THE AEXT CONGRESS.

The Democrats have undoubtedy gained a senator from Califor niaas they have an undisputed ma jority on joint hallot in the legis lature. They are entitled to the senator from Indiana and New Jersy, but exciting contests in the legislatures of both States may be looked for. The Democrats have two majority on joint ballot in the Indiana legislature, and this gives them, fairly, the choice of senator Aarrison, Republican, whose term expires on the 4th of March next Now comes the rumor that the re-publicans, who control the lower house (the democrats having the Senate), propose to turn out six or ten democrats in order to give Lem a majority on joint ballot, and in this way secure the re-election of Senator Harrison. This scheme would be a repitition of the work done by the lower house of congress, under the lead of Thad. Stevens, when three democrrats were turned out of their seats in order to give the republicans a vote of two thirds to beat Andrew Johnson and his votes. It is impossible to describe her sufferings. Her body from the crown of her head to the soles of her feet was a mass of de eay, the flesh rotting off and leavject of which is that they will re ing great cavities. Her fingers festered and several nails dropped off at one time. Her limbs contracted by the fearful ulceration, and for vears she did not leave her bed. Her weight was reduced from 125 to 60 lbs. Some faint idea of her condition can be gleaned from the fact that three pounds of Cosmoline or ointment were used per week in dressing her sores. Finally the physicians acknowledged their defeat by this Black Wolf, and commended the sufferer to her

ill wise Creator. Her husband hearing wonderful reports of Switt's Spesific (S. S. S.) clearer statutes on the property prevailed on her to try it as a last resort. She began it under protest, but soon found that her system was being relieved of the poison, as the sores assumed a red and healthy color, as though the blood was becoming pure and active. Mrs. Bailey continued the S. S. S. until last February; every sore was healed; she discarded chair and crutches, and was for the first time in 12 years a well woman. Her husband. Mr. C. A. WASHINGTON, November 28-The President has worked himself up to the honesty and sincerity of his convictions, and will speak out plainly, forcibly and intelligently in his message next week ing effects and influence of strong to Congress in favor of tariff reform as the only honest and legal way to reduce the large surplus in the treasury. He read that portion of his message relating to tariff reinction to a triend and staunch revenue reformer yesterday, and the latter in conversation with your correspondent to-day express ed himseli as highly pleased with the firm, emphatic and sensible position the President has takon. In regard to the silver or financial question—the President and the Treasury heads were execedingly reticent, but that the message will be more conservative in dealing with this subject than the one of a year ago there is out intle doubt. It will be more oncitatory, more liberal, and, of course, less offensive to the oright silver Democracy of the great West and South. SOUTHERN LABUSTRIES.
