence.

Section eight gives power to the United States Circuit Court [illegible] lish numerous voting places, the idea being to make it easy for negroes to travel from one voting precinct to another.

Other sections provide for an indefinite multiplication of federal supervisors and assistant marshals at every precinct, and all the machinery of terrorism and control, on which these partisans reply to defeat the popular will.

As the State and Congressional elections are held in most States on the same day, this act would oblige the States to submit to Federal control and supervision of their State and county elections, or to incur the heavy expense of a separate day for their elections and the trouble of a change in their respective constitutions.

The Democracy of the House quickly rallied to oppose this statute, which they regard as one of the most dangerous and iniquitous proposed at this session. A few Republicans, not willing to give up the forms of free government, joined them, and a hundred votes were cast in the minority. The yeas were 148, and so the scheme failed for want of a two-thirds vote. Had it passed the House, Messrs. Conkling and Carpenter would probably have passed it through the Senate in short order.

Four Impossible Things.

We clip the following from the United Presbyterian:

1. To escape troubles by running away from duty. Jonah once made the experiment, but it did not succeed!—Therefore, manfully meet and overcome the difficulties and trials to which the post assigned you, by God's providence, exposes you.

2. To become a christian of strength and maturity without undergoing severe trials. What fire is to gold, such is affliction to the believer. It burns up the dross and makes the gold shine forth with unalloyed lustre.

3. To form an independent character, except when thrown upon one's own resources. The oak, in the middle of the forest, if surrounded on every side by trees that shade and shelter it, runs up tall and comparatively feeble; cut away its protectors, and the first blast will overturn it. But the same tree, growing in the open field, where it is continually beaten upon by the tempest, becomes its own protector. So the man who is compelled to rely on his own resources, forms an independence of character to which he could not otherwise have attained.

4. To be a growing man by looking to your position. Therefore, prefer rather to climb up the hill with difficulty, than to be steamed up by a power outside yourself.

A Capital Fable.

The hopelessness of accomplishing anything without "pluck" is illustrated by an old East India fable. A mouse that dwelt near the abode of a great magician was kept in such constant distress by its fears of a cat, that the magician, taking pity on it, turned it into a cat itself. Immediately it began to suffer from fear of a dog, so that the magician turned it into a dog. Then it began to suffer from the fear of a tiger, and the magician, in digust, said, "Be a mouse again. As you have only the heart of a mouse, it is impossible to help you by giving you the body of a noble animal." And the poor creature again became a mouse. It is the same with a mouse-hearted man. He may be clothed with powers and placed in the position of brave men, but he will always act like a mouse, and public opinion is usually the great magician that finally says to such a person. "Go back to your obscurity again. You have only the heart of a mouse, and it is useless to try make a lion out of you."

[From the Montgomery News.]

Equal Rights Association.

The negro Equal Rights Association closed their pow-wow on Saturday. After adopting a series of resolutions eulogistic of the virtues of Laddie Williams and Charles Sumner, deceased, they presented and passed a longer set from which we take the following:

Resolved, That the colored people of Alabama are in favor of free schools, free churches, freedom of speech and thought and action by *all* men; that we are in favor of the civil and political rights of all men as embodied in our constitution and our free institutions.

Resolved, That the colored people of Alabama, while according to all men those inalienable rights born of American citizenship, demand that the same shall be guaranteed to them, and that they favor such legislation as will secure us fully in these rights, and place them beyond the control of the "white man's party," or any other party.

Resolved, That the Republican party having exhibited its fidelity to the cause of human rights and to the best interests of the colored people, we hereby pledge that party our continued support and adherence.

Resolved, That in order to bring about the success of the Republican ticket in November next, we encourage our people everywhere to the adoption of that great statesman-like idea upon which parties never fail but may ever stand, the great idea that the office should seek the man and not the man the office; that we impress upon the members of the Republican party, in the State of Alabama, that they nominate none for office save those they know to be true to the principles of the party, and who can bring to the support of our State ticket the greatest number of voters for our beat, county, division, congressional and State candidates.

Resolved, That this convention, through its State representatives, impress upon the legislative body of the State of Alabama, at its next session, the importance and urgent necessity of their creating compulsory school bill, feeling assured that without such a bill as is here asked for, the rising generation will be (intellectually speaking) but little superior to generations gone before, and our government grow weaker and weaker, for the want of an education, intelligent class of citizens.

Resolved, That we tender our sincere thanks to our worthy Senator Hon. Geo. E. Spencer, and our Republican Representatives in Congress, who have labored so earnestly, zealously and devotedly for [illegible] Rights Bill.

Resolved, That we tender to His Excellency, Gov. D. P. Lewis, the thanks of this Convention for the use of the Hall of the House of Representatives, and to the *Alabama State Journal* for the fearless manner in which it has advocated the cause of Republicanism.

J B SIMPSON Ch'n.

THOMASON WALKER

These resolutions show clearly that the negroes are, in spite of their weak-kneed, weak-stomached, fence-riding, white skinned allies, for the Civil Rights bill all the way through, and the speeches made by them show plainly as words can be made to speak, that they *demand* mixed schools, and will be satisfied with nothing less. White men of Alabama are you willing to this degradation and humiliation? If not, work for the White Man's party.

[From the Macon (Ga.) Telegraph.]

Shocking Language

Really we are beginning to dread to open some of our Northern exchanges. They are filled with such incendiary, disloyal and disrespectful language, concerning some of the most sacred things in the country, that our loyal instincts are shocked almost beyond endurance. We implore them to cease to do this evil and return to the paths of patriotism and reverence. How is it possible for truly good and loyal people to read such utterances, for instance, as the following without shuddering at the probable fate of the writer? It is from the Ethics (N. Y.) *Observer* and refers to the eulogy by George William Curtis on Sumner.—Says this wicked paper:

Mr. Curtis begins by burning incense to Massachusetts, which he declares "wrought the miracles of America."—This is the Massachusetts which drowned the witches, slit the ears of the Quakers, and banished the Baptists; the Massachusetts which furnished no great soldier to the Revolution, and no great statesman to the first councils of the republic; the Massachusetts that clamored for twenty years for the slave trade under the Constitution that her thrifty people might line their purses before they paraded their philanthropy; the Massachusetts that has proved herself always a toad to England and a snake to the South, originating the Credit Mobiliers, and furnishing thieves for Senators' seats in the reconstructed States.—The miracle of America in this, that the wings of liberty were large enough to cover a people whose idea of hell (to quote Channing) was a place where a man could have his own way.

Another Victim.

The verdict of the Coroner's jury was: "Killed by a compositor." The circumstances were as follows: He loved madly, passionately. His fair one smiled upon him, and all was going well. His suit was safe, but in an evil moment he conceived the dangerous idea of clinching it so to speak, with a poem. He wrote it in a moment of heavenly inspiration, and sent it to the village weekly. It began thus:

Maud Mary Jane Pilkitton Filer,
White skirted marvel of duty;
The wild world can never beguile her,
My gold-headed, blue-belted beauty.

It was a pretty poetic flower as it stood, but the compositorial Goth laid his typographical hand upon it, and when it appeared, "skirted" was spelled with an "h," and "belted" had two "l's" in it and an "i." And and so they laid him tearfully away beneath the daisies, and rendered a verdict as above.

The City Marshal Election.

This event occurred Monday last, in this city. Everything passed off very quietly. McGown and his black cohorts were so confident of success, that they had prepared to have a grand jubilee for Monday night. The vote stood:

Geo. W. Simpson - - - - 112
H. McGown - - - - - - - - 128

Leaving Simpson a majority of 44 votes. In this election, the political lines were distinctly drawn; Simpson being the white man's candidate, and McGown the negro civil rights champion.

Tuskaloosa Blade.

Here is another good omen of coming victory for the great cause of restored Reason, Honesty and the Law. Here is a sign in which we can behold the future safety and prosperity of the State! Let the white voters of Alabama, at all points, emulate the example of those of Tuskaloosa, and the six or eight sensible colored men who know well that a white man's government means no attack on their rights, but opposition to mean mock white men, and to measures calculated to injure vitally both whites and blacks. The *Blade* contains a list of the so-called white men who voted for the radical candidates, and adds:

Mont. News.

Let the white men of Tuskaloosa cut out the above list and preserve it for future reference. Quit patronizing the civil rights voters, whether they have black or white skins. Now is a good time for white mechanics to open business in Tuskaloosa. We hope the Democratic press of the State will note and republish the fact, for the benefit of the public, that C. L. Miller, proprietor of the Oak City Hotel, Tuskaloosa, Ala., has signified his appreciation of the civil rights bill by voting for a negro candidate for Marshal of the city in which he squatted about two or three years ago. The hotel is owned by a true Democrat—Mr. Stephen Miller—but, so long as C. L. Miller keeps it, let no white man patronize it.

SAVE HAY.

The editor of the "Farmers' Vindicator," Jackson, Miss., says he considers the saving of hay as scarcely second in importance to the working of cotton and corn. He goes on to say, further, that there are two indispensable requisites to good hay. One is to cut at the proper time, before the grass goes to seed and becomes dry, and the other is, to cure quickly, avoiding exposure to the sun a moment after it is thoroughly cured.—When cured in this way there is no better hay than that made from our native crab grass. Take a piece of land that has been recently cultivated, plough it deep and thoroughly pulverize it, and if not sufficiently rich, manure it, and you will have a crop of crab grass of two tons to the acre, which if cured as above, will be better than Northern hay, for which we are now paying $35 to $40 per ton. A few acres prepared for crab grass will furnish you with ample supply of good hay for winter use, which will materially help out the corn crop.

Save all the rough food you can for stock this summer, for you will need it next winter A word to the wise is sufficient.—*Mobile Register.*

To the Democratic and Conservative Party of Calhoun County.

Conforming to the call made for a State Convention, and the apportionment of delegates thereto, by the State Executive Committee, I hereby give notice that a Convention of the Democratic and Conservative Party of Calhoun County will be held in the town of Jacksonville on the 13th day of July, 1874, for the purpose of appointing or electing nine (9) delegates to the Democratic State Convention to be held in the city of Montgomery, on the 29th day of July, 1874.

If deemed expedient and proper, the Convention can also take such steps and adopt such measures as may be necessary with regard to the nomination of candidates for the legislature and County officers, in which event beat delegates ought to be instructed by resolution or otherwise as to the will of their respective beats, so that they may act advisedly and with authority.

As a matter for your consideration, I also submit the fact that this year you are to elect your Congressman, Chancellor and Circuit Judge, and, while no conventions have been called to make nominations for these offices, yet should it be determined to hold such conventions, the duty of appointing delegates to represent you in their deliberations, will devolve upon your County Convention Please consider this in your beat meetings and instruct your delegates accordingly.

In order that the Convention may be full and in its results satisfactory to all, I respectfully request and recommend that each beat or voting precinct hold a meeting on the 4th day of July, 1874, and, as advised by the State Executive Committee, "elect one delegate for every twenty-five (25) Democratic and Conservative votes cast in the last general election." also to so distribute the delegates to be elected over the beats or voting precincts, as to make the County Convention representative in character, and in its action reflective of the views of the ENTIRE Democratic party of the county.

"Put Them Under Lock and Key."

As showing the animus of the negroes with regard to the social equality bill and what it will accomplish for them, the following from the Somerville (Tenn.) *Falcon* is very instructive:

The Colored Republican Convention met in Somerville last Saturday to nominate county officers. C. W. Winfrey was elected chairman, and A. G. G. Burton, Secretary. The Civil Rights question came in for a full discussion.—Several candidates and a number of colored men made speeches, and all endorsed the measure.

Scales Fields, colored, made a considerable speech, and among other things said: "Some white people say that if the Civil Rights Bill becomes a law colored men will marry their daughters.—Well, there are some very handsome colored gentlemen, and if they do not want their daughters to marry us, they must teach them not to love us. If the Civil Rights Bill is passed, put your daughters under lock and key."

Good Bye Bib.

In a short note to the State Journal, a few days since, John D. Gardner, Esq., of Troy, renounces all allegiance and fealty to the Conservative party, and boldly marches over to the enemy's camp. Bating hallucinations, and idiosyncrasies, Bib is rather good fellow, and we somewhat preferred his staying with us; but we could not think of acceding to the terms which he demanded as the conditions of his remaining. The Judgeship of the Eighth Judicial District is not *absolutely* ours to give; and as the Conservative party is an honest one, we do not care to make any disposition of property to which we have not an unclouded title. Besides, such a position is about eleven hundred thousand times as much as Bib is worth, and the economy which our party has always preached and *practiced* when it got a chance should not tolerate any such extravagance.—Southern Star.

Resolutions of Montgomery County Convention.

The Democratic and Conservative Convention of Montgomery County which met on Saturday last adopted the following resolutions as offered by different parties named.

Col. J. W. A. Sanford offered the following resolutions:

WHEREAS, What is called the Republican or Radical Party in Alabama is composed of negroes, and a few white men, who begging office of their black dupes, represent their ideas, sentiments and aims; and who the better to effect their unworthy and mercenary objects arouse the passions and strengthen and confirm the prejudices of the negroes, and,

WHEREAS, Radicalism has been in the Southern States since the war, a calamity more direful than war itself; and is now, the embodiment of everything calculated not only to offend reason and decency, but to overthrow all the higher moral standards of conduct, thought and feeling, by the observance of which private virtue is protected and public safety secured. And wherever in these States it has attained power, its administration has been signalized by the imposition of onerous taxes, by the unwise and profligate expenditure of the public money, by the depreciation of property, by the depression of industry, by the stagnation of all business, by a shameless disregard of enlightened public opinion, by the discontent of the people and decay of the general welfare, and,

WHEREAS, The Democratic and Conservative party, composed of white men, thoroughly embodies their civilization, their intelligence, character, energies, and virtues upon which it has been demonstrated the freedom and prosperity of every commonwealth depend. Therefore,

Be it Resolved, That this government, representing the white man's love of liberty and law, was established by white men, and wisdom dictates that it should be administered by white men, for the common benefit and protection of the rights and interests of all the citizens of Alabama, both white and black.

Resolved, That what is known as the Civil Rights Bill recently passed by the Senate of the United States is not authorized by any provision of the Federal Constitution, and is condemned by sound statesmanship. It invades the jurisdiction of the States and subverts their authority. It concentrates all power in the Federal Government. It confers no substantial benefit upon the colored people, and is a wanton insult to the civilized white people of the entire Union. It exacerbates the passions of both races. It disturbs the tranquility of communities. It induces violence and blood-shed. It deprives negroes of privileges they now enjoy. It degrades and infamizes our white countrymen. It infringes the common liberties of the citizen. Iniquitous in all its privileges it receives, as it deserves, our most strenuous, unceasing and unqualified opposition—and its author, supporters and advocates, our utmost condemnation.

Resolved, That in the opinion of this Convention, the success of the Democratic and Conservative party in the coming contest is of vital importance to the welfare and prosperity of Alabama, and that this Convention pledges an ardent and enthusiastic support to the nominations to be made by the State

The resolutions were unanimously adopted on motion of W. L. Bragg by a rising vote.

Judge Stone offered the following, which was likewise adopted unanimously by a rising vote.

Resolved, That while we deprecate a race issue as fraught with untold mischief to our peace and industrial prosperity, we disavow all agency in its inauguration. Ever since the negro has been armed with the ballot he has ignorantly cast his vote as a unit for men and measures diametrically opposed to our material interests, instincts and civilization. To insure the united opposition of the negro to any measure or man, it has heretofore been only necessary first to be known that such measure was advocated by the white race. Hence we have been left only the alternate of surrendering our policy and choice of men to negro dictation, or of accepting the issue of race voting against race, as practiced by the negro ever since he cast his first ballot.

Col. W. P. Chilton offered the following, which was unanimously adopted:—

Resolved, That we regard unity of purpose and action in the approaching campaign, as highly essential in the patriotic object of defeating radicalism and we earnestly appeal to the people of Montgomery, and of Alabama, to lay aside every consideration that would interfere with the redemption of the State; and to have all minor differences and spirit of local opposition merged into the patriotic resolution of rescuing the State of Alabama if possible from the inevitable ruin that would follow continued radical rule

Mr. E. J. Fitzpatrick offered the following which was adopted:

Resolved, That, in this critical condition of our political affairs, patriotism demands that personal aspirations and aggrandizement be subordinated to the success of the Democratic and Conservative party in the coming election, and that no member of that party who imperils its success by becoming an independent candidate should receive the support of that party or any of its members.

We copy from the INTELLIGENCER the following notice of the remarks made by our talented young friend and townsman, J. T. MARTIN, Esq., at the Examination Exercises of Oxford College, on the 30th. inst:

"Our young friend, J. T. Martin, Esq., who had been invited by the Literary Societies to address them, came forward, and in his peculiarly happy style, delivered a well timed and stirring address to the young men of the College. He argued, and truly too, that young men held *their own* destiny in their own hands—that they, by energy, perseverance, and long continued and determined effort, could accomplish all within the reach of man—that the civilization, prosperity, perpetuity and happiness of every nation, depended upon the young men. That the old and middle-aged would soon pass away—that all the stations in church and state, now held by them, must soon be filled; if filled at all by the young men of the country. That as the young men of a nation were educated and virtuous, so would that nation be intelligent, prosperous and happy. That he need not to go back to the days of Roman chivalry to find examples of high and noble daring, of fortitude and self-sacrificing devotion to one's country and to the good of mankind—that such examples were found in the records of our own country—in the toils, and sacrifices, and self-denials and noble daring of our sons, brothers and fathers during the four long and bloody years of the war between the north and south. That we find in their character and their lives examples to be emulated as bright as the pages of history could furnish, and as enduring as our own Southern [illegible] and plains. That the South, our own Alabama, looked to her young men to come to her aid—that they were not wanted on the field of bloody strife, with swords of steel and artillery of brass and iron, but on the field where mind meets mind, where the the pen is mightier than the sword, and where victories, though bloodless, of greater magnitude and of more enduring worth, are to be gained. That our young men must soon man the ship of state and guide her over the smooth seas of happiness and success, or launch her on the sands of anarchy and utter ruin. That our mountains of mineral wealth must be developed, and our valleys tilled in a manner to make them yield an abundance for the teeming population that must be employed in the great work before us. That to do these things successfully the young men of the south must be educated mentally and morally up to the requirements of this great work, or they must stand aside and let other people come in and do this work, and they themselves stand aside and become hewers of wood and drawers of water for those who are educated. That life meant work, not for a day, but for all of life. That the busy hum of nature was but an example of nature that continued effort and energy that they must emulate.

Mr. Martin also paid a beautiful tribute to woman—pointing out to the young ladies the self-sacrificing devotin to the south and her cause during the late war as exhibited by their mothers and sisters on every occasion—at home in clothing and feeding their little ones, and their husbands, sons and brothers on the tented field, and in ministering with their own hands to the dieing soldier on the field of strife. That they had bright examples in almost every home and, that much was dependent upon them. That woman, by her intelligence her purity of heart, and gentleness of *manner*, could do much to make our down trodden south blossom as the rose. We have not attempted to give the language of the speaker, but these thoughts roughly hewn, are such as we caught as the address was delivered. We trust that the young men who heard it will heed the earnest appeals made to them, and *now* use all the opportunities afforded in preparing themselves for the greatest usefulness.

The speaker referred to the energy displayed by this community in building up and sustaining an institution of learning such as Oxford College, in their midst, and urged them to continue their co-operation and patronage, and it would be of more material advantage to them and this entire section of country than the hum of a thousand spindles heard in every street of our village.

May the timely admonitions, the earnest pleadings, and the words of cheer and encouragement delivered by the youthful, but the gifted speaker, do much to arouse our people to the full measure of their duty."

The Heathen Rage and Imagine a Vain Thing

A few days ago we saw, in a Western paper, a jaundiced account of a quarrel between Sutler SPENCER and Senator GORDON, on the subject of the passage of the bill removing the political disibilities of Hon. JOHN FORSYTH, in which SPENCER was represented as having used insulting language to Gordon without rebuke or retaliation. We were so well [illegible] that no attention was paid to it. We have now a reliable account of the affair from Hon. Frederick G. Bromberg, of Mobile, a gentleman whose word will pass unchallenged wherever he is known, anything that Spencer may assert to the contrary notwithstanding. We copy from the Birmingham Independent:

Montgomery Advertiser,

The Hon. F. G. Bromberg, of the First Congressional District, passed through here on Sunday night. In a conversation had with Col. J. B. Powell at the supper table of the Relay House, he related one of the closing scenes of Congress. When Senator Spencer heard that senator Gordon was successful in having the disabilities of the Hon. John Forsyth removed, he hurried up to Senator Carpenter, in an excited manner, who informed him that the bill was engrossed and sent to the President for signature. The Sutler was wrathy, and started to see the President—Senator Gordon directed his course the same way; upon reaching there, it was ascertained that the bill was not signed; Spencer foamed and protested against removing the disabilities of such an incorrigible old arch-rebel as John Forsyth. Gordon responded in a [illegible] quent and patriotic speech; the President quickly took it, and signed the bill that made it [illegible] free. The rage of Spencer [illegible] ling of Bald Mounts. [illegible] was imperturbably [illegible] Cabinet was present and seemed to enjoy the Alabama little carpet bagger's rage—Secretary Bristow laughing aloud at it. But seriously, we ask you, white men of Alabama, will you, by your votes perpetuate the political influence of this social equality fellow? Every Radical vote polled sustains him in his tyranny over the white people of Alabama.

DAVISTOWN MEETING.

In conformity to a call made by the Executive Committee of the Democratic and Conservative party of Calhoun Co. Beat No 12, met in Convention, June 27th, 1874, and on motion William Johnston was called to the chair, and Rev. J. A. Scott requested to act as secretary.

On motion, five delegates were elected to represent the interests of the beat in the County Convention which meets in Jacksonville on the 13th of July, consisting of the following persons, to-wit: J. B. Mallory, Dr. J. F. M. Davis, John Ross, Jake DeArman, and Dr. W. E. Bowling.

On motion, the *Southern Argus*, or the McKee Platform, was unanimously adopted.

On motion, the delegates to the county Convention were instructed to cast their votes for

L. W. Cannon, for Probate Judge.
Woodford R. Hanna, for Representative.
Gabriel B. Douthit, for Circuit Clerk.
William Dutriest, for Tax Collector.
William Johnston, for Tax Assessor.
Joshua Draper, jun., for County Treasurer.
Sheriff to be selected by delegates in County Convention.

C. G. Morgan, Eli Bynum, Irvin Martin, D. L. Wolf, } County Commissioners.

On motion, the delegates were instructed to recommend to the County Convention that Judicial and Congressional Conventions be held, at some eligible point in this district, for the purpose of nominating a candidate for Congress, Circuit Judge and Chancellor.

On motion, a copy of the proceedings of this meeting was ordered to be sent to the Oxford *Intelligencer* Jacksonville *Republican*, and *Southern Argus* for publication.

WM. JOHNSTON, Chairman.
J. A. SCOTT, Secretary.

COL. B. B. LEWIS.—We are pleased to note the high esteem and appreciation in which the talent and merit of this distinguished young statesman is held by the people of Alabama. We a gratified to notice his name prominently mentioned for a place on the Democratic State ticket in the next election.

Our distinguished and cultured fellow-townsman, GEN. WM. H. FORNEY, received a telegram Wednesday, notifying him of his election to the Presidency of the University of Alabama, at a salary of two thousand seven hundred dollars a year, mansion furnished free of rent. He declined to accept the position.

FROM TUSCUMBIA

TUSCUMBIA, June 29.—A year ago, Geo. F. Long, of good name and family, was forbidden by Congressman J. H. Sloss to visit his house. Long denounced Sloss, and assailed Sloss' daughter's character claiming undue intimacy with her. Sloss returned Friday, and learned the facts from his daughter. Sloss shot Long from a second story window. Long received four buckshot in the skull, one in the neck and two in the body. His wounds fatal. Sloss is in jail.

WASHINGTON, June 30.

The President returned to-day, and goes to Long Branch on hangman's day.

Attorney-General Williams requests the Marshall and United States Attorney of Mississippi to resign, as charges are made against them of bribery and corruption and oppression of the people.

A large number of clerks are discharged in the various departments. Quite a number of ladies fainted on receiving the notices. Some are allowed two weeks' pay, which alleviate distress.

WASHINGTON, June 30.

The following is a summary of the late events near Estella: Concha was killed while leading the centre. He died almost instantly. The Republican loss was fifteen hundred. The Carlists make the Republican loss 4 000. The Republicans saved all their cannon, but fell back eight miles.

It is stated that the United States Government has made a demand on Spain, through Mr. Cushing, for full indemnity for the Virginius prisoners slain by Burriel. The demand is qu te as decided and peremptory as that of Great Britian for indemnity for the lives of British subjects destroyed, and loss to their families.

Probabilities.—For the Gulf States; partly cloudy weather, variable winds and continued high temperature.

MADRID, June 30.

The Spanish Government will build a monument to Gen. Concha.

The army of the North is falling back in good order, and will be rapidly reorganized.

It is reported that the Carlists have murdered many prisoners.

LONDON, June 30.

A dispatch to the *Standard* says the Republicans lost 1,800 killed and wounded in their attack on Estella, and 800 prisoners on the retreat.

SAN FRANCISCO, June 30.

Harvesting has commenced, and the yield of grain will be enormous.

ALBANY, N. Y., June 30.

Ex-Governor Clark accepts the Prohibition nomination for Governor.

DETROIT, Mich., June 30.

A steam boiler exploded, killed four people and desperately wounded four.

We print elsewhere this morning the address of the negro convention lately in session in Montgomery, and we ask every white man in the State to give it a calm perusal. It is the declaration of the representatives of the negro race in Alabama, and its language is plain, emphatic and comprehensible to all. Coupled with the proceedings and declarations of the negroes in various portions of the State, it is significant, and settles beyond question, that these people have united on the Civil Rights Bill, the most odious and damnable measure that Radicalism has yet conceived, and will be content with nothing less. They have crossed the stream and destroyed their bridges, and they or the white people must rule the State of Alabama and control the destinies of her people. The issue is made, and for ourselves we welcome it. If the State of Alabama is to be controlled by negroes, the white people will be compelled to emigrate or mongrelize, which would be a thousand times worse than death. The time has come when the white *men* of Alabama must strike for their "altars and their fires," must take possession of the State Government or must prepare to see "South Carolina" in Alabama. There is no alternative. Let us go in and win.

Selma Times.

The Missouri Grangers,

Hon. T. R. Allen, the head master of the Missouri Grangers, says the St. Louis *Democrat*, returned yesterday from a protracted tour in the southern part of the State. He says the Grangers will attend the primaries of their respectives parties, and work for the nomination of good candidates, but will not put Granger tickets in the field. They are determined to keep the free from partisan politics.

Here is the latest "romance." A farmer's daughter out in Illinois pretty and olny seventeen years of age, recently fell desperately in love with a man nearly eighty, and the deluded damselwas so persistent in her wooing that the old gentlemen, though weak and feeble, promised to marry her. On the morning of the appointed day, however, the hesitating lover desired to postpond the ceremony, claiming that he lacked strength to go throug with it. He pleaded in vain. "If you can stand I will marry you," exclaimed the impetuous beauty, and she did.

Gray woolen suits, trimmed with dark violet, are greatly in favor with young ladies, especially with blondes.

A correspondent of the *Courier-Journal* notes the "curious fact" that during the last month we had two full moons.

In Texas they do things in a busines like way. Recently a party of organized thieves brutally murdered Deputy Sheriff of Brown county, who was universally esteemed as a brave and honorable man. Even while the gang were pouring their shots into his body he raised himself to his knees—having been shot down, and deliberately gave his assassins the benefit of every lead from his own six shooter. His murder enraged the citizens to such an extent that they arose *en masse* and went on the hunt for the various members of the band. Before starting, however, they sent word to the civil authorities to shinney on their own side and *not to interfere* in the matter. In the course of three days they turned over to the Sheriff a list of *twelve* of the gang, who had been caught and hung, or shot to death as they ran. On the morning of the fourth day information was sent that *six more* had been disposed of, making eighteen in all!

Brigham Young, jr., according to the Salt Lake *Tribune*, has an original way of complying with scriptural injunctions. At a conference meeting last Sunday morning, he thus instructed the brethren: "I pay for our enemies, brethren, but I always pray that they may go to hell!"

A terrible calamity, of which we have as yet received no particulrrs occured in the sea of Maamora on Friday. A collision took place between the Turkish steamer Kars and an Egyptian vessel named the Behérian. The former sunk and three hundred of her ship's company, embracing nearly all on board perished.

Paper flour barrels are being made in Iowa. They are said to be air-tight and water-proof; to weigh much less than the ordinary wooden barrels, and to be able to stand more rough usage. One of the manufacturers predicts that in five years every barrel of Western flour will be sent east in barrels made from the straw the wheat gre on.

Cincinnati, June 25.—Indications at Lawrenceburg, Indiana are that the case of McDole, charged with the murder of the Bradley family, will never go before the Grand Jury. It is feared Judge Lynch will interfere. The preliminary trial closes to-morrow with the arguments of counsel.

Ala. Gold Life Insurance Co.
OF MOBILE, ALA.

All who desire to make a safe and certain investment for the future, should not neglect the opportunity of doing so while in sufficiently good health to secure a life policy in a good and reliable company. Such a one is the Ala. Gold Life, conducted in the management by officers of acknowledged ability and integrity, well known to the people of Alabama. But that which gives the company its strongest claim to patronage and support is the fact that it is a *Home* Institution, using its earnings at home among its policy holders. This company is now doing a very large and rapidly increasing business all over the South.

I will be pleased to see my friends and show them the advantages the company offer for Life Insurance.

The Essays were all very creditable to the young ladies and gentlemen, who in this case made their first effort at appearing before the public with original matter.

The music interspersed was of the finest kind and handsomely executed. The Principal's address touched upon all matters of interest connected with Education, and, was attentively listened to by an appreciative audience.

Such prank players as removed the plank from the bridge on Main street the other night may be interested in knowing that there is a secret police abroad every night for the purpose of detecting their sort. It will probably save them a world of trouble in the future to hereafter behave themselves.

The Cantata of the FAIRY BRIDAL, at the College Tuesday night was the best affair of the kind we have ever witnessed in Jacksonville. All, without exception acquitted themselves with the highest credit. Below we give the argument, that our readers may have some idea of the Cantata as it was. The stage was brilliantly illuminated and magnificently decorated.

ARGUMENT

"Night enters and rouses the Fairy Folk. Aurora, whose coming Night has foretold, enters and waves Night back. The Chorus of Fairies sing a gathering song, and point to where fair Titania, their Queen lies sleeping. Puck enters and wakes Titania with his song. Sunbeam glides in and sings the charm of opening day. Peachblossom announces the coming of the Fairy Queen. Titania comes forward, and the Fairies, clustering around her, hail in choral song. Titania sings and dances, and in soliloquy complains of Oberon's delay, as "'Tis the morn of our bridal." Oberon appears, and the King and Queen sing an Aria. He declares his love and explains his delay in coming to the tryst. *Titania*, appeased, turns to her sixty minions and bids them spread their golden wings. Three of her maidens, high in state, sing a gathering song. The *Gnome King* enters with gifts of precious things from under the earth & sings a song of homage. Enter *Chorus of Gnomes* and sing an elfin song. The *Chorus of Fairies* now sing of their glad life of earth and air, "list'ning to the wind bee's song," as they float in their proper element. Next, *Sun Beam* hails the *King* and *Queen*, and *Oberon* sings a strain in praise of *Titania*, and proclaims his affection. The *Bridal Chorus* is now sung by all the Fairies and Gnomes. *Sunbeam*, in the name of the Fairy Folk, renders homage to the newly wedded pair. Then *Titania* bids her Fairies dance. The wee Fairies in dancing chorus begin, and trip their dainty mazes.

"Round and round the poppy steck;
Where lazy Puck is sleeping."

Titania tells of the dreamy languor that is stealing over her, and the Trio sung by the *Queen, Oberon*, and *Puck*, lulls her to sleep. The *Chorus of Fairies* sing a lulling song while *Titania* slumbers. *Dew Drop* and *Starlight*, entering join in the lullaby. A *chorus of Fairies*, keeping vigil o'er the sleeping Queen, sing and dance. Now, Puck, rushing in, warns the Fairy Folk of the coming storm. The Fairies, terrified, hie away for shelter. The song of the Storm Fiend is heard in the air. The Chorus of Fairies, hidden in many a green nook, sing their terror and the relief that comes when they hear the storm passing in the distance. *Titania* rousing from her slumber, sings of her dream *Oberon* bids her wake, assuring her that the storm is over. The Chorus repeat the assurance:

(Scene changes from dawn to night.)
(Scene II. discloses Night, calling forth the Fairies to frolic in the moonlight:)

Moonshine sings. *Peachblossom* cries to *Titania*:

"Come forth sweet Queen and gambol in the beams
That wanton with the gurgling mountain streams."

Titania comes forward and calls on the Fairies to sing. They sing the *Song of the Whip-poor-will*. *Zephyr* enters and dances with the tamborine, inviting the Fairies to dance and song. They sing and dance in chorus. Enter *Fairies of the Mist* who sing. They are followed by the *Water Fairies*. And now, TITANIA, OBERON, and the CHORUS OF FAIRIES sing a GOOD NIGHT TO ALL!"

Attention is directed to the double column advertisement of Messrs. Hudson and Privett in this issue of the paper. These enterprising young gentlemen have spared no expense or pains to make both their livery and saddlery establishments first class, and we doubt whether any interior town in the State can boast of either as good. They have fast yet gentle stock. Their vehicles are all good and easy riding. Their drivers are safe and careful. Their Saddlery and Harness department is very large and extensive and their stock of Saddlery Hardware is full. We hope a most liberal patronage will be extended them in their business as they are both industrious and enterprising young men, deserving of the largest measure of success.

HON. JOHN H. CALDWELL,—This faithful public servant reached home shortly after the adjournment of Congress and has been the recipient of the warmest expressions of regard at the hands of his constituency, wherever he meets them.

COTTON BLOOM.—Wm. M. Andrews, one of our industrious and ehergetic farmers, sends us the first cotton bloom of the season. It bloomed out on the 30th June.

We do not think there is near as much cotton growing in this county, as an average of former seasons, and the crop is backward; but notwithstanding this it is growing well for the season.

Shaving and Hair Dressing.—If you want to be neatly shaved or have your hair trimmed in the neatest and most fashionable style, call on Mr. P. J. Garrett, south east corner room of the American Hotel. Mr. Garrett has fitted up a very neat shop his prices are moderate he is prompt and accommodating, and everyway worthly of a liberal patronage.

DESTRUCTIVE FRESHES.—On Sunday evening last a very heavy rain fell in a large portion of this County, which was followed on Sunday night and Monday morning by a still heavier fall continuing for hours without intermission. As a consequence, Choccolocco, Shoal, Terrapin and Harricane Creeks rose very suddenly to an unprecedented height. The cotton lands on Choccolocco were overflown, and immense quantities of wheat which had been cut and shocked was swept away, from some distance above White Plains to a distance below from which we have not yet heard; besides great damage to the oat and corn crops, as well as fencing. Some farmers lost their entire crop of wheat. On the other creeks named the damage was also great. Some persons have supposed that in addition to the exceedingly heavy rain fall, a water spout must have fallen near the head waters of Choccolocco; and one gentleman informed us that Shoal creek was twice as high as ever before known. Serious damage and several breaks have also occurred on the Railroad north of this place

Wonder of Newspaper Printing.

The New York *Herald* claims that a recent Sunday edition consisted of one hundred and fifty thousand copies. Each number consisted of twenty pages that is, one hundred and fifty columns, of which seventy eight were advertisement, and forty-two reading matter. The *Herald* says:

"A detail which will be perfectly new to non-professionals, is, that to produce one hundred and fifty thousand copies, it is necessary to take nine hundred thousand impressions. To accomplish this in the short time allowed, five rotary Hepresses, of eight and ten cylinders each and two Bulloch perfecting presses, were kept rolling off at the rate of one thousand a minute. To drive these huge presses, two large engines of eighty horse power were kept in motion by burning six tons of coal in the furnaces. To form the stereotype plates for cylinders, eight tons of type metal were used to cast one-hundred and forty-eight plates, weighing, when finished and dressed, thirty-eight pounds each. The ink on a single copy would not be noticed by the average observer, but it required seven hundred and twenty-five pounds to keep the rollers prepared to leave the imprint of their kisses on the eighteen million virgin pages that were to glow at day-light with the news. And these rollers were composed of five hundred pounds of glue mingled with one thousand pounds of honey. Then the virgin pages—the paper on which all this is printed. There eighty-five men and boys about the presses, handling. Sheet by sheet, it is passed through the press, until seventeen tons or thirty four thousand pounds, are printed on both sides. If you were to pile those sheets one upon another, they would make a monument one hundred and twenty-five feet high.

HOW TO USE PARIS GREEN.—D. C. Richmond, of Ohio, recommends the following way of applying this virulent bug-killer, avoiding the danger of the arsenic dust flying in the air and entering the breath. A hogshead of water, with a faucet, is drawn on a wagon to the potato field, as a reservoir to draw from. Fill a pail with water and stir in a heaped tablespoon of pure Paris green, and more if impure. Dip in an old broom, and with it sprinkle the infested plants. Bright sunshine is the best time.

The Dukes Lesson about Diligence.

There was a duke once who disguised himself, and placed a great rock in the middle of the road near his palace.

Next morning a peasant came that way with his ox-cart: "Oh, these lazy people," said he, "there is this big stone right in the middle of the road, and no one will take the trouble to put it out of the way." And so Hahns went on, scolding about the laziness of the people.

Next came a gay soldier along. His head was held so far back that he didn't notice the stone; and stumbled over it.

He began to storm at the country around there, for leaving a huge rock in the road. Then he went on.

Next came a company of merchants. When they came to the stone the road was so narrow that they had to go off in single file on the other side.

One of them cried out: "Did anybody ever see the like of that big stone lying here all the morning but no one stopping to take it away."

It lay there for three weeks, and no one tried to remove it. Then the duke sent around word to all the people on his lands to meet near where this rock lay; as he had something to tell them.

The day came, and a great crowd gathered. Old Hahns, the farmer, was there, and so were the merchants. A horn was heard; and a splendid cavalcade came galloping up. Duke got down from his horse and began to the people:

"My friends, it was I who put this stone here three weeks ago. Every passer-by has left it just where it was and has scolded his neighbor for not taking it out of the way."

He stooped down and lifted up the stone. Directly underneath it was a round hollow, and in the hollow lay a bag. The duke held up this bag, that all might see what was written on it: "For him who lifts up the stone."—He untied the bag and turned it up side down, out upon the stone fell a beautiful gold ring and twenty bright gold coins.

So they all lost the prize because they had not learned the lesson or formed the habit of diligence.

A Brilliant Record of Cures.

An American humorist tells us that it would have been money in his pocket if he had been born without a stomach, and then proceeds to figure up the cost of a chronic dyspepsia; to which he is a martyr, & which he says it is impossible to cure. On this point, "Josh Billings," (for he is the party referred to) is mistaken. Unless his stomach differs from all other dyspeptic stomachs. Hostetter's Bitters will cure him in less than three months. This it would be safe to guarantee under any penalty. There are a few, a very few, actual specifics for disease in existence, and Hostetter's Stomach Bitters may be set down as one of them. In cases of indigestion it never fails. Persons who had suffered many years almost every conceivable species of torture from this agonizing complaint, have been permanently cured with the Bitters in six weeks. Hundreds of such instances are on record, authenticated by the testimony of prominent men in every walk of life, eminent physicians among the number. But this celebrated vegetable preparation is something more than a stomachic and tonic. It is also an alterative of wonderful virtue. In liver complaint its effect is as direct and immediate as that of calomel or blue pill, and far more salutary; and in all diseased conditions of the bowels, notably in cases of constipation, its regulating properties are in the highest degree serviceable. The new settlements in the west and all low-lying tracts of country infested with miasmatic exhalations, so fruitful at this season, of the various types of intermittent fevers, should be always well stocked with this incomparable chologue, which will cure any case of fever and ague in a period varying from three days to three or four weeks, according to the violence of the complaint. Nervous disorders which are always aggravated by the adulterated liquors usually prescribed by physicians, are readily cured by a course of this admirable combination medicine, in which the properties of a stimulant, a tonic and alterative are happily blended.

SUMMER.

One of the diseases of summer which causes much distress, is Dysentery, and it is very prevalent and dangerous amongst children who are apt to eat unripe fruit. This disease, diarrhea, summer complaints, and in fact, affections of the bowels of all kinds, are cured with wonderful rapidity, with Mansfield & Higbee's Mississippi Diarrhœ Cordial:—This remedy contains no poison or harmful ingredient of any kind, has no unhealthy reaction, and cures finally, not merely checking the disorder, as is too common by the case.

READ THE EVIDENCE.

Henry F. Blumenthal writes, June 1, 1871, from St. Johns, Florida, and states that he cannot but give great praise to the Mississippi Diarrhœ Cordial, for its prompt action in all cases of bowel affections.—Not only has he noticed many ordinary cases of dysentery checked and permanently relieved by a few doses, but he has seen several old cases of protracted & chronic diarrhœ, which promised to prove fatal, completely cured by the Mississippi Diarrhœ Cordial, and the patients now well and hearty.

The "Gentleman in Black," who is the tutelar demon of dram-shops, assumes his sourest aspect when the rapid progress of VINEGAR BITTERS is reported "down below." The People's Vegetable Tonic is playing the mischief with his bitters fired with rum. All diseases which these demoniac nostrums aggravate, under pretense of relieving, such as indigestion, sick-headache, constipation, rheumatism, gout, and intermittent fevers are cured by it. 4t.

The Texas Grand Gift Concert.

Col. Gustave Cook, editor and proprietor of the Houston *Age*, and who did good service in the 13th Legislature, endorses the Texas Grand Gift Concert, at Houston, July 20, and its officers as follows:

"Of Capt. J. E. FOSTER, the Manager, we have this to say to those who are unacquainted with him.—He is a gentleman of as fair reputation for honor, integrity, business capacity and reliability as any in our city. His character for uprightness and fidelity is unexceptionably good, and he has the confidence of our entire community. He is sustained by and associated with the very best men in Houston, in his plan for the sale & distribution of his real estate, in which, by the way, he has long been one of our most successful dealers. His whole plan is fair, honest, and based upon actual market value. Not only as an editor but as a man we endorse Capt. Foster for all we have said of him in every respect. We deem it proper to make these remarks because his enterprise is worthy of patronage, and he is entitled to the entire confidence of the publis. His object is not only legitimate, but praiseworthy, and he can, if necessary, have the endorsement of every substantial man in the city for all he promises. It is supererogatory to tell who the gentleman selected to act as the Treasurer of the Distribution is, for every business man everywhere in the United States knows, or by enquiring of his banker will readily find out, who THOMAS W. HOUSE, the largest private banker in Texas, is. His word is worth a million on Wall street."

The price of Tickets ($2) places within the reach of every one a chance to draw one of the 1372 prizes, amounting to $146,000, in gold, houses and lands throughout the State.

Saturate a Piec of Bread or Meat with gastric juice, and it *will dissolve*. Thi is digestion. Add to such a mixture a little alcohol, and it will *not dissolve*. This is indigestion: Beware, then, of tinctures, or tonics, or decoctions containing spirituous liquors. Shun all rum "tonics," and rely solely on Dr. WALKER'S VINEGAR BITTERS, the finest digestive invigorant known, and rec'd'm the fiery curse of Alcohol. 4t.

TO all who are seeking new homes in or are about to take a trip to Missouri, Kansas, Colorado, New Mexico, Nebraska, Oregon or California, we recommend a cheap, safe, quick and direct route by the way of St Louis, over the *Missouri Pacific through Line*. It is equipped with fine Day Coaches, Buck's Reclining Chair Cars, Pullman's Palace Sleepers, the famous Miller Platform, and the celebrated Westinghouse Air-Brakes and runs its trains from St. Louis to principal points in the West *without change*. We believe that the *Missouri Pacific Through Line* has the best track of any road West of the Mississippi River, and with its superior equipment and unrivalled comforts for passengers, has become the great popular thoroughfare between the East and the West—Trains from the North, South and East connect at St. Louis with trains of the Missouri Pacific. The Texas connection of this road is now completed, and passengers are offered a first class all-rail route from St. Louis to Texas, either over the Missouri, Kansas & Texas R. R. *via Sedalia*, or over the Atlantic & Pacific R. R., *via Vinita*. For maps, time tables, information as to rates, routes, etc., address D. A. Ford, General Passenger Agent, St. Louis, Mo. *Questions will be cheerfully and promptly answered.*

Cheap Farms for Sale—Easy Terms.

The Atlantic and Pacific Railroad Company offers 1,200,000 acres of Land in Central and Southwest Missouri, at from $3 to $12 per acre, on seven years time, with free transportation from St. Louis to all purchasers. Climate, soil, timber, mineral wealth, schools, churches and law-abiding society invite emigrants from all points to this land of fruits and flowers. For particulars, address A. Tuck, Land Commissioner, St. Louis, Mo.

BEE KEEPERS READ!

MITCHELL'S

BUCK EYE BEE HIVE.

The Best of the Age.

IT is so arranged that no Moth or Miller can enter the Hive without being caught, it having a patent moth trap which catches all that attempt to enter. The arrangement is complete—the frames are all moveable, the door opening full size in front, giving view of the entire colony at any time; and all that is necessary when you wish to make an artificial swarm is to draw out the frame in mass and place half of them in another hive. It is so spaced that the Bee does not build his comb on the side of the hive, but confines himself to the frames. With proper attention, and all things else favorable, from 200 to 400 pounds of honey can be taken from one hive in a season.

Reference is made to the following parties who are using them. W B Green, Carter Boozer, Mrs. E J. Tate, W Weir, S P Snow, A Woods, Ed Woodward, wm. DeFriese, Minus woodruff, C B Sisson, Edmund Clay. Samples can be seen at woodward's store. County, District, and Farm Rights for sale cheap. For further particulars address
T. M. BECK,
Jacksonville, Ala.

P. S. Those who purchase rights will be learned the art of charming or taming the bees, so as to make them as harmless as house flies, unless pressed. T. M. B.

A LECTURE TO YOUNG MEN

Just Published in a Sealed Envelope. Price six cts.

A Lecture on the Nature, Treatment, and Radical Cure of Seminal Weakness, or Spermatorrhœa, induced by Self Abuse, Involuntary Emissions, Impotency, Nervous Debility, and Impediments to Marriage generally: Piles: Consumption, Epilepsy, and Fits; Mental and Physical Incapacity, &c.—By ROBERT J. CULVERWELL, M. D., author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without medicine, and without dangersous surgical operations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

☞*This Lecture will prove a boon to thousands and thousands.*

Telegraphic.

SYRACUSE, N. Y., June 23.

An appalling catasrophe occured here to-night. A strawberry festival was in progress in the parlor of the Central Baptist Church, when without any premonition, the floor gave way, precipitating a room full of people into the story below. The parlor was on the second floor and the room underneath was also full. The fire alarm was immediately sound, and an immense crowd soon assembled. There is great excitement, and it is impossible to to give particulars. Five dead bodies have already been taken out and work has hardly commenced. Probably one hundred persons are more or less injured, and many seriously.

SYRACUSE, N. Y., June 24.

Central Baptist Church disaster proves to have been fully as serious as telegraphed last night. Bodies of fourteen persons killed have been recovered, and further search this morning shows that this is the number of persons killed outright. Several persons are so seriously injured that they will probably die. Number of minor casualties are about one hundred. Among them are about a dozen persons with broken limbs and ribs. Cause of disaster was defective construction of the building. Supporting truss was composed of planks spiked together. Excitement in the community continues very great. Up to one o'clock this afternoon two additional deaths have occured. Several of the injured will be crippled for life.

SYRACUSE, June, 24.

Falling Church floor killed nineteen mostly young ladies and children. The accident was caused by the giving away of a joist that supported the floor. The joist ran from both sides of the room to a cross stringer the middle of which was supported by an iron from the roof. The stringer gave away pulling the ceiling and roof down upon the people and precipitating them into the room below. The work of recovery was exceedingly slow, as it had to be done in the dark, and it was feared every moment that the walls would fall in.

It is said that there is one man in Congress who hasn't a plan for the resumption of specie payment, but he does not want to be known.

New York, June 25.

The Ice-house and stables of the Knickerbocker Ice Company were burned with sixty horses; loss $100-000.

Washington, June 25.

London, June 25.

Bismarck has summoned the King of Bavaria to remonstrate against the separatist tendency of the Bavarian policy. If Louis proves obdurate, a convocation of German royalty will be called with a view of dethroning him.

Victoria will not visit Russia in September.

Des Moines, Iowa, June 25.

The Anti-Monopolists Convention has organized. Resolutions, after considerable debate, were adopted declaring in favor of a new and independent reform party, arraigning the present National Administration for interfering with local affairs of State, for extravagance and corruption, and for its unstable finance policy.

San Francisco, June 25.

Five thousand dollars were sent to-day for the flooded Southwest. Crop prospects wonderfully good. Harvesting has commenced in some sections.

Washington. June 25.

It is reported that the appropriation for the Gulf Coast and the Florida Peninsula Water route survey, was omitted from the River and Harbor bill by a blunder.

Paris, June 25.

Figaro, La France and Le Soir, have been punished for publishing Rochefort's letter.

At a banquet in commemoration of the birthday of Gen. Hoche, Gambetta gave the toast "to the republic" and made a calm and moderate speech. He urged all to give a sincere support to the Convention Republican policy which was opposed to Cæsarism at home and to adversaries of France abroad.

Jules Favre spoke of the frequent victories of the Republican party, and declared that the whole of France had become Republican. Toasts to ex-President Theirs were drank with enthusiasm.

The Count of Montaliva, who was Minister under Louis Philippe, has written to Cossimir Perier declaring that the salvation of France imperatively requires a loyal acceptance of the Republic.

A new manifesto from Count de Chambord is expected in a few days.

The Government is doing something to check the bold proceedings of the Bonaparists. Several members of their committees in the department have been arrested.

"I can always tell water when I see it," said an old toper, "it looks so much like gin."

A BOOK FOR THE MILLION!

Marriage Guide.

A Private Counselor to the Married or those about to marry on the physiological mysteries and revelations of the sexual system, with the great discoveries in producing and preventing offspring, how to preserve the complexion, &c.

This is an interesting work of two hundred and sixty pages, with numerous engravings, and contains valuable information for those who are married, or contemplate marriage. Still it is a book that ought to be kept under lock and key, and not laid carelessly about the house.

It contains the experience and advice of a physician whose reputation is world-wide, and should be in the private drawer of every male and female throughout the civilized globe. It embraces everything on the subject of the reproductive system that is worth knowing, and much that is not published in any other work.

VINEGAR BITTERS

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and vital organs wasted beyond repair.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment, a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. One bottle will prove a better guarantee of its merits than a lengthy advertisement.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc. In these, as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

For Inflammatory and Chronic Rheumatism, Gout, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have no equal. Such Diseases are caused by Vitiated Blood.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS occasionally.

For Skin Diseases, Eruptions, Tetter, Salt-Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ringworms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that improvement is soon perceptible.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure, and the health of the system will follow.

HOW TO ENDURE

Though my life is one of trouble—
Sorrow's clouds around me ride,
Yet I never trouble borrow,
Spending time in foolish sighs;
For this thought always cheers me,
While a sufferer here I roam—
Every day that hath its ending
Brings me one the nearer home.

Though with sickness oft afflicted,
Knowing hours and hours of pain—
Though by friends oft neglected,
Yet for this I ne'er complain.
For the time is swiftly hastening
When an end to this will come—
Every day that has its ending
Brings me one the nearer home.

And, since 'twas meant I should suffer
What I long and yet must bear,
'Tis folly in me to murmur
All the ills that flesh is heir;
So I cease all my complaining,
Never here my fate bemoan,
Since I know a day is coming
When I'll reach a happy home.

William H. Davis.

MY OLDEN HOME.

Sitting by my window, thinking,
Musing on the days of yore,
I can almost scent the roses
Blooming by the well-known door;
Almost see the golden willow
Wave its long arms to and fro:
Almost hear the pleasant voices
Of the loved of long ago.

Almost see the ships at anchor
In the waters of the bay;
Almost see the wavelets glisten
'Neath pale Luna's silver ray.
Ah! my eyes are filled with tear-drops
And I wonder as they fall,
Is it truth or is it fancy,
Do I thus behold them all?

Many years have bloomed and withered,
Since, old home, I saw the last;
Time has brought me many blossoms,
Seldom is my sky o'ercast:
But to thee my thoughts are turning
With affection's fondest glow,
And for thee my heart is yearning,
For the friends of long ago.

THE SILVER MINE.

Our friend John L. Seay, who settled in this County among the Indians before the woods was burned: Who knew every trial in the mountains, spoke the Indian language fluently and we believe was once tendered the position of Chief under the distinguished title of Johny Hecjah. (The word hecjah meaning to SEE.) Was informed by the indians of the existence of a rich silver mine not a great distance from his present residence. But according to the established laws of the nation it was certain death to an Indian to disclose the location of a mine to a white man. Mr. Seay, has never doubted the truth of the statement that the mine existed some where near him and searched for it at times during the past thirty years. Some two years since a discovery made, led to the belief that the long sought silver mine had been found. Only a partial examination of the locality was made at the time. Recently a thorough examination has been undertaken. The old Indian pointers marked on the trees leading from the spot in seven different directions indicated that it was certainly a point of special interest or value. Evidences were found of extensive excavations. Charcoal, pine knots, the joints of cane and other evidence tended to show that Indians had worked there extensively. The fact that Silver was the only metal except lead which the Indian ever mined for, led to the belief that there was certainly silver in the mine which gave evidence of having been carefully covered up. Mr. Seay has prosecuted his work dilligently and is highly encouraged at his prospect. He has found silver ore and has found the joints of reed or cane into which some hot metal has been run or moulded. There are other indications tending to show that there was an old Indian mine. We hope friend Seay, may find the precious metal He will be a Chief if he does—*Talladega Watchtower.*

"No Account."

Mr. A. B. Redfield, the noted correspondent of the Cincinnati *Commercial,* has been writing some very entertaining and instructive papers from Arkansas. The following "talk with a farmer" concerning the agricultural prospects of the State and the ruinous cotton mania, will go home to the conscience and experience of many planters on this side the Mississippi:

He then went into a disquisition upon the excellent quality of the farming lands about Whittsburg.

"Why, sir," he continued, "one year I raised sixty bushels of corn to the acre, and did not plow it but one time, and never hoed it at all."

"How is it, then," I asked, "that you buy all your supplies abroad?"

"Because," he answered, with becoming frankness, "we are no account." We can beat Missouri on wheat, yet we buy our flour in St. Louis. We can beat Ohio raising hogs, yet we buy our meat in Cincinnati. I tell you frankly and squarely, we are no account. We don't know how to do anything but raise a little patch of corn and cotton each year.—We eat up all the corn six months before the next crop comes in and sell the cotton to pay as far as it will go on the previous year's debts. We don't deserve to prosper, for we are lazy, shiftless and no account. Give Indiana men our chances for ten years and they would be whopping rich. We are as poor as church mice; we are in debt; we buy everything and sell nothing, and deserve to be poor forever for being so little account!"

A Diamond, said to be the largest yet discovered in the diamond fields at the Cape, is at present in the hands of Costor & Co., of Amsterdam, by whom it is being cut and polished. The stone weighs about 200 carats, and is of the purest water. Some months will probably elapse before it is finished. Although it is impossible to estimate the exact value of the gem while still in a rough state, it is believed that should the stone when finished realize the expectations formed of it, its value will be at least $100,000.

NEW USE FOR A PARROT.

Decoying the Forrest Birds Within the Range of his Master's Rifle.

The owner and trainer of this parrot is a boatman, who formerly plied between Little Rock and New Orleans, but who some years since gave up the business of boating, and has since led the life of a hunter, living in a snug cabin at the junction of Big Mammelle Creek with the Arkansas River. This hunter hermit, whose name is Nathan Lask, brought with him from New Orleans, on making his last trip to that city, a fine young parrot, to which he soon became more attached than to any other thing on earth. Seated upon his shoulders, the parrot attended him in all his walks — To train the bird and talk to it was almost his sole occupation.

With the careful training of so loving a master, added to its great natural talent for imitating all manner of cries of birds and animals, this bird had become a marvel of cunning; and a great wonder in its way. Taken into the hills bordering Big Mammelle Creek, and the signal being given at intervals, it utters the cry of the turkey so perfectly as to deceive the oldest and most astute gobbler that ever strutted. On being answered by a gobbler the parrot proceeds to lure him to death in the most fiendishly coquettish manner imaginable. Seated on his master's shoulders, charily and coyly the parrot replies. Once he has fully attracted the attention of the vain and anxious gobbler, often allowing him to call in a fretful tone twice or thrice before deigning to answer; he then, in a few low and tender notes, lures the proud bird of the forest within range of the hunter's deadly rifle. Seeing the turkey struggling in the agonies of death fills the parrot with the most fiendish delight, to which he gives utterance in a successsion of blooding-chilling "ha, ha's," in all manner of diabolical tones and keys. Should the hunter miss his aim, however, the parrot ruffles his feathers, croaks and scolds, pulls his master's hair, and long refuses to be pacified.

Duck hunting in Forche and Meto Bayou is, however, the parrot's chief delight. Seated in the bow of his master's boat, snugly ensconsed in a patch of tall bullrushes, the parrot bursts forth into such a "quack, quacking," and general duck gobble, that there seems to be in the vicinity a whole flock of these birds, all enjoying themselves immensely.—Thus are many passing flocks of ducks lured within range of the gun of the hunter. Geese are in the same way called up by this wonderful parrot; also many other wild fowls and even deer, as the bird imitates the plaintive bleating of a fawn or doe to a nicety. No money would buy the bird, and Nat. Lask, seen strolling through the woods gun in hand, and his almost inseparable companion seated on his left shoulder, seems a second Robinson Crusoe.

Although so perfect in his imitations of all manner of birds and animals, the parrot is not a great talker; indeed, his vocabulary is limited to a few words and one or two short phrases. He will sometimes sing out "Nat, you lubber," and when Dan Lanagan (a brother boatman of Nat's, living at the head of Bayou Forche, and almost his only visitor) in his dugout is seen paddling in toward the mouth of Big Mammelle Creek, the parrot—whose name we forgot to say is Bobby—will shout, "Lanago, ahoy! a—a—hoy!"

The moment Bobby sees his master take down his gun he is in a great flutter. He cocks his head on one side, his great red eyes sparkling with delight, and in a low, inquiring tone says: "Turkey? Turkey?" "No, Bobby," Nat will perhaps say; "not turkey to-day." Bobby cocks his head the other way and softly says: "Quack, quack, quack?" "Yes, Bobby," says Nat; "quack, quack!" Bobby then bursts into a loud "Ha, ha, ha!" and cries: "Nat you lubber, quack, quack, quack!" Then he ha-ha's till the whole cabin rings again.

BURIED ALIVE.

A Bride That Awoke in a Tomb—Seconds That Were Centuries.

Two years since a family in Marseilles married their daughter, who had just turned sixteen, to a young man in Salon a town not far from their residence. After the wedding festivities the bridal pair set out for Salon, which they made their home. In the usual course of time a child made its appearance. The mother seemed in a fair way of recovery, when a violent hemorrhage supervened. A physician could not be immediately procured. The loss of blood had produced a swoon. When the Doctor did at last come, he could only declare that the patient had passed away beyond professional skill. These incidents occurred in August The weather was unusually sultry, even for that month and latitude. The medical man engaged the family to have the body interred as speedily as possible. Six hours after her death the young mother was laid in her grave.

Recently the widower acquainted his mother-in-law and her family that he proposed to marry again. She insisted that her daughter's body should be delivered to her, to be buried at Marseilles. The mother-in-law came over to Salon to superintend personally the exhumation. When the door of the family vault at Salon was opened a heart-rending spectacle was seen. Her daughter's corpse lay in the middle of the vault. The coffin's top had been wrenched off, top and coffin lay on one side of the vault floor. The floor of the vault was strewn with hair of the corpse, the grave clothes were torn to shreds, the hands half eaten. The unhappy young mother had been buried alive, had recovered consciousness in the vault, had burst the coffin-lid, and made superhuman efforts to escape from her fearful prison, or to attract attention to her. All of them had failed, and she had died of terror, of starvation, of exhaustion, of despair, a living death, whose seconds seemed centuries. The mother has been a raving maniac ever since.

CIVIL RIGHTS.

"Any Republican, who is opposed to the Civil Rights Bill, had better leave the country; he is bound to go under."

"Resolved, That we shall not give our support to any candidate who is not in accord with, and who does not openly express himself in favor of, the Civil Rights Bill."

"Stop my paper. Your editorial of last week is not consistent with the Republican party or the colored people."

The first of the above paragraphs is the utterance of a colored man, who claims to be the leader of his people in this county.

The second paragraph is the resolution passed by the colored people, in a public meeting, held in this city a short time ago.

The last paragraph is an extract from a postal card, written to us by a colored teacher of this city.

We had not thought of alluding to the Civil Rights Bill again, but as the issue has been forced upon us, we accept it, and declare that if adherence to and support of that bill is to be considered a test of Republicanism, we prefer to be counted out. We are not that kind of a Republican. We were born a white man, and expect to die one. We think white people have some rights that black people should respect. Laying aside all discussions as to the injury the passage of the bill would do the colored race, we claim that the white people should be regarded, and the injury it would do them taken into account. We are not in favor of elevating one race upon the ruins of another, even if the bill in question would so elevate the race. We think it about time for the colored people to stop asking for special legislation in their favor, and go resolutely to work to build up a character for intelligence, probity and manhood, which will bring its own reward. They have been created in a few years from ignorant slaves to American citizens. They should be satisfied with that for the present. When they have made themselves the equal of the white race in intellect, culture and property, they can demand rights which they have earned, and obtain them, for all prejudice will then have died out.

The colored people should give up office hunting and living by politics, and devote themselves to earning money and educating their children. They should become good farmers and mechanics, stop their rage for expensive displays and excursions, SAVE their earnings instead of eating them up, and spending them for gew-gaws. They should kill their worthless dogs and keep sheep, hogs, chickens and turkeys instead.—They should turn a deaf ear to demagogues, who are deceiving them to get office, and before they know it all prejudice will vanish, and there will be fraternal good all around. Special legislation has done its work for the colored people; they must now sink or swim on their merits.

Now we will take up the paragraphs at the head of this article.

The first and second mean the same thing—that no Republican can command the colored vote who opposes the Civil Rights Bill. If that is the sentiment of the colored people of this county, no Republican, white or black, ever will be elected to an office in this county. We reiterate that. We have talked with nearly all the white Republicans in Huntsville, and have heard from a number in the country, and we have yet to find *one* who is in favor of the Civil Rights Bill, *except those who are candidates for office.* We would not be surprised if the white Republicans of the county should hold a meeting and resolve *not* to support any man for office who *is* in favor of the Civil Rights Bill. They have as much right to do so as the colored people had to do the opposite.—And justice would be on their side, because the colored people have no right to force white Republicans to swallow the Civil Rights iniquity. The resolution passed by the colored people has been copied by the Democratic Press of the State, and heralded far and wide as the "Negro Ultimatum." It is good capital for the Democrats, and will lose the Republican party many votes.

The last paragraph can be disposed of in a few words. The majority of Republican papers in the United States are opposed to the Civil Rights Bill; we are, therefore, in accord with our party. We *are* consistent with the colored people, because we tell them the truth at all times, whether it is palatable to them or not. Our friend, no doubt means to say we are not in accord with the colored people. We are certainly not on the Civil Rights question; but we have a mind of our own, and opinions of our own, and claim the right to express our opinions whenever we think proper.

In conclusion, we wish to say to the colored people that if they carry out the proscriptive programme announced in the quoted paragraph they will see their party go down to certain defeat, and perhaps have their rights curtailed instead of increased. A Democratic Legislature will pass laws that will disfranchise nine-tenths of you. As for proscribing Republicans, who refuse to support the Civil Rights Bill at your bidding is to the last degree ungrateful, and illy becomes you who have been complaining of proscription for years past. Republicans gave you the rights you now enjoy, and you propose in return for those rights, to proscribe them, and abridge their political privileges, because they differ from you, *for your own good* Ingratitude is the greatest crime known to men, and those who practice it *are not worthy of their citizenship.*

A WILD CAREER.

Story of Sam McDonald, the Millionarire Murderer.

The Courier-Journal of yesterday publishes the following account of Sam McDonald, the young Indianian who fatally stabbed a gambler named Berry Amos at the Sherwood House, Baltimore, one day last week. It says:

"The Baltimore papers, in chronicling the incidents of the crime, have but briefly alluded to the previous career of the alleged murderer. Some acquaintance with its salient features enables the writer to present the facts as given below. The murder seems to have been the natural sequence of four years of the most extraordinary dissipation. Three men were drinking together in a Baltimore bar-room in the early hours of the morning, and after a night spent in debauch. One of them was a noted gambler of that city—Berry Amos, whom a local paper describes as a fine-looking man; at least so far as the anninal part was concerned; tall, erect, broad-chested and muscular; with sturdy lower limbs, and brawny arms, and all well-rounded he presented to the eye the very personification of physical strength and manly vigor. Another was a boon companion, and the third was Sam McDonald. The first two were at the bar taking a drink together, and the third suddenly arose from his chair and stabbed the gambler to the heart. The murder is said to have been done out of mere wantonness. The murderer was besotted with liquor and had a Bowie-knife in his pocket. Rising from his seat in alcoholic delirium he singled his victim out simply because he was the taller man of the crowd before him. There is said to have been no cause for quarrel between the two and that it is not probable the drunken man cherished any malice whatever toward his victim or any other person in the party. Such are the circumstances of one scene in this life-drama of which we write; the next must be left to the record of the Courts to tell; and of that we may briefly allude here.

Sam McDonald was the son of a very wealthy man in Baltimore, whose family occupied the highest social position in that city. He himself was sent abroad to be educated, and spent several years at one of the schools in England. While still abroad his father died, leaving his immense fortune to be divided between his son and daughter, his only children. Young McDonald's portion was something over a half million of dollars, and with proper management, would soon have advanced very greatly in value. Shortly after his father's death the young man attained his majority. The family residence, just out of Baltimore, was one of the most elegant in the country. Here on the night of his twenty-first birthday he gave a grand dinner to various friends in the city, and the celebration is said to have been carried out in a style of almost unparalleled magnificence. The spacious grounds were ablaze with light, and a fountain ran champagne in the yard. The night closed with an orgie of wine-drinking in which an amazing quantity was consumed. Thus he started out upon a career of dissipation which has hurried him in four years—he is now but twenty five—to the horrible tragedy of last Wednesday night.

Young McDonald at this age was an extraordinary specimen of manly beauty. He was over six feet tall, straight as an arrow, broad-chested and muscular; yet as graceful and agile as an athletic. A wealth of flaxen hair, and a broad, fair forehead; deep blue eyes, a noble mouth with features perfectly classic in their outline—he was a perfect type of the Anglo-Saxon. And to this health, and that nameless magnetism which so few men possess, and the possession of which may be the best or the worst of God's gifts, he was a most enjoyable companion, the life of the social circle, and as much admired by men as he was adored by women. Shortly after he had attained his majority he came out to Terre Haute Indiana, on a visit. He returned to that pleasant city a few months afterward, bought him a farm in the vicinity, stocked it with the finest horses and cattle, and there inaugurated a series of dissipations which shocked the goodly little city to its center. He was soon ostracized from the society of the town, and direful stories are told of the excesses into which he then plunged. There were two gamblers from the East whom he had brought West with him, and it is said that there were still more disreputable companions of another sex who lived in the same house with him. From this rendezvous he would take frequent hunting excursions into the neighboring prairies of Indiana and Illinois, the return to be always celebrated by a debauch Wine flowed like water In this hunting lodge, as he called it, and cards followed the wine on the table. It was said by those who professed to know that young McDonald spent over one hundred and fifty thousand dollars the first year he lived in Terre Haute. Here he has since lived, and we are told that most, if not all, of his original patrimony has been squandered. It was on a visit back to Baltimore that this last fatal tragedy was enacted.

Should the circumstances as detailed in the local papers be correct, there will probably be a sad and sudden termination to this young and erst glorious life within the gloomy walls of worse. It may be that what we have here written will be eloquent of warning, and if so, this short story of a most promising life so wofully eclipsed will have accomplished its intent.

The Nevada *Democrat* says that the house of Orville Graves near that place is haunted. Mr. Williams states that among the wonderful spiritualistic feats which so disquiet and alarm his household, is almost daily and nightly rapping, not faint and feeble rappings, but loud and jarring as if a strong man was striking the floor and walls with a hammer. Then at night some unseen visitor seems to enter and throw something on the floor which falls with the noise and jar and clatter of an arm full of boards, but nothing can be seen. Then some one seems to take hold of the doors, and shake them time and again with all the might of a man. Mr. Williams' little girl about nine years old, frequently springs from the bed crying in her distress, "It's got me, it's got me." Mr. Williams says he has been living there four months, and it has been almost a daily occurrence during that time. He had taken up the floor of the house and dug eighteen inches under the house, but could find nothing. He has strippes the side boards from the house and examined with similar ill success. He says that no animal can get under the house and that there is no difference in the manifestations in the storm or calm.

A young lady in Concord, Mass. says there is profit in the poultry business.—She commenced with about sixty fowls in the spring. From these she raised 450 chickens. During the season she sold eggs to the amount of $90, and from September 20th to January 27th she got ready for market 150 pairs of chickens, which she sold for $260, making in all $350.

Why is a child hooked and killed by a cow like a modern lady's dress? Because it is gored to death.

To the Democratic and Conservative Party of Calhoun County.

Conforming to the call made for a State Convention, and the apportionment of delegates thereto, by the State Executive Committee, I hereby give notice that a Convention of the Democratic and Conservative Party of Calhoun County will be held in the town of Jacksonville on the 13th day of July, 1874, for the purpose of appointing or electing nine, (9) delegates in the Democratic State Convention, to assemble in the city of Montgomery on the 29th day of July, 1874.

If deemed expedent and proper, the Convention can also take such steps and adopt such measures as may be necessary with regard to the nomination of candidates for the legislature and County officers, in which event beat delegates ought to be instructed by resolution or otherwise as to the will of their respective beats, so that they may act advisedly and with authority.

As a matter for your consideration, I also submit the fact that this year you are to elect your Congressman, Chancellor and Circuit Judge, and, while no conventions have been called to make nominations for these offices, yet should it be determined to hold such conventions, the duty of appointing delegates to represent you in their deliberations, will devolve upon your County Convention Please consider this in your beat meetings and instruct your delegates accordingly.

In order that the Convention may be full and in its results satisfactory to all, I respectfully request and recommend that each beat or voting precinct hold a meeting on the 4th day of July, 1874, and, as advised by the State Executive Committee, "elect one delegate for every twenty-five (25) Democratic and Conservative votes cast in the last general election," also to so distribute the delegates to be elected over the beats or voting precincts, as to make the County Convention representative in character, and in its action reflective of the views of the ENTIRE Democratic party of the county.

A Terrible Thirty Minutes.

Mr. Kyle was at a near neighbor's house-raising, and Mrs. Kyle, with the smaller of her two children, went to a spring near by to do her washing. After being engaged some time she heard a scream from her little girl whom she had left at the house, and, hastening to the house, it was her horror to behold a huge rattlesnake lying there, with its fangs fastened in the child's arm. She succeeded in killing the snake, and then, thinking of her child which she had left at the spring, she hastened there, only to find that this one had climbed up onto the tub of water, fallen in, and was drowned. This nearly crazed her, and she ran with all her might to the neighbor's where the house-raising was, and, screaming with excitement, called to her husband, who, at the time, was upon the building, and he, through excitement, in trying to get down, pulled a piece of timber off upon him and fell, killing himself instantly. The friends then went back to where the child and snake were, only to find each dead, lying on the floor. This all happened within thirty minutes.—East Wayne County (Tenn.) Citizen.

NEW YORK, July 3.—A HAVANA letter of recent date says the misery and want existing in that city are great, and as a consequence crime has increased to a fearful extent, the columns of the papers being daily filled with assaults and robberies.

The jail is literally packed with criminals, and it is reported that the Governor General has ordered a part of the Island of Pines to be coverted into a correctional or penal colony for traitors, vagrants and incorrigibles, and that a military colony will be essablished there.

Several severe skirmishes have of late taken place in Cincovilla.

The County Convention.

The Convention which will meet in the Court House here on Monday next, the 13th, promises to be the most largely attended convention and most representative of the people of the County that has been held in twenty years.

The names of gentlemen composing the delegations from the various beats, is guarantee that the Convention will come together in mood and spirit befitting the grave responsibility with which its members are charged by the people, allowing nothing to impair that harmony so essential to a successful accomplishment of the work it may frame for the people of Calhoun in the approaching campaign.

That the most perfect fairness will mark the whole action of the Convention, no one can doubt after a contemplation of the material that compose it.—It is made up from the very best men from the various beats and the several neighborhoods of each beat in the County and can but reflect the popular sentiment of the white men of the county.

Whatever, therefore, that may characterize its action will be respected and acquiesced in by everybody in the county desirous of a white man's victory in Calhoun.

We hope that the County Convention next Monday will pass resolutions calculated to make every white man in the county declare by the stand he takes whether he is in reality a white man or a negro. Since the passage of the civil rights bill has become a part of the policy of the Radical party, it is necessary that the lines be more tightly drawn than ever, and that the fight take on a fiercer and more determined complexion. Heretofore we have fought the Radicals to prevent the pillage of our property.—Henceforth we fight them to avert social and moral degradation both from ourselves and those who we are to come after us.

The Talladega Mountain Home (Radical) coarsely assails Rev. Saml. Henderson for appearing as a delegate in the Talladega county Democratic convention.

To our mind there was nothing inappropriate in his being there in such a capacity. Indeed the gentleman may be said to have been in the regular line of his profession—whacking away on his old enemy, the Devil, whose Satanic Majesty is clearly embodied in the Radical party of Talladega county.

The Ministry have as direct an interest in our country's welfare and owe as large a measure of duty to that country as any other class of men; and while it may not be fit for a Minister, set apart to the special work of God, to engage in the rough and tumble struggle for purely political office, it is entirely appropriate for him to use his large influence to elevate our politics by the procurement of good and capable men to fill such offices. A good and beneficent Government conduces to the morality of its people.

In our last issue by a two line mention on the inside of the paper, it was made to appear that the County Convention would be held here on the 13th.

This was a typographical error. It should have read 13th.

We hope none of the delegates may be misled by it. To prevent this we sent out extras on Tuesday correcting the mistake.

The Convention will undoubtedly be held here on MONDAY next, **July Thirteenth**, and every beat in the County will be represented.

Our old friend Cross of the Talladega WATCHTOWER & REPORTER has written us a letter from Talladega in which he says:

"The Radical nominations took place to-day. Geo. W. Plowman was nominated for Probate Judge; Warnick for Sheriff; Coker for clerk; Thompson for Tax Collector. A negro named Ed Rivers beat his white competitor for Assessor."

That negro on the ticket is certain guarantee of the defeat of Mr. Plowman's ticket. He it is who will lead that valiant column of office seekers to certain an inevitable defeat. We cannot believe that the non office-seeking, moderate Republicans of the Hillabees will vote for any ticket that has a negro on it. Without them the Radicals cannot carry the county.

How pitiful is the strait to which the Radical party is reduced. If negroes are not put on the County and State tickets the negroes will defeat it. If they are the whites, will beat it, and so inevitable defeat stares the party in the face whatever betide.

Poor fools! This comes of trying to mix oil and water.

To the Democratic and Conservative People of the 5th Congressional District of Alabama

By authority of the District Executive Committee, a call for a District Convention of the party is hereby made, to be held at Gadsden, Etowah County, at the hour of 12 o'clock A. M. on Friday the 14th day of August 1874, for the purpose of nominating a candidate to represent said District in the 44th Congress of the United States.

The chairman of the committee is unable to give the number of delegates to which each county is entitled, having failed to obtain the number of votes cast by each county from which to make the apportionment.

Gadsden is designated because of the expressed wish of a majority of the committee.

JAMES REEVES,
Chairman of the Executive Committee of the Democratic and Conservative Party of the 5th Congressional District.

The Radical party, which was first to confer suffage on the negro, has been first to deprive him of it. Congress has abolished the elective government of the District of Columbia where negro voters were in the ascendant and supported a government that stank in the nostrils of the whole country.

Convention of Beat No 1

Pursuant to a call made by the Beat Committee, the Democratic voters of Beat No. 1 assembled at the Court House in Jacksonville, at 11 o'clock A. M. July 4th.

Maj. Miles W. Abernathy was called to the chair and Jno. M. Caldwell and Horace L. Stevenson requested to act as Secretaries.

At the call of the chair, Capt. James Crook briefly stated the object of the meeting. A motion to elect the delegates to the County Convention to be holden 13th inst., by ballot was offered, discussed and prevailed.

The election was then entered into, the result of which showed the following named gentlemen to be chosen as delegates, to wit: M. W. Abernathy, James Crow, Wm. M. Haines, D. P. Forney, Ab. Littlejohn, Abram Aderholt, Moses Homesley, J. C. Francis, Nathan Clark, S. J. Stevenson, James Gidley, R. D. Williams. About 25 others received scattering votes. The names of the delegates elect having been announced, Capt. Crook offered the following Resolution which was unanimously adopted:

Whereas, The delegates to represent Beat No. 1 in the Democratic Convention of Calhoun County to [illegible] in the Town of Jacksonville, on the **13th day of July** inst., have been chosen by ballot and therefore left to the choice of the people of the Beat, and

WHEREAS, This Convention has full faith and confidence in their honesty, fidelity and discretion; therefore be it

Resolved, That said delegates shall be left free and untrammelled to act in all business that may come before said County Convention as, under all the circumstances, they may think the best interests of the County and the supremacy of the Democratic party in our State Government may demand.

On motion it was determined to furnish the JACKSONVILLE REPUBLICAN and *Oxford Intelligencer* copies of the proceedings of this meeting.

Convention then adjourned.

JNO. M. CALDWELL,
H. L. STEVENSON,
Secretaries.

Convention of Beat No. 8.

In accordance to a call made by the Executive Committee of the Democratic and Conservative party of Calhoun County, Beat No. 8 met in Convention July 4th 1874 and on motion Wm. Scott, Esq., was called to the chair and Spartan Allen requested to act as secretary.

On taking the chair Esq. Scott made a few very appropriate remarks and stated the object of the meeting.

On motion of Capt. L. W. Wragg, a committee of three was appointed by the chairman to select five delegates to attend the County Convention at Jacksonville, on the 13th inst. Capt. L. R. Wragg, Carter Booger, and J. T. Beattie was appointed, the committee retired a few minutes and reported the following, viz: W. B. Green, W. L. Dale, A. J. West, S. Allen, and W. J. Scott to the Convention.

On motion the names of Allen and West was struck out and the names of Beattie and Wragg inserted, and G. W. Wells, D. T. Ledbetter, Carter Booger, Jno. M. Patterson and John Dale was selected as alternates.

On motion of J. M. Patterson the delegates was instructed to vote for a County Convention (if one was called for the purpose of nominating County Officers) and instructed them to represent this Beat in said Convention, and we pledge our support to the nominees of the Convention.

On motion a copy of these proceedings was ordered to be sent to the Jacksonville Republican and request that the same be published.

S. ALLEN, Sec. WM. SCOTT, Ch'n.

Report of the Meeting of the Dem. and Con. Party, Beat No. 9

Cross Plains, July 4th, 1874.

Meeting called to order by A. D. Bailey who read the call of chairman of the County Executive Committee explaining the object of the meeting.

On motion of R. W. Peters, H. N. Sneed was elected Chairman and H. C. Keith to the Secretary. Chair announced the meeting ready for business.

On motion of S. [illegible] committee of five, consisting of [illegible] J. J. Wilson, Slade Nabors, M. T. Moody and R. W. Penny, were appointed to select delegates to the County Convention and report names to the meeting.

On motion of A. D. Bailey, the committee was instructed to furnish their own names as a portion of said delegation.

The Committee reported the following names and the report was unanimously adopted:—Thos. Allsup, Sr., M. T. Moody, R. W. Penny, J. B. Smith, J. J. Wilson, Slade Nabors, L. C. O'Briant, A. D. Bailey, Jno. W. Pike, S. M. Penland and Jno. Turk.

On motion of A. D. Bailey, the chairman of the meeting, Mr. H. N. Sneed, was added to the delegation.

On motion of S. M. Penland, the meeting adopted the platform suggested by Col. McKee of the *Southern Argus*.

The following resolution was unanimously adopted:

Resolved, That in the opinion of this meeting, the success of our party in the coming election is of the greatest importance to every good citizen, and with this in view, we empower our delegates to vote and act, upon all matters coming before the County Convention, as their own good judgment may dictate.

On motion the meeting adjourned, *sine die*.

H. N Sneed, Chairman.
H. C. Keith, Secretary.

Platform of Principles of the CALHOUN COUNTY COUNCIL.

In pursuance of a resolution adopted at the last meeting of the County Council of Patrons of Husbandry of Calhoun County, the Council promulgate the following declaration of principles. Inasmuch as we believe that they cannot be improved upon, we adopt entirely the following from the admirable platform of principles laid down by the National Grange at St. Louis, Feb. 11th 1874.

First. United by the strong and faithful tie of Agriculture, we mutually resolve to labor for the good of our order, our country and mankind.

Second. We heartily endorse the motto: "In essentials unity; in non essentials liberty; in all things charity."

Third. We shall endeavor to advance our cause by laboring to accomplish the following objects, to wit: To develop a better and higher manhood and womanhood among ourselves; to enhance the comforts and attractions of our homes and strengthen attachments to our pursuits; to foster mutual understanding and co-operation; to maintain inviolate our laws; to stimulate each other to labor to hasten the good time coming, to reduce our expenses, both individual and co-operative; to buy less and produce more in order to make our farms self-sustaining; to diversify our crops and crop no more than we can cultivate; to systematize our work and calculate intelligently on probabilities; to discountenance the credit system, the mortgage system, the fashion system tending to prodigality and bankruptcy. We propose meeting together, talking together, buying together, selling together, and, in general, acting together for our mutual protection and the advancement the Association may require. We shall avoid litigation as much as possible in the Grange. We shall constantly strive to secure entire harmony, good will and vital brotherhood among ourselves and to make our order perpetual.

Fourth. We emphatically and sincerely assert the oft repeated truth taught in our organization that the Grange, National, State, or subordinate, is *not* a political or party organization. No Grange or County Council formed of the representatives of granges, if true to its obligations can discuss political or religious questions, or call political conventions, nor nominate candidates, nor even discuss their merits in its meetings; yet the principles we teach underlie all true politics, all true statesmanship, and if properly carried out will tend to purify the whole political atmosphere of our country, for we seek the greatest good to the greatest number. But we must always bear in mind that no one by becoming a Grange member gives up that inalienable right and duty which belongs to every American citizen to take a proper interest in the politics of his country. On the contrary it is right for every member to do all in his power legitimately to influence for good the action of any political party to which he belongs; it is his duty to do all he can in his *own party* to put down bribery, corruption and trickery; to see that none but honest capable and faithful men, men who will unflinchingly stand by our individual interests are nominated for all positions of trust, and to have carried out the principles which should always characterize every Grange member, that the office should seek the man and not the man the office.

Mixed Schools Again.

The whole tone and temper of the negroes in their late State Convention was in opposition to any declaration against mixed schools. Resolutions offered by JERE HARALSON, one of the most sagacious of his race, construing the Civil Rights Bill not to mean mixed schools were voted down, and the address was put forth with those resolutions stricken out. It was even told to JERE on the floor of the Convention that he had lost his chances of an election to Congress by his opposition to a declaration at this time in favor of mixed schools. The white Radicals are attempting to create the impression that because there are separate schools now they will continue to be so. This is ridiculousy absurd for if the negroes had the power they would to-morrow break up the State University and the Agricultural College and all the five schools by impudent demands for admission of negro people, and their white skin allies who hold office at their hands would not dare to oppose them. A few days ago there was a negro meeting at a little town, Williston, in Tennessee, and a sable orator thus spoke:

"I am going to have my social rights, let it cost what it will, if I have to ride in the blood of whites to my bridle bits. I am ready to begin now and to die before night if necessary." Pointing to the academy he asked: "Are we allowed to send our children there? No! But we *will have* our children on top if it sinks every white child in Fayette county to hell."

At the close of this villainous harangue, another negro mounted a box and proposed three cheers for the speaker and his sentiments, which were heartily given.

The Civil Rights bill and the refusal of the U. S. Senator to adopt a clause in favor of separate schools, has aroused the same feelings among the negroes in Alabama, and sentiments almost as atrocious as the ones uttered by the Tennessee negro fell from the lips of African "statesmen" in their late Convention in this city.

The truth of the matter is, the negro party of Alabama demand mixed schools and if it becomes necessary for the few white men (office-seekers) now in that party to yield to the demand, they will nearly all unhesitatingly do so. At the last session of the Alabama Legislature certain amendments to the State Constitution were advocated by the Democrats and a few Republicans from white counties.—Among others was one proposed in the Senate by Mr. COOK, of Shelby, which provided for separate schools. This amendment was opposed by the Radicals, PENNINGTON speaking against it as being unconstitutional and *in violation of the registration oaths*. Senator LITTLE, who is a fine lawyer, and certainly better informed in every respect than every Radical in the Senate urged the amendment as a proper one and as being in no sense in opposition to the registration oath, but as simply a recognition of the natural differences established by the great Creator of the Universe and which it was our duty to respect.

Mr. PENNINGTON in reply stated that he favored all the other amendments proposed, but if this particular one was pressed he would vote against it, and all the other proposed amendments, and that every Republican Senator would do the same thing. *Here was a Democratic* Declaration from the leading Radical of Alabama that his party would oppose any amendments, to the State Constitution which provided for and required separate schools. Actions speak ten thousand times louder than words. Rather than endanger the other proposed amendments, this particular amendment was withdrawn.—*Montgomery Advertiser.*

THE COMET.

Professor Parkhurst Tells Us All About It.

On Tuesday evening, June 30th, and on the following evening, the moon will rise before the twilight fairly ends, but on Thursday, July 2, at half-past nine o'clock, the comet will be easily seen by the naked eye in the north-west sky (no other description will be needed) with a tail about five degrees in length. On succeeding evenings the nucleus will move toward the South, while the tail will increase in length, so as to bring its extremity gradually northward. On the 14th of July the head of the comet will have reached the horizon in the north-west at the end of twilight, so that it will not be visible after that date, but the tail will extend nearly to the pole-star. Donati's comet had a retrograde motion, when the earth met it, and the tail was most brilliant, it was placed nearly at right angles with the line of vision. On the other hand, this comet, whose perihelion distance is very little greater, coming just within the orbit of Venus, moves in the same direction with the earth, and nearly with the same velocity (reduced to the plane of the equator), in consequence of which the tail, which is now nearly at right angles with the line of vision, will gradually turn toward us, still apparently pointing nearly in the same direction. It will be remembered that Donati's comet was curved like a soldier's plume; but Coggia's is now and will remain nearly straight, because the curvature will be directly from us, and therefore imperceptible. Another striking difference from the tails of comets generally is that it will be so foreshortened as to be remarkably wide at the end. On July 17th the tail will extend far beyond the pole and develop a new characteristic, tapering on rapidly toward the end. Within three or four days after the 16th the tail will have become so expanded fill the neighborhood of the pole as to fill a large part of the northern heavens. Yet it will not be a conspicuous object, because it will be so faint as to look rather like an immense cloud or a new milky way than what it really is. By this time we shall have solved the question whether the tail is hollow or has a radiated structure or what is its constitution. Of the way in which this will end it is not safe yet to speak with definiteness; for although, if the tail were straight, we should be almost certainly near the middle of it on July 20th, yet its curvature will probably delay it two or three days, and even until the earth has passed beyond its path. Taking the best value I can from the records of previous comets, I should expect the earth on July 22d to be wholly within the eastern edge of the comet's tail, and I will assume this to be the case. The comet will then disappear to us; but then the inhabitants of the Southern Hemisphere, who may be ignorant of the cause of the luminosity of the evening sky, will see it gradually rise and pass away, and will be amazed by the sudden apparition of a comet of extraordinary size and unusual brilliancy, which will burst upon their vision as unforeseen as the great comet of 1871. The gradual diminution and final disappearance of the comet will be so nearly the converse of what we shall have witnessed here that it needs no description. What will be the effect upon the earth? I dare not predict the effect upon the minds of men, especially of the ignorant; but I do not anticipate any appreciable physical effect further than possible electrical phenomena like the aurora. It will, of course, leave us a portion of its atmosphere when it departs, but, probably, not enough to affect the barometer, or to come within the cognizance even of scientists. But there may be, by possibility, one permanent effect of scientific interest and curiosity. If the earth should not entirely escape, the moon will also probably be involved, and will also retain a portion of the cometary substance. As the amount of the atmosphere upon the moon's surface is now so small—if, indeed, there is any at all—that it is unrecognizable by the nicest astronomical security, perhaps after the passage of the comet we shall find that henceforth the moon will have an atmosphere, of greater or less density, which will materially modify the phenomena of occultations and solar eclipses. I will add that Venus is safely out of the way, so that the transit expedition will not be interfered with by the great comet of 1874.

Are we to Have a war of Races?

[Summerville (Tenn.) Falcon, July 2.]

Oscar Williams (colored) made an insolent speech at Williston last Saturday evening, in which he said: "I am going to have my social rights let it cost what it will, if I have to ride in the blood of whites to my bridle bits. I am ready to being now and die before night if necessary." Pointing to the academy he asked: "Are we allowed to send our children there? No! But we *will have* our children on top if it sinks every white child in Fayette county to hell." At the close of this villainous haragne a negro living on the Pulliam place mounted a box and proposed three cheers for the speaker and his sentiments, which were heartily given. Had it not been for the presence of a few old, thoughtful citizens, who advised to the contrary, this impudent scoundrel, Williamson, would doubtless have met the fate he richly deserved. This incident suggests grave apprehensions in regard to the future relation that are to exist between the two races. White people, do not delude yourselves with the fanciful, lulling belief that the masses of the negroes will never indorse such measures. *They always follow their leaders*, no matter where the lead. We now sound the note of warning. Such an incendiary policy, if not nipped in the bud, will inevitably lead to riot bloodshead and a war of races.

The subject of cremation naturally includes many grave considerations.

LAST NOTICE.

Fair warning is hereby given that I shall proceed under order of Council to collect delinquin taxes by levey and sale of property, if the same is not paid to me within ten days. Persons due taxes will save cost and trouble by immediate settlement.

Ala. Gold Life Insurance Co.
OF MOBILE, ALA.

All who desire to make a safe and certain investment for the future, should not neglect the opportunity of doing so while in sufficiently good health to secure a life policy in a good and reliable company. Such a one is the Ala. Gold Life, conducted in the management by officers of acknowledged ability and integrity, well known to the people of Alabama. But that which gives the company its strongest claim to patronage and support is the fact that it is a *Home* Institution, using its earnings at home among its policy holders. This company is now doing a very large and rapidly increasing business all over the South.

I will be pleased to see my friends and show them the advantages the company offer for Life Insurance.

These EXCURSIONS are getting to be a great bore. They demoralize labor and take a great deal of money out of the country. The poor freedmen had better save their money and let "scursions" alone. Let everybody henceforth discourage excursions by keeping their servants at home.

The ge-lorious Fourth passed without notice.

THE COMET.—Quite a pleasant party of ladies and gentlemen gathered at Col. Lockett's Monday evening and took a look at the prevailing sensation through the splendid telescope of Calhoun College.

The rumor to the effect that the Deputy Sheriff of Talladega county was killed on the late excursion to Atlanta by falling from the cars proves to be unfounded. He did fall from the train and was hurt somewhat severely, but not dangerously.

Mr. D. J. Privett has left in this office some stalks of millet, not yet headed up, which are over five feet high.—He sowed twenty-five cents worth of seed on a small piece of ground, and says he will get two wagon loads of good hay from it at the lowest calculation.

We were requested last week by the gentleman sending us the proceedings of the Davistown meeting to publish in connection therewith the platform of the *Southern Argus*. Want of room prevented a compliance at that time, but we publish it this week agreeably to that regret.

About as clear threshing as we have heard of was done by the thresher now run by Mr. M. A. Parker.

Mr. James Nunnelly reports that he got two and a half bushels threshed and then had it carefully weighed. He then had it run carefully though the smutter.

Upon weighing it again he discovered that he had only lost in the whole lot one pound and a half.

SAD OCCURRENCE.—On Monday last, the 6th inst., Joseph, the second son of Mr. J. C. Boles of this county, was killed under the following circumstances:—He had started to the field to plow, and had just mounted his mule for that purpose, when the animal ran away and threw him heavily to the ground, breaking his neck and shoulder, killing him instantly. No one was witness of the sad occurrence but his mother. A private letter describes him as a "lovely little boy; as pleasant and industrious a little fellow as the writer was ever acquainted with."

The stricken parents have our heartfelt sympathy.

OUR LOST ONE.

In memory of the pure, the cherished and lamented Mrs. Ruth A. Reid.

BY DUDLEY WILLIAMS, M. D.

"The spoiler set the seal of silence,
But there beamed a smile,
So fixed, so holy from that cherub brow
Death gazed, and left it there. He dared not steal
The signet ring of heaven."

Speak lowly, tread lightly, for the loved one is dying;
She is crossing the river that bars us from God:
Weep fondly—but then there is no use in crying,
She's but traveling the path that her Savior hath trod.

Oh, weep not for her who is dying in glory,
Whose innocent life from the earth must be riven;
She leaves us on earth to dwell on her story
To live with the angels above us in heaven

She has tasted the pleasures that earth doth bestow,
She has borne her afflictions and looked to the prize,
And now she is leaving them all here below,
To take her flight upward and reign in the skies.

Ah! now she is dead and her spirit is basking
In the sunshine of bliss, at her maker's right hand;
And the mem'ry she's left us on earth is as lasting,
As the ocean that lashes her waves on the strand.

Her heart was as pure as the dew drops from heaven;
Her soul was as free as the rain from the skies;
But no more to us here is her noble life given
For she dwells in the temple of God's paradise.

Then husband and son weep not for she's resting
In a far better clime—in the land of the blest,
Where the wicked of earth ever cease from their troubling,
And nevermore weary—henceforth she will rest.

Oxford, July 6, '74.

A LETTER from Paris describes the peculiar suicide of a man who threw himself from the Point de Selfeune into she Seine, holding in his hand a bag wherein he had placed his cat, his dog and two canaries. He was taken out terribly injured, though still in possession of his senses, but the poor animals were all dead. He declared on being conveyed to the Hospital that, being weary of his life, he had resolved to quit it, taking with him the only creatures that had not ceased to love him when misery and want became his portion. He died in a few hours after being rescued from the Seine.

A MAN KILLED.

The Railroads Prostituted to and Indecent Purpose.

An Outrage to be Condemned by all Respectable People.

During the return of that most outragous, indecent, yea most infamous excursion train that passed through Rome bound to Atlanta last Friday night, a man by the name of John Heron was killed at the tank about two miles from this city. The train was returning Saturday night and the man Heron was very much intoxicated. As the train was passing the tank, which is very near the road, he appears to have been sitting in one of the windows or on the platform with his body protruding from the car. As the train was passing, one of the beams of the tank struck him about the right hip literally tearing it from the backbone. The train passed on and the poor wretch was left to die in that condition. In fact no one appears to have known that the accident had happened or to have missed the man from the crowd. The body was brought to the city Sunday morning and an inquest was held upon it by the Coroner. The man was a laborer at Rock Run Iron Furnace.

Words are inadequate to speak in terms of condemnation strong enough to meet the case of this whole excursion proceeding. Two bar rooms were aboard the train, a gambling establishment and a dozen or more of the lowest down women that ever disgraced humanity. The whole trip was one scene of drunken debauchery and outrageous indecencies. If the Railroads are to be prostituted to such base and degrading purposes, for the sake of a few dollars, the sooner the laws of the country take them in hand the better. And as for the parties running this train, and who were at the head of these outrageous proceedings; a requisition should be made upon the Governor of Alabama for them. They should be brought back to Georgia and tried for violating the license laws of the State and for other crimes against the peace and good order of society.—*Rome Commercial.*

We do not know what character of people went to make up the excursionists from other points, but we can say that none of the young men who went from this point were "roughs," or such as would participate in any such disgraceful proceedings as described by our Rome cotemporary.

I have established a branch office of the Southern Express Company, at the new livery-stable south of the public square.

PLATFORM FOR 1874.

Respectfully Submitted for the Consideration of the Democrats of Alabama.

I. The government of Alabama should be administered by white men, representing white constituencies, in the interest of white men with the fullest protection to negroes in all their rights and privileges, civil and political.

II. The first duty of citizens is obedience to the constitution and laws of the United States and of the state.

III. Excessive and unequal taxation is unjust, oppressive, and incompatible with a wise administration of government.

IV. Special legislation is a growing evil, embarrassing in practice, demoralizing in tendency, and wrong in principle, and should be resisted and prevented.

V. The squandering, misappropriation, or embezzlement of public property, by those entrusted with its management, is a high crime, which ought to be made odious by most stringent laws for the punishment of offenders.

VI. Fidelity in the discharge of public duties is to be measured by the strict letter of the law and the exercise of unauthorized or doubtful power by any officer of state or county should be prohibited and and punished.

VII. The state will pay punctually and to the uttermost farthing every claim against it, no matter how it shall have originated, nor for what purpose nor by whom it may have been created, *provided*, it be valid in law and equity; but the legislature ought not to make any appropriation for the payment of any claim, nor to authorize it, until satisfied that it was created in good faith and in substantial accordance with the letter and the spirit of the law.

VIII. Candidates accepting nominations from the democratic party, for state or county offices, are solemnly pledged, each in his sphere, if elected, to advocate and support the enactment of laws—

1. To lop off all unless offices.
2. To probibit long sessions of the legislature.
3. To dispense with all sinecure employments.
4. To proscribe all local and class legislation.
5. To reject all claims against the state invalid in law or equity.
6. To reduce the rate of taxation.
7. To provide for the easy redemption of lands sold for taxes.
8. To protect person and property through an impartial enforcement of the laws.
9. To more effectually punish high crimes and misdemeanors in office.
10. To reduce the pay of legislators to $4 a day and no milage.
11. To reduce the pay of the governor to $3000 a year.
12. To reduce the salary of the lieutenant-governor to $500 a year
13. To cut down the perquisites of the secretary of state.
14. To reduce the salary of superintendent of public instruction to $2000 a year.
15. To reduce the salary of the commissioner of industrial resources to $500 a year.
16. To reduce the compensation of judges of the supreme court to $3000 each a year.
17. To reduce the compensation of chancellors and circuit Judges to $2400 each a year.
18. To allow the governor no recording secretary.
19. to reduce the pay of the marshal and librarian of the supreme court to $1000 a year.
20. To reduce the allowance for watchmen, servants and messengers employed by the governer to $1000 a year.
21. to reduce the allowance to the governor for contingent expenses to $3000 a year.
22. To reduce the number and pay of the clerks and employees of the two houses to what they were before the war.
23. To allow the superintendent public instruction no clerical assistance.
24. To provide a reduction of fees that no sheriff, clerk, or probate judges shall receive over $3000 a year exclusive of necessary office expenses.
25. To reduce the cost of public printing to a sum not more than twenty per cent in excess of the annual cost before the war.

IX. Candidates accepting nominations from the democratic party for state or county offices whose salaries may not be constitutionally reduced during the term for which they shall be elected, are solemnly pledged to return to the public treasury any pay or perquisites to which they may be entitled in excess of that provided by new legislation.

MOBILE, July 6.—Early this morning at Enterprise, Mississippi, a fiendish outrage was committed on the person of a child five years old, daughter of an esteemed merchant, by a negro named Lidd. The negro was incarcerated in jail but the citizens overpowered the jailer, took the negro to a neighboring tree and there hanged him. He confessed the deed. No doubt of his guilt.

NOTICE!

R. H. Coleman and L. A. Weaver, having the right to build the P. A. Shearer cotton press, for Calhoun county, are prepared to build the same for all who may desire.

A Brilliant Record of Cures.

An American humorist tells us that it would have been money in his pocket if he had been born without a stomach, and then proceeds to figure up the cost of a chronic dyspepsia, to which he is a martyr, & which he says it is impossible to cure. On this point, "Josh Billings," (for he is the party referred to) is mistaken. Unless his stomach differs from all other dyspeptic stomachs. Hostetter's Bitters will cure him in less than three months This it would be safe to guarantee under any penalty. There are a few, a very few, actual specifics for disease in existence, and Hostetter's Stomach Bitters may be set down as one of them. In cases of indigestion it never fails. Persons who had suffered many years almost every conceivable species of torture from this agonizing complaint, have been permanently cured with the Bitters in six weeks Hundreds of such instances are on record, authenticated by the testimony of prominent men in every walk of life, eminent physicians among the number. But this celebrated vegetable preparation is something more than a stomachic and tonic. It is also an alterative of wonderful virtue. In liver complaint its effect is as direct and immediate as that of calomel or blue pill, and far more salutary; and in all diseased conditions of the bowels, notably in cases of constipation, its regulating properties are in the highest degree serviceable. The new settlements in the west and all low-lying tracts of country infested with miasmatic exhalations, so fruitful at this season, of the various types of intermittent fevers, should be always well stocked with this incomparable chologue, which will cure any case of fever and ague in a period varying from three days to three or four weeks, according to the violence of the complaint. Nervous disorders which are always aggravated by the adulterated liquors usually prescribed by physicians, are readily cured by a course of this admirable combination medicine, in which the properties of a stimulant, a tonic and alterative are happily blended.

"The Gentleman in Black," who is the ruleiar demon of dram-shops, assumes his sourest aspect when the rapid progress of VINEGAR BITTERS is reported "down below." The People's Vegetable Tonic is playing the mischief with his bitters fired with rum. All diseases which those demoniac nostrums aggravate, under pretense of relieving, such as indigestion, sick-headache, constipation, rheumatism, gout, and intermittent fevers are cured by it. 4t.

The Texas Grand Gift Concert.

Col. Gustave Cook, editor and proprietor of the Houston *Age*, and who did good service in the 13th Legislature, endorses the Texas Grand Gift Concert, at Houston, July 20, and its officers as follows:

"Of Capt. J. E. Fosrkit, the Manager, we have this to say to those who are unacquainted with him.—He is a gentleman of as fair reputation for honor, integrity, business capacity and reliability as any in our city. His character for uprightness and fidelity is unexceptionably good, and he has the confidence of our entire community. He is sustained by and associated with the very best men in Houston, in his plan for the sale & distribution of his real estate, in which, by the way, he has long been one of our most successful dealers. His whole plan is fair, honest, and based upon actual market value. Not only as an editor but as a man we endorse Capt. Foster for all we have said of him in every respect. We deem it proper to make these remarks because his enterprise is worthy of patronage, and he is entitled to the entire confidence of the publis. His object is not only legitimate, but praiseworthy, and he can, if necessary, have the endorsement of every substantial man in the city for all he promises. It is supererogatory to tell who the gentleman selected to act as the Treasurer of the Distribution is, for every business man everywhere in the United States knows, or by enquiring of his banker will readily find out, who THOMAS W. HOUSE, the largest private banker in Texas, is. His word is worth a million on Wall street."

The price of Tickets ($2) places within the reach of every one a chance to draw one of the 1372 prizes, amounting to $146,000, in gold, houses and lands throughout the State.

Saturate a Piec of Bread or Meat with gastric juice, and it *will dissolve*. This is digestion. Add to such a mixture a little alcohol, and it will *not dissolve*. This is indigestion. Beware, then, of tinctures, or tonics, or decoctions containing spirituous liquors. Shun all rum "tonics," and rely solely on Dr. WALKER'S VINEGAR BITTERS, the finest digestive invigorant known, and free from the fiery curse of Alcohol. 4t

Go West Through St. Louis.

To all who are seeking new homes in or are about to take a trip to Missouri, Kansas, Colorado, New Mexico, Nebraska, Oregon or California, we recommend a cheap, safe, quick and direct route by the way of St Louis, over the *Missouri Pacific through Line*. It is equipped with five Day Coaches, Buck's Reclining Chair Cars, Pullman's Palace Sleepers, the famous Miller Platform, and the celebrated Westinghouse Air-Brakes and runs its trains from St. Louis to principal points in the West *without change*. We believe that the *Missouri Pacific Through Line* has the best track of any road west of the Mississippi River, and with its superior equipment and unrivalled comforts for passengers, has become the great popular thoroughfare between the East and the West—Trains from the North, South and East connect at St. Louis with trains of the Missouri Pacific. The Texas connection of this road is now completed, and passengers are offered a first class all-rail route from St. Louis to Texas, either over the Missouri, Kansas & Texas R. R., *via Sedalia*, or over the Atlantic & Pacific R. R., *via Vinita*. For maps, time tables, information as to rates, routes, etc, address E. A. Ford, General Passenger Agent, St. Louis, Mo. *Questions will be cheerfully and promptly answered.*

Cheap Farms for Sale—Easy Terms.

The Atlantic and Pacific Railroad Company offers 1,200,000 acres of Land in Central and Southwest Missouri, at from $3 to $12 per acre, on seven years time, with free transportation from St. Louis to all purchasers. Climate, soil, timber, mineral wealth, schools, churches and law-abiding society invite emigrants from all points to this land of fruits and flowers For particulars, address A. Tuck, Land Commissioner, St. Louis, Mo. Jan. 3, 1874.

BEE KEEPERS READ!

MITCHELL'S

BUCK EYE BEE HIVE.

The Best of the Age.

IT is so arranged that no Moth or Miller can enter the Hive without being caught, it having a patent moth trap which catches all that attempt to enter. The arrangement is complete—the frames are all moveable, the door opening full size in front, giving view of the entire colony at any time: and all that is necessary when you wish to make an artificial swarm is to draw out the frame in mass and place half of them in another hive. It is so spaced that the Bee does not build his comb on the side of the hive, but confines himself to the frames. With proper attention, and all things else favorable, from 200 to 400 pounds of honey can be taken from one hive in a season.

Reference is made to the following parties who are using them. W B Green, Carter Boozer, Mrs. E J. Tate, W Weir, S P Snow, A Woods, Ed Woodward, wm. DeFriese, Minas woodruff, C B Sisson, Edmund Clay.

Samples can be seen at woodward's store.

FAREWELL.

[WILLIAM WINTER, the poet-editor of the New York "Tribune," we have often introduced to our readers in his own beautiful numbers, as the Coming Poet of this country. Lately the Lotos Club, of New York, gave a farewell banquet to John Brougham, the veteran author, actor, and wit, on the eve of his departure to revisit the Green Isle of his birth. Willie Winter read the following poem on this interesting occasion. The New York paper from which we extract it says:—*Mobile Register.*

"It was received with remarkable appreciation. Four several times during the reading the whole company of seventy-five rose from the table and interrupted the poet with prolonged cheers and waving of handkerchiefs."]

If buds by hopes of Spring are blessed,
That sleep beneath the snow,
And hearts by coming joys caressed,
Which yet they dimly know—
On fields where England's daises gleam,
And Ireland's shamrocks bloom,
To-day shall Summer, in her dream,
Be glad with thoughts of Brougham.

To-day, o'er miles and miles of sea,
Beneath the jocund sun,
With merrier force and madder glee
The bannered winds shall run:
To-day great waves shall ramp and roar,
And clash their shields of foam,
With bliss to feel the coming kneel
That bears the wanderer home!

For he that loved and honored here—
God bless his silver head!),
O'er many a heart, for many a year,
The dew of joy has shed,
Longs for the land that gave him birth,
Turns back to boy again,
And, bright with all the flags of mirth,
Sails homeward o'er the main.

Ah, well may winds and waves be gay,
And flowers and streams rejoice,
And that sweet region, far away,
Become one greeting voice!
For he draws backward to that place,
Who ne'er, by deed or art,
Made darkness in one human face,
Or sorrow in one heart!

He comes, whom all the rosy sprites,
Round Humor's throne that throng,
Have tended close through golden nights
Of laughter, wit, and song;
Whom Love's bright angels still have known—
He ne'er forgot to hear
The helpless widow's suppliant moan,
Or dry the orphan's tear.

Where boughs of oak and willow toss
His life's white pathway flows—
With many an odor blown across,
Of lily and of rose.
His gentle life that blessings crown
Is fame no chance can dim;
And we honor manhood's best renown,
When now we honor him!

Ambition's idols crowned to-day
To-morrow are uncrowned.
Their fragments are of common clay,
Strewn on the common ground.
But unto monarchs of the heart
Are crowns immortal given;
And they who choose this better part
Are anchored fast on Heaven.

Grief may stand silent in the eye,
And silent on the lip,
When, poised between the sea and sky,
Dips down the fading ship:
But there's one charm his heart to keep,
And hold his constant mind—
He'll find no love beyond the deep
Like that he leaves behind!

So, to thy breast, old Ocean take
This brother of our soul!
Ye winds, be gentle for his sake!
Ye billows, smoothly roll!
And thou, sad Ireland, green and fair,
Across the waters wild,
Stretch forth strong arms of loving care,
And guard thy favorite child!

And whether back to us he drift,
Or pass beyond our view,
Where life's celestial mountains lift
Their peaks above the blue—
God's will be done! whose gracious will
Through all our moral fret,
One sacred blessing leaves us still:
To love—and not forget.

A Study for Bret Harte.

Passing over one of the elevations, my companion pointed out on our left a narrow valley, through which ran a sluggish stream among the thick willow-bush. "That is a place," said he, "I shall never forget, for there it was we fit the Injuns in the biggest kind of a fight. Every shot of them told on some of us, and we could't git at 'em, they was stowed away so close in the brush. We lost twenty men but we finally drove 'em. I tell you' twas wese than fighting with bars! Just as the scrimmage was about over poor Gus Mullish was shot down close by me. I knew Gus well. We'd been partners in California. He was one of the best fellers I ever knowed, and we was always gettin' sells on one another. But Gus got the heaviest thing on me when he died! As soon as he was shot I see he was a goner. I helped him up on the back, and eased him off all I could, sayin' over all the Bible I knowed, and promisin' to give his watch and his gun to his folks. But Gus wanted me to agree to send him to Frisco, where his folks lived. So I promised, and he died happy. Well, I buried him on the stop temporary. Three years after, when I cal'ated he was about eat up, I went for his bones. Now, what do you think Gus had been and gone and done? Why, as he was buried in a kind, he'd gone and turned himself into solid stone, and then he expected me to pay freight on him all the way to Frisco! I did it, though, but that was the last load Gus ever got on me!" When Jeff had concluded this touching reminiscence his departed of friend, he stopped his horse and took a drink to his memory.—*Travels in Utah by John Codman.*

At a late reception given by the Lieutenant-Governor of South Carolina, among the delicacies of the season, some ice cream in a rather liquid condition was passed around upon tasting which one of the newly-elected State Senators, to whom ice cream was as great a rarity as his political office was a novelty, exclaimed, "Golly, childe, dis am de coldest soup I ever ate."

A BOOK FOR THE MILLION!

Marriage Guide. A private Counselor to the Married or those about to marry on the physiological mysteries and revelations of the sexual system, with the latest discoveries in producing and preventing offspring, how to preserve the complexion, &c.

This is an interesting work of two hundred and six pages, with numerous engravings, and contains valuable information for those who are married, or contemplate marriage. Still it is a book that ought to be kept under lock and key, and not laid carelessly about the house.

It contains the experience and advice of a physician whose reputation is world-wide, and should be in the private drawer of every male and female throughout the entire globe. It embraces everything on the subject of the generative system that is worth knowing, and much that is not published in any other work.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower regions of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sadorific, Alterative, and Anti-Bilious.

THE POST-MORTEM.

A Physician's Story.

It was in November—the thirteenth—about five-and-twenty years ago, that Dr. Turner sent for me to meet him in consultation upon a case at Bortondale. On the following day I answered the summons. Bortondale was fourteen miles distant from my residence; and when I reached the special address designated I found Dr. Turner already there, and with him was Dr. Prescott, of a neighboring town. Our patient was a man of about sixty, named Ebenezer Varney.—He was a farmer by occupation, though of late years he had turned his attention particularly to stock-breeding and money-lending. He had been fortunate in his speculations, and was what, in the country, is considered wealthy. Until within three months Mr. Varney had known nothing of sickness. According to his own account, he had "never known a sick day until this trouble come." He was a large framed man, and Dr. Turner, who had known him for years, assured me a tighter more hale and hearty than he had previously been was not to be found anywhere.

"And now," said I, "what is the case as you have had it?"

"Here it is," replied Dr. Turner: "I was called to see the patient during the last week in August. I found him weak and languid; with no appetite; the pulse low and sluggish, and the tissues seeming to be gradually, but surely wasting. There was no fever; and he had complained of but little pain. At first I thought it might be a case of dyspepsia; but I was very soon forced to believe that there was something deeper than that. There was a suspension of the whole alimentary power, as though the organs had suddenly failed, as an old watch will that has been run a long time without lubrication—simply worn out.—He had been a hard worker; exposed to all sorts of weather; careless of his health; and eating everything that came in his way. My treatment has been varied. I tried the different preparations of iron at first, with such alteratives and tonics as I thought he would bear. Of late, however, my course has been almost entirely experimental; and I think I may safely say that I have exhausted the whole pharmacopoeia. But all to no effect. The waste goes on, like poison eating into the vitals, and I have no power to stop it. I am free to confess that I am at a stand still. I hate to tell these honest people who are so anxious to know what ailed him; that the trouble was paralysis of the alimentary canal.—Of course I must give them a direct answer, and that came as near to my knowledge of the case as any thing."

"And," said I, "a very good statement it is. But if there is paralysis of the canal, what caused it?"

I found the patient as the reader might suppose from Dr. Turner's account, to be very weak, very pale, very despondent, very thin, and exceedingly reduced in every way. It was a case of atrophy, for which we could find no cause. We summoned the cook and the nurse, and demanded to know if Mr. Varney ever ate or drank anything in the house of which the others did not partake. No; he had never been capricious or dainty about his food. Whatever the others ate and drank he ate and drank.

And how about his medicine? The nurse declared that he only took what the doctor ordered. And how had it been with Mr. Varney's progenitors?" Had they been healthy?"

"No sir. His father, and his grandfather, and his great-grandfather all died with consumption. I've heard Adam's Aunt Hepsey say that they grew to be middle aged men afore any thing like sickness showed itself; but when they once was took down they went awful."

I turned, and beheld a woman of middle age—a small, keen-eyed, restless woman, who proved to be the wife of the sick man's nephew, Adam Varney.

And by-and by Adam Varney himself came in, and he corroborated his wife's testimony. He was a man not far from fifty years of age; rather slim and frail; and it struck me, too, that he might be taken down before a great while.

Altogether the case was a very curious one; but we were forced to pronounce it quick consumption; and we could offer no hopes of recovery. There is no need of telling all that we three doctors said. I will only further add that the last words I spoke on the subject were to Turner.

"Doctor," said I, "there is one thing that confounds me, and for an elucidation of the condition you must exert yourself to the utmost. Find out, if you can, what causes that continual, deadly nausea. It is beyond my power to conceive of any cause inherent in the system."

Our report to the patient, and to his friends, was, that Dr. Turner was pursuing the proper course of treatment, and that he understood as clearly as it could be understood from the symptoms.

That was on the fourteenth of November. During the three or four weeks following I was very busy (for I then had a good country business,) and gave but little thought to the case at Bortondale.

About the middle of December three young gentlemen, who were studying medicine at Guy's, came down from London, they having arranged with two students of mine that they would club together and send to town for a subject, and that I should meet with them a certain number of afternoons, and act as their demonstrator. Edgar Stearns and Charles Gordon were my students; and Gordon had a place fixed up in an out-of-the-way end of his mother's woodshed that answered capitally for a dissecting-room. It had been originally parted off and finished for a shop; but of late years it had only been used as a tool-house.—Here the young men had dug a pit under the floor, had arranged a good table, and had furthermore closed the single window, and set a broad skylight in the roof.

It was during the week before Christmas that my students told me they were ready. I asked them whether their subject had come from London.

"Never mind," said Gordon, "We've got one."

"Has it been procured about here?" I asked a little uneasily.

"No," they both said in a breath.—"It came from a place a long distance from here."

"Very well," said I, "I will be with you this afternoon."

And that afternoon I went. The dead body lay upon the table, covered with a large blanket, and in the small grate was fire enough to make the place comfortable without producing heat enough to endanger the tissues of the subject, some of which they might wish to keep two or three weeks, if possible.

"We ain't over and above pleased with our purchase, doctor," said Gordon, as I moved towards the table, after having warmed my hands. "We expected a little better subject than this. However it's better than nothing." And as he spoke he threw off the blanket, leaving the corpse fully exposed.

I shook my head with disappointment. A more attenuated body I had never seen. It seemed as though a skeleton, with a single integument drawn over it, was all there was before us.

"I declare, boys, you'll get but little idea of the development of the tissues from this affair. You will find the tendonous connections intact, and, maybe, you'll find—"

I had placed my hand upon the head of the subject, and had turned the face towards me as I spoke these words. I had been about to remark that they might find muscle enough for demonstration, when those features attracted my attention, and arrested my speech.

"What's up, doctor?" as I came to this sudden stop. "Is it any body you know?"

Up to the moment of this question I had recognized nothing; but as the last words dropped from his lips the truth flashed upon me.

"I saw the man once," I said. "I was called in consultation upon his case five or six weeks ago. He lived in Bortondale, and his name was Ebenezer Varney;"

"What!" exclaimed one of the young gentlemen! "old Varney; the drover?—Mercy! couldn't all his gold keep more flesh than this on his bones? Yes; I know now. It is the old fellow himself; and here's the end of the wealth he's been heaping up so carefully and so persistently!"

"Doctor—Doctor Williams?" cried Stearns, "what do you find in the face that binds you so?"

"Gentlemen," said I, having made an end of the reverie into which I had fallen, "I was thinking of that consultation that I told you of. There was something very mysterious in this man's case, and I am determined now to investigate it. Mr. Gordon, you will of course wish to overhaul and remove the abdominal viscera first; so I will thank you if you will take the knife, and give me the stomach and bowels as soon as you can."

"Eh! what's up now?"

"Ask me no questions. You shall know all in good time."

I may as well state the case plainly at this point as any other. From the first, I had held strong doubts concerning the character of Ebenezer Varney's disease. It did not look to me like consumption. That terrible nausea of which the sufferer complained—which afflicted him continually—was not an attendant upon any form of consumption. I suspected poison. And I knew of but one poison that could be administered without the patient's knowledge, and which could produce such atrophy as was present in his case—and that poison was *antimony*—probably the *protoxide*.

It is not my purpose here to enter into a detailed account of the manipulations necessary to the result I have in view.—Suffice it for me to say that in the end we had a thick ring of metallic antimony in the tube of the apparatus, showing clearly that this poison had been freely administered; and from a quantity obtained, it struck me that towards the last the doses had been increased.

Having pledged my students to secrecy, I told them of my visit to Mr. Varney, and then gave them a lecture upon the antimony as a poison. They had no doubt read of the instances of slow poison, where the fatal portion had been administered in minute doses, gradually destroying life—and so gradually that the patient seemed to be dying of lingering disease; and they might have supposed the said slow poison was some wonderful invention, akin to the concoctions of those famous alchemists of olden times. But simple protoxide of antimony would do the work as well as anything yet found in the range of toxicology. And furthermore, an expert might have administered the poison so that little, if any, traces could have been found; but in this case the poisoner was evidently in a hurry.

And that is all the reader cares to know of the mortal body of the poisoned man; only, I will say, that I found the resurrection man who furnished the corpse, and from my own pocket I payed him a goodly sum to return the remains to the place whence he took them.

As soon as I could do so, I called upon Dr. Turner, and asked him about his patient in Bortondale.

"Poor fellow!" said Turner; he hung on some time after our consultation, but I could do nothing for him. It was evidently a case of galloping consumption."

"Did you hold a post-mortem?"

"No. I wanted to; but his friends wouldn't allow it. They couldn't bear the idea of having his body cut up so."

"He left considerable property, didn't he?"

"Yes; twenty thousand pounds, the administrators say; but it is more than that."

"Who are his heirs?"

"His nephew is his only heir—Adam Varney. You saw him when you were there."

"And I saw his wife?" I said.

"Yes," replied Turner. "She nursed the old man through his entire sickness; only once in a while Mrs. Downing came in to relieve her."

"Who is this Mrs. Downing?"

"A widow living close by Varney's residence—Mary Downing is her name; and she is one of the finest women I ever knew. She expected that Mr Varney would have left her something by his will; but it seems that he made none—or, at least, no will has been found."

"Was this widow related to Varney?"

"No. But she would have been, though, had he lived, for he purposed to take her for his wife."

"Are you sure of this?"

"Certainly. The old man told me so himself. You must remember that he was a hale and hearty man before this illness came upon him."

"Egad! Ebenezer's death was a fortunate thing for Mr. Adam Varney and wife."

"You may well say so. It gives them twenty thousand pounds, at least."

I said nothing to Turner of the post-mortem which it had been my privilege to hold; but after conversing with him a while upon other matters, I took my leave, and called next at the residence of Adam Varney, and was fortunate enough to find that individual at home. He and his wife both remembered me as one of the physicians who had been present at the consultation of their deceased uncle's case, and they professed to be glad to see me.

Now there was no earthly reason why they should have been glad to see me, especially before I had told them what my business was; and I could see very plainly that they were not glad. It was an instinct with them to keep on the right side of a man who had wondered what made their old relative ill. I told them that I had called to make some inquiries concerning the illness of Ebenezer Varney, adding that this was the first opportunity I had found since his death, and I had embraced it.

I had been conducted into the parlor, which was warmed by a good fire, and we three were alone together. I told them I hoped they would excuse me for troubling them. O, it was no trouble. They were very glad I had come. It was pleasant to see any one who had tried to be of service to their poor dead uncle.—And Mrs. Adam Varney wiped her eyes with the corner of her apron.

I very quickly saw that Adam Varney was a guilty man. He showed it in every look and every motion. But I saw that Mrs. Adam—otherwise Nancy Varney—was the demon of the establishment. Her husband looked toward her with an appealing, wailing expression, seeming to say unto her, "For heaven's sake, save me! You have dragged me down; don't let them trample upon me!"

And she in turn seemed to say, "don't be a fool. Keep up your courage. They can't prove anything."

I led them on from step to step, until I had gained from them a thorough account of their uncle's illness and death; and during this time the husband paled and trembled a great many times, while the wife talked as calmly and coolly as could be, save when she was straining out a few tears, and wiping them away.

At length I folded my arms upon my bosom, and looked the man steadily in the face. When he met that gaze he trembled like an aspen, and I caught the half-angry, half-imploring look and gesture which his wife directed toward him.

"Adam Varney," said I, with slow and stern solemnity, "I am not an avenging spirit. "Vengeance is mine, saith the Lord!" For myself, I regard the man who bears upon his soul the memory of a great crime as a sufferer to be pitied! and while I felt assured that he would commit no more crime like unto it, I might not deliver him into the hands of the law. Let us suppose a case. Suppose a man—ay, suppose *you*—had committed a murder. Ah! you are ill?"

"Doctor Williams," cried the wife, in spiteful accents, "what do you mean by coming here and talking such stuff? My husband is a poor, weak, nervous man, and such talk as that always unmans him. He never could read about murders in the papers without going into spasms."

"Then, madam," said I, as coolly as possible, "I will direct my remarks to you."

"I don't want to hear them!" she exclaimed.

"But you *must* hear them. You had better here them, than that I should go out from hear and *speak them to another*."

"Really, doctor, you are very funny.—I almost think you crazy."

"And what do you think?" I demanded of Adam.

The man started, as though from a horrid dream, and stared at me wildly.

"Who—who—what—are you?" he gasped.

"I am one who has come to demand justice!" I replied. And then turning again to the woman, I added. Nancy Varney, I say unto you—your hands are red with blood!"

She sank back into her chair, and the color fled from her cheeks. She sank down as though she had been stricken by a heavy blow. A few seconds so, and then she started once more to life.

"Fool! madman! liar!" she yelled.—"You have some base purpose in trying to frighten me! But you can not do it."

"You mistake, madam," I said calmly and smilingly. "I have no thought of frightening you. But, on the contrary, I seek to restore you to a state less painful and dreadful than the one you are now in. Listen to me, and I will tell you what I would have you do. But first answer me this:—Did your Uncle Ebenezer leave a will?"

"No!" she cried, vehemently. "He left no such thing. He never made a will. He never thought of making a will. If anybody says he made a will, that body lies! There, sir! That's what I've got to say about the will!"

"And now," I pursued, "I would have you hearken to a proposition which I have to make. On the morrow your husband will go to a certain firm of solicitors whom I shall appoint to administer his uncle's estate, and he will say unto them, "Gentlemen, I can not enjoy a property which is not properly my own. I know it was my uncle's wish that ten thousand pounds of his money should be given to Mrs. Mary Downing. He also wished that five thousand pounds should be given between the three children of his brother's widow—the children which were born to her after she married her second husband. They are now orphans, and he loved them dearly. He furthermore desired that a thousand pounds should be given to the church of which he was so long a member, and that the rest of his property, after paying his debts, should be safely invested in the funds, the proceeds therefrom to be used for the education of such friendless orphans and the children of poor parents, residents in his native town, as may be deemed worthy of the assistance. And he will say unto them further, that for himself and his wife, Nancy, he claims only the house in which they now live, his uncle having intended that he should own it."

The woman gazed at me in blank amazement; but before she could speak, I continued: "If your husband will do this, I will pledge myself that I will never divulge the dreadful secret which has come to my knowledge I know how, day by day, you gave to that poor, confiding old man the poison that destroyed his life. I know how you mixed the antimony with the drink you gave him; how you changed the medicine of the physician into a deadly draught: and how you saw your uncle wasting—wasting—wasting—his strength failing, and his life ebbing; saw him suffering from the effects of the fatal drug; and yet you continued to administer it. Oh, Adam Varney—"

Until that moment the man sat like one upon whom some stunning blow had fallen—sat gazing upon me with a stare almost idiotic; but, as I thus spoke his name, he started to his feet, evidently forgetful of everything save the picture of his dying uncle, and of the accusation I had laid upon him. His lips were colorless, his cheeks blanched, his eyes glaring wildly, as eyes glare when one has suddenly discovered a ghost in the solemn gloom, and his fingers were clutched in the bosom of his shirt.

"By the great God that made me!" he yelled, "you lie when you say that to me. I never harmed my uncle—never, never, never! I never gave him any antimony, and I never hatched up the thing for anybody else to do. I never gave him anything while he was ill. He'd tell ye so if he was living. He'd tell ye it wasn't me."

It would be utterly impossible for me to describe the looks with which Mrs. Varney regarded her husband as he thus spoke. Suffice it to say that the spirits of rage, mortification, disgust, hatred fear, agony, spite and vindictiveness possessed her soul by turns. Nancy's direct confession could not have strengthened my belief, for I already simply *knew* that she had done the murder. I furthermore knew, from information derived from Dr. Turner, that the money which Eben Varney had left was all in the bank. Indeed, everything save the real estate was at present in the bank.

Having arrived at this point, I determined to make quick work of it. So, while the woman was still glaring at her husband, I arose to my feet and took my hat; and, they looked to see what this movement meant, I said to them, "Dr. Turner does not yet know of this thing. It is known at present only to myself and to a few gentlemen who assisted me in the investigation. For one week we will keep the investigation to ourselves; and if, at the end of that time, you have disposed of the property as I have dictated, I give you my word you shall be permitted to continue to live with only such punishment as your own consciences may bring upon you. And God knows that punishment will not be light. If, however, at the end of the week you shall not have done as I have bidden, then I shall turn your case over to the officers of the law. Here is a written list of the bequests as I gave them to you, so you can make no mistake." And here I threw the scrap of paper upon the table. "Now go and do as I have said; and be sure you can not obtain a guinea from the bank without my knowledge."

"You—you—can't prove it! You can't prove it!" the woman shrieked, as I moved towards the door. I stopped, and turned, and met her gaze.

"Nancy Varney," I said, "your dead uncle is the witness I shall bring against you." And with this I departed.

Five days after I was in the town of Bortondale again, and I made it in my way to call on Dr. Turner; and; in the course of conversation, he said to me, "By the way, Lord, those Varneys have done a curious thing. They have been to Thompson and Berthwick, the lawyers, and have, of their own free will, declared that it was their uncle's dying request that of his property ten thousand pounds should be given to Mary Downing, five thousand to the children of the brother's widow, one thousand to the church, and that the rest should be safely invested for the benefit of the poor and friendless children of the town, reserving to themselves only the estate upon which they have lived. Curious, now—very curious, isn't it?"

"It is curious," I admitted. And then I asked him what people thought it meant.

"Well," said he, "the general impression is that the old man left a will to this effect, and that they have destroyed it, and their troubled consciences have led them to the course they have taken."

"And what will the solicitors and the bankers do?" I asked.

"They have concluded to dispose of the property as has been thus suggested, and ask no further questions."

In the spring I saw Dr. Turner again, and he told me that the Varneys had sold their property in Bortondale, and gone to America.

Fiendish Murder, Robbery and Arson.

BLOUNTSVILLE, ALA., June 30, 1874

Editor Huntsville Democrat:—Our peaceful and quiet county was made the scene of one of the most fiendish outrages, perhaps, ever committed before in this state. On the night of the 17th June inst., several men (then unknown) went to the residence of an old man, named Dr. George White, who was merchandizing at Walnut Grove, in this county, and after breaking into and robbing the store of a considerable sum of money and burning the store house with all the contents, made their escape. The perpetrators being unknown, pursuit seemed useless and was abandoned.

Dr. White's family consisted of himself and wife, both of whom were very old and feeble, and a negro man named William White whom the Doctor had raised from infancy, and in whom the Doctor and his wife had the utmost confidence. Again, on the night of June 21st inst., the same men went back to the Doctor's to finish their fiendish programme. They broke into the old store house which the Doctor had occupied, where he was again selling goods, and after robbing it of money and other valuables, set fire to it, and the store and contents were consumed. They, then, went to the Doctor's residence, which was only a few yards from the store, with the intention, no doubt, of murdering the inmates and firing the house with the bodies. Mrs. White was on the front porch screaming, and they commenced throwing rocks at her: She went back into the house, the men followed and, on entering, shot the Doctor through the head, and shot Mrs. White in the side, and made their escape. Some neighbors, hearing the screams of Mrs. White, rushed to her assistance, but too late to do any good. Fortunately, Mrs. White recognized the one that shot her, as John Norris, an old man, living in the neighborhood.—Next morning, the outraged citizens, about 50 in number commenced the search and pursuit of the robbers and murderers, and, led by our efficient and gallant sheriff, Mr. George D. Shelton, succeeded in capturing six persons, named John Norris, and his son, Monroe Norris,——Collins, Sr.; and his two sons, Mines and Thomas, and the negro, William White.

Farmers left their plows and harvest fields to join in the pursuit. Men were excited and clamored for the lives of the prisoners; and had it not been for the interference of the Sheriff, the murderers would, no doubt, have been hung. They were carried to Dr. White's residence, to be identified, but, on entering the house, Doctor breathed his last. Monroe Norris confessed his guilt, and said that his father and old Mr. Collins were innocent, but that the others were guilty. But this cannot be true, as Mrs. White recognized John Norris as the one that shot her, and told him so.

A preliminary examination was had by a Justice of the Peace, and the prisoners were lodged in jail at this place, yesterday. Nearly all of the money and some of the goods were recovered. Mrs. White is still alive, but suffering greatly, and, perhaps, will not survive.

Dr. White was known as a peaceful, quiet, unoffending man; well liked by all who knew him. It is said that the Doctor gave half of his property by will to William White, and that William had been trying to get these men to murder Dr. White for more than two years, promising them part of the money.

The tragedy has cast a gloom over Blount County that time alone can remove. Respectfully, J. M. D.

A WOMAN AVENGED.

THE SHOOTING OF GEORGE F. LONG BY MR. SLOSS, MEMBER OF CONGRESS—A FATHER AVENGES THE TRADUCTION OF HIS DAUGTER BY A DISAPPOINTED SUITOR.

TUSCUMBIA, June 28.—More than a year ago George F. Long, of this place began to evince a show of affection for Miss. Sloss, the youthful and attractive daughter of the present number of Congress from this District. When Mr. Sloss discovered the facts he objected to any intercourse whatever between his daughter and the young gentleman. The latter was deeply incensed, and accustomed to denounce the father and assert unworthy acts on the part of the daughter. His language was such, and his assertions were so commonly known that the pretty girl had withdrawn from society, and led a life of perfect seclusion Meanwhile the father was in Washington He came home last Friday afternoon, and heard the whole story from his family and friends. Long was advised to leave Tuscumbia, and said to-day, just before he was shot, while sitting in front of Avillett's Hotel, that he "never expected to spend another Sabbath in Tuscumbia."

Rising from his seat; he went into the bar-room, drank a glass of ale, and sauntered along leisurely down the sidewalk. He turned to the right, and was going toward his home, and at the very instant that he touched his hat and bowed to a friend approaching him a gun was fired from the second story window of Warren's store on the opposite side of the street, and Long fell, two buck-shot penetrating his body, one passing through his neck, but failing to touch the artery, and a fourth entering the skull just behind the left ear. He fell, bleeding profusely. Even now a broad black-ened mark extends across the brick sidewalk, strains the sand in the gutter. Long was soon removed to his home. Dr. Abernathy and other surgeons sent for but their skill can avail nothing. The young man is surely dying. He said just now that he thought he was shot by young Warren, a nephew of Colonel Sloss, but since it was Colonel Sloss himself, it was "all right." Nothing could justify Long's assaults upon the girl's honor, and no one condemns Colonel Sloss.

The manner of killing is generally disapproved. I heard it commonly said that if the deed had been done the day Col. Sloss reached home, there would have been never a question as to the propriety of his conduct. He had the perfect right, it is argued, and properly, to regard the man a wild beast that had traduced his daughter, and if he had killed Long as soon as he was satisfied the girl had been assailed by the breath of slander, there is an end of it. In any event, Sloss need never fear a jury, one of its members having a daughter. If Sloss had taken the gun into the street and gone through the form of telling Long to defend himself, there would have never been even the form of a trial But we can't reason about a matter of this sort. He who wrongs a woman's fame deserves death, and that's the proper verdict of juries and of mankind. Mr. Long was often told that he should leave Tuscumbia before Colonel Sloss came home. He had at length agreed to go away, and in this he confessed his guilt and admitted the propriety of Sloss' conduct. Long was wholly fearless, and it was only because urged to do so by his friends, of whom he has many here, that he had consented to leave Tuscumbia. His father and kindred are excellent people, and it is only said of the young man in derogation of his worth that he has been a village idler for some months. An idler will talk too much, and if he habitually stir his eloquence in front of the corner grocery, there is often death and damnation in very innocent words that bubble up from fountains of whisky.

Long may die within the hour in which he was shot, and in which this is most hurriedly written, and he may survive one or two or even three days. No vital organ is touched, but die he must. Such wounds in such weather must prove fatal.

Colonel Sloss is in charge of the sheriff, and one of his deputies occupies the room from which he fired upon Long.—*Memphis Appeal.*

THE GROUND SWELL.

The largest Democratic and Conservative Convention since the war, or as for that matter in twenty years, met in the Court House last *Monday*.

From the first gathering of delegates to the end of the Convention the utmost harmony and good feeling prevailed. Indeed the men who assembled here on that day were *patriots*, who, sinking every other consideration, looked only to the welfare of the county and the general good. There was of course the usual division of sentiment as to the fitness of the various candidates, but as each man secured a nomination, the whole convention with patriotic unanimity came over and cast their votes for him, pledging him the undivided support of the *whole* convention.

The ticket selected was a good one although there were just as good men before the Convention who failed to secure nominations. These men one and all sank self in their regard for the public welfare and pledged their most earnest support to the nominees of the party. Had the Convention made a different choice and selected some others of the good men before it, the gentlemen who are now the nominees of the party would have yielded them the same generous support.

But one feeling seemed to characterize both delegates and aspirants, and that was an elevated love of country and an undying hostility to the monster Radicalism.

The Resolutions adopted are truly wise, and in the highest degree reflective of the sentiments of the Democratic and Conservative party of this County. On them that party will march to a victory next November, the most complete, the most glorious and the most beneficent in its results of all the victories yet gained over the mongrel party of the opposition.

At the close of the Convention here on Tuesday, Hon. M. W. Abernathy, the venerable and respected President of the Convention, arose and addressed the meeting. He congratulated the Convention on the harmony that had prevailed in its councils, and declared that he had never seen a larger or more patriotic assemblage of men in convention in the County. He complimented the members on the patriotic spirit evinced by each and every one in the discharge of duties imposed by the people, and presaged as the result a most sweeping victory in November. At the close of his brief speech he was loudly cheered. He presided with dignity during the entire day and was most impartial and entirely fair in all his rulings, giving entire satisfaction to every member of the Convention.

The people of Alabama are thoroughly aroused and the busy preparation for the coming fight goes bravely on in every nook and corner of the State. In most of the counties the conventions have met and either nominated candidates or appointed future conventions for that work. The people of St. Clair county a few days ago met in mass convention and unanimously decided to go into nominations, and called a Convention for that purpose. It is a cheering sign to see the Democratic and Conservative party thus stripping for the fight by ridding itself of all superfluous weight in the shape of a multitude of candidates, and augurs a sure victory in November.

In this County the negro worshipers fondly hoped for a division in our party on the subject of nominations and predicted that there would be none. Since the people met here Tuesday they have changed their opinion, and really look worse for the change, for the nomination of candidates in Calhoun gave the death-blow to any hope they may have had of slipping in their men through a division of the white people of Calhoun upon a choice among many men solicitous of their support. Now they have not even a loop to hang a hope on.

It is estimated that four hundred men were present at the County Convention, including delegates and spectators. Every beat in the County was fully represented.

We have heard the name of Hon. James L. Pugh mentioned in connection with the Presidency of our next State convention, and feel no hesitancy in saying that he would be entirely acceptable to the people of this section. Alabama has no better or more suitible man for the position. Let the Democracy of Ala. rebuke congress by honoring him with the place.

Niggerfies.—In order to distinguish the white Radicals of Alabama from their Northern brethren, we propose to the State press that, henceforth, when it becomes necessary to speak of them, we call them "NIGGERITES." Scalawag and carpet-bagger are hardly forcible or descriptive enough. The vile scoundrels have gone over body and soul to the nigger, and the fact should be made to appear in their party name.

The man Long shot by Hon. Jos. Sloss, for the slander of his (Sloss') daughter, is getting well and Mr. Sloss has been bailed in the sum of $250.

Had Long's wounds been fatal he would have received no more at the hands of Mr. Sloss than he deserved. A man that would willfully slander and traduce a pure woman is deserving of no more quarter than a rattle snake.

UNFORTUNATE CHICAGO has another great fire, burning through a width of a quarter of a mile and a length of half a mile. At this writing the fire has not been extinguished, but on the contrary is raging with great fury. The loss of property so far has been immense, and it is feared that there will be considerable loss of life. Thousands upon thousands of families are homeless and destitute.

LATER. Fire out. Loss from four to six million dollars.

PROCEEDINGS CALHOUN COUNTY DEMOCRATIC AND CONSERVATIVE CONVENTION.

JACKSONVILLE, ALA.,
July 13th, 1874.

Calhoun County Democratic and Conservative Convention met in this place on the 13th inst., at 10 A. M. and was called to order by James Crook Esq., chairman of the County Executive Committee, who, after stating the objects of the meeting moved that Hon. M. W. Abernathy take the chair, which was agreed to, and he was conducted to the stand.

Mr. Glenn moved that J. H. Francis Esq., and J. P. Hamilton Esq., be requested to act as Secretaries, which was agreed to.

Dr. Davis moved that Dr. E. H. Allen and H. T. Persons also be requested to act as Secretaries which was agreed to.

Mr. Baily moved that the delegates come forward to the Secretaries' table and enroll their names, which was agreed to, and the following named gentlemen enrolled their names as delegates from the several beats:

Beat No. 1.—J C Francis, M W Abernathy, W M Hames, James Crow, S J Stevenson, W G Hounesley, J Aderholt, James Gidley, R D Williams, D P Forney, Nathan Clarke, Ab Littlejohn.

Mr Humphries moved that a committee of one from each beat be appointed to examine credentials and report the number of delegates to which each beat is entitled, which was agreed to and the chair announced the following as such committee:—J C Francis, W P Cooper, W Glover, J L Kirby, P H Brothers, R H Griffin, J D Hollingsworth, L R Wragg, L C O'Briant, H P Whiteside W Williams, J B Mallory, M Garrett, P D Ross.

Mr. Neighbors moved that a committee consisting of one member from each beat be appointed by the chair to draft regulations for the government of the convention, and report resolutions for its consideration, which was agreed to.

Dr. Williams moved that no one be allowed to participate in the deliberations of the convention except members from the respective beats, which was agreed to.

The chair announced the following as the committee to report rules and resolutions to the convention:

D P Forney, W F Bush, W Woodruff, W L Robertson, W K Mynatt, J A Glenn, J M Ford, W J Scott, Thos. Alsup, J C Watson, W A Scarborough, J F M Davis, A C Williams, J Y Henderson.

The committee appointed on credentials and number of votes to which each beat was entitled, reported the delegates enrolled as having proper credentials, and that the beats were entitled to votes as follows:

Beat No.	1	to	12 votes.
" "	2	"	6 "
" "	3	"	3 "
" "	4	"	4 "
" "	5	"	3 "
" "	6	"	5 "
" "	7	"	3 "
" "	8	"	4 "
" "	9	"	8 "
" "	10	"	4 "
" "	11	"	4 "
" "	12	"	4 "
" "	13	"	10 "
" "	14	"	3 "

The report of the committee was received and adopted.

The committee on Rules and Resolutions submitted the following report:—

"We recommend that the rules adopted by the last Democratic and Conservative convention, which assembled at Montgomery, be the rules governing this convention.

"We also recommend the adoption of the following resolution

Whereas,—It has been left discretionary with this Convention, both under the call of the County Executive Committee and by a large majority of the beats in their several meetings to make or not to make nominations, and

Whereas,—This is the most largely attended convention that has assembled in Calhoun county for many years or is likely to assemble again during this campaign; therefore be it

RESOLVED, That this Convention proceed at once to the nomination of men to fill the the various offices within the gift of the people of this county.

"Should the foregoing resolution be adopted we recommend the adoption of the following:

Whereas—This convention has resolved to make nominations for county officers,

RESOLVED, That when a candidate is nominated, if he be present, he must signify in person, his willingness to abide by the decision of the convention and agree to support the nominees, and if not present, some person must vouch for him, or no vote will be counted for such candidate.

Be it further Resolved, That each delegate pledge himself to support the nominees of the convention and abide by its decision.

"We further recommend the adoption of the following preamble and resolutions:

WHEREAS, The Republican party, by its action in the passage by the Senate of the United States Congress of the civil rights bill, which bill has also been endorsed by a large majority by the House of Representatives, and

WHEREAS, The Republican members of Congress from this State voted on all occasions solidly for the said civil rights or social equality bill, thereby showing their acceptance of the intended mongrelization and debasement of the white people of this State and their willingness to place the negroes upon a social equality with the white people of Alabama, therefore

Resolved, 1.—That we accept the race issue tendered by our white skinned enemies and their black allies and urge every white man in the county and State to rally to the polls in November, and by his ballot strive to save himself and family from the degradation consequent upon the success of the Radical party.

Resolved, 2.—That those men who support the advocates of the civil rights bill, be regarded by the white people of this county as enemies to the white race and that the men who would thus sell their birthright for the spoils of office should be consigned to that infamy their action merits.

Resolved, 3.—That in view of the importance of the approaching political contest, involving the very foundations of society, every citizen should feel it his duty to boldly declare his opposition to the dogmas of Radicalism; and that the man who falters in the present crisis to choose will be the advocates of negro social equality.

Resolved, 4.—That leaving all other issues as of minor importance, compared with that of the supremacy of the white race in Alabama, we accept that as the issue upon which to make the fight.

Maj. Bailey moved that the report of the committee be received at this time and that the resolutions reported be taken up *seriatim* in the order in which they were reported, which was agreed to.

The first recommendation of the committee, as to the rules to govern the Convention, was taken up.

Mr. Sneed offered the following resolution as a substitute for the first recommendation of the committee:

WHEREAS, This convention has determined to make nominations, and

WHEREAS, A large number of offices are to be filled and useless waste of time by frequent ballotings should be avoided, therefore

Resolved, That those men receiving a majority of the whole vote of the Convention be declared the nominees of the Democratic and Conservative party of Calhoun County, and entitled to the full support of such party.

Mr. Bush moved to take the vote by beats which was agreed to.

Those voting in favor of the substitute were 45

Those voting in opposition to the substitute were 29.

Not voting 1.

So the substitute was adopted.

Dr. Williams moved to postpone the nomination of candidates until August 3, 1874.

Mr. Bush moved to lay the motion on the table, which was agreed to.

The remaining resolutions reported by the committee on Resolutions, were then taken up and unanimously adopted.

Maj. Baily moved that the chair appoint a committee consisting of one member from each beat, to recommend the names of persons to represent the county in the State and Chancery, Circuit Judge and Congressional conventions, which was agreed to and the chair announced the following as such committee:

W M Hames, W F Bush, G B Skelton, J L Kirby, P H Brothers, J A Glenn, J M Keller, L R Wragg, H N Sneed, H P Whiteside, John Ross, L L Allen, P D Ross, W Williams.

Maj. Bailey moved that the convention adjourned for one hour, for dinner, which was agreed to, and the convention adjourned.

AFTERNOON SESSION.

The convention met pursuant to adjournment, Mr. Abernathy in the chair.

The committee appointed to select delegates to the several conventions announced that they were ready to report.

Mr. Davis moved that the report be received, which was agreed to.

W. M. HAMES,
Chairman.

Mr. Davis moved that the report of committee be adopted, which was agreed to, and the above named gentlemen were declared delegates to the several conventions as indicated by the report.

Mr. Davis offered the following resolutions which were unanimously adopted.

Resolved, 1.—That we recognize the sacred obligations resting upon the Tax-payers, to pay every just and legal debt of the State, created by them but all debts not created thereby, and which were created by fraud and bribery, and in violation of the constitution and illegally issued by the Governor, and forced upon the people against their will, ought to be set aside and not paid

It is the duty of the legislature in justice to ourselves and our just and legal creditors, to investigate and separate the legal debts of the State from the illegal and fraudulent debts, and arrange to pay the just debts and refuse to pay all others.

Resolved, 2.—That all Taxes should be reduced to the lowest rates which will meet the absolute and necessary expenses of the Government, and for the purpose of lessening the burden of taxation, every salary, from the highest to the lowest, should be reduced to the standard of the same before the war, and every unnecessary office should be abolished.

Mr. Bush moved that the convention now go into the nomination of a candidate for Representative in the General Assembly of the State, which was agreed to.

Maj. Bailey moved that nominations be made without eulogy, which was agreed to.

Mr. Davis nominated Woodford R Hanna,

Mr. Griffin nominated Henry McBee.

Mr. Glenn nominated L W Grant.

The candidates, in accordance with a resolution heretofore adopted, came forward and pledged themselves to abide by the decision of the convention and to support its nominees.

Mr. Roberts, by permission made a statement to the convention, declining to have his name brought forward, and also declining longer to be a candidate.—He pledged himself to abide by the decision of the convention and to support its nominees.

The vote being taken resulted as follows:

L W Grant, 41; W R Hanna, 24; Henry McBee 8.

Mr. Grant having received a majority of the votes of the convention, was declared the nominee for the legislature.

He came forward in response to calls from the convention and in an able and eloquent manner thanked the convention for the honor conferred, and in a brief manner referred to the present political situation. His speech was well received by the convention and the crowded hall of spectators. Many old men in the room freely shed tears when he was referring to our oppressed condition and the action of the infamous Lt. Johnson, who once ruthlessly tore Judge Pope from the stand from where he was then speaking and incarcerated him in a dungeon, for simply doing his duty under the law.

Col. Wash Williams moved to go into nomination of circuit clerk.

Mr. Bush moved to substitute Probate Judge for circuit clerk, which was agreed to.

Mr. Humphries nominatted L W Cannon.

There being no other nominations Mr. Humphries moved to make the nomination of Mr. Cannon unanimous by acclamation, which was agreed to, and Mr. Cannon was declared the nominee of the Convention for Probate Judge.

Col. Williams moved to go into the nomination of Circuit Clerk, which was agreed to.

Mr. Ross nominated G B Douthit.

Mr. Dale nominated Thomas Neighbors.

The candidates in this instance as in all subsequent nominations pledged themselves to abide by the decision of the convention and to support its nominees.

The vote being taken resulted as follows:

G B Douthit, 59; Thomas Neighbors, 14.

Mr. Douthit was declared the nominee of the convention for Circuit Clerk.

Mr. Bush moved to go into the nomination of Sheriff, which was agreed to.

Mr. Woodall nominated A O Stewart.

Mr. Williams nominated John Crawford.

Mr. Garrett nominated J B Farmer.

Mr. Abernathy nominated J B Mathews.

Mr. Abernathy nominated Pinckney Carpenter.

Mr. Abernathy nominated Robt. Lester.

Mr. Roberts nominated R M Johnson.

The vote being taken resulted as follows:

Stewart 43; Farmer 10; Crawford 8; Carpenter 7; Mathews 3; Johnson 2.

Mr. Stewart having received a majority of all the votes, was declared the nominee of the convention, for Sheriff.

Mr. Sneed moved that the convention go into the nomination of Tax Collector, which was agreed to.

Messrs. E McClellen, J C Bibbs, W DeFreese, A D Ledbetter and J C Whatley were placed in nomination.

The vote being taken resulted as follows:

McClellen 41; DeFreese 19; Bibbs 11; Ledbetter 1; Whatley 1.

Mr. McClellen having received a majority of all the votes, was declared the nominee of the convention for Tax Collector.

Mr. Sneed moved that the convention go into the nomination of Tax Assessor, which was agreed to.

Messrs Henry Fitz, M T Ledbetter, H F Vernen and Wm Johnston were placed in nomination.

The vote being taken, resulted as follows:

Fitz 57; Ledbetter 9; Johnston 5; Vernon 2.

Mr. Fitz having received a majority of all the votes, was declared the nominee of the convention for Tax Assessor.

Dr. Allen moved to go into the nomination of County Treasurer.

Messrs. Joshua Draper and T L Wakely were placed in nomination.

The vote being taken resulted as follows:

Draper 63; Wakely 10.

Mr. Draper having received a majority of all the votes; was declared nominee of the convention for County Treasurer.

Mr. Bush moved that the convention go into the nomination of four county commissioners.

The following named gentlemen were placed in nomination and a vote being taken, they received the following vote respectively.

1ST BALLOT.

W Harris 40; M N Coker 7; S Weaver 19; A M Stewart 24; O Griffin 12; W B Doss 7; Eli Bynum 32; M H Harrison 11; Robt. McCain 4; Wm. Woodley 21; C G Morgan 33; R Jenkins 14; T Mathews 2; Aaron Wilkins 21; J W McDaniel 4; D L Wolf 17; W R Ackridge 25.

Mr. Harris being the only person who had received a majority of all the votes, was declared the nominee of the convention for one of the Commissioners.

The vote was taken again with the following result.

2ND BALLOT.

Weaver 20; Stewart 32; Moody 17; Morgan 30; Griffin 5; Bynum 44; Harrison 5; Jenkins 5; Wilkins 8; Wolf 5; Ackridge 40.

Messrs. Bynum and Ackridge having received a majority of the votes, were declared the nominees of the convention for two of the Commissioners.

The vote was again taken with the following result:

3RD BALLOTT.

Weaver 13; Stewart 23; Woodly 12 Morgan 24.

No one having received a majority of all the votes the vote was again taken with the following result.

4TH BALLOT.

Morgan 25; Stewart 36; Weaver 9; No one having received a majority of the votes of the convention, the vote was again taken with the following result:

5TH BALLOT.

Morgan 26; Stewart 44.

Mr. Stewart having received a majority of the votes, was declared the nominee of the convention for one of the Commissioners.

Mr. Crook Chairman of the County Executive Committee in a soul-stirring address of a few minutes length, returned the thanks of himself and the committee, for the generous cordial and enthusiastic support the Democratic and Conservative party of the county had rendered them in the discharge of their duties.

Concluding his remarks, he tendered his resignation and also that of the committee.

Maj. Bailey moved that the same Executive Committee, with its present chairman, be elected for the ensuing two years, which was unanimously agreed to.

Mr. Davis offered the following resolution which was adopted:

Resolved, That the proceedings of this convention be published in the Jacksonville *Republican* and Oxford *Intelligencer*, and that the Secretaries furnish a true copy of the same.

Mr. Bush moved that the Secretaries be requested to furnish the Selma *Argus* with a copy of the proceedings of this convention with the request that they be published in that paper, which was agreed to.

Mr. Hames offered the following resolution which was unanimously adopted:

Resolved, That this Convention have watched with pride the record made by our present member of Congress, Hon. John H. Caldwell, and that we embrace this opportunity to express in this public manner our approbation of his entire course upon all the leading questions which came before the last session of Congress, and to commend him for his devotion to the interests of his immediate constituency as occasion offered for him to be of service to them.

Mr. Bush moved that all nominations of this convention be now made unanimous by acclamation, which was unanimously agreed to

Mr. Sneed moved that the thanks of this convention be tendered the chairman and Secretaries of this convention for the able and courteous manner in which they have discharged their duties, which was agreed to.

Maj. Baily moved that the thanks of the convention be tendered the officers in charge of the Court House for the use of the Hall, and to the citizens of Jacksonville for hospitalities extended the members of the convention, which was agreed to.

Mr. D P Forney moved that the convention adjourn *sine die*, which was agreed to, and the convention adjourned.

J H FRANCIS,
J P HAMILTON,
H H ALLEN,
H T PERSONS,
SECRETARIES.

By their Works ye Shall Know Them.

Alexander WHITE, Chas, Hays, and C. C. Sheets, receive the following first class notice from the new negro paper in this city, which is edited by Holland Thompson, R. W. WHITAKER and C. O. Harris, three of the great lights of the Equal Rights Association of Alabama. Commenting on a communication in a Selma radical sheet, the organ of "unbleached Holland" in this city says:

We don't "differ" at all with Col. White on the 'Civil Rights' bill, because whatever his course in the Legislature of Alabama may have been, *he vindicated himself fully in Congress, and voted every time with our faithful Representatives* Rapier, Hays, Sheets, &c., to take it from the Speaker's table, and *tried all in his power to have it passed*, and will work and vote for it, if life is spared to him, at the fall session of Congress "and have it passed."

There is no disguising the fact that these men are in favor of the Civil Rights bill and will do all they can to "have it passed" at the next session of Congress. White and Sheets may try to shirk the question when in the waiting sections of the State, but the record is against them and they must be held up in their proper light. If we would prevent the passage of this civil rights bill by Congress next winter, Alabama must add her protest to that of Ohio, Connecticut, New Hampshire, Indiana and other States against the party in power. That is the way to prevent its passage. Let every white man who wishes to save his State and country from the consequences of this bill work with might and main for the Democratic and Conservative cause from now until the election.—*Montgomery Advertiser.*

RELIEVED OF A REPTILE.—Our readers will remember the articles which in the *Banner* some time ago concerning a snake which had its home in the stomach of Miss Taylor, of Jordan's Valley. It was caught Friday night at 9 o'clock by Dr. Berger. It is twenty-three inches long; three fourths of an inch in thickness, and is brown and white spotted. Dr. Berger sent to MURFREESBORO, yesterday morning, for alcohol in which to preserve it. It was taken out of her mouth, from which it had protruded sufficiently to enable it to be captured.—*Nashville Banner.*

Taking a Lion Alive.

[From the Russian River Flag, June 18.]

J. B. Baker, of this place, has two boys, aged about eighteen and twenty years, living on the old Chenoweth Ranch on the Ross Mountain, five miles above the mouth of Russian River and about twenty miles on an air line westerly from Healdsburg. Some weeks ago the boys killed a large female panther or California lion that measured nine feet from tip to tip. The week before last their dogs treed a young male lion, supposed to be one of the cubs. The boys had heard that Woodward would pay a good price for a young California lion, and they determined to capture the animal alive. One climbed the tree, and threw a noose over the lion's head. After tying the noose securely, they got another rope around his hind legs and then lashed him to a pole, lowered him to the ground, and carried him home alive and unhurt. The feat was not performed without some risk, for the lion is about a year old and nearly six feet from tip to tip; but the boys managed the capture so well that neither got hurt except that one had a finger slit by the sharp claws of the beast.

If every democrat will quit grumbling and do his duty, we will win next Nov.

A CARD.

EDITORS JACKSONVILLE REPUBLICAN:

You will please permit me, through the columns of your excellent paper, to withdraw my name as a candidate for the office of JUDGE OF THE CIRCUIT COURT for the 12th judicial district.

My continued bad health forbids my entering into an active canvass; and therefore I have decided to retire from the field of contest, and give way to those who may be more worthy and better qualified than I am for the office.

AND in thus withdrawing my name, I return many thanks to the voters of the circuit, and especially to those of Calhoun County, who have been with me and for me in six troubles and have expressed a willingness not to forsake me in the seventh.

Col. D. R. Hundly, editor of the North Alabama Reporter, has our thanks for a copy of his late book entitled Prison Echoes. So far as we have examined it we are free to say the work reflects the very highest credit on the gallant Colonel.

The body of the work is made up of his diary while a prisoner on Johnson's Island and will be read with the deepest interest by all confederate soldiers who ever experienced prison life as well as others.

We presume the book will be for sale in the book stores. For information address Col. D. R. HUNDLY, Courtland Alabama.

The very full and accurate report of the County Convention speaks well for the cultivated gentlemen who consented to act as secretaries. We have never before had so full and accurate report of a county convention.

The University of Alabama.

The details of the action of the Board of Regents, at their late session in the University buildings, may be found in our local columns. It is to be hoped that what the did, may be conducive to the increase of the prosperity and usefulness of the Institution. The abolition of two chairs will reduce the expenses of the University by a handsome sum. The President elect, is said to be a gentleman of ability and learning, and of ripe experience as an educator.—Those who know him best, speak most highly of his qualifications for the office. The retention of the military feature of the University was, we think, wise and proper.

The close of another academic year, and the partial reconstruction of the Faculty, afford a fit occasion for an appeal to the people of the State, in behalf of the Institution.

Of all strange things, the strangest to us is, the marked and continuous failure of the people of Alabama to appreciate and patronize their own University. Its claims upon them are numerous, strong and undeniable. It is all their own. Its revenues are derived from taxes paid by themselves. Their sons can be educated here as well, and certainly far more cheaply, than they can be educated in the Institutions of other States.—The advantages of this home education, both to the State and to the young men themselves, are very great. The pride no less than the interest of the people of Alabama, should impel them to patronize their own University.

And yet, despite these claims upon them, and despite the inconvenience and the increased expense to which they are subjected, by sending their sons out of the State to be educated, they continue to send them abroad, and that, too, in numbers that would suffice, were they sent to the University of Alabama, to make it one of the most flourishing Institutions in the whole country. This is not only short sighted policy in an educational point of view, but is a direct and serious injury inflicted by their own hands upon themselves, and upon the interest of the great cause of letters and mind in the State.

We would, therefore, earnestly invite the people of Alabama to come to the support of their own University. It merits their patronage, and they should bestow it in liberal measure. They can, if they will to do so, make it a splendid educational success.—

Tuscaloosa Times.

The "Mokes" of the Selma Excursion.

The *Times*, of Tuesday morning contained this short paragraph:

"An excursion train of "mokes" arrived from Rome, Georgia, on Saturday night, and left for home Sunday morning. What they did here no one knows."

The mokes" had a perfect carnival of vice and licentiousness, if what we hear of the excursion be true; and we hope Selma will never again send up this way such a train of evils as disgraced humanity as that excursion. It was the very essence of shamelessness and disgrace. The excursion had two bar rooms a large crowd of "roughs" and numbers of the lowest type of debauched womanhood. A general row, we understand, threatened, and the click of pistols was the music of the "roughs."

Rome Courier.

Here is something from the Nashville *Union and American* which deserves to be read and commented on and if necessary, dreamed over in every household in Alabama:

Solid business men, hardworking farmers and mechanics, as well as old Moneybags himself, complain of their tax bills and the poor laws under which we live. Yet whom have they to blame in a free country except themselves? Too many neglect their political duty. They complain of "packed" committees and conventions, yet seldom make the least effort to remedy what they denounce. Their desire for good officers, good laws and good government is consuming; but they want all these good things without the least effort from themselves. They know very well that they cannot secure good houses, good food, or any of the good things of life without effort; yet they seem to expect others to give them good government as a free gift. They are too busy feathering their own nests to look after the public weal, and then blame politicians when caught doing the same thing. The men who fail to take part and vote in the coming elections forfeit their right to grumble if both county and State should fall into Radical hands through their delinquency. It is only those who do their duty that would be aggrieved and their grievance would lie directly against the men who neglected the plain political duty of the hour.

A DOUBTER.

There was a man who lived in Cass county, Georgia, many years ago, who had once been in the state legislature and never neglected an opportunity to enthusiastic fact. He was a perfect infidel as to new discoveries and new sciences, being well satisfied that if the world should turn over the water would spill out of his well, and only giving in to steam cars by slow degrees. But all the vials of his contempt were poured out upon the idea of a telegraph, and he was want to say that nobody need try to come "the green over him in that way for he had been to the legislature. Finally the State Road was built and one day workmen began to put up telegraph posts right in the front of the house and to stretch the wires His exultant neighbors thought they had him on the occasion and asked Well old fellow what do you think of telegraphs now? He was nonplussed but died game. Drawing himself up an inch taller, he said, "Gentlemen, when I was in the Legislature I gave this subject my very attentive consideration, and I said then, as I say now, that it may do for letters and small handies, but it will never take a cotton bale, never!"

New York, July 11.

The fire which broke out in Weehawken last evening was in the oil works. It was caused by a stroke of lightning, which struck one of the tanks containing 15,000 barrels of oil during a heavy thunder storm. The flames spread rapidly, and one tank after another took fire until five, each containing 11,000 barrels and another containing 200,000, were soon burning fiercely. Several smaller tanks, containing in all 125,000 barrels, also took fire about midnight, and it was thought others would have followed. The inaccessibility of the works, and the fact that the fire has raged steadily since the commencement make it impossibly to give more definite particulars. The loss could not be ascertained, as the fire is likely to burn all day, but it is estimated at $600,000. These works are probably the largest oil works in the United States all the oil coming over the Erie road being stored there.

The light from the fire illuminated New York most of the night. One hundred and twenty-five men will be thrown out of employment. About one year ago the same works were struck by lightning and one of the tanks was ignited, but it was extinguished with but slight loss.

The fire which broke out last evening in the oil depot of the Erie Railroad Company, at Weehawken N. J., is still burning, with no hope of extinguishing the flames until it is burned out. At abont 9:30 o'clock this morning a tank containing 3,000,000 gallons of refined oil exploded, with a terrific report. The cap was blown over four hundred feet in the air, and tower after tower of flames filled the air to upwards of two hundred feet. The oil ran down upon the river, and soon it was ablaze with burning oil. All the oil tanks are either burned or torn down, and the cooper shops and one warehouse are burned, and it is not expected that the remaining warehouses can be saved. The railroad tracks have been wrenched from their sleepers by the great heat, and all the property in the neighborhood of the river has been destroyed or badly damaged. It appears that the burning of the first tank last night heated one near it to such an extent that the gases generated, blew the cap off it and in an instant later the tank was in a blaze.

PROVIDENCE, R. I., July 1.—The Social Mills, of Woonsockett, running 50,000 spindles and 1,000 looms, on cotton goods were entire-fire are caught at 8 o'clock from friction of the main belt, about the middle of the structure, which was six hundred feet long, and built of stone and brick. The flames spread rapidly, but the employes, seven hundred in number, probably all escaped safely. The loss will probably range from $700,000 to $800,000—insurance $330,000.

Harrisburg, July 6.—The Glamargan iron furnace blown dow, killing three. The long railroad bridge over the Juniata blew down 28 freight cars went with it. One man killed and many injured.

Call for a Convention.

To the Democratic and Conservative People of the Fifth Congressional District of Alabama.

By authority of the District Executive Committee, a call for a District Convention of the party is hereby made, to be held at GADSDEN, Etowah county, at the hour of 12 o'clock M., on FRIDAY, the 14th day of August, 1874, for the purpose of nominating a candidate to represent said District in the 44th Congress of the United States.

The chairman of the Committee is unable to give the number of delegates to which each county is entitled, having failed to obtain the number of votes cast by each county from which to make the apportionments.

Gadsden is designated because of the expressed wish of a majority of the committee.

JAMES A. REEVES,
Chairman of the Executive Committee of the Democratic and Conservative party of the 5th Congressional District of Alabama.

A Brilliant Record of Cures.

AN American humorist tells us that it would have been money in his pocket if he had been born without a stomach, and then proceeds to figure up the cost of a chronic dyspepsia, to which he is a martyr, & which he says it is impossible to cure. On this point, "Josh Billings," (for he is the party referred to) is mistaken. Unless his stomach differs from all other dyspeptic stomachs, Hostetter's Bitters will cure him in less than three months. This it would be safe to guarantee under any penalty. There are a few, a very few, actual specifics for disease in existence, and Hostetter's Stomach Bitters may be set down as one of them. In cases of indigestion it never fails. Persons who had suffered many years almost every conceivable species of torture from this agonizing complaint, have been permanently cured with the Bitters in six weeks. Hundreds of such instances are on record, authenticated by the testimony of prominent men in every walk of life, eminent physicians among the number. But this celebrated vegetable preparation is something more than a stomachic and tonic. It is also an alterative of wonderful virtue. In liver complaint its effect is as direct and immediate as that of calomel or blue pill, and far more salutary; and in all diseased conditions of the bowels, notably in cases of constipation, its regulating properties are in the highest degree serviceable. The new settlements in the west and all low-lying tracts of country infested with miasmatic exhalations, so fruitful at this season, of the various types of intermittent fevers, should be always well stocked with this incomparable chologue, which will cure any case of fever and ague in a period varying from three days to three or four weeks, according to the violence of the complaint. Nervous disorders which are always aggravated by the adulterated liquors usually prescribed by physicians, are readily cured by a course of this admirable combination medicine, in which the properties of a stimulant, a tonic and alterative are happily blended.

The Texas Grand Gift Concert.

Col. Gustave Cook, editor and proprietor of the Houston *Age*, and who did good service in the 13th Legislature, endorses the Texas Grand Gift Concert, at Houston, July 20, and its officers as follows:

"Of Capt. J. E. Foster, the Manager, we have this to say to those who are unacquainted with him.—He is a gentleman of as fair reputation for honor, integrity, business capacity and reliability as any in our city. His character for uprightness and fidelity is unexceptionably good, and he has the confidence of our entire community. He is sustained by and associated with the very best men in Houston, in his plan for the sale & distribution of his real estate, in which, by the way, he has long been one of our most successful dealers. His whole plan is fair, honest, and based upon actual market value. Not only as an editor but as a man we endorse Capt. Foster for all we have said of him in every respect. We deem it proper to make these remarks because his enterprise is worthy of patronage, and he is entitled to the entire confidence of the public. His object is not only legitimate, but praiseworthy, and he can, if necessary, have the endorsement of every substantial man in the city for all he promises. It is supererogatory to tell who the gentleman selected to act as the Treasurer of the Distribution is, for every business man everywhere in the United States knows, or by enquiring of his banker will readily find out, who THOMAS W. HOUSE, the largest private banker in Texas, is. His word is worth a million on Wall street."

The price of Tickets ($2) places within the reach of every one a chance to draw one of the 1372 prizes, amounting to $146,000, in gold, houses and lands throughout the State.

Saturate a Piec of Bread or Meat with gastric juice, and it *will dissolve*. This is digestion. Add to such a mixture a little alcohol, and it will *not dissolve*. This is INDIGESTION. Beware, then, of tinctures, or tonics, or decoctions containing spirituous liquors. Shun all rum "tonics," and rely solely on Dr. WALKER'S VINEGAR BITTERS, the finest digestive invigorant known, and free from the fiery curse of Alcohol. 4t

Teamsters Killed and Scalped—One Man Burned at the Stake.

A Quaker Indian Agent Calls Lustily for Help.

WASHINGTON, July 7.—The Commissioner of Indian Affairs received the following important telegram to-day, bringing news of a serious outbreak among the Indians in Indian Territory:

OSAGE CITY, KANSAS, July 7.

"Hon E. P. Smith, Commissioner, Washington:

"Just arrived from Cheyenne and Arrapahoe Agency, on the north fork of Indian River. Hostile Chepennes, Comanches and Clowas made their appearance in the vicinity of the Agency on the 2d instant and on the same day killed and scalped Wm. Watkins, thirty miles north of the Agency. Five war parties seemed moving in the direction of the trial from the Agency to Caldwell, Kansas. I at once dispatched a courier to Forth Sill for troops to protect the Agency, which were temporarily granted.

"On the morning of the 5th we mustered a small party of employes to escort me through to Caldwell. Hostile Indians had been seen at Kingfisher's ranche, proceeding north. We took all the men and stock to Lee & Reynolds' ranche on Turkey Creek, and on the 2d inst, the Indians attacked the ranche, but were repulsed, getting only some horses.

"Four miles north of Banker's ranche we found four men, Pat Hennessey, Geo. Faud, Thos. Callaway and one unknown, lying in the road murdered. They had three wagons loaded with sugar and coffee for the Agent at Haworth, all of which was destroyed or taken away. All the men were scalped. Hennessey had been tied to the wagon and burned. The fire was still burning. We gave them a hasty burial and proceeded to the next ranche.

"Here we found teamsters stages &c., concentrated. They reported a war party of about 100 having passed north and east that morning. The ranche-men had kept them off. We took a woman and child from this place, and gave the men all the ammunition we could spare.

"The next ranche we reached after dark. The Indians had gone into camp four miles east, on Skeleton Creek. I advised all the ranche-men and freight-men to abandon their places, which they did, and by making good use of the night, we reached Caldwell yesterday.

"We found Laflin's ox-train at Pond Creek, twenty-five miles south of Caldwell, and fear this train, loaded with subsistence for the three agencies, will be captured as we saw hostile Indians in the vicinity, and the party had only three guns. My chief clerk is in command of the party. There are now but two ranches occupied on this road, and we fear their fate before help can reach them.

"I have no doubt the Indians will clean every thing until repulsed. This is their proclamation. I have offered my own life in passing though their lines to save others, and now I ask and shall expect to receive at once two or three companies of cavalry-one to be stationed at Baker's ranche to protect the Government interests on this road, and one at the Agency. The troops should be transported as quickly as possibly to Wichita by rail. No hostile Indians shall be quartered at the Agency, and I must have troops to back it up. Let the hostile element be struck, and with such power as shall made the work quick and effectual. I now go to Leavenworth, awaiting instructions and ready to go with General Pope.

[Signed] "JOHN D. MILES, Indian Agent."

Mr. Miles is a Quaker, and considered by the Interior Department to be a cool and thoroughly reliable agent. His request for troops has been indorsed and recommended for immediate attention by the military authorities of the War Department. The hostile Indians referred to are estimated to number 2,000, comprising about one fourth of the Cheyenne, Kiowa and Arrapahee tribes.

Commissioner Smith last year recommended that these tribes, who had then been raiding extensively in Texas, should be brought into thorough subjection, and compelled to give up their raiding leaders. This was not done, and the trouble now proceeds from the same turbulent portion of the tribes three-fourths of whom are peaceably located at Fort Sill Reservation, where Satanta, Big Tree and their other prominent Chiefs still remain in compliance with their agreement.

Louisville, July 11.

Parker Folley died here yesterday of what the attendant physician says was Asiatic Cholera after a sickness of eight hours. He died in the same house in which the epidemic of 1851 broke out.

A BOOK FOR THE MILLION!

Marriage Guide.

A private Counselor to the Married or those about to marry, on the physiological mysteries and relations of the sexual system, with the latest discoveries in producing and preventing offspring, how to preserve the complexion, &c.

This is an interesting work of two hundred and sixty pages, with numerous engravings, and contains valuable information for those who are married, or contemplate marriage. Still it is a book that ought to be kept under lock and key, and not laid carelessly about the house.

It contains the experience and advice of a physician whose reputation is world-wide, and should be in the private drawer of every male and female throughout the entire globe. It embraces everything on the subject of the generative system that is worth knowing, and much that is not published in any other work.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

ADA CLARE.

The following tribute of "William Winter to Ada Clare," who died of hydrophobia is so sweet and touching, and places the sterling worth of the Bohemian actress in a light that teaches the lesson of charity so simply, yet so feelingly, that we republish it entire from the New York "Graphic":

Spring will return, and woods grow green
From shore to shore:
But she, unseeing and unseen,
Returns no more.
Low in the ground her sleep is sweet,
And dark and long:
No more she treads with wandering feet
Our maze of wrong
No more the world's rebuke can fret
Her soul's repose;
Nor kindness woo her to forget
Her bitter woes.
She will not stir nor speak, nor heed,
Though eyes that weep
And sorrow-stricken hearts that bleed,
Beseech her sleep.
Yet be it mine above her pall
To shed one tear,
And speak one word of love that all
The world may hear.
A brother's place in that fond breast
'Twas mine to hold:
Ah! they loved most who knew her best—
That heart of gold.
She was more kind than morning light
To eyes that grieve;
And constant as the star of night
That can't deceive
There was no sorrow on this earth
But touched her heart,
And in all gentle childish mirth
She bore her part
There was no goodness but it won
Its reverent praise:
And full of kind deeds simply done,
Were all her days.
She strove through trouble's lasting blight
For pathways smooth:
And many hands she found to smite
And few to soothe.
Yet did she hope and toil and wait
Heaven's will to know;
Till came the awful stroke of fate
That laid her low.
Sleep softly softly, true and tired,
Where troubles cease;
And take at last what man denied—
God's gift of peace.

Letter From Col. J. R. Powell.

Birmingham, Ala., July 15, '74.

MESSRS. EDITORS:

The able and patriotic Chairman of the State Executive Committee of the Democratic and Conservative party having signified his purpose of withdrawing from that position, and my name having been mentioned in connection with the position through the papers and otherwise by partial friends, I deem it my duty at once publicly to decline the proposed honor, that the coming Convention may not be embarrassed in its action in this behalf.

My reason for this declination is, that the office requires residence at the Capitol, inconsistent with my engagement.

I hope the Convention will elect, in place of the gallant Tyler, one equal to the emergency.

Never, in the history of Alabama, has her people been placed in a situation so alarmingly critical.

A great battle is pending—if lost, all is lost the State. What is the issue presented? After unexampled and accumulated wrongs, with more than christian forbearance for long years, they have race issue again precipitated upon them in its most aggravated form.

The Senate of the United States has passed Mr. Sumner's Civil Rights Bill. It hangs over our heads in the House of Representatives like the sword of Damocles.

Three months of next winter completes this odious Congress, through which alone this bill becomes a law. The next House of Representatives will be anti-administration, if reasonable estimates can be relied on.

What is this Civil Rights Bill? It is practically social equality between negroes and white people.

It provides under severest penalties for resistance, equal and *mixed* accommodation of the races in the hotels, in all public conveyances, in the churches, in the public places of amusement, and in the public schools. Can our people submit to this degradation and live?—*No!*—and blasted be the impious hand which would seek to rivet such chains upon a helpless people.

With an opposition majority in the next House of Representatives, the promised result of the fall elections, will its radical members, in the three months remaining to them, dare, in the face of popular indignation, to execute the sentence of the Senate? Can it be done against the determined will of an outraged minority in tified, under the circumstances, in fending off by legislative tactics such dire results—with the hour of deliverance so near at hand?

Then let the key note of the canvass be: He who is not for us is against us. Is any one for social equality as set forth in the bill pending in Congress? Let him take his proper place in society.—He doesn't belong to Caucasian civilization. The Southern man who aspires to this distinction will find happiness enough in the company of his colored brethren. His place is nowhere else.

That the white people of this State will rise from their lethargy, in this momentous struggle, I have not the least doubt.

Already the landmarks of success in the November elections are unmistakable.

The condemnation of evil spirits is pronounced in advance of the election by an insulted people. The handwriting is on the wall.

Respectfully,
J. R. POWELL.

The Demopolis "News-Journal," of last week, referring to the caterpillars, says: "This pest has made its appearance in several localities in this county and Hale, and has commenced in the same places where first discovered last year."

You can't get a radical paper to put it *black*-berries; they all say, with mortifying delicacy, *colored* berries. Sure enough, it does appear more respectable, we suppose.

A SPLENDID DOCUMENT.

ADDRESS OF THE CRESCENT CITY WHITE LEAGUE—THE PLATFORM OF THE WHITE PEOPLE OF LOUISIANA—ADOPTED UNANIMOUSLY.

The address of the White League of New Orleans concludes as follows:

Need we draw a picture of our after desolation? Need we point to our land to our devasted fields, our [illegible] our idle workshops, our increasing population, our increasing taxes, our pauper multitudes, pensioners on alien charity, and, on the other hand, to the orgies of the ignoble wretches forced upon us as rulers by the horrible alliance between negro ignorance and the cunning of Washington bureaucracy, rulers grown rich amidst general distress, and revelling in the proceeds of taxes wrung from a gasping people, rulers painfully maintained by national bayonets in positions reeking with dishonor and felony, and from which there would need be but one wild hour of unrestrained anger to hurl them forever?

Need we repeat the old story of brutal violence stalking at midnight in the draggled shroud of judicial authority and under the shadow of the Federal power, enthroning an execrable oligarcy of the most ignorant and profligate negroes, leagued with the most dangerous class of rapacious whites—the very scum of society? America has rung with the echo of these wrongs, and we have heard even those who have made it a system to hate us raise their voices in denunciation of the wrongdoers and yet not a hand has been lifted us from their oppressions.

With our hands on our hearts and appealing to God, we and the whole white people of Louisiana can declare that we are in no way responsible for the intolerable evils of misgovernment under which the State is perishing. From the time that the right of suffrage was, as we believed, and as we still believe, accorded to hastily too a race in the infancy of freedom, we firmly resolved that it was our duty, and a wise expediency to accept the policy of the reconstruction laws in their full scope. We endeavored at once to address ourselves to the intelligence of the negro, to explain to him that slavery having been forever abolished, he, as a citizen possessing all the rights of white citizens, had the same interests and the same duties as white men. Our orators and our press plied him with the obvious reasoning on these subjects. We invited him to our meetings, we called him to our platforms, we placed some of them upon our tickets. Election after election they turned a deaf ear to us; treated all our advances with distrust and suspicion unhesitatingly followed the leadership of men whom they knew to be unworthy and dishonest, and with scarcely an exception invariably voted like a body of trained soldiers obeying a word of command. We still hoped that time and experience would give them discretion in the exercise of a precious right, which they never exercised here or elsewhere except as a gift from our race. We thought that a right which they owed to the white race would not be persistently used by them to accomplish the ruin of white men. In this hope we have been most grievously disapointed. The negro has proved himself as destitute of common gratitude as of common sense.

Instead of improving in his capacity to make an intelligent and patriotic use of the ballot, we do not hesitate to affirm that he is to day less qualified for the duties of selfgovernment than he was seven years ago. In the beginning we are willing to believe that he was guided by a childish faith in the bad men who arrogated to themselves the control of his vote. But though he has long since lost that faith, through the barefaced rascalities of those men who are now known to him; though he denounces them as liars and thieves, he still retains them in positions of power and trust, for the avowed purpose of breaking down the industry of the State, wasting it by exorbitant taxation, and finally driving its white inhabitants to other States.

Any one who has been to their meetings, or overheard their private conversations, know that they dream of the gradual exodus of the whites, which will leave Louisiana to their exclusive control like another Hayti. The increasing spirit of case fumbled on the most absurb inversion of the relations of race, shows itself in every form. Their incessant demands for offices from the State, city and Federal governments, for which they are unfit, and to which they have no title other than the color of their skin; the development in their conventions of a spirit of proscription against white Radicals and even against honorable Republicans who fought in the Northern armies for their liberation; their increasing arrogance, which seems to know no bounds their increasing dishonesty, which they regard as a statesmanly virtue; their contemptuous scorn of all the rights of the white man which they dare trespass upon. All these signs warn us that the calamity which we had long apprehended is now imminent, and that we must be prepared for all its consequences. Disregarding all minor questions of principle or policy, and having solely in view the maintenance of our hereditary civilization and Christianity menaced by a stupid Africanization, we appeal to the men of our race, of whatever language or nationality, to unite with us against that supreme danger. A league of the whites is the inevitable result of that formidable, oath-bound and blindly obedient league of the blacks, which, under the command of the most cunning and unscrupulous negroes in the State, may at any moment plunge us into a war of races—a conflict in which we are resolved that we and ours shall not be the victims. Indeed, it is with some hope that a timely and proclaimed union of the whites as a race and their efficient preparation for any emergency may arrest the threatened horrors of a social war and teach the blacks to beware of further insolence and aggression; that we call upon the men of our race to leave in obeyance all lesser considerations, to forget all differences of opinions and all prejudices of the past, and with no object in view but the common good of both races, to unite with us in an earnest effort to re-establish a white man's government in the city and State. Were the negro willing to listen to the voice of reason, we could demonstrate even to his understanding that the predominance of our race in government is indespensable to his well being. We could show him that in every Southern State ruled by the whites his rights to life, liberty and the pursuits of happiness are more firmly secured than they are under the black domination in Louisiana.

We could show him that the negro's right to vote, to labor, to a secure tenure of the profits of his industry, are far better guaranteed by the white rulers of Virginia than by the black rulers of Louisiana, that in Georgia and in Texas every lot and title of his legal and constitutional franchises—his life, his immunity from wrong and oppression of every kind—are far better founded than in those States in which his race is in the ascendancy. We would show him that where the white man rules the negro is peaceful and happy; that where the black man rules the negro is starved and oppressed; that where our race bears sway, his race is mentally, morally, and materially progressing; that where his race governs, there is increasing ignorance, distress and brutality.

But it is worse than idle to reason with those people. They have become maddened by the hatred and conceit of race, and it has become our duty to save them and to save ourselves from the fatal probabilities of their stupid extravagance and reckless vanity, by arraying ourselves in the name of white civilization, resuming that just and legitimate superiority in the administration of our State affairs to which we are entitled by superior responsibility, superior numbers and superior intelligence; and, while we declare it is our purpose and fixed determination not to interfere in any manner with the legal rights of the colored race, or of any other race, we are determined to maintain our own legal rights by all the means that may become necessary for that purpose, and to preserve them at all hazards.

It was adopted with enthusiasm and unanimously.

THE WRONG OX GORED.

Under another heading the "Workingmen's Advocate," of Chicago, in its number of the 20th ult., expresses its indignation against the negroes who have supplanted the white miners of Hocking. The "Advocate" says:

When the late Horace Greeley said to the planters of the South, "Gentlemen, make friends with your negroes" many wondered what he meant. We have now, in the Hocking Vally of Ohio an apt illustration and practical application of his meaning. Few men better understood the character of the negro than did Horace Greeley. He knew there was a natural hatred existing between the two races, and that, in case of an emergency they could be relied upon to take a stand against the white man at a moment's notice.

* * * * * * * *

But what is the duty of the negro as a workingman? Shall he place himself on the side of his fellow-workingman, or hold himself in readiness, as a reserve for capital to crush white labor with whenever it sees proper to make the attempt? Such is the mission he is engaged in now. In the Hocking Vally he is there backed up by the capitalists who are sustained by the power of the State with United States muskets to shoot down the very men who were instrumental in securing for him his liberties. This then, is the new use which the negro is to be put to. He is to be armed to the teeth with United States arms and ammunition, and take the place of white workmen.

We have already advocated the right of the negro to his place in the labor world. We have done it in good faith believing that as a workingman he has either to be with us or against us. But while we were willing to concede to him all the rights and privileges which he claimed by virtue of his citizenship, we are not prepared to concede him the right to place himself on the side of capital against labor. If his position, in the future of society, is to be "capital's reserve"—to crush white labor—we emphatically say it is a position he cannot afford to take, and if such is the programme which capital proposes to lay down, aided by the government, the workingmen comprehend the situation the better.

If capital proposes to make the negro the *white man's master*, as foreshadowed in the Hocking Valley affair it has made a grand mistake. The white man is not quite crushed yet. There is some spirit left in him, and if once aroused, there is no knowing what the end may be; and the negro, if prudent and wise, will see that it is a position he cannot afford to take.

RANDOLPH COPPER MINE.

We had a call on yesterday from Mr. J. H. Arrington, who is the Superintendent of Stonehill Copper Mine, owned by Mr. R. J. Wood, and now being successfully worked. Mr. Arrington had with him a specimen of the ore, which can be examined at our office by any one desirous of seeing it. The specimen furnished us has every appearance of being very rich—containing about fifty per cent. of pure copper. Mr. Wood is now getting out about four or five tons a day, with eight hands. He hauls it rom the mines to Carrolton, Ga., and, from thence it is shipped to Baltimore, where it readily sells for forty dollars per ton.

Mr. Arrington informs us that excitement is high in Cleburn and Randolph counties on the copper question. Mr. Wood, who, only a short time since, was in very moderate circumstances, has at once stepped in possession of a large fortune, by the discovery of his mine. We learn the mine cannot be bought for $100.000. In fact it has been asserted that Mr. Wood has actually refused such a proposition.—*Opelika Times.*

It was reported yesterday that some aspiring "colored troop" had invited a young lady of this city, by note, to accompany him to church. To this complexion it will certainly come if Congress should pass the Social Equality Bill—not only in exceptional but in numerous instances. We must show how we regard such a contingency by our ballots in November next, as also by the earnestness and zeal with which we work, before then, for success.—*Mont. Adv.*

A WONDERFUL WOMAN.

An Incident Connected with an Alabama Gentleman.

There is at present occupying one of the cells in the tombs a woman of about twenty-nine years of age remarkably prepossessing in appearance and gifted with accomplishments and talents which if they had been correctly applied, would, no doubt, have given her a brilliant position in society instead of a gloomy cell inside of four walls. The charge against this young woman, who has all the manners of refined society, is that of grand larceny, preferred by Gen. Phillip D. Roddy, of Alabama, a citizen well known in this city, and in railroad management throughout the cotton States. On the 9th of June last, Gen. Roddy appeared before Justice Morgan at Jefferson Market and made complaint against the accused, charging her with stealing an optical instrument known as an opera glass, valued at $15.50, and seven gold coins of the currency of Great Britian, in all valued at $50. In answer to this charge the accused answered in a quiet way:—

"My legal name is Carlotta Frances Roddy. I am twenty-nine years of age and was born in Warren county, New Jersey. I have no residence—my husband turned me out of his. I have no occupation. I am not guilty of the charge."

This is rather a startling announcement to make in open court, but Carlotta was committeed in default of $1.000 bail, and the Grand Jury of which Hugh Auchinloss was foreman, brought in an indictment against her, and a few days ago she appeared before the bar of the General Sessions and pleaded not guilty to the charge, and now is awaiting her trial. The theft was said to have been committed at the residence of General Roddy, in Jersey City, and it is said that the trial of the prisoner will involve persons well known to the community who have been foolish enough to get themselves entangled in the meshes of this woman.

The real name of the accused is said to be Mary F. Shotwell, and by that name she was known when she made her debut in this city at French's Hotel, and hiring apartments, appeared in company with a Chicago detective, who came on with her to recover some railroad bonds, which were said to have been taken from her by a man around town named Brooks, whose arrest she had caused. The bonds were of the railroad company with which General Roddy was connected, and they were taken from Brooks and held to await developments by Superintendent Kelso. While at French's Hotel, this woman, who is a dark brunette, gave her name as Shotwell, and held various interviews with the reporters, in which she represented herself as a rich widow, and then again as a lobbyist at Washington for some invention; and, in fact, she related so many stories of herself that it is hard to tell where she came from, or what she was. One thing was clearly evident, however, and that was that she had great command of language, and could talk three or four of the strongest sex "out of their boots:" it seemed from her manner that she was generally under the influence of some narcotic; her eyes were gifted with a strange unnatural brilliancy, and she talked wildly at times of her influence in the District Attorney's office, and what she could bring to bear on General Grant and other high functionaries at Washington. There was an examination before a well known police magistrate at the Toombs, and the Chicago detective, it is said, played the part of the "Heathen Chinee" and outwitted the Central Office police magistrate and all the officials about the court. After this she disappeared, and now, after the lapse of nearly a year, she again appears at the bar of General Session to await this last charge preferred by a gentleman whom she asserts is her husband. At any rate she is a wonderful woman and very unlike the general run of her sex who appear in police courts.

Properties of White Sugar.

In many cases white sugar has been employed as efficaciously in remedying drunkness as ammonia. No rationale of a very satisfactory character has yet been adduced for the action of so simple a substance as sugar under these circumstances, except that it serves to bring on a different fermentation than the existing one in the stomach, and to neutralize, by the information of new compounds, the action of the liquors. A curious fact has long been observed, namely, that the life of animals which breathe in water is incompatible with the presence therein of even an inconsiderable quantity of sugar. In some parts of Europe one of the methods pursued in the preservation of fish consists in removing the viscera and sprinkling sugar over the interior, keeping the fish in a horizontal position so that the sugar may penetrate as much as possible. It is said that fish prepared in this way can be kept completely fresh for a long time, the savor being as perfect as if recently caught from the water.

Abraham Lincoln, whom white radicals and negroes worship as a demiged, gave his opinions of certain matters as follows: "I am not, nor never have been, in favor of making voters and jurors of negroes, nor qualifying them to hold office, nor intermarrying them with white people; and I will say in addition to this, that there is a physical difference between black and white races which, I believe, will forever forbid the two races living together on terms of social and political equality; and, insomuch, as they cannot so live, while they do live together, there must be a position of superior and inferior, and I, as much as any other man, am in favor of having this superior position assigned to the white race."

For President of the Convention.

MONTGOMERY, July 18, 1874.

Eds. Advertiser:—As just reward for distinguished service, as a compliment to a true, tried and staunch patriot, and in order to have the services of an experienced Parliamentarian, I nominate for President of the approroaching Democratic Convention Hon. Wm. C. Oates, of Henry, "the bold boy of the wire grass country." The Convention will honor itself by bestowing this compliment upon Col. Oates.

DOWNDES.

WILLIAM AND SUSAN.

A Very Mournful Texas Ballad "Run In" For Convenience.

BY G. WASHINGTON BRICKS.

Susan Brown and William Brady, lovers in the Lone Star State, one calm night, all snug and shady, side by side in converse sate. 'Twas on old man Brown's piazza; stars were brightening all the skies, and the moon above the plain was just about upon the rise. 'Twas the hour for love or liquor—calm, sweet hour in early June; love nor wine will never flicker on such a night with such a moon.

Susan was as fair as Hebe dressed in all her Sunday clothes—fairer than her cousin Phœbe, who is fairer than the rose. As for William—never wildwood sheltered youth more stout and hale; he was from his very childhood what the Texans call a whale. There they sat for hours a talking of their joys and hopes and fears; talking of their loves, and chalking out their plans for coming years. Talked they also of their marriage, hinting at no distant day when a little crib and carriage might perchance come into play.

Thus they sat, her hand in prison—not a prisoner harsh or stern—for 'twas merely locked in his'n, as his lips were pressed to her'n.

But alas! the course of true love smoothly runs, oh never, never! hearts enlinked in old or new love soon, alas! must sigh and sever. Oh, that in a sea of rapture, where the heart most sweetly floats, fate piratic's sure to capture half our joys and cut our throats!

Hark! the smell of shot and powder rises like a funeral knell! Louder, louder, louder, and still louder rumbles that heart-rending smell! Susan's sybil soul prophetic knew that rumble meant but ill—knew that old man Brown erratic was upon the hunt of Bill! Bill, the lone star, whom she follows, whither—asking, caring not; now she feels that $50 were poor pay to see him shot.

O, the earnest love of woman! Little for itself seeks; it is not a thing uncommon for its flame to last six weeks.

All at once a door is busted close to where the lovers sit—William had got up and dusted, but it was too late to git. Ere he dreamed of fight or fear once, or, had time to cut and run, old Brown made his appearance with his double barreled gun. Susan's knees shook fast and faster, William's also shook, 'tis said, till they tumbled down the plaster, from the ceiling overhead.

Susan screamed, her dark hair flying like a meteor streaming far, springing to her feet and crying, "Please don't shoot, O cruel pa!" But that pa, so cold and cruel, swore he'd send Bill to that clime where there's too much fire and fuel for to have a pleasant time. Then he raised his shooting-iron raving much and swearing more, till the air was blue—but why run on thus telling how he swore? What, oh, what was William doing while thus raved the old galoot? seeing plainly what was brewing, he was likewise on the shoot.

"Hold, rash pa!" exclaimed the daughter; all unheeded were her cries, as also the sweet salt water streaming from her lovely eyes. Standing there in all the rigor, old man Brown now aimed his gun, pausing ere he pulled the trigger, thinking, maybe, Bill would run—Bill, though, was not of the cattle which neither dare nor do; but, once shoved into a battle, he was sure to see it thro'. Never since the seige of Illium was suspense felt more profound; for a moment more, and William had been made to bite the ground.

Quickly drawing his repeater, which he carried two or three, cocking it at shortest meter, drew a bead on O. M. B. Few things as swift as lightening are there! Swift, thus came the pistol's roar, and poor Susan's helpless father lay there weltering in his gore! William's sure unerring bullet, an infernal slug, no doubt, took O. M. B. in the gullet, and he waltzed right up the spout.

And the coroner, living nigh him came, but William didn't run, feeling sure they'd justify him in the deed that he had done; which they did; for papa's fury, Susan, weeping, told it o'er, and to William said the jury, "Go, my son, and shoot no more."

Here my muse must stop and tarry; all she knows is in this lay: whether Bill and Sue will marry, she is not prepared to say. But as Bill—who is no joker with stocked cards, you understand—in that game of leaden poker, played a fair and honest hand.

Should he, when there are no traces left of his unerring shot, meet Sue's hand with but four aces, he will, no doubt take the pot, for Sue knows her pa was able, and had done it with a rush, with his full to sweep the table, had not William held a flush.

The Mission of the Radical Party.

The recent address of the Congressional Republican Committee to the Radical fanatics North and the negroes and niggerites South, proclaims that the "mission" of the Radical party is not ended and that its rank and file must be prepared to go *"forward"* in the work inaugurated after the war and so infamously kept up since. A broad hint is given the faithful to throw overboard every congressman who failed to vote for the the civil rights bill, and send only such men to Congress as can be relied upon to support any nefarious legislation inimical to the South that may be proposed.

In this State, likewise, there are no signs of a healthy conservatism in the party. Indeed it is inclined to go "forward" so rapidly and recklessly that many of the more respectable white Republicans are leaving the party and openly operating with the Democratic and Conservative party as the only safeguard of the commonwealth, as is witnessed by the action of Judge Morrow of Jefferson, and other prominent Republicans in the Northern counties of the State.

But while many good men are leaving the Radical party on account of the monstrous doctrine of the negro wing of it, there are some still halting, hoping against hope to control and direct it in a less dangerous channel.

To such we say, the negro, even after he has obtained the passage of the civil rights bill, has not near reached the length of his insane demands.

Moderate Republicans who accepted negro suffrage, but who deprecated placing him in responsible public position for which he was utterly unqualified, have lived to see the day when they can unblushingly cast their votes for an ignorant negro in preference to cultivated and honest gentlemen of their own blood and color.

We all know how the white Republicans met the demand of the negro for the passage of a civil rights bill through the Alabama Legislature. They refused point blank to pass such a bill; and yet to-day the white wing of the party is rapidly coming up to the position of the negro in this respect. Only two Radical papers in the State have the courage to oppose the civil rights bill (and they both belong to the Press Association) while the majority have at their mastheads for re-election the names of men who voted in Congress to take up and pass the obnoxious measure.

The truth is, the negro has the lead and the white wing of the party are compelled to follow wherever he may lead let the personal consequences be what they may.

Sam Rice and others awoke to a realization of this fact when they endeavored to have a meeting of negroes at Mobile disclaim a desire for the passage of the civil rights bill. How they controlled that meeting is best told in the language of Jerry Harralson, a coal black negro, addressed to Sam Rice, a white man, once an ornament to the Supreme court bench. Harralson in reply to Rice's speech said:

"You have *got* to go with us and *after* us, and *you cannot help yourselves.*—You have read yourselves out of the ranks of your *kindred* and you know you cannot gather a loaf or a fish or piece except you *obey our orders. Feed time* is coming, and when that comes, you carpet-baggers and scalawags are always on hand."

Having accepted the civil rights, social equality measure, the white Republican may think that he has done his last dirty work and that the negro will turn from him that he may rest; but not so.

The next detestable job that he will be invited to will be to assist in a partition of the property of the whites, including his own inheritance and that of his children, among the dusky *lazaroni* that go to make up nine tenths of his party.

That a negro is a communist in principle (he has been a communist in practice all his life, as plundered corn cribs and hen roosts bear witness) is evidenced by the expressions of leading negroes in the last Legislature, who demanded that the white people be taxed out of their hands in order to bring them within the reach of the slender purses of their improvident race. A Foman, a negro candidate for Judge of the Criminal Court of Dallas county has recently let out his communistic tendencies in a published card in a little dirty niggerite sheet published at Selma. It serves to show the animus of the race of which he is a representative, however important he may be to enforce his communistic ideas. His plan is to plunder the white people of Alabama under guise of a demand for services rendered their old masters subsequent to Lincoln's emancipation proclamation and before they were released from servitude. These amounts will range from three hundred dollars upward to each slave, says this Foman worthy of any *steal*.

Now the niggerites may laugh at Foman's proposition, as they at first laughed at his demands for office and civil rights, but they will live to come up to more radical measures of the negroes than even this, if they do not at once sever their connection with the race and come over to their own blood and kindred. The Communists of France were never so insane in their demands as will become this black mob and their wretched white followers. *The only safety for a white man who has one spark of manhood left, is outside of the negro party.*

More Radical Villiany.

As will be seen from an article published elsewhere headed "Attention Alabamians," the Radical traitors and conspirators will likely try on another Court House Legislature game, if defeated at the polls this fall.

Let them do so, and they will be the sickest lot of scoundrels over their work that a corrupt constituency ever sent to Montgomery. We hope Democratic counties will send only such members to the Legislature as have the nerve to deal deservingly with the rascals, if they attempt such a thing. A few over-timid, too-conservative old hacks in the body will spoil everything.

We have heard white men say that if the civil rights bill passes Congress they will simply refuse to send their children to the public schools; that under no circumstances will they allow them to meet with negro boys and negro girls on a common equality in the school-room.

This is all very well and natural; but the negro does not intended to allow the white man to play any such lofty game if the Radical party get possession of the State Government next November. The late Equal Rights Negro Association at Montgomery not only demanded the passage of the civil rights bill, but a compulsory education law. It is their intention by legislation to *force* the white people of Alabama to send their children to mixed schools.

The Democrats of Talladega have had a most harmonious nominating convention and put out a ticket that will beat the black and tan affair concocted by the niggerites all hollow.

Judge Thornton is the nominee for Probate Judge, and J. W. Heacock and G. K. Miller are the nominees for the Legislature. It was our privilege to know Dr. Heacock intimately in the army, and a more gallant soldier or truer hearted gentleman does not live. With Miller and Heacock in the Legislature, how much better will the decent people of Talladega be represented than last session!

The two niggerites who preside over the columns of the Selma Republican and Talladega Mountain Home, respectively, can scarce allow a week to pass without a disparaging allusion to the good people of Calhoun. All the nigger-loving scoundrels in the State have a special spite at Calhoun. It is because the Democracy of the county so scorn and contemn and spit upon the dirty curs that they bark at us. Put when it is understood that either of the worthies mentioned would be kicked out of any respectable man's house in the county, their opinion of us is not a matter of consequence.

The Bob Knoxious young rooster who does the crowing for the niggers of Talladega county is still harping on Patona. That was the place, we believe, where the United States soldiers had orders to *shoot down the prisoners* (afterwards discovered to be innocent men) in case of attempted rescue, and where the Inquisition refused to allow one of the prisoners the privilege of visiting a dying wife. We believe also that Chief Just-Ass. Peters presided and one Lewis E. Parsons was prosecuting Attorney for the State and manufacturer of political capital out of the affair.

It has been told on the streets that our old friend Wm. Woodly was disaffected at the action of the County Convention. We have a letter from him in which he says in effect it is a plain duty of all democrats to uphold the action of the convention and quiet those disposed to be dissatisfied. He is entirely too sensible a man to sulk and let the election go by default, just because everything did not go just as he wanted it. He recognizes the fact that every man in the county cannot get his choice either in Conventions or elections. Those who have been quoting Bill Woodly as a sorehead may stop. He is no sorehead. He is a patriot.

The niggerite editor of the Selma Republican who represented his superiors, the negroes of Talladega, in the last Legislature, don't like the term niggerite. We expected the objection to come from the negroes. He should feel honored by the appellation.

The niggerite paper at Talladega runs up Nick McAfee, whom it is pleased to term "Talladega's favorite son," for Attorney General. Now, by all the dusky sons of Ham at once, "Talladega's favorite son" is good. If large nasal development and small brain power were the requisites, however, he would make a good one.

The editor of the niggerite sheet at Talladega don't like the Calhoun county resolutions:

> So thief e'er felt the halter draw,
> With good opinion of the law.

Moreover this blatherskite has been very much exercised of late lest the Democracy should ostracise him. Strange he should cling with such tenacity to the privilege of association with the men he delights to call Ku-klux and oath breakers.

Limestone county last election made no nominations and a Radicall represented that county in the Legislature. This year Limestone has nominated candidates. Cherokee last election made no nominations and a Radical represented that county in the Legislature. This year Cherokee has decided to go into nominations. These facts bear their own lesson.

According to request of Mr. Mark Driskell, we this week take out his announcement for Commissioner. Owing to sickness in his family he did not come before the Convention; but he has no idea of running as a disorganizer. He says he wants to see his party ticket successful and shall do all in his power to uphold the chosen standard bearers of the Democracy in Calhoun in the present struggle with the "niggerites."

THE VULGAR WRETCH.

The Talladega *Mountain Home* (Radical) coarsely assails Rev. Sam'l. Henderson for appearing as a delegate in the Talladega county Democratic Convention.

To our mind, there was nothing inappropriate in his being there in such a capacity. Indeed, the gentleman may be said to have been in the regular line of his profession—whacking away on his old enemy, the Devil, whose satanic majesty is clearly embodied in the Radical party of Talladega county.

"The Ministry have as direct an interest in our country's welfare and owe as large a measure of duty to that country as any other class of men, and while it may not be fit for a Minister, set apart to the special work of God, to engage in a rough struggle for purely political office, it is entirely appropriate for him to use his large influence to elevate our politics by the procurement of good and capable men to fill such offices: A good and beneficent Government conduces to the morality of the people.—*Jacksonville Republican.*

When your real callous blasphemer of a Radical preacher like Beecher, or brother Simpson of Philadelphia, or brother Newman or any of the habitual counsellors or cabinet of the Lord, under whose inspirations nearly a million of men were murdered during the late fratricidal war, used to invite, as they often did, crowds of half crazy men and women into their "temples of worship," and taking down the emblems of the Christian Religion set the "flag" aflying, and howled and danced like so many Dervishes of Comanches around the symbol there representing the fiercest passions and typically saturated with human gore, the Talladega ruffian in his renegadeism would, if it were now required of him as a test of "loilty," swear it was a manifestation of the "saints," and of the Heaven-commissioned to set peaceful peoples' throats and to rob them of their property!

But when Dr. Henderson, a noble christian and a pious clergyman contents himself with doing precisely his duty to his country and his God and to try decorously and in the only efficient way to preserve morality and religion from the polluting grasp of radical desperationists, the contemptible blather-kite of the *Mountain Home* at once tries to insult him with his ribaldry. For ourselves we would that every minister of the gospel in the South knew and fully appreciated *their political duties towards God.* If so, they would follow Dr. Henderson's example, and fight the battle of the Christian God, both in the Pulpit and in the political conventions of the people, as necessary and generally as reputable as any other association of men. They may depend on one result without the least doubt or hesitation; that with triumphant Radicalism in modern Society the power and the character of the Savior of man will no longer be recognized in the world! To hundreds of thousands of radicals there is no Lord or Christ, or God. In opposing the radical teachings and ideas and in crushing out its moral deductions. Religion can only preserve its own life. Just as Radicalism may hereafter unfortunately strengthen, all that depends on present Morality and Religion will inevitably weaken, and finally be overthrown and lost. Should not this fact be ever now apparent to the stupidest mind capable of any reflection. Not long since we addressed our clerical readers earnestly on this very subject, and we were glad to perceive that our remarks were widely circulated.

Attention Alabamians!

The Radical leaders in this State have already won an immortality of Infamy, but the following suggestion, offered by an unrebuked correspondent of the Selma *Republican*, shows, that they desire to go still further.

"Since the Democrats have made the "race issue," let the watchword of the Republicans be onward and upward, *and when the "Capitol legislature" elect Pettus for sergeant at arms let the Courthouse legislature elect Hon. Wm. H. Betts the brave, and the sergeant and Democracy will both take water again.* Lets make no compromise, but rout them and scout them until the very name of Democracy shall be buried in odious oblivion, and then *they* will say "let us have peace."

The Republican Banner, of this city copies the above and "*endorses the sentiment fully.*"

What does it mean? What *can* it mean? Read the italicised portion of the extract and answer the questions yourself. It can only mean that the Radical party, foreseeing another defeat at the polls, is preparing to inaugurate another bolting revolutionary movement when the Legislature assembles in November next, akin to that which they carried through so successfully in November 1872. But we warn them in time that the day for such dangerous experiments has gone by—never to return. The white men of Alabama will not submit to be bullied in this style, either by "Col. BETTS the brave" or by all the "braves" in the Congoese camp Do they think to *frighten* us from the polls by proclaiming thus openly and and boldly their purpose to plunge the State once more in anarchy at the risk of bloodshed and ruin? Do they to *intimidate* the white Republicans who, disgusted with their Social Equality dogmas, have left their ranks and shaken the dust from their feet? If so they will awaken to a grievous and disastrous disappointment.—*Montgomery Advertiser.*

An old goose died at Danville, Va., in his ninetieth year from drinking lye out of a trough. This household preparation should be kept out of McKinstry's reach.

HON. JOHN H. CALDWELL.

We clip the following highly complimentary notice of our fellow-countyman, HON. JOHN H CALDWELL, from the Huntsville INDEPENDENT. It is need less to say that we heartily endorse the suggestion to renominate him.

As the time is approaching for the Gadsden convention to assemble for the purpose of nominating a candidate for this District, for representative in the forty-fourth Congress, We think it due the gentleman whose name appears as the caption of this article that he should be re-nominated. He has been in Congress but one session, and in that time has secured to North Alabama a United States Circuit Court, in the teeth of the opposition of other members from Alabama That this will be a great convenience, entitles Col. Caldwell to the highest encomiums and the thanks of the people of North Alabama, no one will deny. A gentlman, who knows, has informed us that Mr. Caldwell was always in his seat, always voted right, and was indefatigable in attending to correspondents. Quiet and unobtrusive in his manner, he won the respect and confidence of even his political foes, and this places him already in a position to serve the people better than if he had entertained a country with frequent outbursts of egotism and nonsense, to which some of our public men are too much given. What the District wants is, a member of Congress who is able, energetic and laborious, and yet has the capacity to speak, when occasion demands and only then. We think these are Col. Caldwell's characteristics.

Madison county is the native heath of Col. Caldwell, and old Madison is surely willing to say to a worthy son, who has been tried and found faithful, "Well done, good and faithful servant." Col. Caldwell has many friends in Madison, and each visit he makes us, we are told revives many pleasant associations and reminiscenses of his youth. We hope to have him with us again, soon, when, no doubt, he will give a satisfactory account of his stewardship to his constituents.

We understand the Col.'s name will be before the Gadsden Convention. Let it re-nominate him. The Calhoun end of the District is entitled to it. We had it two terms; let Calhoun have it another.

"I'm a Whig, I am!"

A great difference exists between the political campaigns of the present day, and of yore. The present suffers somewhat from the contrast. While this subject was being discussed yesterday a gentleman related the following incident in an illustrable manner. He begun by saying:

I repeat an old story:

The wedding was over, the guests had departed, and the happy pair had retired to their chamber, and were snugly ensconced in bed, when Jack, in the course of a quiet conversation with his wife, unwittingly alluded to his favorite subject, casually speaking of himself as being a Democrat.

"What!" exclaimed she, turning sharply and suddenly toward him, "are you a Democrat!"

"Yes, madame," replied Jack, delighted with the idea of having a patent listener to his long restrained oratory—"yes madame, I am a Democrat, a real Jefferson an Democrat, attached to the great progressive party, a regular out and outer, double-dyed and twisted in the wool."

"Just double and twist yourself out of this bed, then," interrupted his wife; "I am a Whig, I am, and will never sleep with any man professing the doctrines you do!"

Jack was speechless from absolute amazement.

That the very wife of his bosom should prove a traitor, was horrible!

She must be jesting.

He remonstrated, but in vain; tried persuasion, 'twas useless; entreaty, 'twas no go.

She was in sober earnest, and the alternative left him was a prompt renunciation of his heresy or a separate bed in another room.

Jack didn't hesitate.

As he was closing the door, his wife screamed after him:

"I say, my dear, when you repent your heresy and your past errors, just knock at my door, and perhaps I'll let you in."

The door was violently slammed, and Jack proceeded wrathfully in quest of another apartment.

In the morning she met him as if nothing had happened; but whenever Jack ventured to refer to the previous night, there was a "laughing devil" in her eye, which bespoke her power to extinguish hope.

A second time he repaired to his lonely couch, and a second time he called upon his pride to support him in the struggle, which he now found was getting desperate.

He ventured curses, "long but not loud" on the waywardness and caprice of the sex in general, and on his own wife in particular—wondering how much longer she would hold out—whether she suffered as acutely as he did, and tried hard to delude himself into the belief that she loved him too much to prolong the estrangement and would come to him in the morning—perhaps that very night—and sue for reconciliation.

But then came the recollection of that inflexible countenance, of that unbending will, and of that laughing, unpitying eye, and he felt convinced that he was hoping against hope, and despairing, he turned to the wall for oblivion from the wretchedness of his own thoughts.

The second day was a repetition of the first: no allusion was made to the forbidden subject on either side.

There was a look of quiet happiness and cheerfulness about the wife that puzzled Jack sorely, and he felt that all idea of forcing her into a surrender must be abandoned.

A third night he was alone with his thoughts.

His reflections were more serious and impassioned than the night previous.

What they were, was known only to himself, but they seemed to result in something decided, for about midnight three distinct raps were made at his wife's door.

No answer, and the signal was repeated in a very emphatic manner. At that junction he heard a movement as if some one was on the ove of awaking, and presently a voice said:

"What do you want, who is there?"

"It's me" was the response and *perhaps a little the best whig you ever did see.*"

It is needless to say the conversion was perfect and never afterwards was there a difference in their political opinions.

The Montgomery *Advertiser* lately showed how the white Radical Executive Committee of the State has swindled the negroes in the apportionment of delegates to their State Convention. The large negro counties, which cast 58,532 Radical votes, are allowed but 98 delegates, while the white counties which vote 31,000 strong, are allowed 110 delegates.

A Card.

TO THE PEOPLE OF CALHOUN COUNTY:—

Having just this evening heard of a false report detrimental to my character as an honest citizen of this county, justice to myself and friends demands that I should correct such report, viz: that I should have said out to U. W. Grant, in order to advance his nomination in the late convention for the purpose of defeating Capt. Hannah. Not knowing from whence said report emanated, I unhesitatingly denounce said report to be a lie and the propagator of the same the author of it. Not even a proposition to that effect has ever been made to me. As I no longer breathe in the political atmosphere, I turn with disgust from the same, and for the present henceforth and forever am opposed to county conventions, combinations and political tricks.

Slain, cut up, sliced up and laid upon the shelf to dry without even a friend to let me know that I was dying, not even giving me the chance of a criminal under the gallows, that I might procure a clergy to console me in my last hours and direct my mind to an upper and better world. H. McBEE.

It may not be inappropriate for me to supplement the statement of Capt. McBee by an assertion on my part that there was no understanding between us, leading to such result as he speaks of. I do not know of any trickery in the Convention, and do not believe there was any. Indeed the names of the honorable gentlemen, from all parts of the county, who composed the body, preclude at once any such supposition. I did not even know that the Convention would go into nominations, until it so decided; and after it determined to nominate, I did not know what would be the result affecting myself.

In this connection I will add that the nominating Convention was not the creature of the County Executive Committee or any combination of candidates. The Committee left the matter to the people, and they, thro' their representatives from the beats decided by an overwhelming vote to nominate. As for the candidates, I believe a majority of them preferred to run the race through; but with creditable spirit they one and all bowed to the will of the people as expressed through their representatives in convention, and pledged themselves to support the nominees. I certainly should have given a hearty support to either Capt. Hannah or Capt. McBee had one of them received the nomination over me. L. W. GRANT.

Cleburne County Convention.

EDWARDSVILLE, ALA., July 13, 1874.

The Democratic and Conservative party of Cleburne county met in convention. Meeting was called to order by T. J. Burton. Hon. W. P. Howell was elected chairman and T. J. Burton secretary.

The object of the meeting was explained by the chairman in an appropriate manner.

On motion, the following committee was appointed to nominate delegates to the State Convention: J. C. Barker, M. Alexander, Dr. O. W. Shepard, A. W. Denman, H. S. Whitman and M. Davenport, who nominated the following as delegates, which was ratified by the convention; R. J. Ridle, M. Davenport and I. D. Hogan.

On motion, elected the following delegates to the Congressional convention of the 5th district—W. P. Howell J. H Abel, T. J. Burton, E. B. Stephens, B. Owen and R. J. Teague.

The following resolutions were offered and unanimously adopted:

Resolved, That we commend and suggest the Hon. J. H. Caldwell as a suitable candidate for re-election to Congress from the 5th District, and request his nomination.

Resolved, That this convention request the counties composing the 12th Judicial Circuit to call a convention of said circuit and we recomend that the same be held at Jacksonville, at such time as the Executive Committee of the different counties may designate.

On motion, elected delegates to the Judicial Convention, in the event one should be called.

Dr. O. Shepard, T. J. Burton, J. C. Barker, J. S. White, David Creamer, W. P. Moore and M. Alexander.

Appointed the 4th Monday in August next as the time for holding the convention at Edwardsville to nominate candidates for county offices.

Resolved, That each beat be entitled to 5 delegates and one additional delegate for every 25 Democratic and Conservative votes cast in the beat at the last general election held in said beat.

On motion, requested the different beats to hold meetings on the 3d Saturday in August to elect delegates to the county convention.

On motion, authorized the delegates to the State Convention to meet the delegates in Montgomery from the Eastern chancery division, and nominate a candidate for Chancelor.

On motion, requested that the proceedings be published in the Randolph *Enterprise*, Jacksonville *Republican*, & Oxford *Intelligencer*.

On motion adjourned.

W. P. HOWELL, Chairman.

T. J. BURTON, Secretary.

Another Social Equality Organ—Negroes "Social Equal to Foreigners"

The first number of the Field Hand, a new weekly journal, published in this city, was placed on our table yesterday. The Field Hand is a radical negro social equality organ, and bears the name of "F. G. Cummings, editor and proprietor."

That our people may not be in any doubt as to the position occupied by the Field Hand in regard to the social equality of the two races we take the annexed paragraph from the initial number:

"The colored people have but one ultimatum, and that is that every right be respected, and in the same degree that white men of foreign birth are socially equal, they the members of the same human family must be so.

* * * * * * *

When the bitter feeling existing against the colored people, shall have subsided, and *all men live on terms of peace harmony and* SOCIAL EQUALITY; when men pattern after Almighty God, and in act and word, become "no respecter of persons," then will our State rise in prosperity, to a position second to none in the Union. The Republican party is the one to which the colored people must cling; and it is by no means a party composed of any particular race of people; it knows no white nor black, but in its progressiveness has given to the colored people their citizenship, and will yet clothe them with every right under that citizenship."—*Vicksburg Herald.*

That Note.

The *Advertiser* of yesterday morning announced that a negro had sent a note on the day previous to a young lady in the city, requesting permission to accompany her to church. We made diligent inquiry during yesterday concerning the matter, and learned from a gentleman, who in turn had his information from a responsible source, that the note was sent, and to the daughter of a prominent Radical, who has been quite recently and earnestly advocating the Civil Rights bill. It was certainly a practical test of the fathers faith in the *harmonic* workings of the infernal doctrines of radicalism. Still we deeply deplore that any Southern lady should be thus insulted in consequence of her father's predilection.—*Montgomery News.*

A WHITE WIFE FOR EVERY NEGRO.

In a speech at Vicksburg, one night last week, a mulatto scoundrel named Davenport, Chancery Court Clerk of that county, referred as follows to the elopement of a white girl of Port Gibson with a negro member of the Legislature: "The time was not far distant when the Port Gibson affair could be repeated daily—it would be nothing to see large numbers follow the example of that young lady. He would go further, and say that there were thousands of Southern women; many here in Vicksburg, of the most respectable families, who would do so to-day were they not afraid. But these things would be broken down, for the white women now see that the negro is the coming man and that they have the control of the city and State governments. If he were not a married man he could get the daughter of one the best families in Vicksburg, and were he in the matrimonial market, he would buckle on a pair of revolvers and meet the woman's brothers or father who would dare to interfere with his love affairs, or rather attempt to prevent daughters and sisters from their choice in the selection of a good husband (whom they were anxious to have) among the colored men."

This moved the *Vicksburger* to remark the next day:

"We have seen the time when this lying scoundrel could not have lived five minutes after uttering such atrocious sentiments, and if he is permitted to live now we shall be greatly surprised. He deserves to die the death of a dog, and any man who has a daughter or a sister here, will be justified in the eyes of God and man in shooting him down precisely as he would shoot a wolf or a rabid dog!"

Every negro voter in Davidson county will applaud to the echo the damnable sentiments uttered by Davenport; and every candidate who has bargained for colored voters by a pretended endorsement of the Civil Rights bill is still more infamous. This is a White Man's fight for a White Man's ticket, against the vilest combination ever formed to betray the interests of the people.—*Nashville Banner.*

TEACHERS WANTED.

APLICATIONS will be received until the second Saturday in August for Principal and Assistants to take charge of the Jacksonville Female Academy—the next session to commence on the first and second week of September. Applications may be addressed to E. L. WOODWARD, Pres. of the Board, or to J. F. GRANT, Sec'y.
July 25, 1874.

EDUCATIONAL.

Col. Samuel H. Lockett former Principal of Calhoun College, having tendered his resignation, the trustees of said Institution will receive propositions to supply his place from any competent gentleman desiring the situation. The place will be held open until the 15th of August prox.

Address WM. H. FORNEY,
President Board Trustees.
Jacksonville, Ala.

☞Attention is invited to the notice in to-day's paper inviting proposals from persons desirous of taking charge of Calhoun College and Jacksonville Female Academy. In order to make the Institutions more remunerative, arrangements might be made for one person to take charge of both, employing competent teachers for each. Few places possess more advantages than Jacksonville for first class schools. The buildings are commodious and well prepared for immediate use, needing no repairs or additions. Applications may be directed to Presidents or secretaries of Board of Trustees of either institution.

We have now *certainly* the best watered town in Alabama. Besides our splendid system of Water Works and magnificent Town Spring, a fine well has just been opened up on the public square, and provided with a pump for the convenience of the thirsty. The well and pump has cost the town six hundred dollars and is *well* worth the money.

We have been much gratified recently to meet with our old friend Sidney Green, who emigrated some years ago from this county to Texas. Mr. Green made a fortunate location in Texas, and has done well there as he did here, and as all such men of integrity, industry and energy will do anywhere.—He now weighs two hundred and forty-five, which speaks well for the health of Texas, at least that part in which he has settled.

MRS. A. M. D.

FIFTEEN DOLLARS FOR A LIFE—LOVED TOO WELL BUT NOT WISELY—MOTHERLESS, FATHERLESS

Early yesterday morning we were asked. "Have you heard the latest?" Of course we hadn't and so answered our friend, and followed it up with "What is it." with our curiosity at fever heat We were told, in as few words as our informant could condense his news, that a baby, a female white child, had been found on the door steps of some person to him unknown. This added fuel to the flame, and we commenced buttonholing everybody we met to hear more. Our labor was soon rewarded. We were told that

PAGE NORRIS,

a highly respectable colored barber, could give us all the information we wanted, as the child was found on his door step, and that it was then at his house, Page lives on Franklin street, a few doors from Howard, and works at Billy Barrett's old Depot street. We will not tell the story as it was told to us:

Page, his wife Henrietta, and his mother retired between nine and ten o'clock, and went to sleep. Just before eleven o'clock

THREE DISTINCT RAPS

were made on his front door, which awoke his mother, who awoke Henrietta. No other noise was heard, and after waiting a moment, Henrietta pulled the curtain of the window at the head of her bed aside and looked out. She noticed the front gate open. She then got up and made a light and awoke Page to go and close the gate, and telling him what had occured. The door was then opened and lying on the step were

TWO BUNDLES,

in one of which there was a female white child; in the other the necessary clothing for the little unfortunate. Both bundles were taken up and carried into the house. On opening the bundle containing the child, the following note with

FIFTEEN DOLLARS

was found pinned on its little breast:

HENRIETTA—I have heard about you but you do not know me: I believe you can be trusted to take better care of the child I send you than I can; furnish her with everything needed and take care of her as if she was your own and you shall be well rewarded. If you cant keep her or want to hear from me at any time, write anything you wish to

MRS. A. M. D. SELMA, ALA.,

and I will be sure to get it; she is my friend. I will send you money every month if you will keep the child.

There was no signature. The hand writing, in our opinion, is that of a man attempting to counterfeit, but there is no denying the fact that a "woman was at the bottom of it."

THE CHILD

appears to be three or four weeks old; it has a full suit of light colored hair; black eyes, and is of good size. When found it was in a stupified condition—there had evidently been given it some narcotic to produce sleep and thus prevent it making itself heard. It looks healthy but shows signs of having been neglected in its nourishment. There were three or four complete changes of clothing, all new and prettily made. It was carefully wrapped up in its little trail and then in a

CRIB QUILT,

to protect it securely against the weather. There are no marks of any kind or character on the child or its clothing that will lead to the identification of its parents, and unless our good friend "Mrs. A. M. D., of Selma, Alabama," can be induced to tell what she knows, its parentage will probably never be known.

Yesterday morning on making a close examination between the gate and house Page discovered the tracks of the man who left the child. He wore about a number

SIX OR SEVEN BOOT OR SHOE,

well shaped. He made only two set of tracks going and returning. After knocking he didn't wait to be invited in, but made off, and watched from some secure hiding place, no doubt, the result of his efforts in behalf of the little piece of humanity.

This is a first class sensation for Rome and we understand that it has drawn well. Henrietta says she intends to keep it and raise it as if it was her own, which it aint.

Independents and Scratchers.

It is astonishing that men will sometimes announce themselves as Independents: as opposed to Conventions, or will scratch tickets of the party adopted by it, in Convention assembled; and after finding that the aforesaid announcement and style of voting will not "set" on Democratic stomachs they will return to the "Convention System," a political prodigal only, and seek by artifice and pertinacious persistency to control the said party.

And yet they do even more than this. After "swinging around the circle," to the edification of themselves, and to the disgust of the people, throwing kisses at the Radical Goddess, with no other result than to see themselves as others see them, they pretentiously affect contrition, and with sackcloth and ashes, ask favors at the hand of the party they have sought to demoralize and to destroy, because forsooth that party refuses to recognize their frequently asserted right to fee simple title to an office.

Hence we say beware of Independents: beware of men who would be Independents but for fear of the righteous indignation of the people struggling to extricate themselves for the toils of the Radical Anaconda.

If a man even thinks of giving himself up to the opposite party as an "Independent Democrat" to defeat Conventions, beware of him—his contrition is simulation, and he is ready to leave the party and join the enemy if need be to attain his unholy ambition for office.

It is our opinion the people will be slow to put such a watchman on the towers of our party citadel. If they do, they will forget that their dearest rights and the most sacred interests of the country are in danger. *Verbum Sat.—Decatur News.*

No Democrat in Alabama advocates or ever advocated the idea of originating or making "race issue" with the negroes, mock white, black and mulatto. We have been in favor, however, of their accepting distinctly and authoritatively the issue of a demand for negro political supremacy, leading unquestionably to mongrelization, forced by the negroes of all shades, on the true white men of the State. There is nothing and has never been anything practical in the race issue seen from a Democratic standpoint but this. We know nothing upon which such crude and undefined ideas seemed to have prevailed. The whole difficulty has been occasioned by the hasty and imprudent; and blatant talk weregret to say, of some persons who were not influenced by an intelligent appreciation of our political status, or else have a very mistaken conception of their own wisdom. In the civil rights bill we find the race issue that we must meet. This is no party cry. It is a grim and fearful fact. This insulting Radical statute (and we honestly confess that if we could kill its prominent supporters at Washington we would destroy them more willingly than so many poisonous snakes) proposes to mix white people and negroes here in Alabama in one common stock of population by forcing intercourse between children in our public schools on a common social basis of perfect equality by which compulsive intercourse, according to the Massachusetts philosopher, Boutwell, Republicanism can only be established fully, and safely maintained in Alabama and the South. This disgusting demagogue insists on the civil rights bill in order to compel the white citizens to send their sons and daughters to school with negroes and negresses, and farther to compel their wives—whether Union men, Douglass Democrats or secessionists, it does not matter—to sit at the same public hotel table and in the same parlors with the blacks and to occupy the same bed rooms and beds previously occupied by their negro social equals. Now, the Alabama white man who can stand this horrible tyranny, is more lost to manhood and honor than the meanest slave or penitentiary convict. He deserves social ostracism as much so as if he were a burglar or pirate. His presence is pollution. He is a moral leper.

No one has a right to anticipate the platform to be adopted by our State Convention but we presume it will be a plain dignified expression of Democratic and Conservative principles, and that, perhaps its *main* and most emphatic declaration will be a stern expression of resistance to Federal legislation that thus threatens to create a mongrel population eventually in the South by social equality laws and the encouragement by inter-marriage (the next active step) between whites and blacks. Our readers will remember a strange article which appeared nearly two years ago in the New York *Graphic* styled Viriculture: We denounced it at the time, as a feeler to social equality legislation and blood intermixture. And so all can now see it was. Under the circumstances the election of our ticket will be the true issue of the white men of Alabama, and the preservation of our pure American and Caucasian community.—Montgomery News.

The pale, sad-looking young men whom one occasionally meets in the street and not consumptive, are not mourning the loss of a friend, and are not divinity students. They are breaking tight boots.

DISTRICT CONFERENCE.

The District Conference of the Methodist Episcopal Church South, convened in this place on yesterday, Rev Dan'l Duncan presiding, Rev. Mr. Anderson Secretary. Delegates, clerical and lay, are present from nearly all the charges.

Yesterday committees on the "State of the Church," "Temperance," and "Local Preachers and Exhorters," were appointed. Services will be held twice each day at the usual hourrs. Conference meets at 8½ in the morning and adjourns at 11; again at 3 in the evening and adjourns at will.

The Able Composer.

Rochester Democrat and Chronicle.]

A good compositor on a daily journal never corrects his "revise." He deems it an insult to mark a revise, so far as he is concerned; and retiring his countenance underneath his case he swears to himself in an artistic and generally beautiful manner at the insufferable stupidity of the man who marked the revise, permitting the detestable thing to go its way. A "revise," as we have been in the habit of looking at it, is an editor's insurance against deprivation of life, liberty, and the pursuit of happiness. Your good compositor doesn't think so, however. He simply mouths his ear—and it must be said that it is a pretty good sort of ear as a general thing—and he says that that infernal ass has been putting up another job on his mightiness. The editor remarked in his luminous chirography, and with a startling originality peculiar only himself, "The weather appears to be very beautiful." The good compositor put it, "The werther sneers at the very dutiful." The editor said, "The condition of things in France is rapidly growing incomprehensible." The good compositor put it, "The sedition of muels in prance is most damnable." The editor, in a moment of inspiration, used the expression, "And still the eagle, glorious bird of freedom, exalts his voice." The good compositor said, "And will the beadle, stertorous first of bleedom, exert his nose?" The editor quoted from Whittier, "The pines were dark on Ramoth hill," etc. The good compositor quoted it from Milton, and put it, "The whines were bark on Mammoth hills," etc. The editor said, in the language of our late lamented friend, Mr. Webster, "The Union now and forever, one and inseparable." The good compositor remarked, "The minion once and together, now and immediately." Let it be stated, however, that these mistakes are generally corrected in one way and another. It is the man of the "revise" we particularly allude to, the man of the apparently small but the most infernal mistakes. He can scarcely think it necessary to put in so small a thing as a comma, or to take out one. He apparently scorns the change of a single letter. He assuredly elevates his back whenever a transposition of words is necessary or advisable. He can take a word out of his matter under no circumstances, though the superfluous word make the most wretched sense and grammar. "It is a slight thing," says this good compositor, or rather, "It is a 'pass' and curse the difference," or, the galley doesn't come to him anyhow, for some remarkable reason, never to be fairly understood. We merely mention it. We don't care to have credit for the beautiful originality of the truly good compositor. But at the same time, it must be conscientiously stated that there is no such man. He was a "sub" damnium; and he went away last night.

Last Monday night the negroes and their few white brethren had a meeting in the Court House in this place. Speed and Reynolds, white, and Curtis, yellow, were the orators. Great excitement prevailed in the court house, and still greater after they adjourned. There was some warm sparring between Speed and Reynolds—the former supporting the negro, Curtis, for Congress and the latter for Hays. We learn that Reynolds proved that Speed had promised both Hays and Curtis his support for Congress. More than one hundred negroes in the crowd were armed with guns and clubs. Many from Hamburg and vicinity came armed, in military line, with yells more hideous than the war-whoop of the Indian.—*Marion Commonwealth.*

☞A negro orator, at a meeting last Saturday night, said he could prove that Sheriff Strobach was no friend of the negro race.

"How?" asked a Strobacher who was present.

"Didn't he hang Tom Sankey?" retorted the man and brother; and wern't there plenty o' white men standin' round' loose lookin' at, im?"

"Do you mean to say that he had the option to pick up a stray white man and hang him in the place of Tom Sankey?" continued the astonished Strobacher.

"Deed I does. He had to hang somebody, I knows; but ef he'd er been de frien ob de cullud man dat he tends to be he'd er let Tom go and hung some white man? Why dere was Mr Brit Tarver standin' right dere; he could er cotch him jest as easy as fallin' off a log!"

And his logic satisfied the crowd who execrated the Sheriff for his vile injustice to the colored race.—*Mont. Adv.*

The Charleston *Courier* says that during last week more than two thousand pieces of real estate in the city of Charleston have been forfeited to the State, for the non-payment of State taxes. The owners of the property were unable to pay the taxes, and the property was offered for sale without finding bidders.

Ala. Gold Life Insurance Co.
OF MOBILE, ALA.

All who desire to make a safe and certain investment for the future, should not neglect the opportunity of doing so while in sufficiently good health to secure a life policy in a good and reliable company. Such a one is the Ala. Gold Life, conducted in the management by officers of acknowledged ability and integrity, well known to the people of Alabama. But that which gives the company its strongest claim to patronage and support is the fact that it is a *Home* Institution, using its earnings at home among its policy holders. This company is now doing a very large and rapidly increasing business all over the South.

I will be pleased to see my friends and show them the advantages the company offer for Life Insurance.

A Brilliant Record of Cures.

An American humorist tells us that it would have been money in his pocket if he had been born without a stomach, and then proceeds to figure up the cost of a chronic dyspepsia, to which he is a martyr, & which he says it is impossible to cure. On this point, "Josh Billings," (for he is the party referred to) is mistaken. Unless his stomach differs from all other dyspeptic stomachs. Hostetter's Bitters will cure him in less than three months. This it would be safe to guarantee under any penalty. There are a few, a very few, actual specifics for disease in existence, and Hostetter's Stomach Bitters may be set down as one of them. In cases of indigestion it never fails. Persons who had suffered many years almost every conceivable species of torture from this agonizing complaint, have been permanently cured with the Bitters in six weeks. Hundreds of such instances are on record, authenticated by the testimony of prominent men in every walk of life, eminent physicians among the number. But this celebrated vegetable preparation is something more than a stomachic and tonic. It is also an alterative of wonderful virtue. In liver complaint its effect is as direct and immediate as that of calomel or blue pill, and far more salutary; and in all diseased conditions of the bowels, notably in cases of constipation, its regulating properties are in the highest degree serviceable. The new settlements in the west and all low-lying tracts of country infested with miasmatic exhalations, so fruitful at this season, of the various types of intermittent fevers, should be always well stocked with this incomparable chologue, which will cure any case of fever and ague in a period varying from three days to three or four weeks, according to the violence of the complaint. Nervous disorders which are always aggravated by the adulterated liquors usually prescribed by physicians, are readily cured by a course of this admirable combination medicine, in which the properties of a stimulant, a tonic and alterative are happily blended.

BEE KEEPERS READ!

MITCHELL'S

BUCK EYE BEE HIVE.

The Best of the Age.

IT is so arranged that no Moth or Miller can enter the Hive without being caught, it having a patent moth trap which catches all that attempt to enter. The arrangement is complete—the frames are all moveable, the door opening full size in front, giving view of the entire colony at any time; and all that is necessary when you wish to make an artificial swarm is to draw out the frame in mass and place half of them in another hive. It is so spaced that the Bee does not build his comb on the side of the hive, but confines himself to the frames. With proper attention, and all things else favorable, from 200 to 400 pounds of honey can be taken from one hive in a season.

Reference is made to the following parties who are using them: W. B. Green, Carter Boozer, Mrs. E J. Tate, A. Weir, S P Snow, A Woods, Ed Woodward, wm. DeFreese, Minus woodruff, C B Sisson, Edmund Clay.

Samples can be seen at woodward's store.

A Lecture on the Nature, Treatment, and Radical Cure of Seminal Weakness, or Spermatorrhœa, induced by Self Abuse, Involuntary Emissions, Impotency, Nervous Debility, and Impediments to Marriage generally: Consumption, Epilepsy, and Fits; Mental and Physical Incapacity, &c.—By ROBERT J. CULVERWELL, M D., author of the "Green Book," &c.

The world-renowned author, in this admirable Lecture, clearly proves from his own experience that the awful consequences of Self-Abuse may be effectually removed without medicine, and without dangerous surgical operations, bougies, instruments, rings or cordials, pointing out a mode of cure at once certain and effectual, by which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

☞*This Lecture will prove a boon to thousands and thousands.*

WHO KILLED SAM RICE?

Who killed Sam Rice?
"I," said Jeremiah, *
"At the very first fire
I killed Sam Rice."

Who saw him die?
"I," said holy Paul. !
"So terrific was his fall
It made us (scalawags) all cry.

Who dug the grave?
Sam had dug his own hole,
Rooting dirt like a mole,
Till he made his own grave.

Who will preach his funeral?
"I," said Green Lewis,
"I'll tell what this stew is
About Sam and his funeral."

Who made his shroud?
"We," said the Federal Senate,
"We made it in a minute,—
The Civil Rights Bill is his shroud."

Who will be his mourners?
Not a mourner can be found
Anywhere above ground.
Let's hire a few mourners.

Who rung the knell?
The niggers, with a yell
That sent old Sam (politically) to hell
So, Sammy, fare you well.

* Jerry Harralson.

POETRY IN A POLICE COURT.

"Great spoons what are you a doing here?" exclaimed his honor, as Thomas Dougherty, a man of seventy-five, was handed out. His gray locks waved on the morning breeze, and his trembling legs could hardly sustain his body. "They say I was drunk," answered the old man mournfully. "Well, I don't care if you were," continued his honor. "A man of seventy-five has special rights and privileges which I for one shall respect. You can go, old man. Do you suppose that I'd send an old pioneer like you up there to tackle corn beef and mush? No sir. If you've got any home go there; if you haven't come up and stay all night with me. Send you up? Why, old man, some day this summer as you sit in your armchair on the shady porch your pipe will die out and fall from your aged hand. You will sleep. The sound of faint sweet music will reach your ear, and in your dream you will see the faces of wife, sons and daughters—those laid away years ago before the frosts of time whitened your hair. Some one will come to wake you. They will see your smile and wonder if the dreams of the old are thus blissful. They will touch you and start back. The old man will have gone to his rest. Go now, old man—may the world be kind to you."

WHAT WAS DONE BY CONGRESS.

Congress, during the session just closed, have accomplished very little. The salary bill was reluctantly repealed, so as to satisfy an exacting public sentiment. The great currency question is practically undisposed of, after seven months of debate and a weary struggle. There is no general amnesty bill, no reform of the tariff, nothing done to relieve Louisiana, no payment of the cotton tax and other just debts to Southerners, nothing done for the levees or water transportation, but to hold out a hope for the future; no reform of the civil service fraud, and no impeachment and removal of Durell and Busteed. The best work of Congress, besides its abolition of the District ring, Butler's Sanborn contracts and Conkling's mi ety rascality, lies in its omissions and failures to carry out some of the well organized plans to plunder the Treasury. The Carpenter bill to muzzle and harrass the press, the infamous election bill, all lie untouched in the House, after having passed the Senate. The most distinctive Republican measure finally passed is that to bedevil the the Mormons and fix up the courts in Utah; while the District investigation, the moiety and Sanborn investigations, have all been perfected by opposition pressure, in spite of the Administration.—Mobile Register.

NEW YORK, July 12.—The fire at the oil tanks at Weehawken, was extinguished at 7 o'clock yesterday morning. Two hundred men were immediately put to work laying tracks and building a temporary dock for shipment of oil. It is expected to be able to run trains to the dock by Wednesday. Estimated total loss a million dollars.

One of the Elect.

J. T. FOSTER, late of Choctaw, late of the Mobile Custom House, later still of Hale county, where he is squatting to be elected Probate Judge, is one of the great lights of the Radical Party in Alabama. He has a capacious officeholding stomach and is now one of the Board of Education of the State. In that capacity he attended a recent meeting of the Board of Regents, of the State university at Tuscaloosa. The Tuscaloosa *Blade* says he made out and swore to his account for mileage for 404 miles and received pay therefor. The *Blade* says:

The above is a true copy of the affidavit of that elegant scalawag member of the Board of Regents—Jno. T. Foster, of Hale Co., Ala. This painfully honest man, who is as true as *steel*, lives in Greensboro, Ala., and is a candidate for Probate Judge of poor Hale Co., and hopes to be elected by the negroes through the influence of thief Hatch, who is his bosom friend. Greensboro is just 41 miles from Tuscaloosa, or 82 miles, both ways; and this fellow Foster *came and went in a vehicle; showing that he took the shortest route.* Here we see he swears that Greensboro is 202 miles from Tuscaloosa, and received his pay accordingly. What an unblushing piece of knavery is this! He should have been paid just $12 80; instead of $60 60.

A BOOK FOR THE MILLION!

Marriage Guide. A private Counselor to the Married or those about to marry on the physiological mysteries and revelations of the sexual system, with the latest discoveries in producing and preventing offspring, how to preserve the complexion, &c.

This is an interesting work of two hundred and six pages, with numerous engravings, and contains valuable information for those who are married, or contemplate marriage. Still it is a book that ought to be kept under lock and key, and not laid carelessly about the house.

It contains the experience and advice of a physician whose reputation is world-wide, and should be in the private drawer of every male and female throughout the entire globe. It embraces everything on the subject of the generative system that is worth knowing, and much that is not published in any other work.

Dr. J. Walker's California Vinegar Bitters are a purely Vegetable preparation, made chiefly from the native herbs found on the lower ranges of the Sierra Nevada mountains of California, the medicinal properties of which are extracted therefrom without the use of Alcohol. The question is almost daily asked, "What is the cause of the unparalleled success of VINEGAR BITTERS?" Our answer is, that they remove the cause of disease, and the patient recovers his health. They are the great blood purifier and a life-giving principle, a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the remarkable qualities of VINEGAR BITTERS in healing the sick of every disease man is heir to. They are a gentle Purgative as well as a Tonic, relieving Congestion or Inflammation of the Liver and Visceral Organs, in Bilious Diseases

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.
