We are authorized to announce W. H. VINCENT as a candidate for County Commissioner.

We are authorized by the friends of W. C. SCARBROUGH to announce his name for Commissioner.

We are authorized to announce Thomas A. Best as a candidate for Commissioner of Calhoun County.

Some Tall Talk From an Independent Paper.

The Huntsville Advocate, formerly a Radical paper, but now the mouth-piece of the dissipated odds and ends of all parties in opposition to the Democratic party of Alabama, thus crowningly alludes to a call published in this paper for a State Conference (the Independents call their Conventions Conferences) to be held in Montgomery June 24. Britain is supposed to be in the secrets of his hot-pot party, and assures us we are to have an opposition State ticket and a defeat over the left. Read:

"These over-sanguine Bourbons who have expressed a belief that they will have a walk over in August for State offices—the wish being father to the thought—will do well to read the call for a State Conference published in this issue. As we have asserted time and again, the Independent, Greenback, and various parties of the State are determined to put out a State ticket, composed of unexceptionable men whose names will inspire confidence in the hearts of the masses from the Tennessee line to the Gulf, and they will so manfully work and elect it by an overwhelming majority at the polls in August."

We trust that those honest and well-meaning Democrats of Calhoun, who have suffered their prejudices against local conventions to lead them into an alliance with Independent candidates just because they are Independent candidates, will see the tendency of the movement before it works a disruption of their old party—the Democratic party—in the State and reverts the people of Alabama to that horrible position from which a Democratic Legislature, redeemed them in 1874. The Greenbackers of Montgomery county seeing the tendency of the movement, have withdrawn from it, and are now in full alignment with the Democratic party of that county; and the very issue of the Advocate from which we clip the above contains an article beseeching them to retract and return to the party of Destructionists. The leading Greenbackers of Calhoun will have nothing to do with such a movement we are assured. Will the Independent Democrats of Calhoun prove themselves less patriotic. We believe not. In the main we believe there to be patriotic men, sincerely desirous of their country's good, and who, when they see they are giving aid and encouragement to the enemies of the Democratic party by contributing to the success of Independent candidates either for the Legislature or State offices, will turn about and resume their relations to the party as our patriotic Greenback friends have done. There is no doubt but that the Radical party will give its support to the ticket hatched by this so-called Conference at Montgomery. Independent county tickets will be calculated upon to give it encouragement and aid. When the State ticket of this Conference appears, it will bear the names of all Independent ticket candidates, as the Radical State ticket has heretofore done. It will be a party-spirit concern; between the leaders of the various elements, and the rank and file will be kept in ignorance of it. It will not succeed, but may come so near as to give the State to Grant in November. Should it by any strange infatuation of the people succeed in August it will certainly give the State to Grant in November and result in a Legislature that will elect a United States Senator outside of the Democratic party next winter, as has already happened in Virginia. The loss of Alabama in November means Grant's election, and Grant's election means fireball to liberty and a loss of the ballot to us all—Independents, Democrats, colored men and what not. All great revolutions in Governments are wrought by insidious approaches. They begin in little. In this case it will be the unreasonable dissatisfaction of Democrats with Conventions that will work the evil in Alabama. It is utter folly to claim that we can fight this fight against the approach of Imperialism—the enslavement of the masses—without thorough organization. As well talk about fighting a war without companies, regiments, divisions, corps and armies. Organization is essential to success. The very party that contemplates the overthrow of the Democratic party in Alabama will organize for it by this very Conference spoken of above. That party will try to divide the Democratic party and disorganize it by fomenting dissatisfaction with Conventions of the Democratic party, and then uniting on a ticket secretly agreed upon. Which is the preferable mode for free men and patriots to adopt—the open day Convention system of the Democracy of the county, which challenges investigation at every step and invites opponents to point to an act of treachery or fraud, or the stealthy modes of the opposition which holds a Convention and calls it a Conference to deceive the unwary, and then makes secret alliance with the Radical party to effect its ends? If secret alliance is not made with the Radical party, why do the Radicals always support Independent candidates against nominees of the Democratic party? Don't they always do it? With the exception of some of the more intelligent colored men of the party who are beginning to see that they are not benefited, that they get no office by such alliance, they always do. We admit that the Independent candidates go following over the country that they are the very best Democrats made, that they are the sincere pure article, that they are the dyed-in-the-wool kind; but it always happens they turn up with the Radical party at their backs on election day. Why is this, if it is not understood among Radicals that their candidacy is benefiting the Radical party? That is what it really is, and that is what the honest, well-meaning Independent Democrats of this county will see it means before long. Four years ago an Independent candidate stood no show in Alabama. Two years ago one Congressional

District elected an Independent Democrat who voted with our party about as often as another. Now the boast is that the movement will overthrow the Democratic State ticket, and when that is done the mask will be thrown off and the people will see to what lengths they have been led by this strange prejudice against nominations—against party organization. Now we do not want to be understood as charging the masses of Independent voters with being Radicals. We have been charged with that in the past. It is not true. We have never believed them to be even in sympathy with the Radical party, but we believe they have been misled by Independent leaders who have had a thorough understanding with the leaders of the Radical party, and who, to gain a pitiful little office would to-day jeopardize the interests of the people in the most fearfully important election this country will ever witness—an election in which the very liberties of the people are involved—an election which means on the one hand an hereditary aristocracy with all the degradation to the masses that that implies, or an independent people, free prosperous and happy.

Organization means victory for the Democratic party in the State and Federal elections in this eventful year of 1880. Disorganization means sure defeat and utter ruin. Let patriotic Democrats determine to fight with the organized Democracy this year. In this course is safety. Any other course is fraught with peril to their highest and holiest interests.

Our Party Nominee.

In the absence of the editor, the local editor takes occasion to clip and reproduce the following kind mention of his candidacy from some of the papers of the State.

"The Huntsville Independent, edited by Mr. Coleman, who was in the Senate while Mr. Grant served in the House, says:

"L. W. Grant, a most excellent man, has been nominated by acclamation, for Senator for Calhoun and Cleburne."

The Talladega Mountain Home, edited by Mr. Ware, one of the ablest, as well as most independent Journalists of the State, says:

"L. W. Grant, editor of the Jacksonville Republican, has been nominated for State Senator from the Calhoun and Cleburne District. He is the man the Democracy in those counties should combine on and elect. He is a genuine Democrat, and always advocates questions of government on the side of the people."

The Jaynesville (Lowndes county) Examiner, edited by Col. Brewer, our present faithful Auditor of State, says:

"At the Senatorial convention in his District, May 22, Hon. L. W. Grant, of Jacksonville, Calhoun Co., received the nomination by acclamation. We hope he may be triumphantly elected, as he is a uniting and zealous friend of the 'Black Belt' when he was in the House in 1874-6, and he has fully informed as to the general affairs of the State."

A correspondent of the Montgomery Advertiser of the 30th of May, thus speaks of him:

"Editor Advertiser:—Thousands of people in Montgomery and adjacent counties will observe with delight that the Democrats of his District have nominated Hon. L. W. Grant for the State Senate. During the dark days when the Montgomery was represented in the Legislature, Mr. Grant, then a member of the House from Calhoun, made it his especial duty and pleasure to guard our interests and promote our welfare. Few well he did this duty, the legislation of the years 1874-75-76 most forcibly proclaim. His friends in Montgomery and other counties of the 'Black Belt' will ever hold him in grateful remembrance, and heartily applaud his promotion to the Senate."

The following from a (Spartan) correspondent of the Clarion further disputes the claim that has been set up by interested parties that Cleburne will cast a majority against him. Cleburne is safe for him by a large majority."

"Dear Clarion:—The news has just reached this part of Cleburne of the nomination by the convention of this District, the Hon. L. W. Grant for State Senator. The action of the convention, I am sure from what I now hear and have heard heretofore, will be ratified by the voters of this county on the first Monday in August next by a large majority. It is admitted that our nominee is 'capable, efficient and honest,' and his record as a member of the House in 1874-75 is a sufficient guarantee to us for his ability and willingness to labor for his constituents. We call upon the voters of this District to examine the journals of 1874-75 of the House, and see his record—see the work that he did. That will prove that he was a faithful and diligent worker, and he worked in the right direction. Let us examine our condition at the convening of the Legislature in 1874—the great debt that the Legislature over our State—the value of our State—the standing of our credit at home and abroad and compare with our debt, honor and credit at present, examining our statute laws at the same time. See the fraud and speculation open upon our Treasury. Examine the expense of annually administering our State Government. See the number of officers and their salaries and fees at that time and compare with the present. Every candidate voter is bound to admit the great change for our good. Then ask what brought about this change? Every thinking man is bound to admit that these great and good changes were set on foot and the good work began by the Legislature of 1874. Was not L. W. Grant a member from Calhoun? All admit the fact. Did he not do his whole duty in this work? He did not vote right, was he not his influence used in that direction did he not take an active part in all the work? Examine his official record, it will answer all in the affirmative. Was not important bills and measures from other counties, whose representatives opposed this work of retrenchment and reform, committed to his care and management by the people of those sections? Why did they select Grant as the man to push these measures through for them? Because they saw he was capable, efficient and honest, and had the good of the whole country at heart. Then why not commit the same trusts to him again? We are confident that every man

him. He is not the man that will stoop to class legislation or to the interest of corporations or private individuals, but is a truly representative man. Look back at his past public life. Has he not spent his entire life in the defense of the principles that are dear to us all, has he not proclaimed weekly through his journal the doctrine of retrenchment and reform. Where has he failed to attack error or expose fraud, or to vindicate the truth of the rights of the people? When has his voice been heard weakly in the interests of the people? Why has he failed to be at his post? Is not such a man worthy the support of every voter and lover of liberty in this District? A man that is always at his post, able and willing to defend the cause of truth and justice, and vindicate the rights of the people is the man we want, and L. W. Grant fills the bill. Ortho.

A RETARD.

We have elsewhere commented at length upon an article from the Huntsville Advocate, the Independent organ of the State. Below we give an article making an assault upon the convention system and the Democratic party. It is observable that this type of journal always has a profound sympathy (so called) for the 'down-trodden sons of toil' and equally as profound hatred for the Democratic party; and never a word of abuse for the Radical party. It is also observable that while Independent candidates, to quell the people sometimes profess great devotion to the Democratic party, they never abuse the Radicals. But it also sometimes happens that an Independent paper, in commenting on the acts of a Democratic Legislature gives Independent candidates a terrible rap over the knuckles and predicts that the people will never again trust him 'no matter in what guise he appear.' This must be the case when a member of the last Legislature, that the Advocate so terribly abuses, turns up as an Independent candidate. Things will get mixed this way some times. It is funny. Read:

"From all sections of the State comes the most encouraging news for the down-trodden sons of toil. The Independent Greenback movement has taken deep root in Alabama, and every sign portends a glorious and overwhelming victory in August next. The days of machine politics are numbered. The King Caucus is already declared to be a thing of the past. The Ringing Union for State or county office invites defeat. The crack of the party whip is no longer regarded by the masses. The voters of Alabama have been their dearest rights trampled under foot by the so-called Democratic party. Their taxes have been increased instead of being reduced. The purity of the ballot has been destroyed. By Democratic legislation a free and fair and honest election has been made almost impossible. The wholesome and wise election laws of our State, which were already declared to be a thing of the past, and have protected her sons for more than a century, during which time election frauds were almost wholly unknown, have been destroyed in the name of Democracy, and the most corrupt and gigantic election swindling machine erected in this place, and the people are called on in the name of Democracy! We defy the rosy promises of the leaders of the false Democracy of the State to point to a single act of a general nature passed by them at the last session of the Legislature that is not in the interest of capital against labor—that does not betray an anti-Democratic, anti-Republican spirit. Indeed the facts are so fully admitted, and the indignation of an outraged people so aroused, that some of the oldest and most reliable Democratic public journals of the State are calling upon their figure-headed Governor to repeal the legislation for their repeal. But the people have no faith in the Legislature that placed upon our statute books such iniquitous laws. They know that the Legislature that has betrayed their rights and insulted their intelligence and manhood are never to be trusted again, no matter in what guise they appear, no matter if they wear the livery of Democracy. The livery of heaven was stolen in which to serve the devil. We say to these would-be dictators to the true Democracy, 'vive, vive, telephasia!'"

COTTON PLANTERS.

The undersigned has on hand a large lot of the celebrated Jeter Cotton planter and Mangle distributors, and is now ready to supply orders. Price, \$5.

CHAS. MARTIN.

A CARD. About three years ago we were requested by some of our employees to purchase sewing machines for them. After a careful examination of all the leading machines we were convinced that the "White" was the best sewing machine manufactured, and we bought six. These machines proved a demand for more and we made special effort on our part; the demand has grown so that we are now selling

100 Machines a year and our sales are continually increasing. This is the best evidence of the superior merits of the "White."

WOODSTOCK IRON COMPANY, Anniston, Ala.

UNPARALLELED SUCCESS OF THE White Sewing Machine

IN THE THIRD YEAR OF ITS EXISTENCE, ITS SALES AMOUNT TO 54,853 Machines. NO OTHER MACHINE EVER HAD SUCH A RECORD OF POPULARITY.

It is the Lightest-Running, Best Sewing Machine IN THE WORLD.

PRICES, 35 TO 40 DOLLARS. For Sale by WOODSTOCK IRON CO., Anniston, Ala.

Cathoun College, MALE AND FEMALE, JACKSONVILLE, ALA.

THE STATE OF ALABAMA, CALHOUN COUNTY. Probate Court for Calhoun County. Letters of administration upon the estate of W. W. Woodall deceased having been granted to the undersigned on the 31st day of Nov. 1879, by the Hon

PAGE(S) MISSING

ANNOUNCEMENTS

FOR STATE SENATE. We are authorized to announce JAMES SHELDON as a candidate for State Senator for the 7th Senatorial District, composed of the counties of Calhoun and Cleburne.

FOR JUSTICE OF THE PEACE.

I announce myself as a candidate for the honorable office of Justice of the Peace of beat 3. If elected, which I have no doubt of, I will discharge my duty to the best of my knowledge. GUSS HARLOW.

about one and a quarter miles west of the Sulphur Springs, and the proposition is that we meet at the Grave Yard Saturday morning, July 3rd, that we take our families and some dinner, do the work that we have talked of doing, cleaning up the ground and righting the graves, then go down to Mrs. McCain's spring for refreshment, about half of quarter, and that all the good Democratic candidates meet us there, and partake of the hospitalities of the good people of this community, and that the candidates for representatives make speeches. We would not have time to hear speeches from all the candidates for the offices of the county, hence we desire that the speeches be confined to the candidacy for representative, but all are invited to come and electioneer with us as much as they please.

JOHN RAMAGNANO, DEALER IN

PURE LAKE ICE. Lemons, Mineral Waters, Soda Water and other light Summer drinks for sale. At the Bar can be found all the cooling and refreshing drinks that can tempt the palate of the epicure.

USE NO OTHER.

AGRICULTURE.

VALUE OF WHEY.—As the time approaches for starting cheese factories, the disposition of whey will soon receive attention.

DOMESTIC.

DELICIOUS SANDWICHES.—Hard boil three thoroughly fresh eggs, and let them cool. Take six anchovies, wash them, wipe them in a cloth, cut off the heads and fins, and scrape away the skins.

To Travelers by Sea and Land.

The effect of change of air and of travel is to produce Constipation, which is followed by Headache, Piles, and a general disarrangement of the system.

Father is Getting Well.

My daughters say: "How much better father is since he used Hop Bitters." He is getting well after his long suffering from a disease declared incurable.

KIDNEY-WORT. PERMANENTLY CURES KIDNEY DISEASES, LIVER COMPLAINTS, Constipation and Piles.

NEW MUSIC BOOKS. TEMPERANCE LIGHT. A New Temperance Song Book of low price, but the very best quality.

HEALTH IS WEALTH. Health of Body is Wealth of Mind. Radway's Sarsaparilla.

Now that both butter and cheese are made from the same milk, it is not surprising that but little value remains when these are removed.

If marble is smoked or soiled, either by bituminous coal or too free use of kerosene, Spanish whiting with a piece of washing soda, rubbed together, and wet with only enough water to moisten and make it into a paste, will remove the grease and smoke.

"Boy," said a gentleman to the hostler of a hotel, on alighting from his phaeton "Excuse me, but I am suffering from the vehicle, stabilize him, donate him an adequate supply of nutritious aliment, and when the aurora of morning shall again illumine the oriental horizon I will award thee a pecuniary compensation for thine admirable hospitality."

JOHN says: "Give an oyster locomotion to the five senses, and he might be the rhinoceros of the sea." He might be; but we hope no generous person will give him those things.

SETTING MILK.—It seems now to be admitted by all scientists in dairy management that the sooner we can cool the milk the quicker will the process of creaming commence, and by keeping it at a low temperature the more perfect will be the result.

Oil marks on wall paper, or the marks where inconsiderate people rest their heads, are a sore grief to good housekeepers, but they can be removed without much trouble.

A LECTURER on optics, in explaining the mechanism of the organ of vision, remarked: "Let any man gaze closely into his wife's eye, and he will see himself so exceedingly small that—"

A Valuable Gift Free. A book on the Liver, its diseases and their treatment sent free. Including treatises upon Liver Complaints, Torpid Liver, Jaundice, Biliousness, Headache, Constipation, etc.

DRY COWS.—It is a common practice among some farmers to give their cows, when dry, but scanty living. Among a few, the milk is dried up, and they are considered good enough for her.

WHEN spotted has been wet and become spotted, hold the wrong side over steam, and while damp draw the wrong side quickly over warm iron.

It doesn't do a bit of good to take a twelve-mile promenade in a fourteen foot room with the baby, and sing or declaim: "Hootchie, pootchie, pudden and pie." Use Dr. Bull's Baby Syrup and be done with it.

Mr. H. R. SPRINGS—Dear Sir: I have recommended your medicine to a great many of my special notice in which three bottles completely cured a chronic case of Rheumatism.

INSURING YOUNG TREES.—We have not the least doubt that allowing trees to grow heavily when young is injurious, both to the tree and its future bearing.

SOUP apple sauce is greatly improved by the addition of a tablespoonful of butter to a quart of sauce, and, moreover, there is much less sugar needed.

THE wise mother avoideth teaching her daughter how to cook, and when that daughter gets married the visits of the mother-in-law are always welcome.

Mr. H. R. SPRINGS—Dear Sir: I have recommended your medicine to a great many of my special notice in which three bottles completely cured a chronic case of Rheumatism.

THE first crop of peas—Extra Early—should be sown as soon as the ground is fit, and followed by others according to their period of producing.

FOR sleeplessness a high London authority recommends, instead of stimulants, a breakfast cup of hot beef tea, made from half a teaspoonful of Liebig's extract. It always brain excitement.

AN exchange casually remarks, "Better late than hardly ever."

Mr. H. R. SPRINGS—Dear Sir: I have recommended your medicine to a great many of my special notice in which three bottles completely cured a chronic case of Rheumatism.

A Word to Tourists. You cannot have a better companion on your journey than Hostetter's Stomach Bitters. First prize medicinal agent will enable you to drink breakfast water without running the risk of disordered stomach and bowels.

MEAT and poultry will lose their flavor and firmness if left in the water after they are done; as will also fish, which will break to pieces.

AN exchange casually remarks, "Better late than hardly ever."

Mr. H. R. SPRINGS—Dear Sir: I have recommended your medicine to a great many of my special notice in which three bottles completely cured a chronic case of Rheumatism.

Democratic State Ticket.

For Chief Justice Supreme Court, ROBERT C. BRICKELL.

For Associate Justices, AMOS R. MANNING, GEORGE W. STONE.

For Governor, RUFUS W. COBB.

For Secretary of State, WILLIAM W. SCHEWES.

For Attorney General, HENRY C. TOMPKINS.

For Treasurer, ISAAC H. VINCENT.

For Auditor, JESSE M. CARMICHAEL.

For Superintendent of Education, HENRY C. ARMSTRONG.

For Chancellor Exchequer Division, NEIL S. GRAHAM.

For Judge 12th Judicial Circuit, LEROY F. FOX.

For State Senate Seat in District, L. W. GRANT.

An Artful Dodge.

Week before last we took occasion to give our opinion of the election law as it stands today, and charged that the Independent candidate for the Senate in this District, voted for two of the amendments that had wrought the changes complained of. In other words, that he had voted for the law fixing the size of the ticket, and prohibiting all marks, figures, ruling, etc., on the ballot. In connection with the charge, we offered him the use of our columns for ten days, if he would not misrepresent him to prove us a falsifier of the record before the whole county. Instead of availing himself of our offer, he prefers to slip and slide about through the county with the Journal in his saddle-bags, and by showing only half the record, prove that we have misrepresented him. Does any man in the county suppose that we would have been such a fool as to have charged on him a thing he had never done, and then have offered him the use of our columns to prove us a falsifier? Not much. If he had not voted for this ticket law as it stands today, we should never have charged it. The House Journal of 1878-9 shows that the bill to amend section 274 of the Code (which is the ticket law) was read first December 9th, 1878. December 10th it was read a second time and referred to the Committee on Privileges and Elections. January 27th, 1879, it was read a third time and passed by a vote of 57 yeas and 40 nays. It was then sent to the Senate and on the 11th day of February it was voted for, and next day it was signed by the Governor and became a law. Anybody can take the Journal and see the two votes on House bill 423. The first vote in which he voted against it can be found on page 442. On page 697 he can be found voting for it, as it stands today. In other words, he changes his mind. He first voted against it, but at the end he voted for it. We do know what it was amended by the Senate, and passed, for it is recorded in the Acts. He voted for the law as it stands in the Acts today—the unrepublished law—the law to steal power from the many and give it to the few—the law hateful to a free people, which they have on them to-day. He voted for that law on its final passage, and he cannot escape the responsibility. He may slip and slide about as much as he pleases, and, by showing only half the record, attempt to deceive honest men and make them believe we have lied on him, but he will have to face the music. He voted for the ticket law as it stands on the books to-day. We have charged him with this. But he will not do it. He prefers to slip and slide around and "log" men, and, by showing them the half part of the record, try to throw us in a false attitude. Since the publication of the charge that he voted for the ticket law he has met us several times face to face, and we have talked with him, but he has never yet said a word to us about it. Behind our backs he blows and vamps, and intimates that we have lied on him. We make our charges boldly and above board, and offer him the use of our columns to refute them. He prefers to slip and slide and dodge about in the bushes and byways and give us public charge private denial, and hold himself up as an injured man, when no one is near to answer him. If this sort of thing suits the brave, generous, outspoken, independent people of Calhoun, we are mistaken in them. There is a nice leader of a party! Here is a bold leader, who when charged with voting for a measure dodges the investigation to make defense through the same channel as the charge has been made, but slips and slides around and privately denies. A pretty leader! A bold leader indeed! A leader well calculated to inspire his followers!

No, the truth is he knows he voted for it, and he knows that if he should get into the paper where he could be answered, he would be convicted of no voting before the county at large. This is the reason he slips and slides about and tries to prove an honest man a falsifier behind his back, by showing only half the record. He did vote for the ticket law as it stands in the Acts, and if any gentleman wants to put up one hundred dollars that he did not, we have a friend who will accommodate him. There can be no slipping and sliding around his proposition. He did not vote for it, and if he has a hundred dollars, he will still believe he did not, here is a chance for them to make one hundred dollars pretty easy.

The ballot is the most sacred possession of a free people. The legislator who tampers with the right of the people to its free exercise, or who by his vote paves the way by which they may be defrauded of this right, is unworthy of trust. If the people reelect him by a second election, they virtually say, "we little esteem our right of ballot. God knows we have little left us in this country but the right of suffrage. The man who, through ignorance or design, renders this valueless to us, is the worst enemy to popular liberty that can be imagined."

The Democratic State Executive Committee, in meeting assembled have decided that no one who is elected to office as an independent candidate over the regular nominee of the party, ought to be admitted into the party caucus in the next Legislature. The Committee might have been positive and said no Independent would be admitted. The party never has admitted to party caucuses men who have defeated regular nominees. As the election of two U. S. Senators and twelve Solicitors will be virtually determined in caucus, it becomes Democrats of this Senatorial District to look to the fact that, in event of the success of the Independent candidate, the District will be practically disfranchised. The Democracy of this District would like to have a hand in the selection of these important officers, both State and Federal, but it will not have if the Independent candidate is elected. He will be ruled out of the Democratic camp. He can only vote in open house after the water has been virtually settled and then also can vote the radicals and the big ends of all parties. Would the District like to take a real hand in the selection of two U. S. Senators? Then must the nominee of the Democratic party be elected. No other sort get into the Democratic Senatorial Caucus where legislative action is forecast and predetermined. Should the Independent be elected he will have to stand around in the cool on the outside, sucking his thumbs, while the great Democratic party take council. He will not even be permitted to know the purposes of his party, unless some Democrats in good standing should loan him the secrets of the caucus to him. He will not—but what! what's the use of talking about a thing that won't happen. The Independent candidate will not be elected, and the voice of the District will be heard in the councils of the party.

APPOINTMENTS FOR SPEAKING. The candidates for State Senate and House of Representatives will meet the people at the following times and places for the purpose of presenting their claims and discussing the issues of the day. The people are respectfully invited to turn out and give them a hearing. The ladies are invited to attend.

DIED. IN THIS COUNTY ON THE 17th JUNE 1880, AT THE RESIDENCE OF SAM'L McQUEEN ESQ., STRIP McQUEEN, AGED 2 YEARS.

No strychnine, glass, or poisons give Cut short this precious life. Nor perished he by blood or fire. Nor yet in cannie strife. More dreadful fate, did him await, Than those I've named by rote; He barked at every candidate, In quest of friendly vote.

This constant barking made his throat So raw his frame so thin, He had to gather up his cheeks And swiftly pass them in. Trips hair it was a little brown, He shed it every spring, The children rubbed his hide with Cobbs And other pleasing things. Trips' master was a Partner And though Trip could read Do learned to 'Clark' right lively And suck well at his teat.

These lines memorial are writ By neither Boss or Jones, But by John's son the writer His authorship he owns. It is a Goodlett all agree. It warns both large and small, To get a Smith to hand their dogs' With collar chain and ball. And keep them hid back in the yard Obscure from candidates Or some ambitious village bard Will pen, in rhyme, their fates. LEMORGE. English, of Louisiana, was nominated by the Cincinnati convention for Vice President.

We are glad to note the fact that the President has appointed Gen. Barke, of this place, collector of the port of Mobile. The Register has the following complimentary notice of him. Gen. Barke is a conservative Republican and much esteemed by men of all parties about Jacksonville. Collector of Customs at Mobile.

Colonel Robert T. Smith, who has been Collector of this port during the administration of Mr. Dings and who has conducted his office with such satisfaction to our people, having resigned, the President has appointed as his successor General J. W. Burke. General Burke has been Register in Chancery for this District since the war, and has made friends among all classes and parties by his urbanity and intelligent conduct of his office. Gen. Burke was in the Federal army, and made Alabama his home in 1835. He is largely interested in the Tecumseh iron works on the line of the Selma, Rome, and Dalton Railroad, making his residence at Jacksonville. He is one of the most conservative of his party, and is a gentleman of enlarged views and great public spirit. We are sure that his intercourse with our commercial men will be pleasant, and that his residence in Mobile will ensure to the advantage of this city.

From the Mobile Register. HON. L. W. GRANT. We hope the good opinion of the Talladega Senatorial District will stand by the nomination of Mr. Grant for the State Senate, and not permit an Independent to break to pieces the party which has saved the finances of the State and restored peace, order and prosperity to the farming and commercial interests. The Register heartily unites with the Selma Times in the following compliments to Mr. Grant.

(The Register here quotes from the Times an article we have heretofore published.—Ed. Rep.)

Notice No. 357. U. S. LAND OFFICE AT MONTGOMERY, ALA.

July 25, 1880. Notice is hereby given that the following named settler has filed notice of his intention to make final proof of his claim, and secure final entry thereon, on Wednesday, August 4, 1880, before the clerk of the circuit court of Calhoun county at the county seat, viz: Elizabeth J. Yoe, widow of John Yoe, deceased, Homestead entry No. 5548 for the S. E. 1/4 of S. W. 1/4 of Section 26, T. 16, S. 16, Range 7, East, and names the following as his witnesses to prove settlement and cultivation of the above described land, viz: Lucia B. Miskelly, George F. Mattison, Joshua D. Brewer, Sr., and John McPherson, all of Oxford, Ala. PELHAM J. ANDERSON, Register.

STATE OF ALABAMA, Calhoun County. Probate Court for said county. Special Term.

May 24th, 1880. This day came J. P. Alsop, Guo Liu of B. T. Pitts, a minor, and filed his account and vouchers for 20 annual settlement of his said Guardianship. It is ordered that the 10th day of July 1880 be appointed a day on which to make such settlement, at which time all persons interested can appear and contest the said settlement, if they think proper. L. W. CANNON, Judge of Probate.

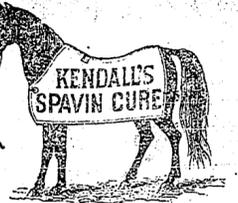

FOUND.

A Remedy That is Sure and Effective for all diseases of the Blood and Skin. Scrofula, Cancer in its worst form, Itch, Swelling, Catarrh, Cancer of the mouth and throat, no matter how long standing, we guarantee a cure if our remedies are used according to directions.

Smith's Scrofula Syrup and STAR CURINE.

With these two medicines combined we have cured hundreds of cases of the different diseases mentioned above. SMITH'S SCROFULA SYRUP is an internal remedy, one of the best purifiers known to the American people. Star Curine is an external remedy, by applying it on the outside and taking Smith's Scrofula Syrup, your case will be easy to cure. If you will call on or address us we will take pleasure in showing you hundreds of certificates from parties living in this State that you are all acquainted with; that have been cured sound and well by using Star Curine and Smith's Scrofula Syrup. If you are afflicted with any of the above mentioned diseases, do not think your case will be cured without treatment; do not delay; the sooner you get to using our remedies, the sooner you will be restored to health and happiness.

Call on Daniel & Marsh at once, before it is too late, and get a bottle of Smith's Scrofula Syrup and Star Curine. Read the following certificates. Messrs. Daniel & Marsh, 13, Kimball House, Atlanta: Gentlemen—This is to certify that we have tried Smith's Scrofula Syrup in several cases of Cancer, Sore legs, etc., and we cheerfully recommend it to the public as the best, safest, and most reliable blood purifier that can be used for all the diseases for which it is recommended. Respectfully, R. HARTMAN & CO. For sale by Johnson & Caldwell, Chuloffence, Hoke & Dunbar, Arborescent, Barker & Tolison, J. B. McGinnis, W. A. Wood, Daviessville, J. B. McGinnis, Wholesale agent of Oxford, Raleigh Jenkins, De Amanville, Oaktown, and agents at all places.

KENDALL'S SPAVIN CURE.

The most successful remedy ever discovered, as it is certain in its effects, and does not blister. Read proof below. From Rev. P. N. GRANGER, Presiding Elder of the St. Albans District. St. Albans, Vt., Jan. 20, 1880. Dr. J. Kendall & Co., Gents: In reply to your letter, I will say that my experience with 'Kendall's Spavin Cure' has been very satisfactory indeed. Three or four years ago, I procured a bottle of your agent, and with it cured a horse of lameness caused by a spavin. Last season my horse became very lame, and I turned him out for a few weeks, when he became better, but when I put him on the road he grew worse, when I discovered that the spavin was forming. I procured a bottle of 'Kendall's Spavin Cure,' and with less than a bottle cured him so that he is not lame, neither can the bunch be found.

Respectfully yours, CHAS. E. PARKER. Perseverance Will Tell. Stoughton, Mass., March 16th, 1880. B. J. KENDALL & Co., GENTS:—In justice to you and myself, I think that I ought to let you know that I have removed two bone spavins with 'Kendall's Spavin cure,' one very large one. I don't know how long the spavin had been there. I have owned the horse eight months. It took me four months to take the large one off, and two for the small one. I have used ten bottles. The horse is entirely well, not at all stiff, and no bunch to be seen or felt. This is a wonderful medicine. It is a new thing here, but if it does for all what it has done for me, its sale will be very great. Respectfully yours, CHAS. E. PARKER.

Kendall's Spavin Cure.

Kelleys Island Erie co. O. Mch. 28 1880. DR. B. J. KENDALL & Co., GENTS:—I have used your 'Kendall's Spavin Cure' on a bone spavin, and am pleased to report that it has taken the enlargement completely off. It took only one bottle to perform the cure. I am confident it is properly used, it will do all you claim for it. Yours truly, C. M. LINCOLN.

STATEMENT MADE UNDER OATH.

To Whom It May Concern:—In the year 1875, I treated with Kendall's Spavin cure, a bone spavin of several months' growth, nearly half as large as a hen's egg, and completely stopped the lameness and removed the enlargement. I have owned the horse ever since very hard, and he never has been lame, nor could I ever see any difference in the size of the hock joints since I treated him with Kendall's spavin cure. R. A. GAINS, Enosburg Falls Vt. Feb. 25th, 1879. I Sworn and subscribed to before me this 25th day of Feb. A. D. 1879. JNO. G. JERNE, Justice of the Peace.

KENDALL'S SPAVIN CURE.

On Human Flesh. PATENT'S MILLS, WASHINGTON CO. N. Y. Feb. 21, 1878. B. J. KENDALL, M. D. Dear Sir:—The particular cure on which I use your Spavin Cure was a malignant cancer spavin of sixteen months' standing. I had tried many things, but in vain. Your Spavin cure put the foot to the ground again, and for the first time since hurt, in a natural position. For a family liniment it exceeds anything we ever used. Yours truly, REV. M. P. BELL, Pastor M. E. Church, Putnam's Mills.

Kendall's Spavin Cure is sure in its effects, mild in its action as it does not blister, yet it is penetrating and powerful to reach every deep seated pain or to remove any bony growth or other enlargement such as spavins, splints, curbs, entozoa, sprains, swellings, any lameness and all enlargements of the joints or limbs, or rheumatism in man and for any purpose for which a liniment is used for man or beast. It is now known to be the best liniment for man ever used, acting mild, and yet certain in its effects. Send address for Illustrated Circular which we think gives positive proof of its virtues. No remedy has ever met with such unqualified success as our knowledge, for best as well as man. For \$5, \$1 per bottle or six bottles for \$5. All druggists have it or can get it for you, or it will be sent to any address on receipt of price of one dollar. DR. B. J. KENDALL & CO., Enosburg Falls, Vermont. Hunt, Rankin & Lauer, Atlanta, Ga. Berry Duval & Co., Nashville, Tenn. Agents.

June 12, 1880. JOK. A. WALKER, W. W. WOODWARD, Walden & Woodward, ATTORNEYS AT LAW, Jacksonville, Ala.

Will practice in all the courts of the Circuit, and the Supreme court of the State. Prompt attention given to the collection of claims.

PIANOS & ORGANS FROM FACTORY TO PURCHASER. EVERY MAN HIS OWN AGENT.

Landon & Harlan's Grand Introduction into Sale continued until Nov. 1, 1880. Only sale of 6,000 superior instruments at factory rates for introduction and advertisement. No commission. ANNOUNCEMENTS.

FOR STATE SENATE. We are authorized to announce James S. ... FOR REPRESENTATIVE. We are authorized to announce ... FOR PROBATE JUDGE. We are authorized to announce ... FOR SHERIFF. We are authorized to announce ... FOR TAX COLLECTOR. We are authorized to announce ... FOR TAX ASSESSOR. We are authorized to announce ... FOR CIRCUIT CLERK. We are authorized to announce ... FOR COMMISSIONER. We are authorized to announce ... FOR JAILER. We are authorized to announce ... FOR CORONER. We are authorized to announce ...

FOR JUSTICE OF THE PEACE.

I announce myself as a candidate for the office of Justice of the Peace of the 8th Precinct, which I have no doubt, I will discharge to the best of my knowledge. GUS H. HARLOW. Babies' pictures by lightning process. Will leave the 3rd July. The campaign opened at Davis town yesterday, Friday. Miss Minnie Rogers, one of Dalton's fairest daughters, is visiting friends in town. Have your old pictures copied and enlarged at home. If you are troubled with rheumatism use Kendall's Spavin Cure. See Adv't. Miss Minnie Bellamy formerly of our town, but now of Atlanta, is on a visit at Maj. R. van's. Try Kendall's Spavin Cure, a sure remedy for Spavins, Curbs, Ringbones, or any enlargement of the joint. See Adv't. On the fifteenth of this month Mr. Robt Huggins, one of the best farmers in the county, sent a cotton bloom to town. The negro reported dead in last paper, as shot by another negro, is not dead. He still lives, and there is faint hope of his recovery. Will men in their blind zeal against conventions, vote for men they know are unfit for office? We believe not. They have too much patriotism at this crisis. Mr. Z. L. Wakefield has laid on our table a stalk of cotton which 48 squares, 3 blooms and one boll on it. Mr. W., though young, is a model farmer. For fine re-touch photographs go to H. Lawrence & Co. With the adjournment of Congress, our faithful Representative, Gen. Forney, returned home, but he almost immediately started for Cincinnati to attend the National convention. He is a member of the National Executive Committee. ELECTION TICKETS. We will print election tickets of the legally prescribed size for three dollars per thousand. As we may have to send the job to another office and guarantee payment, we shall require all candidates to send in the money with their orders. Now is your chance! Babies' pictures by lightning process. We are sorry that absence in Cleburne prevented our attendance at the closing exercises of Oxford College. We received invitations both from the Principal and the literary societies. The exercises reflected the highest credit on the management of the college. Mr. J. W. Bradley has laid on our table this week a quantity of red June apples from his orchard, as well as a specimen lot of the Shockly apple, pulled last fall, and which has kept until the red June came in this year. There is no doubt but that the Shockly apple is the best keeping apple for this latitude. Mr. Bradley has them in his nursery, as well as other choice varieties of apples, and other fruits, and his prices are far below those of foreign nurseries. Encourage home enterprise and buy from Mr. Bradley, when he can fill your bill in the fruit line. DISTINGUISHED SPEAKERS. Gen. Morgan, U. S. Senator, and Jesse M. Carmichael, Democratic nominee for State Auditor, will speak at White Plains in this county, Thursday, July 15th, and at Peed's Hill Saturday, July 17th. These appointments will follow immediately on the close of the canvass in this county. The people generally will be at leisure and we trust they may have mammoth crowds. We would suggest to the good people of the respective neighborhoods where they are to speak to get up basket dinners for the occasion. It is more than probable that other distinguished speakers will follow these by direction of the State Executive Committee. The second Annual convention of the Sabbath Schools of Calhoun county will be held at the Presbyterian church in the town of Oxford, Ala., on the 2nd Sunday in July. The welcome address will be delivered by James Gunnels of Oxford, and the response in behalf of the Sabbath Schools by S. N. Milliken of White Plains. There will be three sessions—

JOHN RAMAGNANO, DEALER IN FINE WINES, LIQUORS, CIGARS &c.

JACKSONVILLE, ALA. Desires to notify his friends that he has superior Summer attractions at his ELEGANT CITY BAR. His wines are bought direct from manufacturers and are pure. His wines are fine, embracing all brands, inclusive of wines for sacramental purposes. He keeps a Rare Imported French Brandy; guaranteed pure for medicinal purposes. PURE LAKE ICE. Lettices, Mineral Waters, Soda Water and other light Summer drinks for sale. At the Bar can be found all the cooling and refreshing drinks that can tempt the palate of the epicure. A cool and well ventilated BILLIARD ROOM attached, with an elegant Table and comfortable accommodations. Best of order preserved. J. M. RAMAGNANO. My 29-4th. FAMILY FAVORITE! THE IMPROVED WHEEL Sewing Machine. LOOK STITCH! VERY LIGHT RUNNING. VERY LATEST IMPROVEMENTS. We fill with this excellent Machine 6 different sized Reamers, 1 Quilter, 1 Corder, 1 Gatherer, 1 Picker, 1 Ruffler, making 11 attachments, or more than are given with any other machine. PRICE ONLY \$20. Call and examine the machine at KOWAN, DEAN & CO., Jacksonville, Ala. Sep 13-2m. Undertakers Notice. Mr. J. H. Crawford having removed from Jacksonville, the undersigned, at his request, will in the future keep on hand Coffins, Metallic cases and burial Caskets, and will assist on burial occasions as Mr. Crawford did while in the undertaking business here. L. A. WEAVER. Jan 4-3m. CHILDREN'S SCHOOL. FEMALE ACADEMY BUILDING. Mrs. Ida Woodard will open at the Female Academy, Monday, January 12th her school for children, and will continue the session five months. Terms.—Spelling Reading and Mental Arithmetic, \$1.00 per month. Higher classes, \$1.50 per month, payable at the end of each month. J. W. HUGHES WITH The Atlanta Cash Clothing Store, 41, Whitehall St., Atlanta, Ga. BRANCH, HOUSE OF— Wm. C. Browning & Co., New York. Invite his friends to call on him when in the city. Orders solicited, and promptly attended to. Sight Restored! The undersigned having had remarkable success in treating numerous cases of eyes, cataract, dimness of sight, and persons suffering from any infirmity of the eyes, impaired vision, etc., desires to make known to the public how such sufferers may avail themselves of his wonderful remedies. The following certificates—obtained without solicitation—speak for themselves. Persons desiring treatment can be visited by me if preferred. A. J. KERR, White Plains, Ala. DAVISVILLE, ALA., Dec. 16th, 1879. This is to certify that Dr. A. J. Kerr has been treating my eyes for one, and they are much better—think they will get entirely well. Cheerfully recommend his treatment to the public. J. F. DAVIS. This is to certify that Lucinda McDowell's eye became affected by loss of sight four or five years ago, and remained so till three or four weeks since, when she went under the treatment of Mr. A. J. Kerr, and in six or eight days afterward she could see with that eye as well as ever. WASHINGTON WILLIAMS. I certify that this is a true statement with regard to my daughter. J. W. McDOWELL. Dec. 26th, 1877. STATE OF ALABAMA, FLOWERS COUNTY, Feb. 7th, 1879. TO ALL WHOM IT MAY CONCERN: This is to certify that my grand-daughter, Nancy Griffith, was afflicted with her eyes for three years, to such an extent that she could hardly see to go about. Six months ago Mr. A. J. Kerr came and took her under treatment, and to our astonishment she could soon see to thread the finest needle or do any kind of fine sewing. I hereby recommend Mr. Kerr's medicine to any person similarly afflicted. Given under my hand and date as mentioned. W. N. CHANDLER. JAMES HUTCHINSON, Barber & Hair-dresser, Room on Office Row, recently occupied by Dick Walker. If you desire to have a pleasant and clean shave, or have your hair trimmed in neat and fashionable style, give him a call. Jacksonville, Bpl. 29, 1873.

ED. G. CALDWELL, (At the old Forney Corner.) Has on hand the best brands of Chew ing and Smoking TOBACCOES, including the popular Swanson's Pride and the celebrated Durham Smoking Tobacco. He has the largest stock of G. G. S in Town. Among his brands you will find the Solace, Burgundy, Royal, Standard and the favorite Bird Wave. Packages. 20 Balls to Pound, 2 lb. Paper Boxes Packed in Cases of 20, 30, 50, 100 or 500 Pounds each. Uniform Price. Invariable Discounts. Sold by all Jobbers. ASK FOR "EAGLE & PHENIX." USE NO OTHER

Commercial Fertilizers.

To apply or not to apply commercial fertilizers is one of the important questions of the day among farmers of our older States who appreciate the necessity of immediate action in the restoration of their lands, and who can not command farm-yard manure in sufficient quantity to accomplish this. In many portions of the South, especially east of the Mississippi valley, and in the Eastern States, artificial manures have been experimented with to a considerable extent. Reports from equally trustworthy sources are widely diverse as to results. One who has tried Peruvian guano, for instance, failed to receive any benefits therefrom and naturally condemned it; another doubles his crop with its assistance and therefore extolls it. Thus opinions vary all the way through the list. This difference of opinion is due sometimes to the adulteration of the materials employed, but largely to drawing conclusions without considering all sides of the subject, and simply proves the imperative necessity of exercising common sense, both in the selection and application of the fertilizers. To start with, the difference in soils should be remembered. Lands vary widely in their capacities for supplying crops with food, and consequently, in their demand for fertilizers. Some soils will bring good results for the fertilizers given them; others unless previously prepared by tillage, drainage, irrigation, etc., will not. The only correct way is to ascertain by careful observation and experiments what a soil wants, and then supply it. The provident farmer, when he is in doubt in this matter, cultivates the bulk of his crops under the most approved of old methods, testing in a small way as many new practices as possible until such a time as he feels confident he has found what suits his special requirements. The results of the experience of those who have gone over the same ground in advance is not only of interest but judiciously considered and applied, may be of great benefit to a novice in the use of commercial fertilizers. The American farmer gains a hint, at least, toward the right direction when he learns that by far the largest quantity of all manufactured manures in England is applied for root crops. There are many districts where turnips and seeds are grown with no other manure than mineral superphosphate, at the rate of three to four hundred weight per acre. On cold, clay soils, in a fair agricultural condition, according to Dr. Voelcker, three hundred weight of a mineral superphosphate containing on an average twenty to twenty-five per cent of soluble phosphate will produce at least as good a crop of seeds and turnips as a manure containing in addition to soluble phosphate of lime, ammonia or nitrogenous matter. On light land, however, says the same authority, the use of purely phosphatic manure can not be relied upon for producing a good crop of roots. On such land artificial manures are seldom used alone, but generally in conjunction with a dressing of barnyard manure. Dissolved bones, Peruvian guano, compound artificial manures containing from two to three per cent of ammonia are preferred to mineral superphosphate as a manure for root crops on high land and on loamy soils out of condition, by English cultivators. Nitrate of soda has been used of late years in England with considerable advantage in addition to dissolved bones, or a mixture of superphosphate and some salt as a mixture for mangolds.

Wrecked by the Fifteen Puzzle.

They were two young men from the country, and they drove up to the Post-office corner, attracted by a large crowd which had collected to hear a street-corner vender of the Green Puzzle explain to the gaping spectators how the puzzle could be done "just as easy as falling off a log." They concluded to purchase one, and did so, but were so impatient to try and work out the confounded thing that they commenced moving the blocks as they drove down K street. Long and patiently they wrestled with it and got the numbers all in place with the exception of the 13, 14 and 15. Suddenly the man who was driving imagined he had discovered a move to bring everything out all right, and in his excitement and eagerness to show his companion how to make the move dropped the reins. The team started. The man who held the blocks was thrown out into the mud, his blocks flew in all directions, and the horses were only checked by running into a buggy, which latter vehicle was damaged to the extent of about thirty dollars worth, a bill the country youths agreed to settle before the owner of the buggy allowed them to depart.

South Africa.

The territory of South Africa is divided into the Cape Colony, with an area of 230,000 square miles, and a population of 235,000 whites and 820,000 blacks; Kaffraria, with an area of 10,000 square miles, and a population of 450,000 blacks, lying to the east of Cape Colony; Basutoland, to the northwest of Kaffraria, with a population of about 150,000 natives; Natal, to the north of Kaffraria, and on the east of Basutoland, with an area of 18,700 square miles, and a population of 20,000 whites and 300,000 blacks; the Orange Free State with an area of 37,000 square miles, and a population of 30,000 whites and 15,000 blacks; the Diamond Fields, or Griqualand West, with an area of 15,000 square miles, a permanent population of 1,000 whites and 4,000 blacks, and a fluctuating population of diggers, numbering at times 40,000; Zululand, with an area of 10,000 square miles, and a population of 150,000 blacks; Amaswasiland, lying to the north of Zululand, inhabited by the Amaswas, hereditary enemies of the Zulus; and finally, the Transvaal, which stretches from the 27th to the 22d degree of S. lat., and from the 20th to the 32nd degree of E. long.

AGRICULTURE.

THE BLACKBERRY.—Formerly the blackberry was regarded as merely a bramble in this country. It is still quite generally so regarded. When a man gets to think it is not a bramble, all he has to do is go waltzing around in a healthy patch, with nothing on him but a cotton shirt and a pair of trousers, and he will come out restored to the faith of his fathers. The greatest enemy that blackberry has, is boys. Five boys, from town, can cut more green blackberries in a day than would ripen in a week. For many years the great desideratum has been a hardy berry that could resist the premature onslaught of boys from town. It is a great desideratum still. The Schneider, a variety that was invented by an Iowa horticulturist, is the nearest approach to it. It is bred from a perfectly green persimmon, crossed with a dogwood tree, and still further propagated with a hybrid of wormwood bush and wild crab apple. It is not perfect defense, but does not allow very boys who care to eat more than a quart of them. Nobody else, however, can go past the field where the Schneider is growing, without being attacked by Asiatic cholera, and this tends to weaken the partial success this hardy berry has achieved. Then there is a bug—I do not know the name of it—that crawls over the berries now and then. When you eat a berry that has been glorified by a visit from this bug, you lie down in the briars and pray heaven to take you home in just three seconds. And if you live, you can wake up in the night, along in the middle of next winter, and shudder as you taste of that berry. When your blackberries grow too thickly, you will want to thin them out. To this end you must kill some of them. This can be done by digging a well where the plant stands; then turn the farm upside down and let it dry out thoroughly for a couple of years, then turn it over, upside down, and start a brickyard on the back of it. This will kill off some of the plants. There may be some shorter and cheaper method of killing blackberry bushes than this, but I never heard of it and it isn't likely that there is any. If you want to devote about forty acres of ground to the cultivation of blackberries, plant about three healthy vines in some corner of the field, about the middle of April. Then about the first of May, the man who owns the farm on the other side of the road, will bring civil action against you and try to collect damages, for destruction of his two fields of wheat by a raid of blackberry vines. It is not known just at what season of the year blackberries ripen in the blackberries and boys should all die in June; it is probable that the berries would ripen sometime in July or August. But they have never had a chance to see what they could do at ripening. The blackberry is so named, because it is blue, in order to distinguish it from the blueberry, which is black.

COMFORT FOR THE CALVES.—Fit up a yard where you can put calves by themselves during the day, sheltered from the wind and where the sun can shine on them all day. Keep them well bedded, and give them a little sweet timothy hay to pick over with an occasional handful of nice corn stalks. Let them have constant access to pure clean water during the day, and see to it that the water-tub is cleaned out and fresh water put into it every morning. If your calves should get lousy, as the best calves will sometimes, take some waste grease—lard is best—mix it with a little kerosene and turpentine, and then thick with some dry, pulverized sulphur and rub into the hair where the lice are. Look at the animal the next morning, and if one of the parasites can be found rub on some more of the ointment, it works like a charm; the lice disappear like dew before the sun.

A GREAT mistake is made in putting cows suddenly from hay and straw to young grass and open air. Put your cow, especially if she be a heifer of good stock, out only one or two hours a day at first.

There is nothing better for a fertilizer of grapes, vines than ground bone. It seems to harden the vine and the fruit just the elements they require.

ANY animal, if allowed to get poor after having been fat will never fatten as well again.

Cost of Living in San Francisco.

There are really not many cities in the United States where one can live cheaper than in San Francisco. But, after all, the people of that city spend a vast deal of money eating and drinking. George Francis Train attempted to prove on paper that a man could get food enough to keep alive in New York for three cents a day, but never made out his case. In some of the inland towns in New England, where economy in the preparation of food is closely studied, one may get pretty fair board for \$2.50 a week. In point of cost, this is a little better than San Francisco cost, but not better in point of food. The advantage which that city possesses is in giving at all times for 25 cts. a good, substantial dinner, consisting of soup, fish, meat, fruit and vegetables. The benefit, however, mainly rests on the cheapness and quality of the food. Rents are much higher there than in Eastern cities, and twice and three times as high as they are in the interior towns of the Atlantic States. A young man can get a furnished, fair-sized single room in San Francisco, with gas, water and attendance, for \$15 a month, but this sum would pay the rent of a good-sized unfurnished house in nearly any Eastern city outside of New York, Boston and Chicago. Coming down to bad-room prices, a single man can live moderately well in that city for \$32 a month; this includes board and lodging. This estimate allows 25 cents for breakfast, 15 cents for luncheon, 25 cents for dinner every day, and \$12.50 a month for lodging. In cases of extreme necessity, a saving of \$5 or \$10 a month on this estimate might be effected; but in saving more than that one would deprive himself of many of the comforts of life. Very many young men do live somewhat stylish for \$35 or \$40 a month, but many others spend that much every week, and some more than that every day. The class of well-to-do young fellows and bachelors spend a dollar or two for dinner, but eat light and inexpensive breakfasts. If the occasion calls for something sumptuous, they go to fashionable restaurants and pay \$10 a plate for an excellent dinner, with a lavish supply of wine.

DOMESTIC.

APPLES.—An excellent apple pudding can be made from the remains of a rich pudding. Arrange well sweetened and flavored apple sauce in alternate layers with cold rice pudding and a little butter and sugar, sifted over the top, and put in the oven to heat through and brown on the top. Any sort of flavoring may be used for this pudding. Chop the primary greatest enemy that blackberry has, is boys. This, which is slightly more elaborate: Line a pie dish with buttered slices of bread; fill it up with layers of apples cut very small, placing between each layer a little apricot jam, some grated lemon rind and plenty of brown sugar. Cover the dish up with slices of bread buttered, and bake till the bread is well browned. Apple Snow.—Peel, core and quarter a number of apples, set them to boil with a little water, sugar, sufficient and the thin rind of a lemon; when quite done remove the lemon rind, pass the apples through a hair sieve. Have some whites of eggs beaten up to a froth, beat into them the apple puree, a spoonful at a time, until the mixture is of the consistency of whipped cream, and quite stiff. Serve heaped up on a dish garnished with lady fingers. Apple Cheese.—Peel and quarter a quantity of apples, stem them with a little water, a good deal of sugar, the thin rind of a lemon and a few cloves, or a stick of cinnamon. When quite done pass them through a hair sieve; and to one quart of the puree thus obtained add half a packet of gelatine, dissolved in water; mix well, pour into a mould, and when set, turn it out and serve with a custard poured about it. It is well to remember that the puree must be thoroughly well sweetened and flavored to carry off the incipidity of gelatine. Sweet Apple pudding. One quart of milk, four eggs, one lemon, all the juice and half the rind, three cups chopped apples, nutmeg and cinnamon flavoring, one-fourth teaspoonful soda dissolved in a little vinegar, and a little sugar for a stirrer. Beat the yolks very lightly, add milk, seasoning and flour, stir very hard five minutes and beat in the apples, whites of eggs and soda. Bake in two square, shallow pans one hour. Cover with pepper when half done and eat hot with sweet sauce.

Mr. Huntington Says: Don't take any of the quick rostrums as they are regimental to the human cistern; but put your trust in Hop Bitters, which will cure general indigestion, costive habits and comic diseases. "I feel just as if I had been cured of a case of cholera by a severe extract of tripartite."—Boston Globe, special number of medicines.—Boston Globe.

FOR CLEANING SHEETLAND SHAWLS. Make up a thin lather of boiled soap and water; plunge the shawl in the lather and gently strip it through the hand it must never be rubbed or wrung. When clean rinse through water with a fine soap, hang it up for about ten minutes, shake it gently by each side alternately, pin it out on a sheet exactly square, and if the shawl be of fine texture it should be slightly sewed down to the sheet by the top of the fringe to prevent it running up, then go over the whole fringe, drawing each thread separate, and laying it straight. If these directions are carefully attended to the shawls may be washed many times, and each time appear as well as when new.

If there are any of our readers who have not tried Dobbins' Electric Soap, (made by Cragin & Co., Philadelphia,) we advise them to give it one trial, for their sake. Have your grocer get it.

VERY few insects which infest houses can live under the application of hot alum water. It will destroy red and black ants, cock-roaches, spiders, etc. Take two pounds of alum and dissolve it in three or four quarts of water. Let it stand on the fire until the alum is dissolved; then apply it with a brush, while nearly boiling hot, to every joint and crevice in closets, pantry shelves, etc. If, in whitewashing, plenty of alum is added to the whitewash, it will keep off insects.

ALTHOUGH many parties are endeavoring to push other similar remedies into the market, Dr. Bull's Cough Syrup takes the lead and the Druggists are selling more than ever before. Price, 25 cents.

CREAM PIES.—Make the crust the same as sponge cake, and bake in four deep tin pans. When cool, split into two, fill with cream, and fill with cream filling. Cut a pint of milk, one cup of sugar, half a cup of flour, two eggs. Put the basin in which the milk is into another of hot water. Beat the sugar, flour and eggs together till they are light and smooth, and when the milk boils, stir in with one teaspoonful of salt. Cook twenty minutes, stirring often. Flavor with lemon. This will fill four pies. Make the pint of milk generous, and the half cup of flour scant.

PIMPLES AND HUMORS ON THE FACE.—In this condition of the skin, the VEGETINE is the great remedy, and acts directly upon the cause. It cleanses and purifies the blood, thereby causing humors of all kinds to disappear.

For celery salad, take the inner and tenderest stalks of three heads of celery cut them into strips an inch long and about the thickness of young French beans. Rub the same bowl slightly with shallot. Mix the yolks of two hard boiled eggs with three table-spoonfuls of salad oil, and of Tarragon vinegar, and a little drop of mustard, pepper and salt to taste; add the celery to this sauce, turn it well over, garnish with hard-boiled whites of eggs.

MACARONI SOUP.—Italian Soup.—Through a pound of macaroni in some boiling soup; allow it to cook for three-quarters of an hour; then grate into it, just before serving, one-quarter of a pound of cheese.

THE only hope of bald heads—CARBOLINA, a deodorized extract of petroleum. Every objection removed by recent improvement. It is now faultless. The only cure for baldness and the most delicate hair dressing known.

RHOD ISLAND PANCAKES.—One cup of sugar, three eggs, three table-spoonfuls of melted butter, one cup of sour milk, one table-spoonful salt; stir in flour to make a stiff batter; drop in spoonfuls in hot fat.

EGG BREAD.—One quart of butter-milk, three eggs, three table-spoonfuls of lump of butter, one of an egg, half teaspoon of soda, corn meal enough to make a thin batter.

AVOID A CO-THE HABIT OF BODY, not only because of the attending discomfort, but because of the danger of involving one in serious consequences. Dr. J. J. Simmons' Sore Eyes and Catarrh, according to the healthy secretions of the liver and stomach.

HUMOROUS.

A CORRESPONDENT asks us if we like dogs. We do; we do. The dog is the great friend of man, though very few know how to use him. Some brutes of men will whip a dog, and some will kick him. Such men are curs. Dogs are useful. You take a dog and put him under an apple tree, and he will eat the apples which the boys think of touching them. But you put that same dog under the apple tree, in the ground, and then his uses are more apparent in the rich soil. We like even the worst of dogs. They can all be made quiet. You take a bull-dog, that will just get up and shut his eyes and hang on, and you put his head on a block, real hard, and that dog won't annoy you for three months, if it's winter weather. But if you use this recipe in summer, you'd better put him over into your neighbor's yard in about five minutes.

"It isn't dying," said Mrs. Brown-smith, "that troubles me. I am not afraid of death; but it makes me sad to think of leaving my home, and I often find myself all become of you if I were gone!" "Oh! you needn't let me interfere!" replied Brown-smith eagerly; "don't let me stand in your way, darling." And the house took up the question of "Resolved, That Brown-smith is a brute," passed it through its three readings without a dissenting voice, and adjourning precipitately for a real good cry.

PATRICK saw a bull pawing in a field, and thought for an amusing it would be to jump over, catch him by the horns and rub his nose in the dirt. The idea was so funny that he laughed to think of it. The more he thought of it the funnier it seemed, and he determined to do it. Bovus quickly tossed him over the fence. Somewhat bruised Patrick leisurely picked himself up, with the very consoling reflection: "Well, it is a mighty fine thing I had my laugh first."

Two Organs. Regulate first the stomach, second the liver; especially the first, so as to perform their functions perfectly, and you will remove at least nineteen-twentieths of all the ills that mankind is heir to, in this or any other climate. Hop Bitters is the only thing that will give perfectly healthy action to these two organs.—Jaine Farmer

A MOTHER tried to console her child who cried bitterly. "Why, John, why is it the matter?" "Mamma" (serving still louder),

It seems difficult to account for so small a creature as a bird making tones as loud, in singing, as an animal one thousand times its size. But it has been discovered that in birds the lungs have several openings, communicating with corresponding air-bags, or cells, which fill the whole cavity of the body from the neck downward, and into which the air passes and repasses.

A piece of machinery actually depreciates more when idle than when in use, unless—mark this—it is carefully cleaned and oiled. We especially recommend this item to farmers who are less inclined to attend to it than practical mechanics.

Nature's Way. Nature often cures disease but when she does, it is always by expelling in some way or other the cause. Kidney-Wort effectually assists nature in doing this, and this is why it performs so many great cures.—Mercury.

DR. C. W. BENSON'S CLEARY & CHAMOMILE PILLS are prepared expressly to cure Sick Headache, Neuralgia, Neuritis, Nervousness, Sleeplessness, Paralysis and Indigestion, and will cure any case. Price, 50 cts. a box, or boxes for \$3.00. Post free. F. J. JONES, BOSTON, CO. Wholesale Druggists, Portland, Maine. Order at once. Satisfaction guaranteed.

A Valuable Gift Free. A book on the Liver, its diseases and their treatment, sent free of charge, to all who send for it. Liver Complaints, Torpid Liver, Jaundice, Biliousness, Headache, Constipation, Dyspepsia, Malaria, etc. Address Dr. Sanford 162 Broadway, New York City, N. Y.

A CARD.—To all who are suffering from the errors and indiscretions of youth, nervous weakness, early loss of vitality, indigestion, and all the ills that attend on a debilitated system, we have discovered a remedy in South America, which will cure you of all these ills, and restore you to your former health. Write to us at once. J. J. SIMMONS, Station D, New York City.

The Voltaic Belt Co., Marshall, Mich. Will send their celebrated Electro Voltaic Belts to the afflicted upon 30 days' trial. Speedy cures guaranteed. They mean what they say. Write to them without delay.

—INTOXICATING liquors produce diarrhoea or constipation, and a torpid condition of the liver, resulting in general debility and increase of mind. To overcome this prostration, appeal is again made to the liquor as a stimulant, only to increase the gastric disturbance. The judicious application of such a tonic as Simmons' Liver Regulator would strike at the very root of the evil by correcting the condition of the liver, exciting the bowels to action, or cordoning them, stimulating the kidneys and removing the feeling of general depression, and with it the craving for liquor.

"This is to certify that I suffered with the Gastritis for four months, and could not be relieved until I procured Dr. Simmons' Liver Regulator, and was entirely cured in a short time."—E. T. THORNTON, Coman's Well, Va.

The first stone of the Cologne Cathedral was laid August 15, 1248, and it is thought it will be completed in another year. The two towers have now reached their last stage, and have only to be fitted with their massive caps and solid scaffolding have to be erected at dizzy height; one of them, however, already approaches completion. When the approaches are finished, then a still higher story will have to be added to the scaffolding, in order to fix on the tops of the eaves the gigantic foliated crosses, almost thirty feet high, which are to crown the towers.

Schrilling, a German philosopher, has been experimenting as to the amount of carbonic acid exhaled from the lungs. A man thirty years old, in repose, exhaled twenty grammes per hour; in active exercise, twenty-four grammes per hour. A tippler threw out but seven grammes in repose, and eleven in exercise. The drunkard's carbon is retained, and burns up the vital organs.

SORE THROAT, COUGH, COLIC and similar troubles, if suffered to progress, result in serious pulmonary affections, oftentimes incurable. "Brown's Bronchial Troches" reach directly the seat of the disease, and give almost instant relief.

It has been found possible to send a concentrated ray of electric light, sufficient to read by, to a distance of seven miles; while the French triangulation officers have seen the electric light at a station 164 miles distant.

A piece of machinery actually depreciates more when idle than when in use, unless—mark this—it is carefully cleaned and oiled. We especially recommend this item to farmers who are less inclined to attend to it than practical mechanics.

Vegetine. The Best Medicine. GENERAL DELICACY.

PREPARED, III, SEPT. 21, 1878. H. R. STEVENS, Boston. I have been using your valuable medicine, Vegetine, for General Debility, and have no hesitation in saying that I consider it the best of any I have ever used. I am a Purifier for a general invigorator and Blood Purifier. J. H. PORTER.

VEGETINE GIVES GENERAL SATISFACTION. Eruptions of the Skin, Chron's Sore Eyes and General Debility.

Read what Dr. Simmons Says: VERONA, Miss., June 5, 1878. Mr. H. R. STEVENS, Boston: I have used Vegetine in my family for two years, and cordially recommend it as a remedy for Eruptions of the Skin, Chron's Sore Eyes and General Debility. I have also recommended it to many persons in this section, and I think it has given general satisfaction. Very respectfully, Dr. J. J. SIMMONS.

Your very valuable medicine, Vegetine, restored the sight to my daughter, saved her from being blind, and I have no doubt saved her life. Very gratefully, MRS. J. J. SIMMONS.

WITH SUCH BENEFIT. SHREWSBURY, Wis., Nov. 15, 1878. Mr. H. R. STEVENS, Boston: Dear Sir—I can truly testify to the efficiency of your "Vegetine" as a Great Blood Purifier, having used it during the last seven months with such benefit. Yours truly, W. C. SURE, Druggist.

VEGETINE IS THE BEST SPRING MEDICINE. Vegetine is Sold by All Druggists.

These answering an advertisement will come at once upon the advertiser and the publisher in this journal (naming the paper).

AGENTS WANTED FOR THE PICTORIAL HISTORY OF THE WORLD.

Embarking full and authentic accounts of every nation of the world, from the earliest times, and including a full and complete history of the Roman Empire, the Pictorial History of the World, is a work of great value, and one that will be read with interest and pleasure by all who are interested in the history of our race. It contains 1000 illustrations, and is published in 10 volumes, at the price of \$10.00. Agents wanted for all parts of the world. Address: NATIONAL PUBLISHING CO., Philadelphia, Pa.

HOSTETTER'S CELEBRATED BITTERS. STOMACH BITTERS. Purify the System and cure all ailments of the stomach, liver, and bowels. It is a powerful tonic and stimulant, and is sold by all druggists and dealers generally.

THE first stone of the Cologne Cathedral was laid August 15, 1248, and it is thought it will be completed in another year. The two towers have now reached their last stage, and have only to be fitted with their massive caps and solid scaffolding have to be erected at dizzy height; one of them, however, already approaches completion. When the approaches are finished, then a still higher story will have to be added to the scaffolding, in order to fix on the tops of the eaves the gigantic foliated crosses, almost thirty feet high, which are to crown the towers.

Schrilling, a German philosopher, has been experimenting as to the amount of carbonic acid exhaled from the lungs. A man thirty years old, in repose, exhaled twenty grammes per hour; in active exercise, twenty-four grammes per hour. A tippler threw out but seven grammes in repose, and eleven in exercise. The drunkard's carbon is retained, and burns up the vital organs.

SORE THROAT, COUGH, COLIC and similar troubles, if suffered to progress, result in serious pulmonary affections, oftentimes incurable. "Brown's Bronchial Troches" reach directly the seat of the disease, and give almost instant relief.

It has been found possible to send a concentrated ray of electric light, sufficient to read by, to a distance of seven miles; while the French triangulation officers have seen the electric light at a station 164 miles distant.

A piece of machinery actually depreciates more when idle than when in use, unless—mark this—it is carefully cleaned and oiled. We especially recommend this item to farmers who are less inclined to attend to it than practical mechanics.

Nature's Way. Nature often cures disease but when she does, it is always by expelling in some way or other the cause. Kidney-Wort effectually assists nature in doing this, and this is why it performs so many great cures.—Mercury.
